NOTES TO FINANCIAL STATEMENTS

General Notes

1. Summary of Significant Accounting Policies-

A. Accounting Practices

The financial statements of American Select Insurance Company (the Company) are presented on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance.

The Ohio Department of Insurance recognizes only statutory accounting practices (SAP) prescribed or permitted by the State of Ohio for determining and reporting the financial condition and results of operations of an insurance company, for determining its solvency under the Ohio Insurance law. The National Association of Insurance Commissioners' (NAIC) *Accounting Practices and Procedures Manual* (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State of Ohio.

The Company has not implemented any prescribed or permitted accounting practices by the State of Ohio that differ from those found in NAIC SAP.

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with SAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Premiums are earned over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by pro rata methods for direct business and are based on reports received from ceding companies for reinsurance.

Expenses incurred in connection with acquiring new insurance business, including such acquisition costs as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable. In addition, the Company uses the following accounting policies:

- (1) Short-term investments are reported in the same manner as similar long-term investments per Statements of Statutory Accounting Principles (SSAP) No. 2.
- (2) Bonds not backed by other loans are stated at amortized cost using the scientific interest method per SSAP No. 26.
- (3) Common Stocks are stated at market except investments in stocks of uncombined subsidiaries in which the Company has an interest of 20% or more are carried on the equity basis per SSAP No. 30.
- (4) Redeemable Preferred Stocks, which have underlying characteristics of debt, are stated at amortized cost. Perpetual Preferred Stocks are stated at cost. Preferred Stock with NAIC designations 3 - 6 are stated at the lower of cost, amortized cost, or fair value in accordance with SSAP No. 32.
- (5) The Company does not hold any mortgage loans.
- (6) Loan-backed securities are stated at either amortized cost or the lower of amortized cost or fair market value. The retrospective adjustment method is used to value all securities. If a security has been written down due to an other-than-temporary impairment, the prospective adjustment method is used subsequent to the loss recognition in accordance with SSAP No. 43R.
- (7) The Company has no subsidiaries, controlled or affiliated company investments.
- (8) The Company has minor ownership interests in partnerships. These have underlying characteristics of common stock and are carried at market value per SSAP No. 30.
- (9) The Company does not invest in derivative instruments.
- (10) The Company anticipates investment income as a factor in the premium deficiency calculation, in accordance with SSAP No. 53, Property-Casualty Contracts-Premiums.
- (11) Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and, while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed and any adjustments are reflected in the period determined. The Company has limited exposure to asbestos and environmental claims and management believes the reserve for such claims is adequate.
- (12) The Company has not modified its capitalization policy from the prior period.

NOTES TO FINANCIAL STATEMENTS

7. An additional minimum pension liability adjustment is required when the actuarial present value of accumulated benefits exceeds net plan assets. The additional minimum liability adjustment, less allowable intangible assets, net of tax benefit, is reported as a reduction in surplus. At December 31, 2011, the additional minimum liability for the qualified defined benefit pension plan is \$5,462,942. The reduction in surplus, net of tax, is \$3,550,912. At December 31, 2010, there was no additional minimum liability.

d. Weighted average discount rate	5.21%	5.74%	5.15%	5.65%
e. Rate of compensation increase*	3.00%	3.00%	N/A	N/A

* Rate of compensation increase assumed to be 3.0% for 2012-2015; and 3.5% for 2016+.

9. The measurement date (annual valuation) used to determine other postretirement benefit measurements for postretirement benefit plans that make up at least the majority of plan assets and benefit obligation is January 1. The fair market value of assets is measured and updated as of December 31.

10. For measurement purposes, an 8.00% annual rate of increase in the per capita cost of covered health care benefits was assumed for 2011. The rate is assumed to decrease to 7.50% for 2012, then decrease gradually to 5.00% for 2022, and remain at that level thereafter.

