(4.) The Company utilized a pricing service to estimate fair value measurements for its fixed maturities and public common and preferred stocks. The pricing service utilizes market quotations for securities that have quoted market prices in active markets. The Company's Level 2 investments include other than temporary impairments recognized during the year and investments that are not frequently traded.

Securities designated as derivatives are reported at fair value using market quotes, with gains or losses resulting from changes in fair value recognized in earnings.

**Note 21 - Other Items**

The Company regularly reviews its investment portfolio for factors that may indicate that a decline in fair value of an investment is other than temporary. Based on an evaluation of the issues, including, but not limited to, intentions to sell or ability to hold the fixed maturity and equity securities with unrealized losses for a period of time sufficient for them to recover; the length of time and amount of the unrealized loss; and the credit ratings of the issuers of the investments, the Company held nine and six fixed maturity investments as other-than-temporarily impaired at June 30, 2011 and December 31, 2010. Other-than-temporary impairments of \$242,560 and \$1,247,835 were taken in the first six months of 2011 and during the twelve months ended December 31, 2010, respectively. The other-than-temporary impairments during 2011 were taken on several discounted mortgage loans to better reflect current expected market values. The other-than-temporary impairments taken during 2010 were due to changes in expected future cash flows of investments in bonds backed by trust preferred securities of banks and common stocks.
