## NOTES TO FINANCIAL STATEMENTS

### 1. Summary of Significant Accounting Policies

#### A. Accounting Practices

The financial statements of OHA Insurance Solutions, Inc. are presented on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance.

The Ohio Insurance Department recognizes only statutory accounting practices prescribed or permitted by the state of Ohio for determining and reporting the financial condition and results of operations of an insurance company, for determining its solvency under the Ohio Insurance Law. The National Association of Insurance Commissioners (NAIC) Accounting Practices and Procedures manual (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the state of Ohio.

#### B. Use of Estimates in the Preparation of the Financial Statements.

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

#### C. Accounting Policy

Premiums are earned over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by pro rata methods.

Expenses incurred in connection with acquiring new insurance business, including such acquisition costs as sales commissions, are charged to operations as incurred.

In addition, the company uses the following accounting policies:

- (1) Short-term investments are stated at amortized cost.
- (2) Bonds not backed by other loans are stated at amortized cost using the interest method.
- (3) Common Stocks at market except that investments in stocks of uncombined subsidiaries and affiliates in which the Company has an interest of 20% or more are carried on the equity basis.
- (4) The Company has no preferred stock.
- (5) The Company has no mortgage loans.
- (6) The Company has no loaned back securities.
- (7) The Company carries no investments on a GAAP equity basis.
- (8) The Company has no ownership interest in joint ventures.
- (9) The Company does not own any derivatives.
- (10) The Company anticipates investment income as a factor in the premium deficiency calculation, in accordance with SSAP No. 53, Property-Casualty Contracts Premiums.
- (11) Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed and any adjustments are reflected in the period determined.

1. Fair Value Measurements by Levels 1, 2 and 3

The Company has categorized its assets and liabilities that are measured at fair value into the three-level fair value hierarchy as reflected in the table below. The three-level fair value hierarchy is based on the degree of subjectivity inherent in the valuation method by which fair value was determined. The three levels are defined as follows:

Level 1 – Quoted Prices in Active markets for Identical Assets and Liabilities: This category, for items measured at fair value on a recurring basis, includes exchange-traded preferred and common stocks. It also includes derivative liabilities for written call options on common stock which are also exchange traded. The estimated fair value of the equity securities and derivatives within this category are based on quoted prices in active markets and are thus classified as Level 1.

Level 2 – Significant Other Observable Inputs: This category for items measured at fair value on a recurring basis includes bonds, preferred stocks and common stocks which are not exchange-traded. The estimated fair values of some of these items were determined by independent pricing services using observable inputs. Others were based on quotes from markets which were not considered actively traded.

## NOTES TO FINANCIAL STATEMENTS

Level 3 – Significant Unobservable Inputs: The Company has no assets or liabilities measured at fair value in this category.

<b>1 Description</b>	<b>2 Level 1</b>	<b>3 Level 2</b>	<b>4 Level 3</b>	<b>5 Total</b>

At the end of each reporting period, the Company evaluates whether or not any event has occurred or circumstances have changed that would cause an instrument to be transferred between Levels 1 and 2. This policy also applies to transfers into or out of Level 3 as stated in paragraph 3 below.

2. Roll forward of Level 3 Items

The Company has no assets or liabilities measured at fair value in the Level 3 category.

The Company routinely assesses the collectability of these receivables. Based upon Company experience, no provision for uncollectible amounts has been recorded. ### G. Subprime Mortgage Related Risk Exposure

#### 1. Subprime Mortgage Exposures

The Company invests in several asset classes that could potentially be adversely affected by subprime mortgage exposure. These investments include mortgage-backed securities. The Company believes that its greatest exposure is to unrealized losses from declines in asset values versus realized losses resulting from defaults or foreclosures. Conservative lending and investment practices limit the company's exposure to such losses.

#### 2. Direct Exposure – Mortgage Loans

The Company does not issue any direct mortgage loans.

#### 3. Direct Exposure – Other Investment Classes

The Company has several other investment classes that could have subprime mortgage exposure including:

- Mortgage-backed securities
- Debt obligations of financial institutions participating in subprime lending practices

The Company has reviewed its mortgage-backed security portfolio and determined that all of these investments are in pools that are backed by loans made to well qualified borrowers or in tranches that have minimal default risk. All bonds held that were issued by financial institutions participating in subprime lending activities are investment grade quality. Default risk on these bonds appears minimal at this time. The impact on these investments should the subprime credit crisis worsen cannot be assessed at this time.
