NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Accounting Practices

The accompanying statutory-basis financial statements of Progressive West Insurance Company (the "Company") were prepared on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance ("DOI").

The Ohio DOI requires insurance companies domiciled in the state of Ohio to prepare their statutory-basis financial statements in accordance with the National Association of Insurance Commissioners' ("NAIC") *Accounting Practices and Procedures Manual* subject to any deviations prescribed or permitted by the Ohio DOI. No deviations from NAIC statutory accounting practices ("NAIC SAP") were used in preparing these statutory-basis financial statements.

D. Loan-Backed Securities

Effective for the third quarter 2009 reporting period, the Company adopted *Statement of Statutory Accounting Principles* ("SSAP") No. 43R, Loan-backed and Structured Securities. Pursuant to the new standard, the Company analyzes its structured debt securities to determine if the Company intends to sell, or if it is more likely than not that the Company will be required to sell, the security prior to recovery and, if so, the Company writes down the security to its current fair value with the entire amount of the write-down recorded as a realized loss. To the extent that it is more likely than not that the Company will hold the debt security until recovery (which could be maturity), the Company determines if any of the decline in value is due to a credit loss (i.e., where the present value of cash flows expected to be collected is lower than the amortized cost basis of the security) and, if so, the Company recognizes that portion of the impairment as a realized loss.

The sources used to determine prepayment assumptions are derived from updated cash flows from reputable pricing services. The Company's portfolio managers review the available cash flow data and prepayment assumptions and make adjustments based on current performance indicators on the underlying assets (i.e., delinquency rates, foreclosure rates, and default rates), credit support (via current levels of subordination), and historical credit ratings.

As of March 31, 2011, the Company had \$33,871 of gross unrealized losses in the Company's loan-backed and structured debt securities. The Company currently does not intend to sell the loan-backed and structured debt securities and determined that it is more likely than not that the Company will not be required to sell these securities for the period of time necessary to recover their cost basis. If the Company's strategy was to change and these securities were determined to be other-than-temporarily impaired, the Company would recognize a write-down in accordance with the Company's stated policy.

The following table shows, as of March 31, 2011, the composition of fair value and gross unrealized losses on loan-backed and structured debt securities by the length of time that individual securities have been in a continuous unrealized loss position:

| Fair Value | Unrealized Loss | Losses less than 12 Months | Losses greater than 12 months | Market Value of losses less than 12 months | Market Value of losses greater than 12 months |

E. All Other Contingencies
The Company is named as defendant in various lawsuits arising out of its insurance operations. All legal actions relating to claims made under insurance policies are considered by the Company in establishing its loss and loss adjustment expense ("LAE") reserves. The Company also has potential exposure relating to lawsuits due to its participation in a management agreement for which it is allocated litigation expenses.
Unless specifically noted, the Company does not consider a loss from these cases to be probable and is unable to estimate a range of loss, if any, at this time.
As of March 31, 2011, there was a putative class action lawsuit challenging the Company's use of certain automated database vendors or software to assist in the adjustment of bodily injury claims. Plaintiffs allege that these databases or software systematically undervalue the claims.
As of March 31, 2011, the Company was defending a putative statewide class action lawsuit, brought on behalf of insureds, challenging the labor rates the Company pays to auto body repair shops.

20. Fair Value Measurements
A. Inputs Used for Assets and Liabilities Measured at Fair Value
1. Fair Value Measurements by Levels 1, 2 and 3
The Company categorizes its financial instruments, based on the degree of subjectivity inherent in the method by which they are valued, into a fair value hierarchy of three levels, as follows:
Level 1 - Inputs are unadjusted, quoted prices in active markets for identical instruments at the measurement date (e.g., active exchange-traded equity securities).
Level 2 - Inputs (other than quoted prices included within Level 1) that are observable for the instrument either directly or indirectly. This includes: (i) quoted prices for similar instruments in active markets, (ii) quoted prices for identical or similar instruments in markets that are not active, (iii) inputs other than quoted prices that are observable for the instruments, and (iv) inputs that are derived principally from or corroborated by observable market data by correlation or other means.
Level 3 - Inputs that are unobservable. Unobservable inputs reflect the Company's subjective evaluation about the assumptions market participants would use in pricing the financial instrument.
The Company evaluated whether the market was distressed or inactive in determining the fair value for those securities reported and reviewed certain market level inputs to evaluate whether sufficient activity, volume, and new issuances existed to create an active market. Based on this evaluation, the Company concluded that there was sufficient activity in determining the fair value for those securities reported.
As of March 31, 2011, the Company did not measure and report any securities at fair value on the balance sheet. All bonds were carried at amortized cost.
