The Company is named as defendant in various lawsuits arising out of its insurance operations. All legal actions relating to claims made under insurance policies are considered by the Company in establishing its loss and loss adjustment expense ("LAE") reserves. The Company also has potential exposure relating to lawsuits due to its participation in a 100% pooling reinsurance agreement for which it is allocated litigation expenses.

As of September 30, 2011, there was a putative class action lawsuit challenging the Company's use of certain automated database vendors or software to assist in the adjustment of bodily injury claims. Plaintiffs allege that these databases or software systematically undervalue the claims. The Company does not consider a loss from this case to be probable and is unable to estimate a range of loss, if any, at this time.

20.	Fair Value Measurements
	A. Inputs Used for Assets and Liabilities Measured at Fair Value
	1. Fair Value Measurements by Levels 1, 2 and 3
	The Company categorizes its financial instruments, based on the degree of subjectivity inherent in the method by which they are valued, into a fair value hierarchy of three levels, as follows:
	Level 1 - Inputs are unadjusted, quoted prices in active markets for identical instruments at the measurement date (e.g., active exchange-traded equity securities).
	Level 2 - Inputs (other than quoted prices included within Level 1) that are observable for the instrument either directly or indirectly. This includes: (i) quoted prices for similar instruments in active markets, (ii) quoted prices for identical or similar instruments in markets that are not active, (iii) inputs other than quoted prices that are observable for the instruments, and (iv) inputs that are derived principally from or corroborated by observable market data by correlation or other means.
	Level 3 - Inputs that are unobservable. Unobservable inputs reflect the Company's subjective evaluation about the assumptions market participants would use in pricing the financial instrument.
	The Company evaluated whether the market was distressed or inactive in determining the fair value for those securities reported and reviewed certain market level inputs to evaluate whether sufficient activity, volume, and new issuances existed to create an active market. Based on this evaluation, the Company concluded that there was sufficient activity in determining the fair value for those securities reported.
	As of September 30, 2011, the Company did not measure and report any securities at fair value on the balance sheet. All bonds were carried at amortized cost.

	At September 30, 2011, the Company reported net admitted premiums and agents' balances in course of collection of \$13,258,659. Of this amount there were no premiums due from a controlled or controlling person as defined in Florida statute 625.012 (5).
22.	Events Subsequent
	The Company was not impacted by any subsequent events. Subsequent events have been considered through November 7, 2011 for the statutory statement that was available for issuance by November 15, 2011.
23.	Reinsurance
	No significant change
24.	Retrospectively Rated Contracts and Contracts Subject to Redetermination
	No significant change
25.	Changes in Incurred Losses and Loss Adjustment Expenses
	Incurred losses and LAE attributable to insured events of prior years decreased \$3,670,000 in 2011, which is 4.8% of the total prior year net unpaid losses and LAE of \$75,818,335. The favorable development is primarily due to favorable Private Passenger Auto Liability case loss reserve development with Auto Physical Damage development representing most of the remaining favorable development. Originally anticipated severity for accident year 2010 decreased 1.5% for both Private Passenger Auto Liability and Auto Physical Damage. Defense and cost containment reserves also experienced favorable development.
