## NOTES TO FINANCIAL STATEMENTS

### Note 1 - Summary of Significant Accounting Policies

#### A. Accounting Practices

The accompanying statutory financial statements of Scottsdale Insurance Company (the Company) have been prepared in conformity with accounting practices prescribed or permitted by the National Association of Insurance Commissioners (NAIC) and the State of Ohio.

The Ohio Insurance Department recognizes only statutory accounting practices (SAP) prescribed or permitted by the State of Ohio for determining and reporting the financial condition and results of operations of an insurance company, as well as, determining its solvency under the Ohio Insurance law. The National Association of Insurance Commissioners' (NAIC) *Accounting Practices and Procedures Manual* (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State of Ohio.

#### B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

#### C. Accounting Policies

**Federal Income Taxes.** The Company's parent, Nationwide Mutual Insurance Company (Mutual), files a consolidated federal income tax return, which includes all eligible U.S. affiliates. In this regard, the included subsidiaries pay to Mutual the amount which would have been payable on a separate return basis without regard to the alternative minimum tax. Mutual pays tax due on a consolidated basis.

The Company provides for federal income taxes based on amounts the Company believes it will ultimately owe. Inherent in the provision for federal income taxes are estimates regarding the deductibility of certain expenses and the realization of certain tax credits. In the event the ultimate deductibility of certain expenses or the realization of certain tax credits differs from estimates, the Company may be required to change the provision for federal income taxes recorded in the financial statements which could be significant. Management has used best estimates to establish reserves based on current facts and circumstances regarding tax exposure items where the ultimate deductibility is open to interpretation.

In accordance with guidance specified in the NAIC SAP, the Company utilizes the asset and liability method of accounting for taxes. Under this method, deferred tax assets, net of any non-admitted portion, and deferred tax liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The change in deferred taxes is charged directly to surplus.

**Reinsurance Recoverables.** In the normal course of business, the Company reinsures, or cedes, a portion of its insurance risks with other companies in order to reduce net liability on individual risks, to provide protection against the potential impact of large losses, and to obtain greater diversification of risks. The ceding of risk, however, does not discharge the Company from its primary obligation to the policyholder. Reinsurance recoverables include amounts billed to reinsurers on losses paid. Estimates of amounts expected to be recovered from reinsurers that have not yet been paid on unpaid losses are estimated in a manner consistent with the claim liability associated with the underlying policy and are recorded as reductions in total loss and loss adjustment expense (LAE) reserves. Such reinsurance recoverables and reserve reductions partially offset claim costs in the Company's statutory statements of operations and are included as an offset to losses and LAE's in the accompanying statutory statements of admitted assets, liabilities and surplus. The Company regularly evaluates and monitors the financial condition of its reinsurers under voluntary reinsurance arrangements to minimize its exposure to significant losses from reinsurer insolvencies. There are no contracts using deposit accounting as of December 31, 2011 and 2010.

Statutory accounting principles require recognition of a minimum liability for certain unsecured or overdue reinsurance recoverables (100% for unsecured unauthorized reinsurance and up to 20% recoverables from certain reinsurers more than 90 days overdue on their payments). These conditional reserves were \$3,321,518 and \$15,691,998 as of December 31, 2011 and 2010, respectively.

In addition, the Company uses the following accounting policies:

1. Short-term investments are carried at amortized cost, which approximates fair value. Short-term investment transactions are recorded on trade date. Interest income is recognized when earned.
2. Bonds, excluding loan-backed and structured securities, are stated at amortized cost except those with a NAIC designation of "3" or below which are stated at the lower of amortized cost or fair value. Bond transactions are recorded on trade date, with the exception of private placement bonds, which are recorded on settlement date. Amortization of purchase premiums and discounts is calculated using the effective yield method. Realized gains and losses are determined on a specific identification basis. For bonds for which active market quotations are available, the Company generally uses independent pricing services to assist in determining the fair value.

Management regularly reviews its bond portfolio to evaluate the necessity of recording impairment losses for other-than-temporary declines in fair value. Many criteria may be considered in this review process including, but not limited to, the timing and amount of cash flows, the ability of the issuer to meet its obligations, financial prospects of the issuer, quality of any underlying collateral, current relevant economic conditions that may impact issuers, severity of the decline in fair value, the Company's intent to sell or the intent and ability to hold the security until its value recovers. For bonds (excluding loan-backed and structured securities) determined to be other-than-temporarily impaired, the cost basis is written down to fair value and the amount of the write-down is recorded as a realized loss.

3. Common stocks, other than investments in stocks of subsidiaries and affiliates (see Note C. 7 below), are stated at fair value. Common stock transactions are recorded on trade date. Realized gains and losses are determined on a specific identification basis. Dividends are recognized when declared. For marketable stocks for which active market quotations are available, the Company generally uses independent pricing services to assist in determining the fair value.

## NOTES TO FINANCIAL STATEMENTS

4. Preferred stocks redeemable at par and rated investment grade are stated at amortized cost. Perpetual preferred stocks rated investment grade are stated at fair value. Non-investment grade preferred stocks are stated at the lower of amortized value or fair value. Preferred stock transactions are recorded on trade date. Realized gains and losses are determined on a specific identification basis. Interest income is recognized when earned while dividends are recognized when declared. Preferred stocks not carried at fair value, which are in an unrealized loss position, are evaluated for impairment based on the timing of any anticipated recovery in value and the length of time in a loss position. For declines in value considered to be other-than-temporary, a realized loss to fair value is recorded. For marketable preferred stocks, for which active market quotations are available, the Company generally uses independent pricing services to assist in determining the fair value.
5. Mortgage loans are carried at the unpaid principal balance adjusted for premiums, discounts and certain deferred loan origination and commitment fees, less a valuation allowance. The valuation allowance for mortgage loans reflects management's best estimate of probable credit losses. Management's periodic evaluation of the adequacy of the valuation allowance for losses is based on past loan loss experience, known and inherent risks in the portfolio, adverse situations that may affect the borrower's ability to repay, the estimated value of the underlying collateral, current economic conditions, composition of the loan portfolio and other relevant factors. The Company maintains a valuation allowance for estimated credit losses on mortgage loans which is comprised of specific and non-specific reserves.

Specific reserves for impaired mortgage loans established based on a review by portfolio managers. Mortgage loans are considered impaired when, based on current information and events, it is probable that the Company will be unable to collect all amounts due according to the contractual terms of the loan agreement. When management determines that a loan is impaired, a provision for loss is established equal to either the difference between the carrying value and the present value of expected future cash flows discounted at the loan's effective interest rate or the fair value of the collateral if the loan is collateral dependent.

The non-specific reserve is established for probable losses inherent in the mortgage loan portfolio as of the balance sheet date but not yet specifically identified. The non-specific reserve is based on past loan loss experience, inherent risks in the portfolio, current economic conditions, composition of the loan portfolio and other relevant factors.

Changes in the non-specific reserve are recorded directly in surplus, while changes in the specific reserves are recorded in realized losses.

6. Loan-backed and structured securities (collectively, loan-backed securities) are stated at amortized cost except those with an initial NAIC designation of "3" or below which are stated at the lower of amortized cost or fair value. Amortization of purchase premiums and discounts is calculated using the effective yield method. The Company periodically updates its estimates of cash flows, including new prepayment assumptions, for loan-backed securities. The retrospective adjustment method is used to value loan-backed securities where the collection of all contractual cash flows is probable. For loan-backed securities where the collection of all contractual cash flows is not probable, the Company, (a) recognizes the accretable yield over the life of the loan backed security as determined at the acquisition or transaction date, (b) continues to estimate cash flows expected to be collected at least quarterly, and (c) recognizes an other-than-temporary impairment loss if the loan-backed security is impaired (i.e., the fair value is less than the amortized cost basis) and there is a decrease in the cash flows expected to be collected. If the Company intends to sell an impaired loan-backed security or does not have the intent and ability to retain the impaired loan-backed security for a period of time sufficient to recover the amortized cost basis, an other-than-temporary impairment has occurred. In these situations, the other-than-temporary impairment loss recognized is the difference between the amortized cost basis and fair value. If the Company does not expect to recover the entire amortized cost basis when compared to the present value of cash flows expected to be collected, it cannot assert that it has the ability to recover the loan-backed security's amortized cost basis even though it has no intention to sell and has the intent and ability to retain the loan-backed security. Therefore an other-than-temporary impairment has occurred and a realized loss is recognized for the non-interest related decline, which is calculated as the difference between the loan-backed security's amortized cost basis and the present value of cash flows expected to be collected.

