NOTES TO FINANCIAL STATEMENTS

involve specifically identified claims events and other events incurred but not reported (IBNR). The Company also sets aside unallocated loss reserves for its primary insurance book of business so that aggregate loss reserves remain within an actuarially accepted range. Excess insurance claims events are infrequent (rare) but potentially severe and as a result, upon consultation with the Company's independent actuary, the Company provides annual loss reserve additions so that cumulative loss reserves are within an actuarially accepted range.

The Company provided specific loss reserves of approximately \$32.24 million during 2009 related to two Primary-insured credit unions in Nevada, one of which was acquired by another Primary-insured credit union through a purchase and assumption (P&A) transaction that resulted in a gross claim paid of \$8,000,000 under a secondary capital note transaction. The Company transferred \$7,290,000 and \$7,240,000 of guaranty loss reserves to an allowance for loss on the secondary capital note as of December 31, 2011 and as of December 31, 2010, respectively (\$7,290,000 as of June 30, 2012). The Company had also provided \$24.6 million in the reserve for guaranty losses account at December 31, 2009 for estimated losses on a second troubled Nevada credit union. The Company determined its estimated loss at the time on this credit union through an analysis of potential losses under different events that may transpire during the workout period for this credit union, including capital assistance, merger/P&A with guarantees, liquidation and financial and operational recovery by the credit union, and the likelihood of occurrence of each identified event.

On February 12, 2010, the Company provided capital assistance to a troubled Nevada credit union, through an advance of \$22,000,000 under an SRI and an SAA as amended effective March 3, 2011 by SRI-1 and the Amended SAA, which primarily provided for a five-year recovery and repayment plan through February 25, 2015 as described further below. The SRI and SRI-1 is collectively referred to herein as the SRI-1. On December 21, 2011, the Company supplemented its previously provided capital assistance with an additional \$4.4 million under a Second Amended SAA and SRI-2 for \$4.4 million based on the credit union's financial and operational progress through 2011, providing the credit union with sufficient resources to continue its recovery. The Amended SAA, Second Amended SAA, SRI-1 and SRI-2 establish a plan to restore the credit union's regulatory net worth and set a course for financial recovery by the credit union. The funds advanced to the credit union under the SRI-1 and SRI-2 are permitted to be included in regulatory net worth by the credit union's Nevada regulatory authority and the Company's rights to any repayment under the SRI-1 and SRI-2 are subordinated to the claims of the credit union's members and creditors. The Amended SAA and Second Amended SAA requires that the credit union comply with and operate within certain parameters designed to assist the credit union. These agreements also required that the credit union develop and implement a Restructuring Plan of Action for 2010 and 2011, including annual updates to the Restructuring Plan for 2012 and subsequent years (Restructuring Plan), designed to enhance revenues, reduce operating costs and implement new loan collections and other procedures in order to allow the credit union to stabilize operations, return to profitability and to rebuild its net capital over time.

Under the original terms and conditions of the SRI, the credit union was required to repay the funds advanced plus interest at 3.25% per annum. The repayment by the credit union of the principal funds advanced to it by the Company was due August 11, 2010 under the original terms of the SRI and SAA. However, as a result of the credit union's improving financial trends under the Restructuring Plan, the SRI and SAA were extended by the Company on a monthly basis, through March 3, 2011, while the parties negotiated a longer-term extension, which became effective March 3, 2011, under the SRI-1 and Amended SAA.

The SRI-1 and Amended SAA divide the SRI into ten sub-instruments of \$2.2 million each plus interest and the maturity date is extended to February 25, 2015 (with maturities for the ten \$2.2 million sub-instruments beginning February 12, 2015). The SRI-1 also provides for a reduction in the interest rate under the SRI from 3.25% per annum to the two-year US Treasury rate (0.79% effective March 3, 2011) adjusted annually on March 3 of each anniversary of SRI-1 (0.31% effective March 3, 2012), and requires repayments against the capital assistance and interest under the SRI-1 to be made to the Company by the credit union, when the credit union's regulatory net worth exceeds 6.0% of total assets. The SRI-2 is structured similarly to SRI-1, with two sub-instruments of \$2.2 million each plus interest at the two-year US Treasury rate (0.28% effective December 21, 2011) adjusted annually on December 21 of each anniversary of SRI-2, and with maturities for the two \$2.2 million sub-instruments on December 30, 2016 and December 31, 2016. Both SRI-1 and SRI-2 require that accrued and unpaid interest at each annual interest adjustment date be capitalized into the principal balance commencing on March 3, 2011 for SRI-1 and December 21, 2012 for SRI-2. Capitalized interest for SRI-1 was \$930,479 and \$750,260 at June 30, 2012 and December 31, 2011, respectively (none at December 31, 2010). No interest has been capitalized for SRI-2 at June 30, 2012.

