**NOTES TO FINANCIAL STATEMENTS**

---

**1. Summary of Significant Accounting Policies****A. Accounting Practices**

The accompanying financial statements of U.S. Financial Life Insurance Company ("the Company") are presented on the basis of accounting practices prescribed or permitted by the Ohio Insurance Department ("SAP").

The Ohio Insurance Department recognizes only SAP for determining and reporting the financial condition and results of operations of an insurance company, in order to determine its solvency under the Ohio Insurance law. The National Association of Insurance Commissioners' ("NAIC SAP") *Accounting and Procedures* manual has been adopted as a component of prescribed or permitted practices by the State of Ohio. There are no material differences between accounting practices prescribed or permitted by NAIC SAP and by the State of Ohio.

**B. Use of Estimates in the Preparation of the Financial Statements**

The preparation of financial statements in conformity with SAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

**C. Accounting Policy**

Life premiums are recognized as income over the premium paying period of the related policies. On universal life-type insurance policies and annuities with life contingencies, premiums and considerations are generally recognized as income when received. Payments on deposit type contracts are recorded to the policy reserve. Policy acquisition costs incurred in connection with acquiring new insurance business, such as commissions, underwriting, agency and policy issuance expenses, are charged to operations as incurred.

In addition, the company uses the following accounting policies:

Bonds are stated principally at amortized cost, the value of which is based on the effective interest rate method, and are adjusted to regulatory mandated values through the establishment of a valuation allowance, and for impairments in value deemed to be other than temporary through write-downs recorded as realized capital losses.

Mortgage backed and asset backed bonds are amortized using the effective interest method, including anticipated prepayments from the date of purchase; significant changes in the estimated cash flows from original purchase assumptions are accounted for using the retrospective method. Mortgage backed and asset backed bond carrying values are adjusted for impairments deemed to be other than temporary through write-downs recorded as realized capital losses.

Prepayment assumptions for loan-backed bonds and structured securities were obtained from broker-dealer survey values or internal estimates. These assumptions are consistent with the current interest rate and economic environment. The retrospective adjustment method is predominately used to value all securities except issues in default; the prospective adjustment method was used to value issues in default and issues that have a variable interest rate.

Publicly traded unaffiliated common stocks are stated at market value; common stocks not publicly traded are stated at fair value. Common stock values are adjusted for impairments in value deemed to be other than temporary through write-downs recorded as realized capital losses.

Preferred stocks are stated principally at amortized cost and are adjusted to regulatory mandated values through the establishment of a valuation allowance, and for impairments in value deemed to be other than temporary through write-downs recorded as realized capital losses. The preferred stock investments include real estate investment trusts ("REIT") perpetual preferred stock, other perpetual preferred stock and redeemable preferred stock. Preferred stock investments may not have a stated maturity, may not be cumulative and do not provide for mandatory redemption by the issuer.

Short-term investments are stated at cost or amortized cost, which approximates market value.

Cash and cash equivalents includes cash on hand, amounts due from banks, highly liquid debt instruments purchased with a maturity of three months or less, and certificates of deposit with a maturity of one year or less.

Policy loans are stated at unpaid principal balances.

Mortgage loans on real estate are stated at unpaid principal balances net of unamortized discounts or premium and valuation allowances. Valuation allowances are established for mortgage loans that are considered impaired by management and recorded based on the difference between collateral value less estimated sales costs and the amortized cost of the mortgage loan. A mortgage loan that is considered permanently impaired by management is written down to collateral value less estimated sales costs with the write-down recorded as a realized capital loss. Mortgage loans for which foreclosure is probable are considered permanently impaired by management.

---

**NOTES TO FINANCIAL STATEMENTS**

---

Real estate acquired in satisfaction of debt is valued at the lower of unpaid principal balance or estimated fair value at the date of acquisition. Real estate held for investment is reviewed for impairment whenever events or changes in circumstances indicate the carrying value of such assets may not be recoverable. Impaired real estate is written down to fair value with the impairment loss being included in net realized capital losses. Real estate which management has committed to disposing of by sale or abandonment is carried at the lower of estimated fair value less disposition costs or depreciated cost, the shortfall recorded as an impairment with a corresponding charge to net realized capital losses. Real estate joint ventures are reported principally on the equity method of accounting. The results of real estate joint ventures are adjusted for depreciation, write-downs and valuation allowances.

Depreciation on directly owned real estate and real estate owned by joint ventures is computed on a straight-line method, generally ranging from 40 to 50 years.

**D. Claims Related Extra Contractual Obligation and Bad Faith Losses Stemming from Lawsuits.**

**E. All other contingencies****Insurance Litigation**

USFL is involved in various legal actions and proceedings in connection with its business. Some of the actions and proceedings have been brought on behalf of various alleged classes of claimants and certain of these claimants seek damages of unspecified amounts. While the ultimate outcome of such matters cannot be predicted with certainty, in the opinion of management no such matter is likely to have a material adverse effect on USFL's financial position or results of operations. However, it should be noted that the frequency of large damage awards, including large punitive damage awards that bear little or no relation to actual economic damages incurred by plaintiffs in some jurisdictions, continues to create the potential for an unpredictable judgment in any given matter.

**Insurance Regulatory Matters**

USFL is subject to various statutory and regulatory requirements concerning the payment of death benefits and the reporting and escheatment of unclaimed property, and is subject to audit and examination for compliance with these requirements. USFL, along with other life insurance industry companies, has been the subject of various inquiries regarding its death claim, escheatment and unclaimed property procedures and is cooperating with these inquiries. For example, USFL is under audit by a third party auditor acting on behalf of a number of U.S. state jurisdictions reviewing compliance with unclaimed property laws of those jurisdictions. In addition, a number of life insurance industry companies have received a multistate targeted market conduct examination notice issued on behalf of various U.S. state insurance departments reviewing use of the U.S. Social Security Administration's Death Master File or similar database, claims processing and payments to beneficiaries. In December 2012, USFL received an examination notice on behalf of at least six insurance departments. The audits and related inquiries have resulted in the payment of death benefits and changes to USFL's relevant procedures. USFL expects it will also result in the reporting and escheatment of unclaimed death benefits, including potential interest on such payments, and the payment of examination costs. In addition, USFL, along with other life insurance industry companies, are subject to lawsuits that may be filed by state regulatory agencies or other litigants.

In addition to the matters described above, a number of lawsuits, claims and assessments have been filed against life and health insurers in the jurisdictions in which USFL does business involving insurers' sales practices, alleged agent misconduct, alleged failure to properly supervise agents, contract administration and other matters. Some of the matters have resulted in the award of substantial judgments against other insurers, including material amounts of punitive damages, or in substantial settlements. In some states, juries have substantial discretion in awarding punitive damages. USFL, like other life and health insurers, from time to time is involved in such proceedings. Some of these actions and proceedings filed against USFL have been brought on behalf of various alleged classes of claimants and certain of these claimants seek damages of unspecified amounts. While the ultimate outcome of such matters cannot be predicted with certainty, in the opinion of management no such matter is likely to have a material adverse effect on USFL's financial position or results of operations. However, it should be noted that the frequency of large damage awards, including large punitive damage awards that bear little or no relation to actual economic damages incurred by plaintiffs in some jurisdictions, continues to create the potential for an unpredictable judgment in any given matter.

Although the outcome of litigation and regulatory matters cannot be predicted with certainty, USFL's management believes that the ultimate resolution of the matters described above should not have a material adverse effect on the financial position of USFL. USFL's management cannot make an estimate of loss, if any, or predict whether or not such litigations and regulatory matters will have a material adverse effect on USFL's results of operations in any particular period.