11. Due to the caps in OFIC's post retirement health care plan, assumed health care cost trend rates have a limited effect on the amounts reported for the health care plans. A one-percentage-point change in assumed health care cost trend rates, including the effects of Medicare Part D subsidies, would have the following effects:

	1 Percentage Point Increase	1 Percentage Point Decrease
a. Effect on total of service cost and interest cost components	\$ (107,123)	\$ 94,197
b. Effect on postretirement benefit obligation	\$ (885,955)	\$ 788,170

12. Plan asset information:

a. The defined benefit pension asset allocation as of the measurement date, December 31, and the target allocation, presented as a percentage of total plan assets were as follows:

Investment Category	December 31 Allocation		Target Allocation	
	2011	2010	Minimum	Maximum
Debt	38.0%	45.0%	40.0%	50.0%
Equity	61.0%	54.0%	50.0%	60.0%

Cash	1.0%	1.0%	0.0%	0.0%
Other	0.0%	0.0%	0.0%	0.0%
Total	100.0%	100.0%		

b. OFIC's policy of investment is based on a standard plan and formula. The investment plan and formula states that all assets of the pension trust except dividends and interest received from portfolio securities will be a part of the investment fund (formula). This income will be used to pay benefits, but may be allocated to the investment fund after an amount approximately equal to three months' benefits have accumulated. The investment fund will normally consist of debt instruments, including those of governments, government agencies and publicly owned corporations and properly diversified number of common and/or preferred stocks of publicly owned corporations. The investment fund will be divided between these two normal portions. The debt instruments comprise the Bond Fund and shall be considered normal when it is 45% of the investment fund and is generally maintained in a range of 40.0% to 50.0% of the fund. The equities comprise the Stock Fund and shall be considered normal when it is 55% of the investment fund and is generally maintained in a range of 50.0% to 60.0% of the fund. The measurement date for these funds is December 31, annually.

The investments fund portfolio will have the following overall characteristics:

- Complies with provisions of the Ohio Farmers Pension Trust Investment Plan and Formula
- Above average financial quality
- Broadly diversified
- Liquidity requirements minimal
- Fully invested (minimal cash reserves)
- Growing investment income
- Long term time horizon

Additionally the following constraints are placed on individual investments within the portfolio. In the case of equity investments, no equity shall be held unless:

- Dividends are paid (except in the case of mutual funds), and
- Foreign common stock may not exceed 15% of the common stock portfolio.

In the case of debt instruments, no debt shall be held unless:

- Straight bonds will have a duration range of 7-10 years and be of BBB-/AAA quality,
- Foreign bonds may not exceed 15% of the bond fund, and
- Convertible bonds may not exceed 20% of the bond fund and be of BBB- or higher quality, unless company is held in other portfolios.

The funds shall be managed by five trustees, elected by the Board of Directors, utilizing investment advice provided under an agreement with OFIC. The trustees annually review the investment plan and formula.

c. The long-term rates of return were determined using a combination of actual results and published market data. The rates are within the high and low ends of an expected return range. The low end of the range was calculated by multiplying the percentage of portfolio composition of each asset category by published historical return data for the category. The high end of the range was calculated by combining the published market data with actual historical returns for the pension plan weighting the percentages, 75% published and 25% historical.

d. Additional asset categories and associated risk - Not applicable.

14. OFIC does not have any regulatory contribution requirements for 2012; however, OFIC currently intends to make voluntary contributions of approximately \$9.1 million to the defined benefit pension plan and 401 (h) contributions of approximately \$0.3 million in 2012 with reference to OFIC's contribution funding guidelines.

OFIC's contribution funding guidelines were developed during 2006 and address the contribution and funding limitations as adjusted by the Pension Protection Act Of 2006. The guidelines provide that OFIC will generally contribute an amount equal to the value of benefits earned each year regardless of whether or not a minimum contribution is required with an option to not fund in years where a minimum contribution is not projected during the subsequent five (5) years. Minimum required contributions will always be funded. Contributions are at the final discretion of the Ohio Farmers Insurance Company Board of Directors.

Additionally, OFIC's postretirement health care plan is contributory, with participants' contributions adjusted annually; the life insurance plan is non-contributory.

2. Effects of the Subsidy in Measuring the Net Postretirement Benefit Cost - Not applicable

The Medicare Prescription Drug, Improvement and Modernization Act of 2003 (the Act) was signed into law in December of 2003. The Act includes the following two new features to Medicare Part D that could affect the measurement of the accumulated postretirement benefit obligation (APBO) and net periodic postretirement cost for the Plan:

- A federal subsidy (based on 28% of an individual beneficiary's annual prescription drug costs between \$250 and \$5,000), which is not taxable, to sponsors of retiree healthcare benefit plans that provide a prescription drug benefit that is at least actuarially equivalent to Medicare Part D; and
- The opportunity for a retiree to obtain a prescription drug benefit under Medicare.

3. Gross benefits payments and the amount of the subsidy for the period:

	2011	2010

Future gross benefits payments are estimated to be at approximately the same level.

