- (5) The Company reviews all loan-backed and structured securities in which the fair value of the given security is less than the amortized cost to determine if a given security is other-than-temporarily impaired. The Company examines characteristics of the underlying collateral, such as delinquency and default rates, the quality of the underlying borrower, the type of collateral in the pool, the vintage year of the collateral, subordination levels within the structure of the collateral pool, the quality of any credit guarantors, to determine the cash flows expected to be received for the security.

If the severity and duration of the security's unrealized loss indicates a risk of an other-than-temporary impairment, then the Company will evaluate if the amortized cost basis of the security will be recovered by comparing the present value of the cash flows expected to be received for the given security with the amortized cost basis of the security. If the present value of cash flows is greater than the amortized cost basis of a security then the security is deemed not to be other-than-temporarily impaired.

*Legal and Regulatory Matters*

The Company is a subject to legal and regulatory proceedings in the ordinary course of its business. The Company's legal and regulatory matters include proceedings specific to the Company and other proceedings generally applicable to business practices in the industries in which the Company operates. These matters are subject to many uncertainties, and given their complexity and scope, their outcomes cannot be predicted. Regulatory proceedings also could affect the outcome of one or more of the Company's litigations matters. Furthermore, it is often not possible to determine the ultimate outcomes of the pending regulatory investigations and legal proceedings or to provide reasonable ranges of potential losses with any degree of certainty. Some matters, including certain of those referred to below, are in very preliminary stages, and the Company does not have sufficient information to make an assessment of the plaintiffs' claims for liability or damages. In some of the cases seeking to be certified as class actions, the court has not yet decided whether a class will be certified or (in the event of certification) the size of the class and class period. In many of the cases, the plaintiffs are seeking undefined amounts of damages or other relief, including punitive damages and equitable remedies, which are difficult to quantify and cannot be defined based on the information currently available. The Company believes, however, that based on currently known information, the ultimate outcome of all pending legal and regulatory matters is not likely to have a material adverse effect on the Company's financial position. Nonetheless, given the large or indeterminate amounts sought in certain of these matters and the inherent unpredictability of litigation, it is possible that such outcomes could materially affect the Company's financial position or results of operations in a particular quarter or annual period.

## STATEMENT AS OF JUNE 30, 2012 OF THE NATIONWIDE LIFE INSURANCE COMPANY

The various businesses conducted by the Company are subject to oversight by numerous federal and state regulatory entities, including but not limited to the Securities and Exchange Commission, the Financial Industry Regulatory Authority, the department of Labor, the Internal Revenue Service (IRS) and state insurance authorities. Such regulatory entities may, in the normal course, be engaged in general or targeted inquiries, examinations and investigations of the Company and/or its affiliates. The financial services industry has been the subject of increasing scrutiny in connection with a broad spectrum of regulatory issues; with respect to all such scrutiny directed at the Company and/or its affiliates, the Company is cooperating with regulators. The Company will cooperate with nationwide Mutual Insurance Company (NMIC) insofar as any inquiry, examination or investigation encompasses NMIC's operations.

Several jurisdictions are auditing NLIC for compliance with unclaimed property laws. Additionally, NLIC has received regulatory inquiries and is involved in a multi-state market conduct exam related to the claims-payment practices and compliance with unclaimed property laws. On July 5, 2011, NLIC, and 172 other insurers, received an information request from the New York Department of Financial Services, requiring insurers to use the Death Master File database to determine if payments were owed; to locate beneficiaries; to make payments; and to provide the New York Department of Financial Services with results of these searches. The Minnesota Department of Commerce and Minnesota Attorney General have also inquired about NLIC's compliance with its unclaimed property law. Other jurisdictions may pursue similar investigations, examinations or inquiries. The results of these investigations, examinations or inquiries could result in the payment or escheatment of unclaimed death benefits, and/or changes in the Company's practices and procedures to its claims handling and escheat processes, all of which could impact claim payments and reserves and/or result in payment of investigation costs, fines or penalties.

