NOTES TO FINANCIAL STATEMENTS

Note 1 - Summary of Significant Accounting Policies

The financial statements of Colony Specialty Insurance Company (the Company) are presented on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance (Insurance Department). The Insurance Department recognizes only statutory accounting practices prescribed or permitted by the state of Ohio for determining and reporting the financial condition and results of operations of an insurance company, for determining its solvency under the Ohio Insurance Law. The National Association of Insurance Commissioners' Accounting Practices and Procedures Manual (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the state of Ohio. The financial statements contain no differences as a result of practices prescribed or permitted by Ohio that differ from NAIC SAP.

Note 2 - Accounting Changes and Corrections of Errors

In 2011, Colony Specialty Insurance Company requested, and received, permission from the Insurance Department to issue a $60M extraordinary dividend to Colony Insurance Company, its sole stockholder. The dividend settlement occurred in December of 2011 through a transfer of securities and cash. The composition of the settlement was as follows:

Securities at book value	$55,396,851.65
Implicit gain	2,198,438.08
Cash	1,975,515.60
Accrued interest at date of transfer	429,194.67
Total	$60,000,000.00

The Company transferred the securities at book value (amortized cost), including the accrued interest. The Company did not recognize a gain on the transfer of these securities and reported a dividend of $57,801,562, which excluded the implicit gain noted above. In 2012, the Company became aware that this treatment was not in compliance with the provisions of SSAP 25. The affect on surplus of this error amounted to $769,453, which is the deferred tax that was associated with correcting the transaction. With the permission of the Insurance Department, the Company made this correction to its financials in the 2nd quarter of 2012.

Note 3 - Business Combinations and Goodwill

No significant change.

Note 4 - Discontinued Operations

Note 5 - Investments

D. Loan-backed securities

(1) Prepayment assumptions for loan-backed securities were obtained from an industry standard external data provider.

(2) The Company did not have any securities with a recognized other-than-temporary impairment loss for the three or nine months ended September 30, 2012.

(3) Not applicable.

(4) The Company did not have any loan-backed securities in an unrealized loss position at September 30, 2012.

(5) The Company evaluates its investments for impairment. In accordance with policy, the determination that a security has incurred an other-than-temporary decline in fair value and the associated amount of any loss recognition requires the judgment by the Company's management and a continual review of its investments. Investments in an unrealized loss position are reviewed on a quarterly basis to determine whether a decline in fair value below the amortized cost basis is other-than-temporary. In general, the process for identifying other-than-temporary declines in fair value involves the consideration of a number of factors, including but not limited to, whether the issuer has been downgraded to below investment-grade, the length of time in which there has been a significant decline in value, the liquidity, business prospects, and overall financial condition of the issuer, the nature and performance of the collateral or other credit support backing the security, the significance of the decline in value, and whether the Company has the intent to sell the debt security or may be required to sell the debt security before its anticipated recovery. If consideration of the factors above results in a conclusion that the decline in fair value is other-than-temporary, the cost basis of the security is written down to fair value and the write down is recorded as a realized loss. For loan-backed securities, the aforementioned factors were evaluated at the end of each quarter and it was determined that there was no other-than-temporary impairment during the three or nine month period ended September 30, 2012.

Note 6 - Joint Ventures, Partnerships and Limited Liability Companies

Note 20 - Fair Value

A. The Company's financial assets carried at fair value have been classified, for disclosure purposes, based on the three-level hierarchy show below. The hierarchy gives the highest ranking to fair values determined using unadjusted quoted prices in active markets for identical assets (Level 1) and the lowest ranking to fair values using methodologies and models with unobservable inputs (Level 3). An asset's classification is based on the lowest level input that is significant to its measurement. The levels of fair value hierarchy are as follows:

1. Level 1-Values are quoted prices (unadjusted) in active markets for identical assets that can be accessed at the reporting date. Actively traded, as defined by the Company, is a security that has traded in the last seven days. The Company receives one quote per instrument for Level 1 inputs.

2. Level 2-Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. The Company receives one quote per instrument for Level 2 inputs.

3. Level 3-Unobservable inputs reflecting the Company's own assumptions about the assumptions market participants would use in pricing the asset or liability based on the best information available in the circumstances.

(1) The following table provides information as of September 30 , 2012 about the Company's financial assets measured at fair value:

FAIR VALUE MEASURMENTS AT REPORTING DATE
