# STATEMENT AS OF MARCH 31, 2011 OF THE SONNENBERG MUTUAL INSURANCE COMPANY

## NOTES TO FINANCIAL STATEMENTS

### 01. Summary of Significant Accounting Policies

A) The accompanying financial statement of Sonnenberg Mutual Insurance Company (the Company) has been prepared in conformity with accounting practices prescribed by the National Association of Insurance Commissioner's *Accounting Practices and Procedures* manual and the state of Ohio. All material transactions recorded by the company are in conformity with prescribed statutory accounting principles.

B) The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C) Accounting policy disclosure: Premiums are earned over the terms of the related policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by pro rata methods for direct business and are based on reports received from ceding companies for reinsurance. Expenses incurred in connection with acquiring new insurance business, including such acquisition costs as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable. In addition, the company uses the following accounting policies:

1. Short-term investments are stated at cost.
2. Bonds are stated at amortized cost (scientific amortization method); U.S. Treasury Inflation-Indexed bonds are stated at amortized cost adjusted for unrealized inflation factor gains.
3. Common stocks are stated at market.
4. Preferred stocks are stated at market.
5. The company has no mortgage loans.
6. The company has no loan-backed securities.
7. Investments in subsidiaries are stated at statutory equity in Schedule D; these assets are nonadmitted, page 2, column 2.
8. The company has minor ownership interests in partnerships. The company carries these interests based on the underlying GAAP equity of the investee.
9. The company has no derivative instrument investments.
10. The company does not utilize anticipated investment income in the premium deficiency calculation.
11. Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed and any adjustments are reflected in the period determined.
12. The company did not change capitalization policy.
13. The company has no pharmaceutical rebate receivables.

**20. Fair Value Measurements**

The company's financial assets and liabilities carried at fair value have been classified, for disclosure purposes, based on a hierarchy defined by FASB ASC 820 (SFAS No. 157), *Fair Value Measurements*. The hierarchy gives the highest ranking to fair values determined using unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest ranking to fair values determined using methodologies and models with unobservable inputs (Level 3). An asset's or a liability's classification is based on the lowest level input that is significant to its measurement. For example, a Level 3 fair value measurement may include inputs that are both observable (Levels 1 and 2) and unobservable (Level 3). The levels of the fair value hierarchy are as follows:

Level 1 – Values are unadjusted quoted prices for identical assets and liabilities in active markets accessible at the measurement date.

Level 2 – Inputs include quoted prices for similar assets or liabilities in active markets, quoted prices from those willing to trade in markets that are not active, or other inputs that are observable or can be corroborated by market data for

**NOTES TO FINANCIAL STATEMENTS**

the term of the instrument. Such inputs include market interest rates and volatilities, spreads and yield curves.

Level 3 – Certain inputs are unobservable (supported by little or no market activity) and significant to the fair value measurement. Unobservable inputs reflect the company's best estimate of what hypothetical market participants would use to determine a transaction price for the asset or liability at the reporting date.

This amount represents an investment in a limited partnership interest and is valued using the equity method of accounting which approximates fair value. In 2011, the increase in value is due entirely to unrealized gains.

The favorable development is generally the result of ongoing analysis of recent loss development trends, and from decreases in the estimates of loss and loss adjustment expenses for the following lines of business: private passenger auto liability, auto physical damage, homeowners/farmowners, commercial multi-peril,

other liability, and special property. These decreases were offset, in part, by increases in commercial auto liability and workers compensation. The estimates are not affected by prior year loss development on retrospectively rated policies, as the company does not write this type of policy.