Subsidy received during calendar year
(for plan years 2009 and 2008, respectively) \$ 358,710 \$ 336,589

Expected subsidy receivable
(for plan years 2011 and 2010, respectively) \$ 326,752 \$ 326,235

4. In March 2010, the Patient Protection and Affordable Care Act (the PPACA) and the Health Care and Education Reconciliation Act of 2010 (H.R. 4872), which amends certain provisions of the PPACA, were signed into law. The Medicare Part D retiree drug subsidies effectively become taxable beginning in 2013. 20. Fair Value Measurements-
- A. For assets that are measured and reported at fair value in the statement of financial position after initial recognition, the valuation techniques and the inputs used to develop those measurements are as follows:

Level 1 - Values are unadjusted quoted prices for identical assets and liabilities in active markets accessible at the measurement date.

Level 2 - Inputs include quoted prices for similar assets or liabilities in active markets, quoted prices from those willing to trade in markets that are not active, or other inputs that are observable or can be corroborated by market data for the term of the instrument. Such inputs include market interest rates and volatilities, spreads and yield curves.

Level 3 - Certain inputs are unobservable (supported by little or no market activity) and significant to the fair value measurement. Unobservable inputs reflect the Company's best estimate of what hypothetical market participants would use to determine a transaction price for the asset or liability at the reporting date.

The Company has no liabilities that are measured at fair value in the statement of financial position.

- (3) The Company's policy for determining when transfers between levels is required is based upon change in the inputs used to determine fair value measurement. If an input changes, the Company evaluates the new input(s) and makes the determination whether or not a transfer between levels is appropriate. If an asset or liability is transferred between levels, it is the Company's policy to record the transfer as of the beginning of the quarter in which the transfer occurs. The Company held no assets or liabilities categorized as Level 1, 2 or 3 during the reporting period that were transferred into or out of the level categorization held at January 1, 2011.

- (4) As of December 31, 2011, the Company held no investments in assets or liabilities measured and reported at fair value that were classified as Level 2. The Company routinely assesses the collectability of these receivables. - (1) The subprime lending sector is the sector of the mortgage lending industry that lends to borrowers who do not qualify for prime market interest rates because of poor or insufficient credit history. The term also applies to paper taken on property that cannot be sold on the primary market, including loans on certain types of investment properties and certain types of self-employed individuals.

For purposes of this disclosure, subprime exposure is defined as the potential for financial loss through direct investment, or underwriting risk associated with the risk from the subprime lending sector. This includes any direct risk through investments in debt securities, asset backed or structured securities, hedge funds, subsidiaries and affiliates, and insurance product issuance. The Company views the following features as common characteristics of subprime mortgage loans:

- An interest rate above prime to borrowers who do not qualify for prime rate
- Borrowers with low credit ratings (FICO scores)
- Interest-only or negative amortizing loans
- Unconventionally high initial loan-to-value ratios
- Low initial payments based on a fixed introductory rate that expires after a short initial period, then adjusts to a variable rate plus a margin for the remaining term of the loan
- Borrowers with less than conventional documentation of their home and/or assets
- Very high or no limits on how much the payment amount or the interest rate may increase at reset periods, potentially causing a substantial increase in the monthly payment amount
- Include substantial prepayment penalties

The Company's strategy to manage or mitigate subprime exposure is to avoid making direct investments in, or insuring any of the sources of risk identified above.

(2) The Company has no direct exposure through investments in subprime mortgage loans.

(3) The Company has no direct exposure through other investments.

(4) The Company has no underwriting exposure to subprime mortgage related risk.

Subsequent events have been considered through February 9, 2012 for the statutory statements issued as of December 31, 2011. No events or transactions have occurred that would give rise to a Type I or Type II subsequent event.

ANNUAL STATEMENT FOR THE YEAR 2011 OF THE American Select Insurance Company

25. Changes in Incurred Losses and Loss Adjustment Expenses-Reserves, as of December 31, 2010, were \$69.4 million. In calendar year 2011, \$20.3 million has been paid for incurred losses and loss adjustment expenses attributable to insured events of prior years. Reserves remaining for prior years are now \$43.4 million. Therefore, there has been a \$5.7 million favorable prior-year development from December 31, 2010 to December 31, 2011. The favorable development is principally from decreases in the estimates of loss and loss adjustment expenses for the following lines of business: commercial multiple peril, commercial auto liability, homeowners/farmowners, and private passenger auto liability. This change is generally the result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased, as additional information becomes known regarding individual claims. The estimates are not affected by prior year loss development on retrospectively rated policies as the Company does not write this type of policy.
