## NOTES TO FINANCIAL STATEMENTS

## 1. Summary of Significant Accounting Policies

## A. Accounting Practices

The accompanying statutory-basis financial statements of Progressive Preferred Insurance Company (the "Company") were prepared on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance ("DOI").

The Ohio DOI requires insurance companies domiciled in the state of Ohio to prepare their statutory-basis financial statements in accordance with the National Association of Insurance Commissioners' ("NAIC") *Accounting Practices and Procedures Manual* subject to any deviations prescribed or permitted by the Ohio DOI. No deviations from NAIC statutory accounting practices ("NAIC SAP") were used in preparing these statutory-basis financial statements as illustrated in the table below:

Description	State of Domicile	2012	2011
<b>Net income</b>			
(1) Net income, state basis	OH	\$ 22,695,649	\$ 34,462,126

<b>Surplus</b>			
(5) Policyholders' surplus, state basis	OH	\$ 174,300,219	\$ 164,025,842
(6) Effect of state prescribed practices			
(7) Effect of state permitted practices			
(8) Policyholders' surplus, NAIC SAP basis(5-6-7=8)	OH	\$ 174,300,219	\$ 164,025,842

## B. Use of Estimates

The Company is required to make estimates and assumptions when preparing its financial statements and accompanying notes in conformity with NAIC SAP. Actual results may differ from those estimates. Material estimates that are susceptible to significant changes in the near term include the loss and loss adjustment expense ("LAE") reserves.

## C. Accounting Policies

Insurance premiums written are being earned into income on a pro-rata basis over the period of risk based on a daily earnings convention. Unearned premiums are established to cover the unexpired portion of premiums written. The Company offers a variety of payment plans to meet individual customer needs. Generally, insurance premiums are collected in advance of providing risk coverage, minimizing the Company's exposure to credit risk.

Acquisition costs, such as agents' commissions, premium taxes, and other policy initiation costs, are charged to operations as incurred. Advertising costs are expensed as incurred.

Certain assets designated as "nonadmitted assets", in accordance with Statement of Statutory Accounting Principles ("SSAP") No. 4, Assets and Nonadmitted Assets, are reported on page 13, Exhibit of Nonadmitted Assets. The change in nonadmitted assets is charged directly against surplus as regards policyholders on page 4, Statement of Income, capital and surplus section.

In addition, the Company uses the following accounting policies:

## Investments

- Cash and cash equivalents include bank accounts and certificates of deposit as well as short-term investments with original maturities of three months or less that are reported at amortized cost which approximates market value.
- Short-term investments include securities acquired within one year of maturity except for those with original maturities of three months or less (see cash and cash equivalents above) and are reported at amortized cost which approximates market value.
- Investment grade bond valuations are based on NAIC designations or NAIC Credit Rating Provider ("CRP") designations from the Acceptable Rating Organization ("ARO") list and are reported at amortized cost using the scientific method which closely approximates the effective interest method. Non-investment grade bond valuations are also based on NAIC designations or NAIC CRP-ARO designations and are reported at the lower of amortized cost or fair market value. Loan-backed and structured securities follow the guidance prescribed by SSAP No. 43R, Loan-backed and Structured Securities ("SSAP No. 43R"), for the determination of the bond valuation and reporting designation. The difference between the original cost and redemption value of these securities is recognized over the lives of the respective issues and included in net investment gain.
- Common stocks, other than investments in stocks of subsidiaries and affiliates, are reported at fair market values based on active market closing quotations from a regulated exchange. Changes in the fair market values of these securities are reflected directly as unrealized gains or losses in statutory surplus, net of deferred income taxes.
- Non-redeemable preferred stocks are reported at fair market values. Changes in the fair market values of these securities are reflected directly as unrealized gains or losses in statutory surplus, net of deferred income taxes. Investment grade redeemable preferred stocks are reported at amortized cost, while non-investment grade redeemable preferred stocks are reported at the lower of amortized cost or fair market value. The difference between the original cost and redemption value of the redeemable preferred securities is recognized using the scientific method, which closely approximates the effective interest method, over the lives of the respective issues and included in net investment gain.
- The fair market values reported are derived from independent and observable market input evaluations provided by reputable pricing services, independent broker/dealer bid lists, independent broker/dealer quotations, independent broker/dealer pricing services, or active market closing quotations from a regulated exchange. In very rare cases, if none of the aforementioned primary sources are available, matrix pricing using the reporting entity's own market based assumptions may be utilized. The approved methods for computation of fair market value are prescribed in Part Five of the Securities Valuation Office Purposes and Procedures Manual.
- The Company has no investments in mortgage loans.
- Loan-backed and structured securities are accounted for as prescribed by SSAP No. 43R. These securities are generally stated at amortized cost as determined by the estimated value of future cash flows. Prepayment assumptions for loan-backed and structured debt securities are obtained from available market data, broker/dealers, and/or internal estimates, and are consistent with current interest rate and economic trends.
- The Company has no investments in joint ventures, partnerships, or limited liability companies.
- The Company has no investments in derivatives.