For situations where an other-than-temporary impairment is recognized, the previous amortized cost basis less the other-than-temporary impairment recognized as a realized loss becomes the new cost basis.

Loan-backed security transactions are recorded on the trade date. Realized gains and losses are determined on a specific identification basis. For loan-backed securities for which active market quotations are available, the Company generally uses independent pricing services to assist in determining the fair value.

7. Investments in subsidiary and affiliated companies are stated as follows:

The admitted investments in all subsidiary, controlled, and affiliated (SCA) entities are valued using an equity method approach. Under this approach, investments in insurance affiliated companies are stated at underlying statutory equity adjusted for unamortized goodwill. Investments in non-insurance affiliated companies that have no significant ongoing operations other than to hold assets that are primarily for the direct or indirect benefit or use of the reporting entity or its affiliates are stated at audited GAAP equity adjusted to a statutory basis of accounting. Investments in non-insurance affiliated companies that have significant ongoing operations beyond holding assets that are primarily for the direct or indirect benefit or use of the reporting entity or its affiliates are stated at audited GAAP equity. Unaudited affiliated companies of the reporting entity or its affiliates are non-admitted under prescribed SAP accounting practices. Goodwill arising from the acquisition of affiliated companies is amortized over a period of ten years. Unamortized goodwill at December 31, 2011 was \$19.0 million, of which \$5.1 million was nonadmitted due to no statutory audit having been performed on an acquired entity, Freedom Specialty Insurance Company (formerly Atlantic Insurance Company). Unamortized goodwill at December 31, 2010 was \$21.9 million, of which \$5.8 million was nonadmitted due to no statutory audit having been performed on an acquired entity, Freedom Specialty Insurance Company (formerly Atlantic Insurance Company).

8. Other invested assets consist primarily of investments in partnerships, limited liability companies and joint ventures. Underlying investments primarily include hedge funds, private equity funds and low income housing tax credits. Except for investments in low income housing tax credit partnerships, interests are reported using the equity method of accounting. Changes in carrying value as a result of the equity method are reflected as net unrealized capital gains and losses as a direct adjustment to surplus. Realized gains and losses are generally recognized through income at the time of disposal or when operating distributions are received. Partnership interests in low income housing tax credits are carried at amortized cost with amortization charged to investment income over the period in which the tax benefits, primarily credits, are utilized. Management reviews the portfolio for the need to record impairments based on the expected ability to recover unrealized losses and the intent to hold the investment until recovery. The reviews include evaluating the current and expected earnings of the individual investments. Other-than-temporary impairment losses are recorded on other invested assets when indicators of impairment are present and are charged to net realized gains and losses.

## NOTES TO FINANCIAL STATEMENTS

### 9. Accounting for derivatives

The Company uses derivative instruments to manage risks associated with interest rates, equity markets, foreign currency and credit. These derivative instruments primarily include interest rate swaps, futures contracts, credit default swaps, currency contracts and other traditional swap agreements.

Derivative instruments used in hedging transactions considered to be effective hedges are valued and reported in a manner consistent with the hedged items (i.e., hedge accounting). Derivative instruments used in hedging transactions that do not meet or no longer meet the criteria of an effective hedge are accounted for at fair value and the changes in the fair value are recorded in surplus as unrealized gains or unrealized losses. Derivative instrument cash flows and payment accruals are recorded as realized gains and losses or in net investment income.

10. Insurance premiums are generally earned ratably over the policy term. The liability for unearned premiums represents the portion of premiums written relating to the unexpired terms of coverage. Such reserves are computed by pro rata methods for direct business and are based on reports received from ceding companies for reinsurance assumed. Premiums in course of collection represent agent balances and uncollected premiums from policyholders for current policies in force and policy premiums assumed from others, including amounts placed with affiliates. As of December 31, 2011 and 2010, the Company had no liabilities related to premium deficiency reserves. The Company includes anticipated investment income when calculating its premium deficiency reserves, in accordance with SSAP No. 53, Property-Casualty Contracts – Premiums.

11. The Company establishes losses and loss expense reserves for reported claims and claims incurred but not yet reported. Estimating the liability for losses and loss expense reserves involves significant judgment and multiple assumptions. Management considers the Company's experience with similar claims, historical trends, economic factors and judicial, legislative and regulatory changes in establishing reserves. The Company's losses and loss expense reserves are recorded net of reinsurance and amounts expected to be received from salvage (the amount recovered from property after the Company pays for a total loss) and subrogation (the right to recover payments from third parties).

Assumptions and estimates for losses and loss expense reserves are updated as new information becomes available. Due to the inherent uncertainty in estimating losses and loss expense reserves, the actual cost of settling claims may differ materially from recorded amounts. Changes in losses and loss expense reserve estimates are included in results of operations in the period the estimates are revised.

12. The Company has a written capitalization policy for prepaid expenses and purchases of items such as electronic data processing equipment, software, furniture, vehicles, other equipment and leasehold improvements. The Company has not modified its capitalization policy from the prior period.

13. The Company does not write major medical insurance with prescription drug coverage.

### **Note 2 - Accounting Changes and Corrections of Errors**

#### A. Accounting Changes

##### ***Adopted Accounting Standards***

On December 31, 2011, the Company adopted revisions to SSAP No. 5, *Liabilities, Contingencies and Impairments of Assets* (SSAP No. 5R) which require insurance entities to recognize, at inception of a guarantee, a liability for the obligations it has undertaken in issuing the guarantee, even if the likelihood of having to make payments under the guarantee is remote. The revised guidance does not require liability recognition for guarantees made to or on behalf of direct or indirect wholly-owned insurance and non-insurance subsidiaries or for guarantees considered unlimited. The Company also adopted additional revisions related to disclosure requirements of SSAP No. 25, *Accounting for and Disclosures about Transactions with Affiliated and Other Related Parties* to correspond with SSAP No. 5R. The guidance is effective for all guarantees issued or outstanding as of December 31, 2011, and disclosure of all guarantees must be reported annually. Refer to Note 14 for the required disclosures and financial impact of this guidance.

On January 1, 2011, the Company adopted changes to the definition of loan-backed and structured securities within SSAP No. 43R, *Loan-backed and Structured Securities*. These changes required certain securities to be reclassified into the loan-backed and structured securities classification and resulted in an immaterial impact to the Company upon adoption. Refer to Note 5 for required disclosures and financial impact.

On December 31, 2009, the Company adopted temporary guidance in SSAP No. 10R, *Income Taxes Revised – A Temporary Replacement of SSAP No. 10*, that requires additional disclosures related to tax planning strategies and provides an election for a qualifying life insurance company to increase within its deferred tax asset admissibility calculation the reversal period from one to three years and its limitation from 10% of statutory capital and surplus to 15%. This guidance is effective for interim and annual reporting periods through December 31, 2011, and will be replaced with the adoption of SSAP No. 101, *Income Taxes*. Refer to Note 9 for the required disclosures and financial impact.

##### ***Pending Accounting Standards***

On January 1, 2012, the Company adopted a new standard, SSAP No. 101, *Income Taxes*, which supersedes SSAP No. 10R, *Income Taxes Revised – A Temporary Replacement of SSAP No. 10*. The standard applies a 'more likely than not' threshold for the recognition of federal and foreign tax loss contingencies and establishes a new framework for determining the admissibility of deferred tax assets (DTA). The framework sets a three year limit on loss carryback provisions, introduces guardrails for determining the realization period and percentage of capital and surplus companies may use to determine DTA admissibility, and establishes parameters around offsetting DTAs against deferred tax liabilities (DTL) as it relates to the admissibility of a DTA. The standard also adopts new disclosure requirements related to tax planning strategies, the amounts and components used to determine admissible DTA amounts, and information about reasonably possible increases in the total liability for any federal or foreign income tax loss contingencies within twelve months of the reporting date. The Company is currently in the process of determining the impact of adoption of this standard.

