NOTES TO FINANCIAL STATEMENTS

Note 1 - Summary of Significant Accounting Policies

A. Accounting Practices

The Annual Statement of National Interstate Insurance Company of Hawaii (Company) has been prepared on the basis of accounting practices prescribed or permitted by the State of Ohio Department of Insurance. The Ohio Department of Insurance requires insurance companies domiciled in the state of Ohio to prepare their statutory financial statements in accordance with the National Association of Insurance Commissioners' (NAIC) *Accounting Practices and Procedures Manual* subject to any deviations prescribed or permitted by the Ohio Department of Insurance. There are no deviations prescribed or permitted by the Ohio Department of Insurance utilized in the Company's financial statements.

B. Use of Estimates

The preparation of financial statements in accordance with the NAIC *Accounting Practices and Procedures Manual* requires management to make estimates and assumptions that affect amounts reported in these financial statements and notes. Actual results could differ from the estimates and assumptions used.

C. Accounting Policies

Premiums that are written, assumed and ceded under the Company's insurance policies and reinsurance contracts are earned over the terms of the related policies and contracts on a pro rata basis. Unearned reserves are liabilities established, as the portion of premiums written that have not yet been earned.

Unlike the recognition of premiums revenue, expenses incurred while producing new insurance business such as commissions and premium taxes are charged to operations as incurred and ceding allowances received or receivable are credited to operations through reductions in expenses incurred.

In addition, the Company uses the following accounting policies:

1. Short-term investments are stated at cost.
2. Investment grade bonds are stated at amortized cost using the interest method. Non-investment grade bonds with NAIC designations of 3 through 6 are stated at the lower of amortized value or fair value.
3. Not applicable as the Company does not have any investments in common stocks.
4. Redeemable preferred stocks with an NAIC designation of 1 or 2 are carried at amortized cost. Perpetual preferred stocks with an NAIC designation of 1 or 2 are carried at market. All other preferred stocks are carried at the lower of cost, amortized cost, or fair value.
5. Not applicable as the Company investment portfolio does not include any mortgage loans.
6. Investment grade loan-backed securities are stated at amortized value. The prospective adjustment method is used to value all loan-backed securities. Non-investment grade loan-backed securities are stated at the lower of amortized value or fair value.
7. Not applicable as the Company does not have any investments in subsidiaries, controlled or affiliated companies.
8. Not applicable as the Company does not have any investments in joint ventures, partnerships or limited liability companies.
9. Not applicable as the Company does not invest in derivative instruments.
10. The Company does not anticipate investment income when evaluating the need for premium deficiency reserves.
11. Unpaid losses and loss adjustment expense reserves represent the estimated ultimate net cost of all reported and unreported losses incurred. The Company does not discount loss and loss adjustment expense reserves. The reserves for unpaid losses and loss adjustment expenses include an amount determined using individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Those estimates are subject to the effects of trends in loss severity and frequency. Although considerable variability is inherent in such estimates and the ultimate liability may be in excess of or less than the amounts provided, management believes that the reserves for losses and loss adjustment expenses are adequate. The estimates are continually reviewed and adjusted as necessary as experience develops or new information becomes known; such adjustments are reflected in the period determined.
12. The Company has a capitalization policy for prepaid expenses and purchases of items such as office equipment, software/hardware, furniture, vehicles, and other equipment and leasehold improvements. The predefined capitalization thresholds under this policy have not changed from those of the prior year.

G. Subprime Mortgage-Related Exposure

1. Subprime Mortgage Exposures

The Company invests in asset classes that could potentially be adversely affected by subprime mortgage exposure, including mortgage-backed securities and a corporate debt obligation of a financial institution. The Company does not believe that its holdings in mortgage backed securities have significant subprime exposure as these investments are guaranteed by government sponsored agencies. The Company believes that its greatest exposure is to unrealized losses from declines in asset values from holdings that could have subprime mortgage exposure versus realized losses resulting from defaults or foreclosures. The Company's investment practices limit the Company's exposure to such losses.

Outstanding losses and LAE, net of reinsurance recoverables, at end of year	\$ 9,491,423	\$ 4,067,771

NOTES TO FINANCIAL STATEMENTS

The effect of the initial reserve establishment for pooling of \$5,712,437 represents the net amount received by the Company for the assumption of the initial reserves effective with the amended intercompany reinsurance pooling arrangement due to the inclusion of VIC with the Company, its parent and affiliate, TCC. The foregoing reconciliation shows that a \$256,074 favorable development in the December 31, 2010 balances emerged in 2011, and a \$132,961 favorable development in the December 31, 2009 balances emerged in 2010. The favorable development in 2011 and 2010 resulted from the combination of settling cases and adjusting current estimates of open cases and incurred but not reported losses (IBNR) for amounts less than the case and IBNR estimates carried at the end of the prior year. Management of the Company evaluates case and IBNR estimates based on data from a variety of sources including the Company's historical experience, knowledge of various factors, and industry data extrapolated from other insurers writing similar lines of business.

Note 26 – Intercompany Pooling Arrangements

Effective January 1, 2011, the Company entered into an amended pooling agreement with its parent, NIIC and NIIC's two insurance subsidiaries, TCC and VIC. The following summarizes the participation percentages:

Name of Insurer	NAIC Code	% Participation
Triumph Casualty Company	41106	2%
National Interstate Insurance Company of Hawaii, Inc.	11051	2%
Vanliner Insurance Company	21172	26%
National Interstate Insurance Company (Lead)	32620	70%

Prior to the pooling of business, each participating company makes cessions, primarily excess of loss arrangements, to various other affiliated and non-affiliated reinsurers under terms of other reinsurance agreements. Each participant records its own Provision for Reinsurance based on its pre-pooling reinsurance activity. These liabilities are not shared with the other pooled participants. In the event that a reinsurance balance becomes uncollectible, the uncollectible balance will be shared by the pooled members in accordance to the pooling participation schedule. As of December 31, 2011 the Company had a \$1,510,216 receivable due from NIIC, the lead company. NIIC had a \$1,170,142 payable to TCC and had a \$7,638,370 payable due to VIC.
