NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Accounting Practices

Basis of Presentation

The accompanying statutory basis financial statements have been prepared on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance (“ODI”). ODI adopted National Association of Insurance Commissioners’ (“NAIC”) “Accounting Practices and Procedures Manual” (“NAIC SAP”) as the basis of its statutory accounting practices. Prescribed statutory accounting practices include state laws, regulations and general administrative rules, as well as a variety of publications of the NAIC. There are no differences between the company’s capital, surplus and net income (loss) calculated in accordance with ODI and NAIC SAP for the year ended June 30, 2012.

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in accordance with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of admitted assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses for each reporting period. Actual results could differ from those estimates.

C. Accounting Policy

Dental premiums are earned ratably over the terms of the related insurance policies.

In addition, the Company uses the following accounting policies:

1. Short-term investments are stated at amortized cost.
2. The Company's investments in fixed maturity securities are valued using prices provided by third party pricing vendors. The pricing vendors determine the prices using market inputs, including benchmark yields, reported trades, broker-dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers and reference data. Bonds are stated at amortized cost using the interest method.

11. The estimate for incurred but not reported dental claims is based on actuarial projections of costs using historical claims paid data. Estimates are continually monitored and reviewed and, as settlements are made or estimates adjusted, differences are reflected in current operations. Such estimates are subject to the impact of changes in the regulatory environment and economic conditions. Given the inherent nature of such estimates, the actual liability could differ significantly from the amounts provided. Actual future experience will generally differ from assumptions used to determine claim liabilities.