NOTES TO FINANCIAL STATEMENTS

Note 3 - Business Combinations and Goodwill

- A. Statutory Purchase Method
1. On December 31, 2008, the Company purchased 100% of Atlantic from Traveler's. In September, 2008, Traveler's and Atlantic entered into a transfer and assumption agreement. As a result of the Agreement, Atlantic transferred all of its assets, subject to specific exception of the Retained Assets set forth in the Transfer and Assumption Agreement, and all of its liabilities to and assumed by Travelers as of the date of the sale to the Company. The purchase of Atlantic by the Company included the transfer of investments and premium tax recoverables totaling \$8.7 million. On July 28, 2009, the Ohio Department of Insurance signed the order authorizing the redomestication of Atlantic Insurance Company from Texas to Ohio and changing the name to Freedom Specialty Insurance Company.
- In July 2008, the Company entered into an agreement with Veterinary Pet Insurance Company (VPI) to acquire the remaining 35% interest in their outstanding shares. Based in Brea, California, VPI is the oldest and largest health insurance provider for pets in the United States offering insurance plans which reimburse eligible veterinary expenses relating to accidents, illnesses and injuries for dogs, cats, birds and exotic pets. The VPI asset acquisition solidifies the Company's position in the pet insurance market, which is available in all 50 states and the District of Columbia. Policies are underwritten by VPI in California, and in all other states by National Casualty Company.
2. The two transactions above were accounted for as statutory purchases.
3. The cost of the Freedom Specialty acquisition was \$16.0 million, resulting in goodwill of \$7.3 million. The cost of the VPI acquisition was \$29.4 million, resulting in goodwill of \$21.5 million.
4. Goodwill amortization for the year ended December 31, 2011 related to the purchases of Freedom Specialty Insurance Company and VPI is \$725.2 thousand and \$14 million, respectively.

4. All impaired securities (fair value is less than cost or amortized cost) for which an other-than-temporary impairment has not been recognized in earnings as a realized loss (including securities with a recognized other-than-temporary impairment for non-interest related declines when a non-recognized interest related impairment remains):

a. The aggregate amount of unrealized losses:		
	1. Less than 12 Months	\$ (123,144)
	2. 12 Months or Longer	\$ (2,697,592)
b. The aggregate related fair value of securities with unrealized losses:		
	1. Less than 12 Months	\$ 51,737,608
	2. 12 Months or Longer	\$ 8,567,952

5. The Company reviews all loan-backed and structured securities in which the fair value of the given security is less than the amortized cost to determine if a given security is other-than-temporarily impaired. The Company examines characteristics of the underlying collateral, such as delinquency and default rates, the quality of the underlying borrower, the type of collateral in the pool, the vintage year of the collateral, subordination levels within the structure of the collateral pool, and the quality of any credit guarantors, to determine the cash flows expected to be received for the security.

If the severity and duration of the security's unrealized loss indicates a risk of an other-than-temporary impairment, the Company will evaluate if the amortized cost basis of the security will be recovered by comparing the present value of the cash flows expected to be received for the given security with the amortized cost basis of the security. If the present value of cash flows is less than the amortized cost basis of a security then the security is deemed other-than-temporarily impaired.

ANNUAL STATEMENT FOR THE YEAR 2011 OF THE SCOTTSDALE INSURANCE COMPANY

NOTES TO FINANCIAL STATEMENTS

E. Repurchase Agreements and Securities Lending Transactions

1. Repurchase Agreements:

For repurchase agreements, Company policy requires a minimum of 102% of the fair value of securities purchased under repurchase agreements to be maintained as collateral. Cash collateral received is invested in short-term investments and the offsetting collateral liability is included in aggregate write-ins for liabilities. There were no open repurchase agreements as of year end.

Securities Lending:

The Company's securities lending agreement requires a minimum of 102% of the fair value of loaned securities to be held as collateral.

2. No assets were pledged as collateral as of year-end.
3. The Company has not accepted collateral that is permitted by contract or custom to sell or repledge as of year-end.
- a. The Company's securities lending agreement allows the borrower to terminate a loan upon demand. The Company's obligation for cash collateral received was \$14,828,900 at December 31, 2011 and is carried as a "Payable for securities lending" on the balance sheet. The Company does not hold any non-cash collateral for loaned securities as of December 31, 2011.
- b. Cash collateral received is reinvested by the agent bank in accordance with the Company's authorized investment policy and included as assets of the Company (Schedule DL). The fair value of reinvested cash collateral is \$14,652,947 at December 31, 2011.
- c. Cash collateral provided by approved borrowers is reinvested by the Company's agent bank during the term of the loan and returned to the borrower upon a loan's termination.
4. The Company did not have any securities lending activities with an affiliated agent.
5. a. The amortized cost and fair value of reinvested cash collateral is \$14,738,841 and \$14,652,947, respectively, as of December 31, 2011.

	Amortized Cost	Fair Value

- b. In accordance with the securities lending investment policy, reinvestments of cash collateral cannot exceed 3 years in maturity. Because the borrower or the Company may terminate a securities lending transaction at any time, to the extent loans are terminated in advance of reinvestment collateral maturities, the Company would repay its securities lending payable obligation from operating cash flows or the proceeds of sales from its investment portfolio, which includes significant liquid securities.

2. The method of allocation among the companies is subject to the resolution approved by the Board of Directors. Allocation is based upon separate return or sub-group aggregated separate return calculations with the company being reimbursed for the actual Federal income tax benefit of its net operating losses which are actually used to reduce the taxable income of other companies in the consolidated return.
3. The Company did not have any protective tax deposits under Section 6603 of the Internal Revenue Code.

### **Note 10 - Information Concerning Parent, Subsidiaries, Affiliates and Other Related Parties**

#### A. Nature of Relationships

All outstanding shares of the Company are owned by Mutual, domiciled in the State of Ohio.

Bonds and stocks, if any, owned, acquired or disposed of in any year by the Company in any subsidiary or affiliate are set forth in Schedule D of either this statement or those of prior years. Intercompany relationships and specific holdings are detailed in the Nationwide Corporate Organizational Chart, which appears as Schedule Y of this statement.

The Company is a party to various reinsurance agreements including a pooling agreement with several affiliated companies. See Note 26.

The Company and various affiliates have entered into agreements with Nationwide Cash Management Company (NCMC) a subsidiary of the Company, under which NCMC acts as a common agent in handling the purchases and sales of short-term securities for the respective accounts of the participants. Amounts on deposit with NCMC were \$64.3 million and \$78.1 million as of December 31, 2011 and 2010, respectively, and are included in short-term investments on the accompanying statutory statements of admitted assets, liabilities, capital and surplus.

#### B. Detail of Transactions Greater than ½ % of Admitted Assets

On January 14, 2011, the Company purchased 42,000 shares of \$12 par value common stock of Freedom Specialty Insurance Company, an affiliated company.

On March 8 and November 30, 2010, the Company made \$900 thousand and \$100 thousand capital contributions, respectively, to Freedom Specialty Insurance Company, an affiliated company.

#### C. Change in Terms of Intercompany Arrangements

Effective January 1, 2011, the Company entered into a 100% quota share reinsurance agreement with Veterinary Pet Insurance Company (VPI). Previously, the Company ceded 80% of the quota share activity to VPI.

Effective January 1, 2011, Mutual changed the pooling arrangements under which several affiliated companies cede all their direct and assumed business to the pool. See Note 26.

#### D. Amounts Due to or from Related Parties

Affiliate receivables and payables are the result of cost sharing and intercompany service agreements between the Company and its parent and affiliates in which settlement has not yet occurred. Affiliate receivables are presented gross of affiliate payables when the Company has the right to offset. The Company reported \$28.3 million and \$35.0 million due from parent at December 31, 2011 and 2010, respectively. The Company reported gross amounts of \$141.9 million and \$35.1 million due from parent and affiliates and \$3.4 million and \$12.9 million due to parent and affiliates at December 31, 2011 and 2010, respectively. These arrangements are subject to written agreements which require that intercompany balances be settled within 30 days.