## NOTES TO FINANCIAL STATEMENTS

- The Company may enter into repurchase agreements in which it borrows cash by providing certain underlying securities as collateral for the arrangement. The cash borrowed is invested in cash equivalents and an offsetting liability is established. The cash equivalent investment maturities and the term of the borrowing arrangement on the collateralized securities match, eliminating duration risk exposure to the Company. The Company did not have any open repurchase agreements at December 31, 2012 and December 31, 2011.
- Realized gains and losses on sales of securities are computed based on the first-in, first-out method.
- The Company's management routinely monitors individual securities in its investment portfolio for pricing changes that might indicate potential impairments and performs detailed reviews of securities with unrealized losses based on predetermined guidelines to determine whether a decline in the value of a security is other-than-temporary. A review for other-than-temporary impairment ("OTTI") requires making certain judgments regarding the materiality of the decline, its effect on the financial statements, the probability, extent, and timing of a valuation recovery, and the Company's ability and intent to hold the security. The scope of this review is broad and requires a forward-looking assessment of the fundamental characteristics of a security, as well as the market-related prospects of the issuer and its industry.

Management assesses valuation declines to determine the extent to which such changes are attributable to (i) fundamental factors specific to the issuer, such as financial conditions, business prospects or other factors, or (ii) market-related factors such as interest rates or equity market declines (i.e., negative returns at either a sector index level or the broader market level), or (iii) credit-related losses where the present value of cash flows expected to be collected are lower than the amortized cost basis of the security (includes only those securities covered under SSAP No. 43R). This evaluation reflects management's assessment of current conditions, as well as predictions of uncertain future events that may have a material effect on the financial statements related to security valuation.

When persuasive evidence exists that causes management to conclude that a decline in fair value is other-than-temporary, the book value of such security is written down and recognized as a realized loss. All other unrealized gains or losses are reflected in statutory surplus.

## Loss and Loss Adjustment Expense Reserves

- Loss reserves represent the estimated liability on claims reported to the Company, plus reserves for losses incurred but not yet reported ("IBNR"). These estimates are reported net of amounts recoverable from salvage and subrogation. LAE reserves represent the estimated expenses required to settle reported claims and IBNR losses. Such loss and LAE reserves could be susceptible to significant change in the near term. The Company conducts extensive reviews each month on portions of its business to help ensure that the Company is meeting its objective of always having reserves that are adequate with minimal variation. Results would differ if different assumptions were made (see Notes 25 and 33).

## Capitalization of Assets

- Prepaid assets above a \$100,000 threshold are capitalized. Under certain circumstances, the Company may decide to establish a prepaid expense for amounts less than the threshold. Prepaid assets are nonadmitted.

## 2. Accounting Changes and Corrections of Errors

## A. Material Changes in Accounting Principles

Accounting changes adopted to conform to the provisions of the NAIC statutory accounting practices are reported as changes in accounting principle. Effective January 1, 2012, the Company adopted SSAP No. 101, Income Taxes. SSAP No. 101 reflects a revision to the accounting principles regarding deferred tax asset admissibility calculations (see Note 9). In applying the provisions of SSAP No. 101, the Company was able to recognize additional admitted deferred tax assets. As a result, the Company recorded adjustments to the opening balances as of January 1, 2012 as detailed below:

Description	Amount
Assets at December 31, 2011	\$ 582,318,596
Impact on net deferred tax asset	38,342
Assets at January 1, 2012	\$ 582,356,938
Surplus as regards policyholders at December 31, 2011	\$ 164,025,842
Decrease in non-admitted assets	38,342
Surplus as regards policyholders at January 1, 2012	\$ 164,064,184

