**NOTES TO FINANCIAL STATEMENTS**

(All amounts are in thousands)

**Note 1 – Summary of Significant Accounting Policies**

## A. Accounting Practices that depart from NAIC Prescribed Practices

None

## B. Use of Estimates in the Preparation of the Financial Statements

The preparation of the financial statements of insurance companies requires management to make estimates and assumptions that affect amounts reported in the financial statements and accompanying notes. Such estimates and assumptions could change in the future as more information becomes known, which could impact the amounts reported and disclosed herein.

## C. Accounting Policy

The accompanying financial statements of the Company have been prepared in conformity with the National Association of Insurance Commissioners' (NAIC) *Accounting Practices and Procedures Manual*, as prescribed by the Ohio Department of Insurance (ODI).

Statutory accounting practices vary from generally accepted accounting principles (GAAP). The more significant differences from GAAP are as follows:

*Investments* – Investments in bonds are reported at amortized cost or fair value based on their NAIC rating; for GAAP, such fixed maturity investments would be designated at purchase as held-to-maturity, trading or available-for-sale. Held-to-maturity fixed investments would be reported at amortized cost, and the remaining fixed maturity investments would be reported at fair value, with unrealized holding gains and losses reported in operations for those designated as trading and as a separate component of capital and surplus for those designated as available-for-sale.

*Nonadmitted Assets* – Certain assets designated as “nonadmitted,” principally deferred tax assets, furniture and equipment, certain accounts receivable, prepaid expenses and other assets not specifically identified as an admitted asset in the NAIC’s *Accounting Practices and Procedures Manual*, are excluded from the statutory-basis balance sheets and are charged directly to capital and surplus. Under GAAP, such assets are included in the balance sheets. Capital and surplus was reduced by nonadmitted assets of \$1,413 and \$1,519 at December 31, 2012 and 2011, respectively.

*Deferred Income Taxes* – The Company computes deferred income taxes in accordance with Statement of Statutory Accounting Principle (SSAP) No. 101, *Income Taxes*, A Replacement of SSAP No. 10R and SSAP No. 10. Under SSAP 101, gross deferred tax assets are reduced by a statutory valuation allowance adjustment if, based on the weight of available evidence, it is more-likely-than-not that some portion or all of the gross deferred tax assets will not be realized to calculate the adjusted gross deferred tax assets. Admitted adjusted deferred income tax assets are limited to 1) the amount of federal income taxes paid in prior years that can be recovered through loss carrybacks for existing temporary differences that reverse during a timeframe corresponding with the Internal Revenue Service tax loss carryback provisions, not to exceed three years, plus 2) the amount of adjusted gross deferred income tax assets expected to be realized within three years limited to an amount that is no greater than 15% of current period’s adjusted statutory capital and surplus, plus 3) the amount of remaining adjusted gross deferred income tax assets that can be offset against existing gross deferred income tax liabilities after considering the character (i.e., ordinary versus capital) and reversal patterns of the deferred tax assets and liabilities. The remaining adjusted deferred income tax assets are nonadmitted.

Deferred income taxes do not include amounts for state taxes. Under GAAP, state taxes are included in the computation of deferred income taxes, a deferred income tax asset is recorded for the amount of gross deferred income tax assets expected to be realized in all future years, and a valuation allowance is established for deferred income tax assets not realizable.

*Reinsurance* – Policy and contract liabilities ceded to reinsurers have been reported as reductions of the related reserves rather than as assets as would be required under GAAP.

*Statements of Cash Flow* – Cash, cash equivalents, and short-term investments in the statements of cash flow represent cash balances and investments with initial maturities of one year or less. Under GAAP, the corresponding caption of cash and cash equivalents includes cash balances and investments with initial maturities of three months or less.

Other significant accounting practices are as follows:

*Cash and Invested Assets* – Short-term investments, principally money market accounts, include investments with remaining maturities of one year or less at the time of acquisition and are principally carried at amortized cost, which approximates fair value.