On November 20, 2007, Nationwide Retirement Solutions, Inc. (NRS) and NLIC were named in a lawsuit filed in the Circuit Court of Jefferson County, Alabama entitled *Ruth A. Gwin and Sandra H. Turner, and a class of similarly situated individuals v. Nationwide Life Insurance Company, Nationwide Retirement Solutions, Inc., Alabama State Employees Association, PEBCO, Inc. and Fictitious Defendants A to Z*. On March 12, 2010, NRS and NLIC were named in a Second Amended Class Action Complaint filed in the Circuit Court of Jefferson County, Alabama entitled *Steven E. Coker, Sandra H. Turner, David N. Lichtenstein and a class of similarly situated individuals v. Nationwide Life Insurance Company, Nationwide Retirement Solutions, Inc, Alabama State Employees Association, Inc., PEBCO, Inc. and Fictitious Defendants A to Z* claiming to represent a class of all participants in the Alabama State Employees Association, Inc. (ASEA) Plan, excluding members of the Deferred Compensation Committee, ASEA's directors, officers and board members, and PEBCO's directors, officers and board members. On October 22, 2010, the parties to this action executed a stipulation of settlement that agrees to certify a class for settlement purposes only, that provides for payments to the settlement class, and that provides for releases, certain bar orders, and dismissal of the case, subject to the Circuit Courts' approval. The Courts have approved the settlement and the settlement amounts have been paid, but have not yet been distributed to class members. On February 28, 2011, the Court in the Gwin case entered its Order permitting ASEA/PEBCO to assert indemnification claims for attorneys' fees and costs, but barring them from asserting any other claims for indemnification. On April 22, 2011, ASEA and PEBCO filed a second amended cross claim complaint in the Gwin case against NLIC and NRS seeking indemnification. These claims seeking indemnification remain severed. On April 29, 2011, the Companies filed a motion to dismiss ASEA's and PEBCO's amended cross complaint or alternatively for summary judgment. On December 6, 2011 the Court entered an Order that NRS owes indemnification to ASEA and PEBCO for the Coker (Gwin) class action, that NRS does not have a duty to indemnify ASEA and PEBCO for fees associated with the Interpleader action that NRS filed in Montgomery County and dismissing NLIC. On December 31, 2011, the Court denied NRS's motion to certify this order for an interlocutory appeal. The Company has resolved the indemnification claims of ASEA. On June 19 and 20, 2012, the court held an evidentiary hearing on the amount of indemnification owed to PEBCO. The Court has taken the matter under advisement. NRS continues to defend this case vigorously.

On August 15, 2001, NFS and NLIC were named in a lawsuit filed in the United States District Court for the District of Connecticut entitled *Lou Haddock, as trustee of the Flyte Tool & Die, Incorporated Deferred Compensation Plan, et al v. Nationwide Financial Services, Inc. and Nationwide Life Insurance Company*. In the plaintiffs' sixth amended complaint, filed November 18, 2009, they amended the list of named plaintiffs and claim to represent a class of qualified retirement plan trustees under Employee Retirement Income Security Act of 1974 (ERISA) that purchased variable annuities from NLIC. The plaintiffs allege that they invested ERISA plan assets in their variable annuity contracts and that NLIC and NFS breached ERISA fiduciary duties by allegedly accepting service payments from certain mutual funds. The complaint seeks disgorgement of some or all of the payments allegedly received by NFS and NLIC, other unspecified relief for restitution, declaratory and injunctive relief, and attorneys' fees. On November 6, 2009, the Court granted the plaintiff's motion for class certification and certified a class of "All trustees of all employee pension benefit plans covered by ERISA which had variable annuity contracts with NFS and NLIC or whose participants had individual variable annuity contracts with NFS and NLIC at any time from January 1, 1996, or the first date NFS and NLIC began receiving payments from mutual funds based on a percentage of assets invested in the funds by NFS and NLIC, whichever came first, to the date of November 6, 2009". On October 20, 2010, the Second Circuit Court of Appeals granted NLIC's 23(f) petition agreeing to hear an appeal of the District Court's order granting class certification. On October 21, 2010, the District Court dismissed NFS from the lawsuit. On October 27, 2010, the District Court stayed the underlying action pending a decision from the Second Circuit Court of Appeals. On February 6, 2012, the Second Circuit Court of Appeals vacated the class certification order that was issued on November 6, 2009 and remanded the case back to the District Court for further consideration. The plaintiffs have renewed their motion for class certification. The motion for class certification is fully briefed. NLIC continues to defend this lawsuit vigorously.

On June 8, 2011, NMIC and NLIC were named in a lawsuit filed in Court of Common Pleas, Cuyahoga County, Ohio entitled *Stanley Andrews and Donald Clark, on their behalf and on behalf of the class defined herein v. Nationwide Mutual Insurance Company and Nationwide Life Insurance Company*. The complaint alleges that NMIC and NLIC have an obligation to review the Social Security Administration Death Master File database for all life insurance policyholders who have at least a 70% probability of being deceased according to actuarial tables. The complaint further alleges that NMIC and NLIC are not conducting such a review. The complaint seeks injunctive relief and declaratory judgment requiring NMIC and NLIC to conduct such a review, and alleges NMIC and NLIC have violated the covenant of good faith and fair dealing and have been unjustly enriched by not having conducted such reviews. The complaint seeks certification as a class action. On July 13, 2011, NMIC and NLIC filed a motion to dismiss the case. Plaintiffs filed their opposition to NMIC and NLIC's motion to dismiss on December 19, 2011. By order dated January 18, 2012, the State Court issued an order dismissing the lawsuit. The State Court issued its opinion on January 23, 2012. Plaintiffs filed a Notice of Appeal to the Eighth District Court of Appeals on January 30, 2012. Plaintiffs filed their brief on April 12, 2012. The Association of Ohio Life Insurance Companies filed an amicus brief in support of NMIC and NLIC's position on May 24, 2012. NMIC and NLIC's reply was filed May 25, 2012. Appellants' reply brief was filed on June 7, 2012. Currently, no date has yet been set for oral argument. NMIC and NLIC continue to defend their lawsuit vigorously.

