NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Accounting Practices

The financial statements of Farmers Insurance of Columbus, Inc. ("the Company") are presented on the basis of accounting practices prescribed or permitted by the Insurance Department of the state of Ohio ("DOI").

The National Association of Insurance Commissioners ("NAIC") Accounting Practices and Procedures Manual (the "Codification"), version effective January 1, 2001 and subsequently amended ("NAIC SAP") has been adopted as a component of prescribed or permitted practices by the State. The Commissioner of Insurance has the right to permit other specific practices that deviate from prescribed practices. The Company did not utilize any permitted practices during the years presented.

2. ACCOUNTING CHANGES AND CORRECTION OF ERRORS

On November 6, 2011, SSAP No. 101, Income Taxes, a replacement of SSAP No.10R and SSAP No. 10, was adopted by the NAIC. SSAP No. 101 contains changes to accounting for current and deferred federal and foreign income taxes, which is effective on January 1, 2012. This guidance provides that the deferred tax asset admissibility would no longer be elective, and the reversal and surplus limitation parameters in the admissibility tests are determined based on risk-based capital levels. It also requires gross deferred tax assets to be reduced by a statutory valuation allowance if it is more likely than not that some portion or all of the gross deferred tax assets will not be realized. The cumulative effect of adopting this pronouncement is not expected to be material on the Company's financial statements at January 1, 2012. The cumulative effect of adopting SSAP NO. 101, if any, will be reported as a cumulative effect of changes in accounting principles on Page 4, Line 31.

20. FAIR VALUE MEASUREMENTS

A. Inputs Used For Assets Measured At Fair Value

(1) Fair Value Measurements by Levels 1, 2 and 3

The Company has categorized its assets that are measured at fair value into the three-level fair value hierarchy as reflected in the table below. (in thousands)

Level 1 - are liquid investments traded in active markets and valued based on unadjusted quoted prices. Assets in this category are preferred and common stock securities.

Level 2 - The securities that fall into this category are bonds, preferred stocks, common stocks and call options which are not exchange traded. These securities are valued based upon models with observable inputs - for example market interest rates, credit spreads etc. They may have been determined by independent pricing services using observable inputs.

Level 3 - are investments valued based upon models with "significant" non-observable inputs (assumptions). Such assumptions can be about loss severities, prepayment speed, interest rate volatilities, earnings forecast, comparables sales etc.

(3) Policy on Transfers In and Out of Level 3

At the end of each reporting period, the Company evaluates whether or not any event has occurred or circumstances have changed that would cause an investment to be transferred in or out of Level 3.

(4) Inputs and Techniques Used for Level 2 and Level 3 Fair Values

Bonds carried at fair value categorized as Level 2 were valued using a market approach. These valuations were determined to be Level 2 valuations as quoted markets prices for similar instruments in an active market were utilized. This was accomplished by the use of matrix pricing. Matrix pricing takes quoted prices of bonds with similar features that are inputs into the analysis included duration, credit quality, tax status and call and sinking fund features.

Bonds and/or Common stocks carried at fair value categorized as Level 3 were valued using unobservable inputs. These unobservable inputs reflect our own assumptions about the criteria that market participants would use in pricing these assets (including assumptions about risk). These assumptions were based on the best information available in the circumstances.

25. CHANGE IN INCURRED LOSSES AND LOSS ADJUSTMENT EXPENSES

Reserves for incurred losses and loss adjustment expenses attributable to insured events of prior years have decreased by \$1.4 million as of March 31, 2012, as a result of reestimation of unpaid losses and loss adjustment expenses principally on the homeowners, auto physical damage and workers compensation lines of insurance. This was partially offset by an increase in special property, commercial multiple peril and private passenger auto lines of insurance. This decrease is generally the result of ongoing analysis of recent loss development trends.
