The Ohio Department recognizes only statutory accounting practices prescribed or permitted by the State of Ohio for determining and reporting the financial condition and results of operations of an insurance company, which include accounting practices and procedures adopted by the National Association of Insurance Commissioners' ("NAIC") *Accounting Practices and Procedures Manual* ("NAIC SAP"). The Company's net income and capital and surplus as stated on a NAIC SAP basis and on the basis of practices prescribed or permitted by the State of Ohio were the same as of and for the period ending March 31, 2012.

The Ohio Accounting Practices vary from U.S. generally accepted accounting principles ("GAAP"). The primary differences include:

- Certain assets, designated as nonadmitted assets (other receivables, which are nonadmitted in accordance with SSAP No. 4, *Assets and Nonadmitted Assets*) are not recorded as assets, but are charged to surplus. Assets having economic value other than those which can be used to fulfill policyholder obligations, or those assets which are unavailable due to encumbrances or other third party interests should not be recognized on the balance sheet, and are, therefore, considered nonadmitted;
- Bonds are recorded at amortized cost except for those with an NAIC designation of 3 through 6, which are reported at the lower of amortized cost or fair value. Therefore, changes in unrealized gains and losses for those securities held at amortized cost are not reflected in the financial statements. Under GAAP, bonds classified as available for sale are recorded at fair value, and related changes in unrealized gains and losses are recorded as a component of equity, net of deferred Federal income taxes; and
- Deferred tax assets and liabilities are determined and admitted in accordance with SSAP 101, *Income Taxes, A Replacement of SSAP No. 10R and SSAP No. 10* ("SSAP 101"). Changes in net deferred tax assets and liabilities are reflected as changes in surplus. Under GAAP, changes in such assets and liabilities are reflected in net income.

B. Use of estimates in the preparation of the financial statements

The preparation of these financial statements in conformity with Ohio Accounting Practices requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and revenues and expenses. Actual results could differ from those estimates.

C. Significant accounting policies

The Company applies the following significant accounting policies:

(1) Cash, cash equivalents and short-term investments

Cash and cash equivalents include all highly liquid instruments readily convertible to cash with a maturity of three months or less from the date of purchase. Short-term investments primarily consist of investments purchased with an original maturity of one year or less. The carrying amounts of cash and cash equivalents and short-term investments reported in the accompanying Statutory Statements of Assets approximate fair value.

(2) Bonds

Bonds, which include special deposits as discussed more fully in Note 4, are carried at amortized cost except for those bonds with an NAIC designation of 3 through 6 which are reported at the lower of amortized cost or fair value. The amount reported at fair value is not material to the financial statements. Bond premiums and discounts are amortized using the scientific interest method. When quoted prices in active markets for identical assets are available, the Company uses these quoted market prices to determine the fair value of bonds. This is used primarily for U.S. government securities. In other cases where a quoted market price for identical assets in an active market is either not available or not observable, the Company estimates fair values using valuation methodologies based on available and observable market information or by using a matrix pricing model. If quoted market prices are not available, the Company determines fair value using broker quotes or an internal analysis of each investment's financial performance and cash flow projections. The Company had no investments where fair value was determined using broker quotes or an internal analysis of financial performance and cash flow projections. Bonds include all investments whose maturity is greater than one year when purchased.

The Company periodically reviews its bonds to determine whether a decline in fair value below the carrying value is other-than temporary. For bonds, other than loan-backed and structured securities, an other-than-temporary impairment ("OTTI") shall be recorded if it is probable that the Company will be unable to collect all amounts due according to the contractual terms in effect at the date of acquisition. Yield-related impairments are deemed other-than-temporary when the Company intends to sell an investment at the reporting date before recovery of the cost of the investment. Declines deemed to be OTTI are recognized as realized capital losses.

The Company analyzes all relevant facts and circumstances for each investment when performing its analysis to determine whether an OTTI impairment exists. Among the factors considered in evaluating whether a decline is other-than-temporary, management considers whether the decline in fair value results from a change in the quality of the investment security itself, whether the decline results from a downward movement in the market as a whole, the prospects for realizing the carrying value of the bond based on the investee's current and short-term prospects for recovery and other factors. The risks inherent in assessing the impairment of an investment include the risk that market factors may differ from our expectations and the risk that facts and circumstances factored into our assessment may change with the passage of time. Unexpected changes to market factors and circumstances that were not present in past reporting periods may result in a current period decision to sell securities that were not other-than-temporarily impaired in prior reporting periods.

