NOTES TO FINANCIAL STATEMENTS

1A. Summary of Significant Accounting Policies

Basis of Presentation – CareSource (CS's) statutory-basis financial statements are presented on the basis of accounting practices prescribed or permitted by the ODI. The ODI requires that insurance companies domiciled in the State of Ohio prepare their statutory financial statements in accordance with the NAIC *Accounting Practices and Procedures Manual* (NAIC AP&P) subject to any deviation prescribed or permitted by the ODI.

Accounting practices and procedures of the NAIC, as prescribed or permitted by the insurance department of the applicable states of domicile, comprise a comprehensive basis of accounting other than accounting principles generally accepted in the United States (GAAP). The more significant differences are as follows:

Investments: Investments in bonds are reported at amortized cost or fair value based on their National Association of Insurance Commissioners (NAIC) rating; for GAAP, such fixed maturity investments would be designated at purchase as held-to-maturity, trading, or available-for-sale. Held-to-maturity fixed investments would be reported at amortized cost, and the remaining fixed maturity investments would be reported at fair value with unrealized holding gains and losses reported in operations for those designated as trading and as a separate component of other comprehensive income for those designated as available-for-sale. Fair value for statutory purposes is based on the price published by the Securities Valuation Office of the NAIC (SVO), if available, whereas fair value for GAAP is based on quoted market prices.

All single class and multi-class mortgage-backed/asset-backed securities (e.g., CMOs) are adjusted for the effects of changes in prepayment assumptions on the related accretion of discount or amortization of premium of such securities using either the retrospective or prospective methods. If it is determined that a decline in fair value is other than temporary, the cost basis of the security is written down to the undiscounted estimated future cash flows. For GAAP purposes, all securities, purchased or retained, that represent beneficial interests in securitized assets (e.g., CMO, CBO, CDO, CLO, MBS, and ABS securities), other than high credit quality securities, are adjusted using the prospective method when there is a change in estimated future cash flows. If it is determined that a decline in fair value is other than temporary, the cost basis of the security is written down to fair value. If high credit quality securities are adjusted, the retrospective method is used.

Nonadmitted Assets: Certain assets designated as "nonadmitted," principally past-due agents' balances, furniture and equipment, unsecured loans or cash advances to officers or agents, company's stock as collateral for loans, non-bankable checks, trade names and other intangible assets, and other assets not specifically identified as an admitted asset within the NAIC AP&P are excluded from the accompanying balance sheets and are charged directly to unassigned surplus. In accordance with GAAP, such assets are included in the balance sheet to the extent that those assets are not impaired.

Reinsurance: Unpaid claims liabilities and premiums received in advance ceded to reinsurers have been reported as reductions of the related balances rather than as assets as would be required in accordance with GAAP.

Statements of Cash Flows: Cash, cash equivalents, and short-term investments in the statements of cash flows represent cash balances and investments with initial maturities of one year or less. In accordance with GAAP, the corresponding caption of cash and cash equivalents includes cash balances and investments with initial maturities of three months or less.

The effects of the foregoing variances from GAAP on the accompanying statutory-basis financial statements have not been quantified.

1B. Use of Estimates

The preparation of financial statements in accordance with statutory accounting principles requires management to make estimates and assumptions that affect the reported amount of admitted assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

1C. Other significant accounting practices

1. Short term investments include investments with remaining maturities of one year or less at the time of acquisition and are principally stated at amortized cost.
2. Bonds not backed by other loans are principally stated at amortized cost using the interest method. Realized capital gains and losses are determined using the first in first out method.
3. Common stocks are reported at fair value as determined by the SVO and the related net unrealized capital gains (losses) are reported in unassigned surplus. There are no restrictions on common stock.
4. CS does not engage in subprime residential lending, nor maintain any preferred stock or derivatives.
5. CS does not hold any mortgage loans.
6. Single class and multi-class mortgage-backed/asset-backed securities are valued at amortized cost using the interest method including anticipated prepayments.

Prepayment assumptions are obtained from dealer surveys and are based on the current interest rate and economic environment. The retrospective adjustment method is used to value all such securities.