## NOTES TO FINANCIAL STATEMENTS

## D. Loan-Backed Securities

1. The sources used to determine prepayment assumptions are derived from updated cash flows from widely utilized reputable industry sources. The Company's portfolio managers review the available cash flow data and prepayment assumptions and make adjustments based on current performance indicators on the underlying assets (e.g., delinquency rates, foreclosure rates, and default rates), credit support (via current levels of subordination), and historical credit ratings.
2. Intent to Sell or Inability to Hold Securities with a Recognized Other-Than-Temporary Impairment  
Not applicable
3. The Company has not recognized any other-than-temporary impairment for loan-backed and structured debt securities since the adoption of SSAP No. 43R.
4. As of December 31, 2012, the Company had \$6,538 of gross unrealized losses in the Company's loan-backed and structured debt securities. The Company currently does not intend to sell the loan-backed and structured debt securities and determined that it is more likely than not that the Company will not be required to sell these securities for the period of time necessary to recover their cost basis. If the Company's strategy was to change and these securities were determined to be other-than-temporarily impaired, the Company would recognize a write-down in accordance with the Company's stated policy.

As of December 31, 2012, the composition of fair value and gross unrealized losses on loan-backed and structured debt securities by the length of time that individual securities have been in a continuous unrealized loss position is as follows:

Description	Amount
a. Aggregate amount of unrealized losses	
1. Less than twelve months	\$ -
2. Twelve months or longer	6,538
Total	\$ 6,538
b. Aggregate fair value of securities with unrealized losses	
1. Less than twelve months	\$ -
2. Twelve months or longer	343,972
Total	\$ 343,972

5. Under SSAP No. 43R, the Company analyzes its structured debt securities to determine if the Company intends to sell, or if it is more likely than not that the Company will be required to sell, the security prior to recovery and, if so, the Company writes down the security to its current fair market value with the entire amount of the write-down recorded as a realized loss. To the extent that it is more likely than not that the Company will hold the debt security until recovery (which could be maturity), the Company determines if any of the decline in value is due to a credit loss (i.e., where the present value of cash flows expected to be collected is lower than the amortized cost basis of the security) and, if so, the Company recognizes that portion of the impairment as a realized loss.

## 20. Fair Value Measurements

## A. Inputs Used for Assets and Liabilities Measured at Fair Value in the Company's Financial Statements

## 1. Fair Value Measurements by Levels 1, 2 and 3

The Company categorizes its financial instruments, based on the degree of subjectivity inherent in the method by which they are valued, into a fair value hierarchy of three levels, as follows:

Level 1 - Inputs are unadjusted, quoted prices in active markets for identical instruments at the measurement date (e.g., active exchange-traded equity securities).

Level 2 - Inputs (other than quoted prices included within Level 1) that are observable for the instrument either directly or indirectly. This includes: (i) quoted prices for similar instruments in active markets, (ii) quoted prices for identical or similar instruments in markets that are not active, (iii) inputs other than quoted prices that are observable for the instruments, and (iv) inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Inputs that are unobservable. Unobservable inputs reflect the Company's subjective evaluation about the assumptions market participants would use in pricing the financial instrument.

The Company evaluated whether the market was distressed or inactive in determining the fair value for those securities reported and reviewed certain market level inputs to evaluate whether sufficient activity, volume, and new issuances existed to create an active market. Based on this evaluation, the Company concluded that there was sufficient activity in determining the fair value for those securities reported.

The valuations classified as either Level 1 or Level 2 in the table below are priced exclusively by external sources, including: pricing vendors, dealers/market makers, and exchange-quoted prices. The Company did not have any transfers between Level 1 and Level 2.

## 25. Changes in Incurred Losses and Loss Adjustment Expenses

Incurred losses and LAE attributable to insured events of prior accident years increased by \$1,834,080 in 2012, which is less than 1.0% of the total prior year net unpaid losses and LAE of \$207,458,593. The increase is primarily due to an increase in originally anticipated severity of 1.7% for private passenger auto liability reserves for accident year 2011, partially offset by favorable development for accident years 2009 and prior. Additionally, originally anticipated severity increased by 1.9% for accident year 2011 for commercial auto liability. The Company also experienced favorable LAE reserve development in 2012.

## 26. Intercompany Pooling Arrangements

The Company participates in a pooling reinsurance agreement with the property-casualty affiliates listed below (the "Agency Pool") under which 100% of the underwriting business of each member company, net of external reinsurance, is ceded to Casualty, the Agency Pool manager and an Agency Pool participant. The combined premiums, losses, and expenses are then retroceded to each Agency Pool member based on pre-determined pooling percentages.

