ANNUAL STATEMENT FOR THE YEAR 2011 OF THE GRANGE INDEMNITY INSURANCE COMPANY

NOTES TO FINANCIAL STATEMENTS

1. BASIS OF PRESENTATION

A. Accounting Practices

The Company prepares its statutory financial statements in conformity with accounting practices prescribed or permitted by the State of Ohio. The State of Ohio requires that insurance companies domiciled in the State prepare their statutory basis financial statements in accordance with the NAIC Accounting Practices and Procedures manual subject to any deviations prescribed or permitted by the State of Ohio insurance commissioner. The Company does not employ accounting practices that depart from the NAIC Accounting Practices and Procedures Manual.

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Premiums are earned over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by daily pro rata methods for direct business and are based on reports received from ceding companies for reinsurance.

Expenses incurred in connection with acquiring new insurance business, including such acquisition costs as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

In addition, the company uses the following accounting policies:

- (1) Short-term investments are stated at amortized cost.
- (2) Bonds not backed by other loans are stated at amortized cost using the interest method.
- (3) Common Stocks at market except that investments in stocks of uncombined subsidiaries and affiliates in which the Company has an interest of 20 % or more are carried on the equity basis.
- (4) Preferred stocks are stated at cost.
- (5) Mortgage loans on real estate are stated at the aggregate carrying value less accrued interest.
- (6) Loan-backed securities are stated at either amortized cost or the lower or amortized cost or fair market value. The retrospective adjustment method is used to value all securities except for interest only securities or securities where the yield had become negative, that are valued using the prospective method.
- (7) The company has no investments in subsidiaries, controlled and affiliated entities.
- (8) The company has no ownership interests in joint ventures, partnerships and limited liability companies.
- (9) All derivatives are stated at fair value.
- (10) The Company anticipates investment income as a factor in the premium deficiency calculation, in accordance with SSAP No. 53, Property-Casualty Contracts - Premiums.
- (11) Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed and any adjustments are reflected in the period determined.
- (12) The Company has not modified its capitalization policy from the prior period
- (13) The Company does not have pharmaceutical rebate receivables.

2. ACCOUNTING CHANGES AND CORRECTIONS OF ERRORS

Accounting changes adopted to conform to the provisions of the NAIC Accounting Practices and Procedures manual, are reported as changes in accounting principles. The cumulative effect of changes in accounting principles is reported as an adjustment to unassigned funds (surplus) in the period of the change in accounting principle. The cumulative effect is the difference between the amount of capital and surplus at the beginning of the year and the amount of capital and surplus that would have been reported at that date if the new accounting principles had been applied retroactively for all prior periods. As a result of these changes, the Company reported a change of accounting principle, as an adjustment that increased (decreased) unassigned funds (surplus), of \$0 as of January 1, 2011.

25. CHANGES IN INCURRED LOSSES AND LOSS ADJUSTMENT EXPENSES

Reserves for incurred losses and loss adjustment expenses attributable to insured events of prior years have increased (decreased) by \$(1.477) million from \$28.142 million in 2010 to \$26.665 million in 2011 as a result of re-estimation of unpaid losses and loss adjustment expenses principally on private passenger auto liability and homeowners lines of insurance. This increase (decrease) is generally the result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased as additional information becomes known regarding individual claims. Included in this increase (decrease), the Company experienced \$0 million of unfavorable (favorable) prior year loss development on retrospectively rated policies. However, since the business to which it relates is subject to premium adjustments, there was no significant impact on surplus.

The Company uses a deterministic model, which returns period losses estimated using probabilities associated with a comprehensive set of earthquake scenarios. We run this model at least once each year and analyze return periods in excess of 250 years and adjust our catastrophe protection accordingly. The exposures analyzed are aggregated at the zip code level. The Company's highest concentration of exposure is in western Kentucky. The Company has a comprehensive catastrophic reinsurance program in place, developed by Guy Carpenter & Company, Inc. We currently buy coverage well in excess of our 250+ year event outcome for this exposure. We also use modeling to analyze our potential losses from our windstorm exposure.
