B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Premiums are earned over the terms of the related insurance policies. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by pro rata methods for direct business.

Expenses incurred in connection with acquiring new insurance business, including such acquisition costs as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

2. Accounting Changes and Corrections of Errors:

On November 6, 2011, SSAP No. 101, Income Taxes, A Replacement of SSAP No. 10R and SSAP No. 10, was adopted by the NAIC. SSAP No. 101 contains changes to accounting for current and deferred federal and foreign income taxes, effective January 1, 2012. This guidance provides that the deferred tax asset admissibility guidance is no longer elective, and the reversal and surplus limitation parameters in the admissibility test are determined based on the risk-based capital level. It also requires gross deferred tax assets to be reduced by a statutory valuation allowance if it is more likely than not that some portion or all of the gross deferred tax assets will not be realized. Finally, the guidance set a more likely than not threshold for the recording of contingent tax liabilities. The cumulative effect of adopting this pronouncement is \$242,954.

The following summarizes the impact of the adoption (000's omitted).