U.S. government securities and corporate bonds not backed by other assets are recorded at cost adjusted for amortization of premiums and discounts using the interest method. The fair values disclosed for these securities are obtained from independent pricing services.

**NOTES TO FINANCIAL STATEMENTS**

A realized loss is recorded upon the sale of an investment at a loss or when a decline in the fair value of an investment is determined by management to be other than temporary. Realized capital gains and losses are determined on the first-in, first-out cost method.

*Premiums* – Life and accident and health premiums are earned pro rata over the period for which coverage is provided. Premium payments received prior to the period of coverage are classified as advance premiums.

The Company entered into experience refund agreements with certain life insurance customers in 2012 whereby life insurance premiums will be refunded based upon the loss experience of the customer. The retrospective premium adjustments are recognized as an adjustment to earned premium in the period in which it is determined that an adjustment is required. The total amount of net premiums that were subject to retrospective rating features in 2012 was approximately \$6.5 million, which represents 25% of the Company's net earned life insurance premiums. As of December 31, 2012, the Company has a liability of \$1.4 million to refund premiums to customers and net earned premiums for the year ended December 31, 2012 have been reduced by \$1.4 million due to the experience refund agreements.

*Contract Claims Reserves* – The liabilities for contract claims represent management's best estimate of the ultimate net cost of all reported and unreported claims, less the estimated amount recoverable from claim overpayments and subrogation. The liabilities are actuarially estimated based on a review of historical claim payment patterns and claim trends. The estimates are subject to the effects of trends in claim severity and frequency, and a reasonable provision for adverse development has been incorporated in management's best estimate. Although considerable variability is inherent in such estimates, management believes that the amounts reported are adequate. The estimates are continually reviewed and adjusted as necessary as experience develops or new information becomes known; such adjustments are included in current operations.

*Aggregate Reserves* – Aggregate reserves include future policy benefit reserves for life insurance policies and active life reserves for individual accident and health insurance policies. Active life reserves are based on the net level premium method at 1.0% interest, and estimates of future premium, claims, and lapses using the Company's experience and actuarial judgment. Aggregate reserves also include premium deficiency reserves for accident and health policies when expected claims, claim adjustment expenses, and administrative costs exceed the premium to be collected for the remainder of the contract period. The Company considers anticipated net investment income as a factor in determining the premium deficiency reserve amount. Premium deficiency reserves held at December 31, 2012 and 2011 were \$2,500 and \$800, respectively.

*Federal Medical Loss Ratio Rebate* – The Company is subject to the Public Health Service Act, which requires the payment of rebates to eligible policyholders or enrollees when the amounts paid for healthcare benefits and quality improvement initiatives fall below specified thresholds. Separate calculations are performed for each state and by employer group size (individual, small group, and large group). The Company did not incur or pay any federal medical loss ratio rebates in 2012 or 2011.

*Income Taxes* – The Company adopted SSAP 101 with an effective date of January 1, 2012. In accordance with SSAP 101, the Company recorded an additional liability for the amount of uncertain tax positions totaling \$160. Such amount was recorded as a change in accounting principles through surplus. Subsequent to the adoption of SSAP 101, changes to liabilities for uncertain tax positions are recorded as income tax expense in the accompanying statement of operations. The total liability for uncertain tax positions at December 31, 2012 was \$220.

*Subsequent Events* – The Company has evaluated subsequent events from the end of the most recent fiscal year through February 27, 2013, the date the financial statements were issued.

*Reclassifications* – Certain amounts in the accompanying 2011 statements of cash flow have been reclassified to conform to the 2012 method of presentation.