#### E. Guarantees or Undertakings for Related Parties

The Company has no guarantees or contingent commitments to affiliates other than indicated in Note 14 A.

#### F. Management, Service Contracts, Cost Sharing Arrangements

The Company shares its home office, other facilities, equipment, and common management and administrative services with its subsidiaries and affiliates. Pursuant to a cost sharing agreement between the companies, the amounts associated with these services are subject to allocation based on standard allocation techniques and procedures acceptable under general cost accounting techniques and procedures in conformity with the NAIC's statutory accounting practices and procedures. Measures used to determine the allocation among companies includes individual employee estimates of time spent, special cost studies, the number of full-time employees, and other methods agreed to by the participating companies. The Company does not believe amounts recognized under the intercompany agreement are materially different than what would have been recognized had the Company operated on a stand-alone basis.

Note 12 - Retirement Plans, Deferred Compensation, Postemployment Benefits and Compensated Absences and Other Postretirement Benefit Plans

A. Defined Benefit Plans

The Company participates in a qualified defined benefit pension plan and a nonqualified defined benefit supplemental executive retirement plan sponsored by the Company. The qualified plan covers all employees of participating companies who have completed at least one year of service. Plan assets are invested in a third party trust and in group annuity contracts issued by NLIC. All participants are eligible for benefits based on an account balance feature. Participants hired prior to 2002 who are least 21 years of age are eligible for benefits based on the highest average annual salary of a specified number of consecutive years of the last ten years of service, if such benefits are of greater value than the account balance feature. The Company funds pension costs accrued for direct employees plus an allocation of pension costs accrued for employees of affiliates whose work benefits the Company. The nonqualified plan covers certain executives with at least one year of service.

On November 10, 2009, the Company announced changes to the NRP. Effective January 1, 2010, the Company-paid early retirement enhancement, which is part of the final average pay formula, will be eliminated. Currently this enhancement provides an additional benefit for associates retiring between ages 55 and 65. In addition, pay credits under the account balance formula will stop. These changes affect associates eligible to receive the benefit based on the greater of the final average pay formula or the account balance formula. Affected associates' benefits cannot be less than the NRP benefit they have already received.

Pension costs charged to operations by the Company were \$2.6 million and \$2.2 million for the years ended December 31, 2011 and 2010, respectively. The Company recorded a prepaid pension asset of \$6.5 million and \$9.7 million for the years ended December 31, 2011 and 2010, respectively.

The Pension Plan as a whole reported a pension benefit obligation for non-vested employees of \$6.0 million and \$8.9 million for the years ended December 31, 2011 and 2010, respectively.

The Company sponsors life and health care defined benefit plans for qualifying retirees. Postretirement life and health care benefits are contributory and generally available to full time employees, hired prior to June 1, 2000, who have attained age 55 and have accumulated 15 years of service with the Company after reaching age 40. The employee subsidy for the postretirement death benefit was capped beginning in 2007. Postretirement health care benefit contributions are adjusted annually and contain cost-sharing features such as deductibles and coinsurance. In addition, there are caps on the Company's portion of the per-participant cost of the postretirement health care benefits. The Company does not receive a Medicare Part D subsidy from the government. The Company's policy is to fund the cost of health care benefits in amounts determined at the discretion of management. Plan assets are invested in a group annuity contract issued by NLIC and a third party trust.

Effective January 1, 2010, all non-highly compensated employees (NHCE) as defined by IRC 414 will become eligible to receive an annual health care credit up to a maximum of \$1,000 per year, not to exceed a maximum lifetime benefit of \$25,000. The contribution will be a match of 33% of the NHCE's otherwise unmatched savings account or 401(a) contributions. No contributions will be made by the Company if the employee does not make eligible contributions.

The Company's net periodic postretirement benefit costs (NPPBC) were \$453.0 thousand and \$494.0 thousand for the years ended December 31, 2011 and 2010, respectively. The Company recorded a prepaid postretirement asset of \$1.5 million and \$1.3 million asset for the years ended December 31, 2011 and 2010, respectively.

The Postretirement Plan's benefit obligation for non-vested employees was \$107.7 million and \$92.5 million for the years ended December 31, 2011 and 2010, respectively.

The following table summarizes benefit obligations, the fair value of plan assets, funded status and net periodic benefit cost of the pension plan and postretirement benefit plans as a whole at December 31, 2011 and 2010:

The Prior Service Cost Base established December 31, 2007 and 2006 reflects the enactment of the Pension Protection Act of 2006 on August 17, 2006. The Act provides for EGTRRA Permanence, the permanent increase in the covered pension compensation for qualified pension plans, and the three year cliff vesting for pension plans with hybrid formula features. The Act has no impact on the projected benefit obligation for the years ended December 31, 2011 and 2010.

7. A minimum pension liability is required when the actuarial present value of accumulated benefits exceeds plan assets and accrued pension liabilities. The Company recorded a minimum pension liability of \$27.8 million and \$2.8 million as of December 31, 2011 and 2010 , respectively.
8. The following table is the basis of measurement for plan liabilities and is relevant for items 1-4 above:

	Pension Benefits		Postretirement Benefits

Weighted-average assumptions as of December 31,				
a. Weighted average discount rate	4.35%	5.50%	4.05%	5.15%
b. Rate of increase in future compensation levels	Age Graded	Age Graded	Age Graded	Age Graded
c. Assumed health care cost trend rate:				
Initial rate	-	-	8.25%	8.50%

The following table is the basis of measurement for net periodic pension and post retirement costs and is relevant for item 5 above:

	Pension Benefits		Postretirement Benefits	
	2011	2010	2011	2010
a. Weighted average discount rate	5.50%	5.95%	5.15%	5.70%
b. Rate of increase in future compensation levels	Age Graded	Age Graded	Age Graded	Age Graded
c. Expected long-term rate of return on plan assets	6.25%	6.25%	6.25%	6.25%

The Aged Graded rate of increase in future compensation levels was developed in 2009 based on actual experience from 2003 through 2008. The rates range from 11% to 4% based on age of the employee.

In determining the discount rate assumptions, the Company matches projected benefit payments to published market yields as of December 31.

NOTES TO FINANCIAL STATEMENTS

The expected long-term rate of return on plan assets assumption is the long-term rate the Company expects to be earned based on the plans' investment strategies. The Company employs a prospective building block approach in determining its assumptions, which may vary by plan and may change when the target investment portfolio changes. In this approach, historical and expected future returns of multiple asset classes were analyzed to develop an expected rate of return, considering expected risk free rates of return and risk premiums. The Company uses the internal Capital Market Expectations (CME) report that is based upon the strategic asset allocation of the plan assets. The long-term rate of return on plan assets that is derived from the CME will be compared to external benchmarks to ensure it is reasonable and then will be rounded to the nearest quarter percent. Given the prospective nature of this calculation, short-term fluctuations in the market do not impact the expected risk premiums and the expected rate of return on plan assets.

9. Nationwide uses December 31 as the measurement date.
10. The following table shows the assumed health care cost trend rates for postretirement benefits other than pension:

	2011	2010
Initial rate	8.50%	8.75%
Ultimate rate	5.00%	5.00%
Declining rate	14 years	15 years

11. As a result of the 2004 postretirement health plan change, the effect of a one percentage point change in the trend assumption on the accumulated postretirement benefit obligation (APBO) as a whole was not material as of December 31, 2011 and 2010 due to the plan caps.
12. The following table shows the asset allocation for the pension plan at the end of 2011 and 2010 by asset category:

13.	Target Allocation Percentage	Percentage of plan assets	
		2011	2010
Asset Category:			
Equity securities	19%	6%	19%
Debt securities	76%	81%	74%
Other	5%	13%	7%
Total	100%	100%	100%

The pension plans employ a total return investment approach whereby a mix of equities and fixed income investments are used to maximize the long-term return of plan assets for a prudent level of risk. Risk tolerance is established through careful consideration of plan liabilities, plan funded status, and corporate financial condition. Plan language requires investment of a portion of assets in a group annuity contract backed by fixed investments with an interest rate guarantee to match liabilities for specific classes of retirees. On a periodic basis, the portfolio is analyzed to establish the optimal mix of assets given current market conditions and risk tolerance. Derivatives may be utilized for management of market risk exposures when they provide a more efficient alternative to cash market transactions.