Progressive Hawaii Insurance Corp. ("Hawaii"), an insurance affiliate domiciled in Ohio and National Continental Insurance Company ("National Continental"), an insurance affiliate domiciled in New York, terminated their future participation in the Agency Pool effective November 5, 2005 and January 1, 1996, respectively. Hawaii and National Continental have zero percent retrocession participation in the Agency Pool for all policies written prior to the dates listed above.

The pooling percentages for each Agency Pool participant as of December 31, 2012 and 2011 were as follows:

Company	NAIC Code	2012 Pool %	2011 Pool %
Progressive Casualty Insurance Company	24260	49.0%	49.0%

Progressive Hawaii Insurance Corp.	10067	--	--
National Continental Insurance Company	10243	--	--
		100.0%	100.0%

All business written by each Agency Pool participant is subject to pooling. Business ceded by Agency Pool members to non-affiliated reinsurers prior to pooling, is primarily to state-provided reinsurance programs. The Company does not participate in any intercompany sharing of the provision for reinsurance and the write-off of uncollectible reinsurance.

At December 31, 2012, amounts recoverable from and payable to the Company and all affiliates participating in the Agency Pool are as follows:

IN VERY RARE CASES, IF NONE OF THE AFOREMENTIONED PRIMARY SOURCES ARE AVAILABLE, MATRIX PRICING USING THE REPORTING ENTITY'S OWN MARKET BASED ASSUMPTIONS MAY BE UTILIZED. THE APPROVED METHODS FOR COMPUTATION OF FAIR MARKET VALUE ARE PRESCRIBED IN PART FIVE OF THE SECURITIES VALUATION OFFICE PURPOSES AND PROCEDURES MANUAL.

- 6.2 Describe the method used to estimate this reporting entity's probable maximum insurance loss, and identify the type of insured exposures comprising that probable maximum loss, the locations of concentrations of those exposures and the external resources (such as consulting firms or computer software models), if any, used in the estimation process:   
THE COMPANY'S PROBABLE MAXIMUM LOSS (PML) IS ESTIMATED BY ANALYZING HISTORICAL MAJOR OCCURRENCES AND ESTIMATING FREQUENCY OF LOSS AND SEVERITY BASED ON THE POTENTIAL FORCE OF AN OCCURRENCE AND THE TOTAL NUMBER OF AUTOS AND BOATS EXPOSED. THE ESTIMATE OF THE PML WAS MADE EXCLUSIVELY BY PROGRESSIVE EMPLOYEES. THE COMPANY'S NET COMPREHENSIVE EXPOSURE IN THE CATASTROPHE PRONE STATES OF FLORIDA, LOUISIANA, TEXAS, MISSISSIPPI, ALABAMA, NEW YORK, NEW JERSEY AND CALIFORNIA IS LIMITED SINCE THE COMPANY IS A MEMBER OF A 100% POOLING REINSURANCE ARRANGEMENT WITH 11 OF ITS PROPERTY AND CASUALTY AFFILIATES. THE PRIMARY PROPERTY COVERAGE SOLD BY THE COMPANY IS COMPREHENSIVE FOR AUTOMOBILE AND INLAND MARINE FOR BOATS. THE ESTIMATE OF THE PML IS LESS THAN 7% OF THE SURPLUS.

- 6.3 What provision has this reporting entity made (such as a catastrophic reinsurance program) to protect itself from an excessive loss arising from the types and concentrations of insured exposures comprising its probable maximum property insurance loss?   
SINCE THE COMPANY'S ESTIMATED PML IS LESS THAN 7% OF THE SURPLUS, THE COMPANY CARRIES NO EXTERNAL CATASTROPHE REINSURANCE TO COVER ITS LIMITED CATASTROPHE EXPOSURE. THE COMPANY PARTICIPATES IN A POOLING ARRANGEMENT, WHICH SPREADS THE UNDERWRITING RISK INCLUDING THE CATASTROPHE EXPOSURE AMONG ALL PARTIES TO THE POOLING AGREEMENT.

- 6.4 Does the reporting entity carry catastrophe reinsurance protection for at least one reinstatement, in an amount sufficient to cover its estimated probable maximum loss attributable to a single loss event or occurrence? Yes [ ] No [X]