The Company is taxed as a stock property and casualty insurance company and files a consolidated federal income tax return with MMO, Carolina Care Plan, Inc., Medical Health Insuring Corporation of Ohio and Medical Mutual Life Insurance Agency, Inc. In 2011, the Company had a written tax-summary agreement with the Parent and other subsidiaries such that the Parent collected from the participating subsidiaries the amount of taxes as if calculated on a separate return basis. The Parent amended the tax-sharing agreement for the consolidated group effective January 1, 2012. Pursuant to the amended agreement, the tax liability of the group is apportioned among the members based upon the ratio to which the members' taxable income bears to the consolidated group's taxable income. A member generating a taxable loss is compensated for the loss in the year the loss is absorbed by the consolidated group. There were no amounts due to MMO for federal income taxes at December 31, 2012 or 2011.

At December 31, 2012, the Company had approximately \$4,656 of net operating loss carryforwards for federal income tax purposes expiring through 2032. However, due to Internal Revenue Code Section 382, the use of these net operating losses is limited to approximately \$2,579. The Company has not incurred any federal income taxes in the current year or in any preceding year that are available for recoupment in the event of future losses.

**NOTES TO FINANCIAL STATEMENTS**

The provision for federal income taxes incurred is different from that which would be obtained by applying the statutory federal income tax rate to income before income taxes. The significant items causing the difference are as follows:

	<b>Year Ended</b>	
	<b>December 31, 2012</b>	
	<b>Amount</b>	<b>% Pre-tax Income</b>

The Company is currently open to audit under the statute of limitation by the Internal Revenue Service and State Taxing authorities for the years ended December 31, 2009 through 2012.

Deferred income taxes reflect the net tax effect of temporary differences between the carrying amount of assets and liabilities for financial statement purposes and the amounts used for income taxes. Significant components of the Company's deferred tax assets are as follows:

Consumers Life Insurance Company (the Company) is a stock life insurance company which is wholly-owned by Medical Mutual of Ohio (MMO and Parent), a mutual casualty insurance organization.

MMO and certain other MMO subsidiaries provide administrative services, including billing, claims adjudication, accounting, marketing, provider relations, and management information systems to the Company in connection with an administrative services agreement. In 2012 and 2011, charges to the Company for these services totaled \$10,674 and \$11,710, respectively. Amounts receivable and payable between the Company and its affiliates are settled within three months.

During 2012 and 2011, the Company provided life, accidental death and dismemberment, and long term disability coverage to employees of MMO and its subsidiaries, and recognized net earned premium of \$1,378 and \$1,323 for 2012 and 2011, respectively, related to such coverage.

Beginning in 2012, certain eligible employees and retirees of the Company meeting age and years of service requirements participate in various benefit plans sponsored by MMO. A summary of these plans and their impact on the accompanying consolidated financial statements follow:

MMO contributes 100% of the first 3% and 50% of the next 2% of compensation that a participant contributes to the Retirement Savings Plan. Participants in the plan immediately vest in the employer matching contributions. Matching contributions allocated to the Company totaled \$90 and \$46 in 2012 and 2011, respectively, excluding the amounts discussed below relating to the Defined Contribution Plan.

*Defined Contribution Plan*

MMO sponsors a defined contribution retirement plan (the Horizons Plan). The Horizons Plan provides a fixed contribution to eligible employees calculated as a percentage of the employees' covered compensation. Fixed contributions are calculated using percentages ranging from 3% to 8%, based on an age plus years of service-graded scale. The total expense allocated to the Company from MMO for the Horizons Plan was \$204 and \$108 in 2012 and 2011, respectively.

Effective December 31, 2011, the Horizons Plan was merged into the Retirement Savings Plan.

During 2012 and 2011, commission expenses included \$4,814 and \$5,413, respectively, of net commissions paid to majority-owned subsidiaries of MMO Agency Management, which is an affiliate of the Company. MMO Agency Management is wholly owned by MMO.

Effective June 30, 2011, the Company terminated all accident and health contracts written in the states of Indiana and Michigan. New policies were issued to these policyholders by MMO.

In December 2011, the Company received a \$5 million capital contribution from MMO.