The following table shows the asset allocation for the postretirement benefit plan at the end of 2011 and 2010 by asset category:

	Target Allocation Percentage	Percentage of plan assets	
		2011	2010
Asset Category:			
Equity securities	40%	37%	56%
Debt securities	60%	63%	44%
Other	0%	0%	0%
Total	100%	100%	100%

The postretirement benefit plan employs a total return investment approach whereby a mix of equities and fixed income investments are used to maximize the long-term return of plan assets for a prudent level of risk. Risk tolerance is established through careful consideration of plan liabilities, plan funded status, and corporate financial condition. Plan investments for retiree life insurance benefits include a retiree life insurance contract issued by NLIC. Plan investments for retiree medical liabilities include both a group annuity contract issued by NLIC, backed by fixed investments with an interest rate guarantee, and a third-party trust. The investment mix is measured and monitored on an ongoing basis through regular investment reviews, annual liability measurements, and periodic asset/liability studies.

13. The following table shows benefits expected to be paid in each of the next five fiscal years and in the aggregate for the five fiscal years thereafter:

	Pension Benefits	Postretirement Benefits
2012	\$ 186,903,871	\$ 17,414,409
2013	189,405,599	17,870,018
2014	193,396,094	18,378,124
2015	196,880,412	18,956,610
2016	202,696,853	19,316,473
2017-2021	1,139,473,687	98,458,718

14. The Company expects to contribute \$14.2 million to the non-qualified pension plan and \$17.4 million to the postretirement benefit plan in 2012. The Company does not have a required minimum funding contribution for the NRP and as of this date, has not determined the amount of any contribution.
15. Plan assets are invested in a trust with The Bank of New York Mellon as the custodian and trustee and a group annuity contract issued by Nationwide Life Insurance Company.

## NOTES TO FINANCIAL STATEMENTS

### B. Defined Contribution Plans

The Company, together with other affiliated companies, participates in a defined contribution retirement savings plan (401(k) and PPP) covering substantially all employees. Employees make salary deferral contributions of up to 80%. Salary deferrals of up to 6% are subject to a 50% company match. The Company match is funded on a biweekly basis and the expense of such contributions are allocated to the Company based on employee contributions. For the Plan as a whole, the expense was \$57.7 million and \$57.6 million for 2011 and 2010, respectively. Individuals are subject to a dollar limit on salary deferrals per IRS Section 402(g) (\$16,500 in 2011 and 2010, respectively). Other limits also apply.

### C. Multiemployer Plans

Not applicable.

### D. Consolidated/Holding Company Plans

The Company, together with other affiliated companies, participates in non-qualified deferred compensation and defined benefit arrangements for certain employees and agents. Expenses are allocated to the Company based on individual participants. Total Plan liabilities for non-qualified deferred compensation plans were \$246.3 million and \$250.1 million on December 31, 2011 and December 31, 2010, respectively. Total Plan liabilities for non-qualified defined benefit plans were \$270.9 million and \$248.8 million on December 31, 2011 and December 31, 2010, respectively. Total expense related to the non-qualified benefit plans was \$17.3 million and \$17.1 million for years ended December 31, 2011 and 2010, respectively.

The ASCP is a non-qualified, unfunded deferred compensation program available to eligible agents. The designated agents covered by the ASCP are not employees of the Company, but they are independent contractors exclusively representing the Company in the sale of insurance and related products. Accordingly, the Company believes it is appropriate to apply the concepts of SSAP No. 89, *Accounting for Pensions, A Replacement of SSAP No. 8*, by analogy to the ASCP.

Total liabilities related to the ASCP were \$1,134.9 million and \$1,316.9 million at December 31, 2011 and 2010, respectively. Total expense recorded for this program was \$109.3 million and \$122.9 million for the years ended December 31, 2011 and 2010, respectively.

### E. Postemployment Benefits and Compensated Absences

Not applicable.

### F. Impact of Medicare Modernization Act on Postretirement Benefits

In 2004 the postretirement medical plan was amended to reflect the provisions of the Medicare Prescription Drug, Improvement and Modernization Act of 2003 (the Act), which was signed into law on December 8, 2003. The amendment integrates prescription drug benefits with the coverage provisions provided in the Act. The impact of the amendment is reflected in the accumulated postretirement benefit obligations beginning December 31, 2004. The one time expense impact of the Act was a \$2.0 million decrease for 2005.

## **Note 13 - Capital and Surplus, Dividend Restrictions and Quasi-Reorganizations**

### A. Outstanding Shares

The Company has 100,000 shares of \$200 par value common stock authorized and 30,136 issued and outstanding.

### B. Dividend Rate of Preferred Stock

Not applicable.

### C. Dividend Restrictions

The maximum amount of dividends which can be paid to shareholders by a State of Ohio domiciled insurance company without prior approval of the Director of Insurance is limited to, together with that of other dividends or distributions made within the preceding 12 months, the greater of either 10% of surplus as regards policyholders as of the preceding December 31, or the net income of the previous calendar year. Additionally, any dividend or distribution paid from other than earned surplus shall require prior approval of the Director of Insurance. Subject to applicable regulatory approval(s), dividends are paid as determined by the insurer's board of directors.

### D. Dividends Paid

No dividends were paid by the Company during 2011 and 2010.

### E. Profits Available for Ordinary Dividends

Within the limitations of (C) above, there are no restrictions placed on the portion of Company profits that may be paid as ordinary dividends to shareholders.

### F. Restrictions on Surplus

There is no restriction on the use of the Company's unassigned surplus and such surplus is held for the benefit of the shareholder.

### G. Advances to Surplus Not Repaid

Not applicable.

### H. Stock Held by Company for Special Purposes

Not applicable.

### I. Changes in Special Surplus Funds

**Note 14 – Contingencies**

A. Contingent Commitments

The Company committed to adding additional capital or renegotiating the reinsurance agreement between itself and Veterinary Pet Insurance Company, or both, in order to maintain the capital and surplus of Veterinary Pet Services at or above the minimum requirements of the California Insurance Department of \$2.0 million.

The Company has settled certain losses with structured settlement agreements whereby the Company has purchased an annuity with the claimant as the payee. Certain of these annuities are without qualified assignments. The Company is contingently liable under the settlement agreements without qualified assignments if the annuity-issuing company is unable to meet the payment obligations to the Company's claimant under the settlement agreement.

B. Guaranty Fund and Other Assessments

The Company is subject to guaranty fund and other assessments by the states in which it writes business. Guaranty fund assessments should be accrued at the time of insolvencies. Other assessments should be accrued either at the time of assessments or in the case of premium based assessments, at the time the premiums are written. In the case of loss-based assessments, the assessments should be accrued at the time the losses are incurred.

As of December 31, 2011 and 2010, the Company accrued a liability for guaranty fund and other assessments of \$1.0 million and \$1.5 million and a related premium tax benefit asset of \$519 thousand and \$756 thousand, respectively. These represent management's best estimates based on information received from the states in which the Company writes business and may change due to many factors including the Company's share of the ultimate cost of current insolvencies.

## NOTES TO FINANCIAL STATEMENTS

### **Note 17 - Sale, Transfer and Servicing of Financial Assets and Extinguishments of Liabilities**

#### A. Transfers of Receivables Reported as Sales

Not applicable.

