20. Fair Value Measurements

Financial assets carried at fair value have been classified, for disclosure purposes, based on a hierarchy defined by Statement of Statutory Accounting Principle No. 100, Fair Value Measurements. Level 1 inputs in the hierarchy consist of unadjusted quoted prices for identical assets and liabilities in active markets. Level 2 inputs consist of quoted prices in active markets for similar assets or liabilities or quoted prices from those willing to trade in markets that are not active, or other inputs that are observable or can be corroborated by market data for the term of the instrument. Level 3 inputs consist of unobservable inputs (supported by little or no market activity) and reflect management’s best estimate of what hypothetical market participants would use to determine a transaction price at the reporting date.