NOTES TO FINANCIAL STATEMENTS

7. The Company invests in the CareSource Foundation, an affiliated entity of CareSource. The Company records this investment using the GAAP equity method of accounting, and records it as a write-in invested asset on the Assets page of the statutory filing.
8. The Company does not invest in any joint ventures, partnerships, or limited liability companies.
9. CS does not hold any derivative instruments.
10. CS would utilize anticipated investment income in the computation of the premium deficiency calculation in accordance with NAIC guidelines, but no such reserve is necessary.
11. Claims unpaid and unpaid claims adjustment expense liabilities represent management's best estimate of the ultimate net cost of all reported and unreported claims incurred through December 31. Although considerable variability is inherent in such estimates, management believes that the reserves for unpaid claims are adequate. The estimates are continually reviewed and adjusted as necessary as experience develops or new information becomes known; such adjustments are included in current operations.
12. The admitted value of CS's electronic data processing equipment and operating software was limited to three percent of capital and surplus. The admitted portion was reported at cost less accumulated depreciation. Electronic data processing equipment and operating or nonoperating software was depreciated using the straight line method over the lesser of its useful life or three years. Other furniture and equipment was depreciated using the straight line method over five years. The Company has not modified its capitalization policy from the prior period.
13. Pharmacy rebates are attained based on agreements between CS and a third party administrator for prescription drugs. Pharmacy rebates are admitted if accrued or invoiced within 90 days of the reporting period. Pharmacy rebates are non admitted if invoiced over 90 days prior to the reporting period.

Other than temporary impairments

Management regularly reviews the value of CS's investments. If the value of any investment falls below its cost basis, the decline in value is analyzed to determine whether it is an other-than-temporary impairment. The decision to record an impairment loss incorporates both quantitative criteria and qualitative information. The Company considers a number of factors including, but not limited to: (a) the length of time and the extent to which the fair value has been less than book value, (b) the financial condition and near term prospects of the issuer, (c) the intent and ability of CS to retain its investment for a period of time sufficient to allow for any anticipated recovery in value, (d) whether the debtor is current on interest and principal payments and (e) general market conditions and industry or sector specific factors.

Premium Revenue

Substantially all of CS's premiums earned are related to two provider contracts with the Ohio Department of Job and Family Services (ODJFS). The contracts are subject to cancellation by CS upon one hundred twenty days written notice provided that termination must be effective on the last day of a calendar month. ODJFS can terminate the agreement, in certain circumstances, effective the last day of a calendar month. Cancellations or nonrenewal of these contracts would affect operating results adversely. Premiums are due monthly and are recognized as revenue in the period in which CS is obligated to provide services to its members. Premiums received in advance are recorded as unearned premium revenue. In accordance with Statement of Statutory Accounting Principle (SSAP) No. 61, *Life, Deposit-Type and Accident Health Reinsurance*, payments to a reinsurance carrier for a stop-loss arrangement are deducted from premiums earned.

Hospital and Medical Cost

CS contracts with various health care providers for the provision of certain health care services to its members. Participating physicians and hospitals are paid contractually established rates for services to members. The cost of health care services provided or contracted for is accrued in the period in which it is provided to a member, based in part, on estimates. Estimated liabilities for health care services provided to members of CS include claims reported and estimates (based upon historical experience) of health care services incurred but not reported (IBNR). These estimates are periodically reviewed and are adjusted in accordance with the latest available information in that period in which the information becomes available.

Reinsurance

Certain premiums and benefits are ceded to another insurance company under a reinsurance agreement. The ceded reinsurance agreement provides CS with increased capacity to write larger risks and maintain its exposure to loss within its capital resources. CS remains obligated for amounts ceded in the event that the reinsurer does not meet their obligations. CS utilizes a third party insurance company, Ace American Insurance Company, and effective March 1, 2011, an affiliate, CareSource Insurance, LLC, to provide reinsurance coverage.

NOTES TO FINANCIAL STATEMENTS

CS does not, directly or indirectly, control any reinsurer with whom CS conducts business. CS does not have any reinsurance agreements in effect under which the reinsurer may unilaterally cancel the agreement.

Significant Provider

CS has an agreement with Children's Hospital and Physicians' Healthcare Networks dba Partners for Kids (PFK), for PFK to provide medical services to CS members. In connection with this contract, CS pays medical claims billed by non-PFK providers for CS members whom are less than 19 years old in the Central and Southeast Regions, and is later reimbursed by PFK. CS has recorded a liability for the incurred but not reported (IBNR) medical claims for these non-PFK provided services, and a related receivable which was secured by an irrevocable letter of credit from PFK's financial institution to CS in the amount of the IBNR accrual. Reinsurance for CS members for which PFK is providing the medical services for are delegated to PFK with approval of the State of Ohio.

As of June 30, 2011 and 2010, PFK was paid \$114,143,645 and \$106,445,530, respectively, for services rendered, prior to chargebacks of \$62,680,310 and \$65,669,339, respectively. Chargebacks resulted from CS directly paying certain non-PFK providers under the contract. The CS membership capitated by the provider constituted approximately 19% of total CS membership in both 2011 and 2010, respectively.