#### B. Transfers and Servicing of Financial Assets

1. There were no assets or liabilities obtained in transfers of financial assets where it was not practicable to estimate their fair value.
2. The Company has entered into a securities lending agreement with an agent bank whereby eligible securities may be loaned to third parties, primarily major brokerage firms. These transactions are used to generate additional income on the securities portfolio. Loaned securities continue to be reported as invested assets and the Company is entitled to receive any payments of interest or dividends paid on loaned securities. The agreement requires a minimum of 102% of the fair value of loaned securities to be held as collateral. Cash collateral received from borrowers is reflected as a "Payable for securities lending" on the "Statement of Liabilities, Surplus and Other Funds" while non-cash collateral is recorded off-balance sheet. Cash collateral received is reinvested by the agent bank in accordance with the Company's authorized investment policy and included in "Securities lending reinvested collateral assets" in the "Statement of Assets". If the fair value of the reinvested collateral assets is less than the fair value of the securities loaned, the shortfall is non-admitted. Because the borrower or the Company may terminate a securities lending transaction at any time, if loans are terminated in advance of the reinvested collateral asset maturities, the Company would repay its securities lending obligation from operating cash flows or the proceeds of sales from its investment portfolio, which includes significant liquid securities.

The fair value of loaned securities was \$14,513,036, at December 31, 2011. The Company does not hold any non-cash collateral for loaned securities as of December 31, 2011.

Reinvested collateral assets reported on Schedule DL are excluded from other statutory schedules and disclosures.

See Note 5 E. for additional information concerning securities lending.

3. No servicing assets or liabilities were recognized during the period.
4. There were no assets securitized during the period.
5. There were no retained interests since there were no securitized financial assets.
6. There were no transfers of receivables with recourse.

### **Note 20 – Fair Value Measurements**

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements are based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources while unobservable inputs reflect the Company's view of market assumptions in the absence of observable market information. The Company utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. In determining fair value, the Company uses various methods including market, income and cost approaches.

The Company categorizes its assets and liabilities measured and reported at fair value in the quarterly statement into a three-level hierarchy based on the priority of the inputs to the valuation technique. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure fair value fall within different levels of the hierarchy, the category level is based on the lowest priority level input that is significant to the fair value measurement of the instrument in its entirety.

The fair value hierarchy levels are as follows:

*Level 1.* Unadjusted quoted prices accessible in active markets for identical assets or liabilities at the measurement date.

*Level 2.* Unadjusted quoted prices for similar assets or liabilities in active markets or inputs (other than quoted prices) that are observable or that are derived principally from or corroborated by observable market data through correlation or other means.

*Level 3.* Prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. Inputs reflect management's best estimate about the assumptions market participants would use at the measurement date in pricing the asset or liability. Consideration is given to the risk inherent in both the method of valuation and the valuation inputs.

The Company periodically reviews its fair value hierarchy classifications for financial assets and liabilities. Changes in observability of significant valuation inputs identified during these reviews may trigger reclassifications. Reclassifications into/out of the fair value hierarchy levels are reported as transfers at the beginning of the period in which the change occurs.

ANNUAL STATEMENT FOR THE YEAR 2011 OF THE SCOTTSDALE INSURANCE COMPANY

NOTES TO FINANCIAL STATEMENTS

For bonds and marketable stocks for which market quotations are available, the Company generally uses independent pricing services to assist in determining the fair value measurement.

The Company’s investments in corporate debt securities, mortgage-backed securities and other asset-backed securities are valued with the assistance of independent pricing services and non-binding broker quotes. The Company’s policy is to give priority to pricing obtained from our primary independent pricing service. In the event that pricing information is not available from an independent pricing service, non-binding broker quotes are used to assist in the valuation of the investments. In many cases, only one broker quote is available. The Company’s policy is generally not to adjust the values obtained from brokers.

Broker quotes are considered unobservable inputs as only one broker quote is ordinarily obtained, the investment is not traded on an exchange, the pricing is not available to other entities and/or the transaction volume in the same or similar investments has decreased such that generally only one quotation is available. As the brokers often do not provide the necessary transparency into their quotes and methodologies, the Company periodically performs reviews and tests to ensure that quotes are a reasonable estimate of the investments fair value.

For investments valued with the assistance of independent pricing services, the Company obtains the pricing services’ methodologies, inputs and assumptions and classifies these investments accordingly in the fair value hierarchy. The Company periodically reviews and tests the pricing and related methodologies obtained from these independent pricing services against secondary sources to ensure that management can validate the investment’s fair value and related fair value hierarchy categorization. If large variances are observed between the price obtained from the independent pricing services and secondary sources, the Company analyzes the causes driving the variance.

For certain bonds not priced by independent services (e.g., private placement securities without quoted market prices) a corporate pricing matrix or internally developed pricing model is most often used. The corporate pricing matrix is developed using private spreads for corporate securities with varying weighted average lives and credit quality ratings. The weighted average life and credit quality rating of a bond to be priced using the corporate pricing matrix are important inputs into the model and are used to determine a corresponding spread that is added to the appropriate U.S. Treasury yield to create an estimated market yield for that security. The estimated market yield and other relevant factors are then used to estimate the fair value of the particular bond.

- G. Subprime Mortgage Related Risk Exposure

In general, recent market activity has negatively impacted the valuation of securities containing sub-prime collateral, which are classifications of investments in which the Company invests. The Company evaluates many characteristics when classifying collateral as sub-prime, including the credit quality of the borrower as defined by Fair Isaac Credit Organization (FICO) scores, as well as other factors, such as loan-to-value ratios and type of real estate.

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2011, all of the Company’s exposure to investments containing sub-prime collateral is isolated to the mortgage-backed and asset-backed securities. When making investments in mortgage-backed or asset-backed securities, the Company evaluates the quality of the underlying collateral, the structure of the transaction (which dictates how losses in the underlying collateral will be distributed) and prepayment risks.

As of December 31, 2011, the Company has no exposure to investments containing sub-prime collateral in any asset categorization.

Note 22 - Events Subsequent

Subsequent events have been considered through February 10, 2012 for these statutory financial statements which are to be issued February 15, 2012. There were no events occurring subsequent to the end of the year that merited recognition or disclosure in these statements.

Note 23 – Reinsurance

A. Unsecured Reinsurance Recoverables

The Company has unsecured aggregate reinsurance recoverable for paid and unpaid losses, loss adjustment expenses, and unearned premiums from individual reinsurers, authorized or unauthorized, that exceeds 3% of policyholders’ surplus in the amount of \$329,933. The amount is shown below by reinsurer.

ANNUAL STATEMENT FOR THE YEAR 2011 OF THE SCOTTSDALE INSURANCE COMPANY

NOTES TO FINANCIAL STATEMENTS

H. There was no transfer of any property and casualty run-off agreements requiring approval of regulators and qualifying under SSAP No. 62R, Property and Casualty Reinsurance, to receive property & casualty run-off accounting treatment.

Note 24 - Retrospectively Rated Contracts and Contracts Subject to Redetermination

A. Method Used to Estimate

The Company sells accident and health policies for which the premiums vary based on loss experience. Future premium adjustments for these retrospective policies are estimated and accrued. The Company estimates these accrued retrospective premium adjustments through the review of each individual retrospectively rated risk, comparing case basis loss development with that anticipated in the policy contracts to arrive at the best estimates of return or additional premiums.

B. Method Used to Record

The Company records retrospective premium accruals as earned by adjusting unearned premiums. These amounts are not recorded as premiums written until they are billed to the policyholders. Return premiums are recorded as liabilities and additional premiums are recorded as assets.

C. Amount and Percent of Net Retrospective Premiums

Net premiums written for the current year on retrospective accident and health policies were \$29,276, or 0.4% of accident and health premiums written.

D. Medical Loss Ratio Rebates

Not applicable.

E. Calculation of Nonadmitted Accrued Retrospective Premiums

Not applicable.

Totals	373,483	64,488	437,970	452,717	(14,746)	(16,663)	1,916

The estimated cost of loss and loss adjustment expenses attributable to insured events of prior years decreased by \$14.7 million (3.8% of prior year reserves) during 2011, as shown in the chart above. The redundancy was primarily associated with the homeowners/farmowners, commercial multiple peril and other liability lines of business. The favorable impacts are primarily due to improvements in underwriting/mix of business, claims process improvements, favorable development on weather/CAT claims, and the increased adequacy of case reserve levels.

