NOTES TO FINANCIAL STATEMENTS

NOTES TO FINANCIAL STATEMENTS MARCH 31, 2011

1. Summary of Significant Accounting Policies

Accounting Practices

The financial statements of EnTitle Insurance Company (the “Company”) have been prepared in conformity with accounting practices prescribed or permitted by the Ohio Department of Insurance and the National Association of Insurance Commissioners (“NAIC”).

Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements, in conformity with Statutory Accounting Principles, requires management to make estimates and assumptions that affect amounts reported in the financial statements and accompanying notes. Such estimates and assumptions could change in the future as more information becomes known and impacts the amounts reported and disclosed in the Financial Statements.

Accounting Policy

Ohio insurance law requires the Company to establish an unearned premium reserve equal to 10% of the premium retained by the Company. The Company may release 5% of that which was added to the reserve during the previous 20 years.

Premiums on title insurance policies issued by the Company are recognized as revenue when the Company is legally or contractually entitled to collect the premium. Premiums from title policies issued by the Company through independent agents are recognized when the policies are reported by the agent.

Case loss and loss adjustment expense reserves are recorded for outstanding known claims at the time of determination.

Investments in bonds are generally reported at amortized cost, using the effective interest method, unless the National Association of Insurance Commissioners’ (NAIC) rating specifies another value. Held-to-maturity investments are reported at amortized cost, and the remaining investments are at fair value, with unrealized holding gains and losses reported in operations for those designated as trading, and as a separate component of shareholder’s equity for those designated as available-for-sale. Non-agency residential mortgage backed securities (RMBS) are valued using the NAIC financial model as approved by the Valuation of Securities Task Force and Financial Condition Committee.

Common stock is carried at NAIC prescribed market values.