At June 30, 2011 and December 31, 2010, CS recorded a capitation chargeback receivable from PFK for \$9,442,312 and \$10,822,830 respectively.

Income Taxes

CS has been recognized by the Internal Revenue Service as an organization described in Internal Revenue Code Section 501(c)(3), and as such, is treated as exempt from federal income taxes, but is subject to unrelated business income tax.

Management regularly reviews the value of CS's investments. If the value of any investment falls below its cost basis, the decline in value is analyzed to determine whether it is an other-than-temporary impairment. The decision to record an impairment loss incorporates both quantitative criteria and qualitative information. The Company considers a number of factors including, but not limited to: (a) the length of time and the extent to which the fair value has been less than book value, (b) the financial condition and near term prospects of the issuer, (c.i.) for non-interest-related declines in corporate and government bonds, the intent and ability of CS to retain its investment for a period of time sufficient to allow for any anticipated recovery in value, (c.ii.) for interest related declines in corporate and government bonds, the intent of CS to sell the investment at the reporting date, (c.iii.) for mortgage-backed securities, whether CS expects to recover the entire amortized cost basis of the security and whether CS has the intent to sell or intent and ability to hold the investments for a period of time sufficient to allow for any anticipated recovery in value, (d) whether the debtor is current on interest and principal payments, and (e) general market conditions and industry or sector specific factors.

Investments that are impaired, for which other-than-temporary impairments have not been recognized, consist mainly of corporate securities, mortgage-backed securities, and common stocks. The impairment of investments in corporate and government bonds has been deemed as temporary due to the assigned rating and the typical fluctuations of these particular securities in the marketplace; the Company does not intend to sell these securities and has the intent and ability to hold these investments until recovery with respect to non- credit-related declines. The impairment of investments in certain mortgage-backed securities has been deemed as temporary as the Company expects to recover the entire amortized cost basis of the security, the Company did not intend to sell any of these securities at December 31, 2010, and the Company has the intent and ability to hold the securities for a period of time sufficient to recover the amortized cost basis. The impairment of investments in common stocks has been deemed as temporary due to the Company's intent and ability to hold the securities to recovery.

For mortgage-backed securities that are other-than-temporarily impaired, the security is adjusted to the present value of cash flows expected to be collected based on an estimate of the expected future cash flows of the impaired security, discounted at the security's effective interest rate, and the resulting losses are recognized in realized gains (losses) in the statements of revenues and expenses. Other-than-temporary impairments of \$0 and \$(213,053) related to mortgage-backed securities were recorded during 2011 and 2010, respectively.

The following is a list of each mortgage-backed security with a recognized other-than-temporary impairment in 2010 due to change in cash flows, as the present value of future cash flows expected to be collected is less than the amortized cost basis of the securities:

10. Information Concerning Parent, Subsidiaries and Affiliates

a. Effective January 1, 2009, CS, CareSource Management Services (CSMS), and CareSource Management Group (CSMS) entered into a long-term management agreement, which requires CS, CSMS, and CSMG to provide services and resources to each other at actual cost. The initial term of the agreement is 15 years and shall be terminable only for cause, except that CS may terminate this agreement without cause at any time for any reason upon one year written notice. The agreement includes a cost-sharing agreement, which outlines the allocation of costs for shared resources and direct costs between CS, CSMS, and CSMG. Costs are allocated in accordance with SSAP No. 70, *Allocation of Expenses*. The ODI approved that agreement on January 17, 2009.

Effective July 1, 2011, the Company's management agreement was modified to amend the payment structure for reimbursement of costs between CS, CSMS, and CSMG. The amended and restated management agreement was approved by the ODI on July 13, 2011.

Other Lawsuits and Claims

The health care industry is subject to numerous laws and regulations of federal, state and local governments. Compliance with these laws and regulations can be subject to government review and interpretation, as well as regulatory actions unknown and unasserted at this time. Penalties associated with violations of these laws and regulations include significant fines and penalties, exclusion from participating in publicly-funded programs, and the repayment of previously billed and collected revenues.

On January 31, 2011, CareSource settled a *Qui Tam* litigation relating to allegations in the Case Management Department for \$26 million without any admission of wrongdoing by CareSource, CareSource Management Group, or CareSource Management Services. The Settlement Agreement called for payment plus simple interest at a rate of 2.5% per annum payable quarterly beginning January 31, 2011, and concluding January 31, 2014. CareSource's allocated portion of the Settlement Agreement was \$6,754,658, which was recorded as a liability at Line 9 of the Liabilities, Surplus, and Other Funds page at December 31, 2010 and paid in January 2011.

