NOTES TO FINANCIAL STATEMENTS**1.) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES****A. Accounting Practices**

The financial statements of Infinity Specialty Insurance Company ("the Company") are presented on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance.

The Ohio Department of Insurance recognizes only statutory accounting practices prescribed or permitted by the state of Ohio for determining and reporting the financial condition and results of operations of an insurance company, for purposes of determining its solvency under the Ohio Insurance Law. The National Association of Insurance Commissioners ("NAIC") *Accounting Practices and Procedures Manual* has been adopted as a component of prescribed or permitted practices by the state of Ohio.

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and of the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policies

Invested asset values are generally stated as follows:

Bonds are stated at amortized cost using the interest method.

Short-term investments are stated at amortized cost.

Unpaid Losses and Loss Adjustment Expense Reserves - The net liabilities stated for unpaid claims and for expenses of investigation and adjustment of unpaid claims are based upon (a) the accumulation of case estimates for losses reported prior to the close of the accounting period on the direct business written; (b) estimates received from ceding reinsurers and insurance pools and associations; (c) estimates of unreported losses and development on reported losses based on past experience net of salvage and subrogation recoveries; and (d) estimates based on experience of expenses for investigating and adjusting claims. The total of these factors is reduced for portions ceded to other insurers. All such estimates are based on the current state of the law and coverage litigation, which could change substantially by the time claims are settled. These liabilities are subject to the impact of changes in claim amounts, frequency and other factors. In spite of the variability inherent in such estimates, management believes that the liabilities for unpaid losses and loss adjustment expenses ("LAE") are adequate. Changes in estimates of the liabilities for losses and LAE are reflected in the statement of income in the period in which determined.

Premium Deficiency Reserve - The Company uses anticipated investment income as a factor in the premium deficiency calculation.

Premium Recognition - Premiums are earned over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by pro rata methods for direct business and are based on reports received from ceding companies for reinsurance.

Underwriting Expense Recognition - Expenses incurred in connection with acquiring new insurance business, including such acquisition costs as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

The Company did not have any accounting changes or corrections of errors during 2011.

3.) BUSINESS COMBINATIONS AND GOODWILL

 - 2. The Company does not invest in loan-backed securities.

NOTES TO FINANCIAL STATEMENTS

5. The determination of whether unrealized losses on investments are other-than-temporary requires judgement based on subjective as well as objective factors. Factors considered and resources used by management include:

- whether the unrealized loss is credit-driven or a result of changes in market interest rates;

The Company utilizes historical catastrophe loss data to estimate the Company's probable maximum loss (PML) in areas where there is a concentration of automobiles insured. See Note 21C in the Notes to Financial Statements for information regarding the sale.