Note 26 - Intercompany Pooling Arrangements

Effective January 1, 2011 the following companies became participants in a pooling reinsurance agreement with Mutual (NAIC # 23787) whereby Mutual retains 83.7% of the pool results: Nationwide Mutual Fire Insurance Company (NAIC # 23779), Scottsdale Insurance Company (NAIC # 41297), Farmland Mutual Insurance Company (NAIC # 13838), Nationwide General Insurance Company (NAIC # 23760), Nationwide Property & Casualty Insurance Company (NAIC # 37877), Nationwide Affinity Insurance Company of America (NAIC # 26093), Crestbrook Insurance Company (NAIC # 18961), Allied Insurance Company of America (NAIC # 10127), AMCO Insurance Company (NAIC # 19100), Allied Property & Casualty Insurance Company (NAIC # 42579), Depositors Insurance Company (NAIC # 42587), Nationwide Agribusiness Insurance Company (NAIC # 28223), Victoria Fire & Casualty Insurance Company (NAIC # 42889), Victoria Automobile Insurance Company (NAIC # 10644), Victoria Specialty Insurance Company (NAIC # 10777), Victoria Select Insurance Company (NAIC # 10105), and Victoria National Insurance Company (NAIC # 10778).

All lines of business are subject to the pooling agreement.

There are no discrepancies related to the pooled business between the assumed and ceded reinsurance schedules of the pool participants.

The following companies are covered under a 100% quota share reinsurance agreement with Mutual: Nationwide Assurance Company, Titan Insurance Company, Titan Indemnity Company, Nationwide Lloyds Insurance Company, Nationwide Insurance Company of America, National Casualty Company, and Colonial County Mutual Insurance Company. Mutual then cedes this business into the Nationwide Pool.

**Note 27 - Structured Settlements**

A. Reserves Released due to Purchases of Annuities

The Company has settled certain losses with structured settlement agreements whereby the Company has purchased an annuity with the claimant as the payee. Certain of these annuities are without qualified assignments. The Company is contingently liable under the settlement agreements without qualified assignments if the annuity-issuing company is unable to meet the payment obligations to the Company's claimant under the settlement agreement. The amortized value of the annuities under such agreements for direct losses as of December 31, 2011 and 2010 is \$6.0 million and \$6.5 million, respectively.

B. Annuity Insurers with Balances due Greater than 1% of Policyholders' Surplus

There were no annuity insurers with balances due greater than 1% of policyholders' surplus in 2011.

**Note 28 - Health Care Receivables**

A. Pharmaceutical Rebate Receivables

Not applicable.

B. Risk Sharing Receivables

Not applicable.

**Note 29 - Participating Policies**

Not applicable.

**Note 30 - Premium Deficiency Reserves**

The Company evaluated the need to record a premium deficiency reserve as of December 31, 2011 and determined there was no premium deficiency. This evaluation was completed on January 9, 2012. The Company does anticipate investment income when evaluating the need for premium deficiency reserves.

**Note 31 - High Deductibles**

Not applicable.

**Note 32 - Discounting of Liabilities for Unpaid Losses or Unpaid Loss Adjustment Expenses**

The Company discounts the liabilities for unpaid losses and loss expenses for long-term accident and health claims. The Company does not discount incurred but not reported (IBNR). Different companies service our long-term accident and health unpaid disability claims and supply the reserves and tabular discount; thus, different methodologies have been utilized. The Company does not have any non-tabular discount.

A. Tabular Discounts

1. 1987 Commissioner's Group Disability Table (CGDT)
2. For the 1987 CGDT, rate used was the maximum interest rate permitted by law in the valuation of a single premium immediate annuity issued on the same date as the claim incurral date, reduced by one hundred basis points (rates used vary from 4.00% to 10.25%).
3. The December 31, 2011 liabilities include \$36,289 of such discounted reserves.
4. The amount of tabular interest discount for Other (including Credit, Accident and Health) is \$24,877.

B. Non-Tabular Discounts

The Company does not have any non-tabular discount.

C. Changes in Discount Assumptions

Not applicable.

NOTES TO FINANCIAL STATEMENTS

Note 33 - Asbestos/Environmental Reserves

A. The Company has exposure to asbestos and environmental claims through either the direct issuance of general liability policies or through reinsurance assumptions. The Company estimates the full impact of its asbestos and environmental exposure by establishing case reserves when sufficient information has been developed to indicate the involvement of a specific insurance policy. In addition, incurred but not reported reserves have been established to cover additional exposures on both known and unasserted claims, primarily utilizing historical information.

This schedule includes all loss segments that now reside in the Company. The Company's asbestos and environmental related losses for each of the five most recent calendar years were as follows:

Nationwide utilizes a third party to administrator its Securities Lending program. Securities are loaned to approved counterparties, who in turn post cash collateral to Nationwide. The amount of cash collateral received is calculated as a percentage of the market value of the security being lent. The cash is subsequently reinvested based upon a Nationwide approved Investment Policy. The collateral received by Nationwide and the corresponding payable to the counterparties are recorded on balance sheet. Additionally, Nationwide participates in a Cash Release Program. Nationwide can borrow a limited amount of cash from the program subject to the underwriting of the plan administrator. Nationwide pays 1 month LIBOR on the borrowings, a majority of which comes back to Nationwide as earnings on the securities lending program. As of December 31, 2011, Nationwide had loaned \$14,513,036 to approved counterparties and received collateral amounts of \$14,828,900.

GENERAL INTERROGATORIES

- 29.1 Does the reporting entity have any diversified mutual funds reported in Schedule D, Part 2 (diversified according to the Securities and Exchange Commission (SEC) in the Investment Company Act of 1940 [Section 5(b)(1)])?
- Yes [ ] No [ X ]
- 29.2 If yes, complete the following schedule:

1	2	3
CUSIP #	Name of Mutual Fund	Book/Adjusted Carrying Value
29.2999 - Total		

- 29.3 For each mutual fund listed in the table above, complete the following schedule:

1	2	3	4
Name of Mutual Fund (from above table)	Name of Significant Holding of the Mutual Fund	Amount of Mutual Fund's Book/Adjusted Carrying Value Attributable to the Holding	Date of Valuation

30. Provide the following information for all short-term and long-term bonds and all preferred stocks. Do not substitute amortized value or statement value for fair value.

	1	2	3
	Statement (Admitted) Value	Fair Value	Excess of Statement over Fair Value (-), or Fair Value over Statement (+)
30.1 Bonds	891,782,194	994,022,725	102,240,531
30.2 Preferred stocks			
30.3 Totals	891,782,194	994,022,725	102,240,531

- 30.4 Describe the sources or methods utilized in determining the fair values:
- For fixed maturity and marketable equity securities for which market quotations generally are available, Nationwide generally uses independent pricing services to assist in determining the fair value measurement. For certain fixed maturity securities not priced by independent services (generally private placement securities without quoted market prices), an internally developed pricing model or "corporate pricing matrix" is most often used. The corporate pricing matrix is developed by obtaining private spreads versus the U.S. Treasury yield for corporate securities with varying weighted average lives and bond ratings. The weighted average life and bond rating of a particular fixed maturity security to be priced using the corporate matrix are important inputs into the model and are used to determine a corresponding spread that is added to the U.S. Treasury yield to create an estimated market yield for that bond. The estimated market yield and other relevant factors are then used to estimate the fair value of the particular fixed maturity security. Nationwide also utilized broker quotes to assist in pricing securities or to validate modeled prices.