From time to time we are involved in legal actions in the ordinary course of business, some of which seek monetary damages. Some lawsuits and claims are covered by insurance and others are not. The outcome of such legal actions is inherently uncertain. Nevertheless, we believe that these actions, when finally concluded and determined, are not likely to have a material adverse effect on our financial position, results of operations, or cash flows.

15. Leases

CS leases office space under operating leases. CSMG pays the monthly rental payments for these leases per the management agreement. Per the management agreement, CS is responsible for an allocated portion of the future minimum lease payments, which is based on revenue at the beginning of each month. The rental payments for certain office space include annual inflationary adjustments.

CS makes monthly rental payments for its corporate headquarters, with a portion allocated to space benefiting affiliated entities. Future obligations for all leased office space are estimated to be:

2012	\$4,786,175
2013	\$4,786,175
2014	\$4,786,175
2015	\$4,731,266
2016 and thereafter	\$58,237,477

2. As of June 30, 2011, the Company has recorded no receivables from payors whose account balances are greater than 10% of the Company's amounts receivable from uninsured accident and health plans or \$10,000.
3. In connection with the Company's Medicare (or similarly structured cost based reimbursement contract) contract, the Company has recorded no allowances and no reserves for adjustment of recorded revenues at June 30, 2011.
4. The Company has made no adjustment to revenue resulting from audit receivables related to revenues recorded in the prior period.

19. Direct premium written/produced by managing general agents/third party administrator – Not applicable.

20. Fair Value Measurements –

The Company uses fair value measurements to record the fair value of certain assets and to estimate the fair value of financial instruments not recorded at fair value but required to be disclosed at fair value.

Fair value is defined as the price that would be received to sell an asset or transfer a liability in an orderly transaction between market participants at the measurement date. The Company's financial assets carried at fair value have been classified, for disclosure purposes, based on a hierarchy that prioritizes inputs to valuation techniques used to measure fair value into three levels.

- Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities. The Company's Level 1 assets and liabilities primarily include exchange-traded equity securities.
- Level 2 – Inputs include quoted prices for similar assets or liabilities in active markets, quoted prices from those willing to trade in markets that are not active, or other inputs that are observable or can be corroborated by market data for the term of the instrument. Such inputs include market interest rates and volatilities, spreads, and yield curves.
- Level 3 – Certain inputs are unobservable (supported by little or no market activity) and significant to the fair value measurement. Unobservable inputs reflect the Company's best estimate of what hypothetical market participants would use to determine a transaction price for the asset or liability at the reporting date.

The following discussion described the valuation methodologies utilized by the Company for assets measured or disclosed at fair value. Fair value estimates are made at a specific point in time, based on available market information and judgments about the financial instrument, including discount rates, estimates of timing, amount of expected future cash flows, and the credit standing of the issuer.

STATEMENT AS OF JUNE 30, 2011 OF THE CARESOURCE

NOTES TO FINANCIAL STATEMENTS

Debt and Equity Securities

The fair values of actively traded debt and equity securities are determined through the use of third-party pricing services utilizing market observable inputs. Certain mortgage-backed securities for which the Company does not receive public quotations or for which the Company believes market activity to reflect distressed sales are valued using current market-consistent rates applicable to yield, credit quality and maturity of each security. When available, market observable inputs are used to estimate the fair values of these securities.

Cash, Cash Equivalents, and Short-Term Investments

The fair values of cash and cash equivalents are based on quoted market prices. Short term investments are stated at amortized cost, which approximates fair value.

25. Change in Incurred Claims and Claims Adjustment Expenses Related to Prior Years

Reserves as of December 31, 2010 were \$224.0 million. As of June 30, 2011, \$198.5 million has been paid for incurred claims and claim adjustment expenses attributable to insured events of prior years. Reserves remaining for prior years are now \$0, and we expect to recover approximately \$3.9 million on previously paid claims, principally on Medicaid lines of insurance. Therefore, there has been a \$29.4 million favorable prior-year development since December 31, 2010 to June 30, 2011. The decrease is generally the result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased, as additional information becomes known regarding individual claims. Included in this decrease, the Company experienced \$27.9 million of favorable prior year claim development on retrospectively rated policies, combined with \$1.5 million of favorable experience in recoveries.

26. Intercompany Pooling Arrangements – None

27. Structured Settlements - Not applicable

28. Health Care Receivables