The Company has evaluated the ultimate collectability of SRI-1 and SRI-2, based on various factors including the long-term workout period required before the credit union will be in a position to begin repayment of SRI-1 and SRI-2 and interest thereon. As a result, in 2010, the Company transferred \$22,000,000 of guaranty loss reserves into an allowance for loss account, fully reserving the entire outstanding balance of the SRI-1 as of December 31, 2010. At December 31, 2011, the balance of SRI-1 of \$22,750,260, including capitalized interest, continued to be fully reserved. In 2011, the Company transferred \$4,400,000 of guaranty loss reserves into an allowance for loss account, fully reserving the entire outstanding balance of the SRI-2 as of December 31, 2011.

At June 30, 2012 and December 31, 2011, the Company has also fully reserved \$29,885 and \$150,061, respectively, of accrued interest due to the Company under the SRI-1 and SRI-2 that have not been capitalized into the balances outstanding for SRI-1 and SRI-2 as of those dates.

Although the Company does not normally charge a premium under its primary insurance program, the Company's governing Ohio statute and its primary insurance policy permit premiums to be assessed against Primary-insureds in order to ensure that the Company maintains a sufficient equity base for its insurance risk. As a result of escalating risks identified in the state of Nevada in 2009, as discussed above, the Company billed its Primary-insureds a first time ever special premium assessment of \$0.15 per \$100 of each Primary-insured's total shares on December 31, 2009. This special premium assessment generated approximately \$15.2 million of revenues in 2009 but was not collected until 2010, to partially offset the primary insurance losses of over \$32 million discussed above.

On September 30, 2010, the Company again billed its Primary-insureds a special premium assessment of \$0.15 per \$100 of each Primary-insured's total shares. The special premium assessment generated approximately \$16.2 million of revenues in 2010.

On September 30, 2011, the Company billed its Primary-insureds a third special premium assessment of \$0.15 per \$100 of each Primary-insured's total shares. The special premium assessment generated approximately \$16.4 million of revenues in 2011. It is anticipated that a special premium assessment will be charged in 2012; however, the amount has not yet been determined.

Since the Company has no specific excess insurance loss events identified at June 30, 2012, for which a loss reserve would normally be established, all of the Company's loss reserves related to excess insurance and its unallocated primary insurance loss reserves are treated as unallocated IBNR loss reserves. For purposes of Schedule P, in any given year the cumulative unallocated IBNR loss reserves held are considered to have occurred as follows: (1) 60% in current year; (2) 30% in the previous year; and (3) 10% in the second previous year and have been allocated as such in Schedule P, which is comparable to methods used by other insurance

30. Premium Deficiency Reserves

The Company provides deposit insurance to participating credit unions under the Company's primary and excess contracts. Under the primary insurance contract, a deposit of 1.3% of the member's year-end share balance is required. These capitalization deposits are non-interest bearing and the investment earnings therefrom are used to fund the Company's deposit insurance programs in lieu of a normal premium charge. Special Premium Assessments may be charged from time to time against insured credit unions to fund claims activity during unusual times, such as the past two years, in order to maintain the insurance fund at a regulatory acceptable primary insurance equity ratio (currently the equity ratio is approximately 1.55% of primary insurance fund equity to primary insured shares). Even so, the deposits for the primary and excess deposit contracts are at-risk to the insured credit unions and ultimately can act as a reserve that is available to pay claims if needed. The aggregate of capitalization deposits that are available to pay claims are \$148,621,924 at June 30, 2012. Therefore the Company has determined there is not a need for a premium deficiency reserve and none has been recorded at June 30, 2012. This evaluation was completed on August 2, 2012. The Company considers investment income when evaluating the need for premium deficiency reserves.