STATEMENT AS OF JUNE 30, 2012 OF THE NATIONWIDE LIFE INSURANCE COMPANY

*Tax Matters*

The Company's federal income tax returns are routinely audited by the IRS. The Company provides for federal income taxes based on amounts the Company believes it ultimately will owe. Inherent in the provision for federal income taxes are estimates regarding the deductibility of certain items and the realization of certain tax credits. In the event the ultimate deductibility of certain items or the realization of certain tax credits differs from estimates, the Company may be required to change the provision for federal income taxes recorded in the statutory financial statements, which could be significant. Management has used best estimates to establish reserves for uncertain tax positions based on current facts and circumstances regarding tax exposure items where the ultimate deductibility is open to interpretation. Management believes its tax reserves reasonably provide for potential assessments that may result from IRS examinations and other tax-related matters for all open tax years.

*Indemnifications*

In the normal course of business, the Company provides standard indemnifications to contractual counterparties in connection with numerous transactions, including acquisitions, divestitures and leases. The types of indemnifications typically provided include indemnifications for breaches of representations and warranties, taxes and certain other liabilities, such as third party lawsuits. The indemnification clauses are often standard contractual terms and are entered into in the normal course of business based on an assessment that the risk of loss would be remote. The terms of the indemnifications vary in duration and nature. In many cases, the maximum obligation is not explicitly stated and the contingencies triggering the obligation to indemnify have not occurred and are not expected to occur. Consequently, the maximum amount of the obligation under such indemnifications is not determinable. Historically, the Company has not made any material payments pursuant to these obligations.

- (20) Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements are based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources while unobservable inputs reflect the Company's view of market assumptions in the absence of observable market information. The Company utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. In determining fair value, the Company uses various methods including market, income and cost approaches.

The Company categorizes its assets and liabilities reported at fair value in the quarterly statement into a three-level hierarchy based on the priority of the inputs to the valuation technique. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure fair value fall within different levels of the hierarchy, the category level is based on the lowest priority level input that is significant to the fair value measurement of the instrument in its entirety.

STATEMENT AS OF JUNE 30, 2012 OF THE NATIONWIDE LIFE INSURANCE COMPANY

The fair value hierarchy levels are as follows:

*Level 1.* Unadjusted quoted prices accessible in active markets for identical assets or liabilities at the measurement date and mutual funds where the value per share (unit) is determined and published daily and is the basis for current transactions.

*Level 2.* Unadjusted quoted prices for similar assets or liabilities in active markets or inputs (other than quoted prices) that are observable or that are derived principally from or corroborated by observable market data through correlation or other means.

*Level 3.* Prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. Inputs reflect management’s best estimate about the assumptions market participants would use at the measurement date in pricing the asset or liability. Consideration is given to the risk inherent in both the method of valuation and the valuation inputs.

The Company periodically reviews its fair value hierarchy classifications for financial assets and liabilities. Changes in observability of significant valuation inputs identified during these reviews may trigger reclassifications. Reclassifications into/out of the fair value hierarchy levels are reported as transfers at the beginning of the period in which the change occurs.

To determine the fair value of bonds and stocks for which market quotations are available, independent pricing services are most often utilized. For these bonds and stocks, the Company obtains the pricing services’ methodologies, inputs and assumptions and classifies the investments accordingly in the fair value hierarchy.

Non-binding broker quotes are also utilized to determine the fair value of certain bonds when quotes are not available from independent pricing services. Broker quotes are considered unobservable inputs, and these bonds are classified accordingly in the fair value hierarchy as only one broker quote is ordinarily obtained, the investment is not traded on an exchange, the pricing is not available to other entities and/or the transaction volume in the same or similar investments has decreased such that generally only one quotation is available. As the brokers often do not provide the necessary transparency into their quotes and methodologies, the Company periodically performs reviews and tests to ensure that quotes are a reasonable estimate of the investments’ fair value.

For certain bonds not valued using independent services or broker quotes, a corporate pricing matrix or internally developed pricing model is most often used. The corporate pricing matrix is developed using private spreads for bonds with varying weighted average lives and credit quality ratings. The weighted average life and credit quality rating of a particular bond to be priced using the corporate pricing matrix are important inputs into the model and are used to determine a corresponding spread that is added to the appropriate U.S. Treasury yield to create an estimated market yield for that security. The estimated market yield and other relevant factors are then used to estimate the fair value of the particular bond.

Fair value of derivative instruments is determined using various valuation techniques relying predominately on observable market inputs. These inputs include interest rate swap curves, credit spreads, interest rates, counterparty credit risk, equity volatility and equity index levels. In cases where observable inputs are not available, the Company will utilize non-binding broker quotes to determine fair value and these instruments are classified accordingly in the fair value hierarchy.

The following table summarizes assets and liabilities reported at fair value:
