20. Fair Value Measurements-

- A. For assets and liabilities that are measured and reported at fair value in the statement of financial position after initial recognition, the valuation techniques and the inputs used to develop those measurements are as follows:

Level 1 - Values are unadjusted quoted prices for identical assets and liabilities in active markets accessible at the measurement date.

Level 2 - Inputs include quoted prices for similar assets or liabilities in active markets, quoted prices from those willing to trade in markets that are not active, or other inputs that are observable or can be corroborated by market data for the term of the instrument. Such inputs include market interest rates and volatilities, spreads and yield curves.

Level 3 - Certain inputs are unobservable (supported by little or no market activity) and significant to the fair value measurement. Unobservable inputs reflect the Company's best estimate of what hypothetical market participants would use to determine a transaction price for the asset or liability at the reporting date.

- (1) The Company held no assets or liabilities categorized as Level 1 or 2 during the reporting period that were transferred into or out of the level categorization held at January 1, 2011. The Company's policy for determining when transfers between levels is required is based upon change in the inputs used to determine fair value measurement. If an input changes, the Company evaluates the new input(s) and makes the determination whether or not a transfer between levels is appropriate. If an asset or liability is transferred between levels, it is the Company's policy to record the transfer as of the beginning of the quarter in which the transfer occurs. The following table provides fair value measurement information for assets or liabilities measured and reported at fair value in the statement of financial position at September 30, 2011.

- (3) The Company's policy for determining when transfers between levels is required is based upon change in the inputs used to determine fair value measurement. If an input changes, the Company evaluates the new input(s) and makes the determination whether or not a transfer between levels is appropriate. If an asset or liability is transferred between levels, it is the Company's policy to record the transfer as of the beginning of the quarter in which the transfer occurs.
- (4) As of September 30, 2011, the Company held no investments in assets or liabilities measured and reported at fair value that were classified as Level 2. Historically, fair values in this category are provided by independent pricing services. Where independent pricing services provide fair values, the Company has obtained an understanding of the methods, models, and inputs used in pricing and has controls in place to validate that amounts provided represent current fair values.
- (5) As of September 30, 2011, the Company had no holdings classified as either a derivative asset or liability.

24. Retrospectively Rated Contracts and Contracts Subject to Redetermination- Not applicable

25. Changes in Incurred Losses and Loss Adjustment Expenses-
Reserves as of December 31, 2010 were \$180.3 million. In calendar year 2011, \$39.3 million has been paid for incurred claims and claim adjustment expenses attributable to insured events of prior years. Reserves remaining for prior years are now \$127.7 million. Therefore, there has been an \$13.3 million favorable prior-year development from December 31, 2010 to September 30, 2011. The favorable development is principally from decreases in the estimates of loss and loss adjustment expenses for the following lines of business: commercial multiple peril, homeowners/farmowners and private passenger auto. This change is generally the result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased, as additional information becomes known regarding individual claims. The estimates are not affected by prior year loss development on retrospectively rated policies, as the Company does not write this type of policy.

26. Intercompany Pooling Arrangements-