- (3) The Company did not own any common stock at March 31, 2012.
- (4) The Company did not own any preferred stock at March 31, 2012.
- (5) The Company did not have any mortgage loans at March 31, 2012.

(6) Securities lending

The Company engages in securities lending by lending certain debt securities from its investment portfolio to other institutions for short periods of time. Borrowers must post cash collateral in the amount of 102% to 105% of the fair value of the loaned securities. The fair value of the loaned securities is monitored on a daily basis, with additional collateral obtained or refunded as the fair value of the loan securities fluctuate. The collateral is retained and invested by a lending agent according to the Company's guidelines to generate additional investment income for the Company. Pursuant to SSAP No. 91R Revised, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities* ("SSAP 91R"), if the collateral received from a counterparty is less than 100 percent at the reporting date, the difference between the actual collateral and 100 percent is nonadmitted. Collateral value is measured and compared to the loaned securities in aggregate by counterparty.

The Company did not have any loaned securities at March 31, 2012.

- (7) The Company did not have any investments in any subsidiaries or affiliated companies at March 31, 2012.
- (8) The Company did not have any investments in any joint ventures, partnerships and limited liability companies at March 31, 2012.
- (9) The Company did not have any derivatives at March 31, 2012.
- (10) Aggregate health policy reserves and related expenses

Premium deficiency reserves ("PDR") are recognized when it is probable that the expected future hospital and medical costs, including maintenance costs, will exceed anticipated future premiums and reinsurance recoveries on existing contracts. Anticipated investment income is considered in the calculation of any PDR. For purposes of calculating a PDR, contracts are grouped in manner consistent with the method of acquiring, servicing and measuring the profitability of such contracts. The Company had no PDR at March 31, 2012.

Unearned premium reserves ("UEP") are recognized for premiums that are recorded by the Company that have not been earned as of the statement date. The Company had no UEP at March 31, 2012.

(11) Hospital and medical costs and claims adjustment expenses and related reserves

Hospital and medical costs consist principally of fee-for-service medical claims and capitation costs. Claims unpaid include the Company's estimate of payments to be made on claims reported but not yet paid and for health care services rendered to enrollees but not yet reported to the Company as of the Statutory Statements of Assets, Liabilities, Capital and Surplus date. Such estimates are developed using actuarial principles and assumptions, which consider, among other things, historical and projected claim submission and processing patterns, medical cost trends, historical utilization of health care services, claim inventory levels, changes in membership and product mix, seasonality and other relevant factors. The Company reflects changes in estimates in hospital and medical costs in the Statutory

Statements of Revenue and Expenses in the period they are determined. Capitation costs, which are recorded in hospital and medical expenses in the Statutory Statements of Revenue and Expenses, represent contractual monthly fees paid to participating physicians and other medical providers for providing medical care, regardless of the medical services provided to the enrollee.

The Company uses the triangulation method to estimate reserves for claims incurred but not reported. The method of triangulation makes estimates of completion factors which are then applied to the total paid claims (net of coordination of benefits) to date for each incurral month. This provides an estimate of the total projected incurred claims and total amount outstanding or claims incurred but not reported (claims unpaid). For the most current dates of service where there is insufficient paid claim data to rely solely on the triangulation method, the Company examines cost and utilization trends as well as environmental factors, plan changes, provider contracts, changes in membership and/or benefits, and historical seasonal patterns to estimate the reserve required for these months.

Claims adjustment expenses, which include cost containment expenses, represent the costs incurred related to the claim settlement process such as costs to record, process and adjust claims. These expenses are included in the Company's management agreement with an affiliate described in Note 10.

(12) The Company did not modify its capitalization policy from the prior period.

(13) Pharmaceutical rebate receivables

The Company estimates pharmaceutical rebate receivables based upon historical payment trends, actual utilization and other variables. Pharmaceutical rebates for a quarter are billed to the vendor within one month of the completion of the quarter with any adjustment to previously recorded amounts reflected at the time of billing. The Company reports pharmaceutical rebates receivables as health care receivables. Pharmacy rebates over 90 days past due are nonadmitted.