- 31.1 Was the rate used to calculate fair value determined by a broker or custodian for any of the securities in Schedule D?
- Yes [ X ] No [ ]
- 31.2 If the answer to 31.1 is yes, does the reporting entity have a copy of the broker's or custodian's pricing policy (hard copy or electronic copy) for all brokers or custodians used as a pricing source?
- Yes [ ] No [ X ]
- 31.3 If the answer to 31.2 is no, describe the reporting entity's process for determining a reliable pricing source for purposes of disclosure of fair value for Schedule D:
- Nationwide relies on broker valuations only when an approved third party vendor evaluation is not available. Any exceptions are approved by Risk Management and the Middle Office and reviewed by the Investments Pricing Committee. The brokers used to value securities are deemed to be main market makers for each individual security and therefore have in depth knowledge of the particular issue.
- 32.1 Have all the filing requirements of the Purposes and Procedures Manual of the NAIC Securities Valuation Office been followed?
- Yes [ X ] No [ ]
- 32.2 If no, list exceptions:

GENERAL INTERROGATORIES

PART 2 - PROPERTY AND CASUALTY INTERROGATORIES

6.1

What provision has this reporting entity made to protect itself from an excessive loss in the event of a catastrophe under a workers' compensation contract issued without limit of loss?  
The Company's net exposure arises from its participation in the Nationwide Mutual Insurance Company Pool. Exposure of the Pooled Companies to a Workers' Compensation catastrophe is protected by a Liability Excess of Loss (Clash) treaty providing \$90M limit excess of \$10M per occurrence retention and containing a \$10M per claimant limit.

6.2

Describe the method used to estimate this reporting entity's probable maximum insurance loss, and identify the type of insured exposures comprising that probable maximum loss, the locations of concentrations of those exposures and the external resources (such as consulting firms or computer software models), if any, used in the estimation process.  
The Company's net exposure arises from its participation in the Nationwide Mutual Insurance Company Pool. Catastrophic risk to the Pool arises primarily from windstorm events in the southeastern United States affecting personal and commercial lines. The Company's property exposures are aggregated with the other Nationwide companies and modeled using Applied Insurance Research (AIR) CLASIC/2.

6.3

What provision has this reporting entity made (such as a catastrophic reinsurance program) to protect itself from an excessive loss arising from the types and concentrations of insured exposures comprising its probable maximum property insurance loss?  
The Company's net property-catastrophe exposures, if any, are mitigated through managed coastal growth, purchase of excess of loss reinsurance, policy provisions such as higher deductibles, and enforcement of underwriting guidelines related to building construction, etc.

6.4

Does the reporting entity carry catastrophe reinsurance protection for at least one reinstatement, in an amount sufficient to cover its estimated probable maximum loss attributable to a single loss event or occurrence?

Yes ☒ No ☐

6.5

If no, describe any arrangements or mechanisms employed by the reporting entity to supplement its catastrophe reinsurance program or to hedge its exposure to uninsured catastrophic loss.

7.1

Has this reporting entity reinsured any risk with any other entity under a quota share reinsurance contract that includes a provision that would limit the reinsurer's losses below the stated quota share percentage (e.g., a deductible, a loss ratio corridor, a loss ratio cap, an aggregate limit or any similar provisions)?

Yes ☒ No ☐

7.2

If yes, indicate the number of reinsurance contracts containing such provisions:

1

7.3

If yes, does the amount of reinsurance credit taken reflect the reduction in quota share coverage caused by any applicable limiting provision(s)?

Yes ☒ No ☐

8.1

Has this reporting entity reinsured any risk with any other entity and agreed to release such entity from liability, in whole or in part, from any loss that may occur on this risk, or portion thereof, reinsured?

Yes ☐ No ☒

8.2

If yes, give full information

9.1

Has the reporting entity ceded any risk under any reinsurance contract (or under multiple contracts with the same reinsurer or its affiliates) for which during the period covered by the statement: (i) it recorded a positive or negative underwriting result greater than 5% of prior year-end surplus as regards policyholders or it reported calendar year written premium ceded or year-end loss and loss expense reserves ceded greater than 5% of prior year-end surplus as regards policyholders; (ii) it accounted for that contract as reinsurance and not as a deposit; and (iii) the contract(s) contain one or more of the following features or other features that would have similar results:  
(a) A contract term longer than two years and the contract is noncancellable by the reporting entity during the contract term;  
(b) A limited or conditional cancellation provision under which cancellation triggers an obligation by the reporting entity, or an affiliate of the reporting entity, to enter into a new reinsurance contract with the reinsurer, or an affiliate of the reinsurer;  
(c) Aggregate stop loss reinsurance coverage;  
(d) A unilateral right by either party (or both parties) to commute the reinsurance contract, whether conditional or not, except for such provisions which are only triggered by a decline in the credit status of the other party;  
(e) A provision permitting reporting of losses, or payment of losses, less frequently than on a quarterly basis (unless there is no activity during the period); or  
(f) Payment schedule, accumulating retentions from multiple years or any features inherently designed to delay timing of the reimbursement to the ceding entity.

Yes ☐ No ☒

9.2

Has the reporting entity during the period covered by the statement ceded any risk under any reinsurance contract (or under multiple contracts with the same reinsurer or its affiliates), for which, during the period covered by the statement, it recorded a positive or negative underwriting result greater than 5% of prior year-end surplus as regards policyholders or it reported calendar year written premium ceded or year-end loss and loss expense reserves ceded greater than 5% of prior year-end surplus as regards policyholders; excluding cessions to approved pooling arrangements or to captive insurance companies that are directly or indirectly controlling, controlled by, or under common control with (i) one or more unaffiliated policyholders of the reporting entity, or (ii) an association of which one or more unaffiliated policyholders of the reporting entity is a member where:  
(a) The written premium ceded to the reinsurer by the reporting entity or its affiliates represents fifty percent (50%) or more of the entire direct and assumed premium written by the reinsurer based on its most recently available financial statement; or  
(b) Twenty-five percent (25%) or more of the written premium ceded to the reinsurer has been retroceded back to the reporting entity or its affiliates in a separate reinsurance contract.

Yes ☐ No ☒

9.3

If yes to 9.1 or 9.2, please provide the following information in the Reinsurance Summary Supplemental Filing for General Interrogatory 9:  
(a) The aggregate financial statement impact gross of all such ceded reinsurance contracts on the balance sheet and statement of income;  
(b) A summary of the reinsurance contract terms and indicate whether it applies to the contracts meeting the criteria in 9.1 or 9.2; and  
(c) A brief discussion of management's principle objectives in entering into the reinsurance contract including the economic purpose to be achieved.

9.4

Except for transactions meeting the requirements of paragraph 32 of SSAP No. 62R, Property and Casualty Reinsurance, has the reporting entity ceded any risk under any reinsurance contract (or multiple contracts with the same reinsurer or its affiliates) during the period covered by the financial statement, and either:  
(a) Accounted for that contract as reinsurance (either prospective or retroactive) under statutory accounting principles ("SAP") and as a deposit under generally accepted accounting principles ("GAAP"); or  
(b) Accounted for that contract as reinsurance under GAAP and as a deposit under SAP?

Yes ☐ No ☒

9.5

If yes to 9.4, explain in the Reinsurance Summary Supplemental Filing for General Interrogatory 9 (Section D) why the contract(s) is treated differently for GAAP and SAP.

9.6

The reporting entity is exempt from the Reinsurance Attestation Supplement under one or more of the following criteria:  
(a) The entity does not utilize reinsurance; or,  
(b) The entity only engages in a 100% quota share contract with an affiliate and the affiliated or lead company has filed an attestation supplement; or  
(c) The entity has no external cessions and only participates in an intercompany pool and the affiliated or lead company has filed an attestation supplement.

Yes ☐ No ☒  
Yes ☐ No ☒  
Yes ☐ No ☒

10.

If the reporting entity has assumed risks from another entity, there should be charged on account of such reinsurances a reserve equal to that which the original entity would have been required to charge had it retained the risks. Has this been done?

Yes ☒ No ☐ N/A ☐

(L) Licensed or Chartered - Licensed Insurance Carrier or Domiciled RRG; (R) Registered - Non-domiciled RRGs; (Q) Qualified - Qualified or Accredited Reinsurer; (E) Eligible - Reporting Entities eligible or approved to write Surplus Lines in the state; (N) None of the above - Not allowed to write business in the state.

Explanation of basis of allocation of premiums by states, etc.  
Premiums are allocated to those states where the insured risks are located: principle garage for automobile, physical address for homeowners, commercial multiple peril and other liability and main place of work for workers' compensation. Allocation of premiums for individual and group health insurance is based on the situs of the contract.