(14) Premiums and amounts due and unpaid

Premium revenue for prepaid health care products is recognized as income in the month in which enrollees are entitled to health care services.

Nonadmitted amounts consist of all premiums due and unpaid greater than 90 days past due, with the exception of amounts due under government insured plans, which may be admitted assets under certain circumstances.

The Company did not have any premiums or amounts due and unpaid at March 31, 2012.

(15) Covered and uncovered expenses and related liabilities

Covered expenses and related liabilities represent costs for health care expenses for which a member is not responsible in the event of the insolvency of the Company. Uncovered expenses and related liabilities represent costs to the Company for health care services that are the obligation of the Company and for which a member may also be liable in the event of the Company's insolvency.

(16) Federal income taxes

In accordance with a written tax sharing agreement with an affiliate, the Company's current Federal tax provisions are generally computed as if the Company were filing a separate Federal tax return; current income tax benefits, including those resulting from net operating losses, are recognized to the extent realized in the consolidated return. Pursuant to this agreement, the Company has the enforceable right to recoup Federal income taxes paid in prior years in the event of future net losses, which it may incur, or to recoup its net losses carried forward as an offset to future net income subject to Federal income taxes.

Deferred income tax assets ("DTAs") and liabilities ("DTLs") represent the expected future tax consequences of temporary differences generated by statutory accounting as defined in Statement of SSAP No. 101. DTAs and DTLs are computed by means of identifying temporary differences which are measured using a balance sheet approach whereby statutory and tax basis balance sheets are compared. Current income tax recoverables include all current income taxes, including interest, reasonably expected to be recovered in a subsequent accounting period.

SSAP 101 was adopted in 2011 and became authoritative guidance for accounting and reporting of income taxes beginning January 1, 2012. SSAP 101, (1) restricts the ability to use the 3 years/15 percent of surplus admission rule to those reporting entities that meet a new modified RBC ratio threshold, (2) changes the recognition threshold for recording tax contingency reserves from a probable liability standard to a more-likely-than-not liability standard, (3) requires the disclosure of tax planning strategies that relate to reinsurance and (4) requires consideration of reversal patterns of DTAs and DTLs in determining the extent to which DTLs could offset DTAs on the balance sheet.

NAIC SAP requires that DTAs can only be admitted through loss carrybacks to the extent that the Company paid or was allocated taxes as a separate legal entity. In addition, DTAs that the Company expects to realize within either one year or three years of the balance sheet date or during a timeframe corresponding with the IRC tax loss carryback provisions, not to exceed three years, on a separate legal entity basis cannot be admitted if the Company projects a tax loss, even if the loss could offset taxable income of other members in the consolidated group.

Changes in DTAs and DTLs are recognized as a separate component of changes in surplus ("Change in net deferred income tax") except to the extent allocated to changes in unrealized gains and losses and aggregate write-ins for special surplus funds. Changes in DTAs and DTLs allocated to unrealized gains and losses are netted against the related changes in unrealized gains and losses and are reported as "Change in net unrealized capital gains (losses)", also a separate component of gains and losses in surplus. Any increased amount of admitted assets and statutory surplus resulting from the election of paragraph (B) above (the additional deferred tax asset admitted amount) is reported separately as part of aggregate write-ins for special surplus funds in the Statutory Statements of Liabilities, Capital and Surplus and as aggregate write-ins for gains and losses in surplus in the Statutory Statements of Changes in Capital and Surplus.

	March 31, 2012	December 31, 2011	Change

	March 31, 2012	Effective tax rate	December 31, 2011	Effective tax rate
Provision computed as statutory rate	\$498	35.0%	\$620	35.0%
Total	\$498	35.0%	\$620	35.0%
Federal and foreign income tax (benefit) or expense incurred	\$498	35.0%	\$620	35.0%
Change in net deferred income taxes	-	-	-	-
Total statutory income taxes	\$498	35.0%	\$620	35.0%

The transfer pricing adjustment allows taxpayers to apply different methods to price current period intercompany services at arm's length prices as compared to what would be charged to an unrelated entity, which results in a permanent deduction for tax reporting purposes.

Litigation and regulatory proceedings

Aetna and its subsidiaries, including the Company, are involved in numerous other lawsuits arising, for the most part, in the ordinary course of their business operations, including employment litigation and claims of bad faith, medical malpractice, non-compliance with state and federal regulatory regimes, marketing misconduct, failure to timely or appropriately pay medical and/or group insurance claims (including post-payment audit and collection practices), rescission of insurance coverage, improper disclosure of personal information, patent infringement and other intellectual property litigation and other litigation in their health care and group insurance businesses. Some of these other lawsuits are or are purported to be class actions. Aetna and its subsidiaries, including the Company, intend to vigorously defend ourselves against the claims brought in these matters.

In addition, the current and past business practices of Aetna and its subsidiaries, including the Company, are subject to audit and review by, and from time to time they receive subpoenas and other requests for information from, various state insurance and health care regulatory authorities and attorneys general, the Office of the Inspector General, and other state and federal authorities. These reviews, subpoenas, and other requests include inquiries by, and testimony before, certain members, committees and subcommittees of the U.S. Congress regarding certain of their business practices, including our overall claims processing and payment practices, their business practices with respect to their small business customers (such as rating information, premium increases and medical benefit ratios), executive compensation matters and travel and entertainment expenses, in connection with their consideration of health care reform legislation, as well as the investigations by, and subpoenas and requests from, attorneys general and others with respect to an industry-wide investigation into certain payment practices with respect to out-of-network providers. There also continues to be heightened review by regulatory authorities of and increased litigation regarding the health care benefits industry's business and reporting practices, including utilization management, complaint and grievance processing, information privacy, provider network structure (including the use of performance-based networks), delegated arrangements, rescission of insurance coverage, limited benefit health products,

pharmacy benefit management practices and claim payment practices (including payments to out-of-network providers). As a leading national health care benefits company, Aetna and its subsidiaries, including the Company, regularly are the subject of such reviews. These reviews may result, and have resulted, in changes to or clarifications of the business practices of Aetna and its subsidiaries, including the Company, as well as fines, penalties or other sanctions.

The Company is unable to predict at this time the ultimate outcome of the matters described above, and it is reasonably possible that their outcome could be material to the Company.

(1) Minimum capital and surplus

Pursuant to the laws of Ohio, the Company is required to maintain admitted assets equal to 110% of the Company's liabilities with a minimum net worth equal to \$1,700,000.

The NAIC and the State of Ohio adopted RBC standards for health organizations, including HMOs, that are designed to identify weakly capitalized companies by comparing each company's adjusted capital and surplus to its required capital and surplus (the "RBC Ratio"). The RBC Ratio is designed to reflect the risk profile of the company. Within certain ratio ranges, regulators have increasing authority to take action as the RBC Ratio decreases. There are four levels of regulatory action, ranging from requiring insurers to submit a comprehensive plan to the state insurance commissioner to requiring the state insurance commissioner to place the insurer under regulatory control.

(2) Patient Protection and Affordable Care Act

In March 2010, President Obama signed into law the Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act of 2010 (collectively, "Health Care Reform"), which makes broad-based changes to the U.S. health care system which could significantly affect the U.S. economy and has and will significantly impact Aetna's business operations and financial results, including Aetna's pricing and medical benefit ratios. Health Care Reform presents Aetna with new business opportunities, but also with new financial and other challenges. It is reasonably possible that Health Care Reform, in the aggregate, could have a material adverse effect on Aetna's business operations and financial results. The Company continues to evaluate the provisions of Health Care Reform and the impact it will have on its business operations and financial results.

(3) Medicaid

Medicaid products are regulated by CMS, which has the right to audit our performance to determine compliance with CMS contracts and regulations. Medicaid products and State Children's Health Insurance Program ("SCHIP") contracts also are subject to federal and state regulations and oversight by state Medicaid agencies regarding the services we provide to Medicaid enrollees, payment for those services and other aspects of these programs, and by external review organizations which audit Medicaid plans on behalf of the state Medicaid agencies. The regulations and contractual requirements applicable to the Company and other participants in Medicaid programs are extensive, complex and subject to change. Aetna has invested significant resources to comply with these standards, and Aetna's Medicaid compliance efforts will continue to require significant resources. CMS and/or state Medicaid agencies may fine Aetna, seek premium refunds, elect not to award Aetna new contracts or renew existing contracts, prohibit Aetna from continuing to market and/or enroll members in one or more Medicaid products, exclude Aetna from participating in one or more Medicaid programs and/or institute other sanctions against us if Aetna fails to comply with CMS or state regulations or contractual requirements.
