NOTES TO FINANCIAL STATEMENTS

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

B. Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Premiums are earned over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by pro rata methods for direct business and are based on reports received from ceding companies for reinsurance.

Expenses incurred in connection with acquiring new insurance business, including such acquisition costs as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

Reinsurance recoverables are estimates of paid and unpaid losses collectible from the Company's reinsurers. The amounts ultimately collected may be more or less than these estimates. Any adjustments of these estimates is reflected in income as they are determined. The Company periodically reviews the financial condition of its reinsurers and amounts recoverable therefrom, recording an allowance when necessary for uncollectible reinsurance.

The capitalization policy for fixed assets has not changed from prior year.

In addition the Company uses the following accounting policies:

1. Short-Term investments are stated at cost, which is also their fair value.
2. Bonds are stated at amortized cost using the interest method unless required by the NAIC to be carried at fair value.
3. Common stocks are stated at fair value except the stock of its uncombined subsidiary is carried on the equity basis.
4. Preferred stocks are stated at fair value.
5. Mortgage loans - are valued at unpaid balance.

NOTE 20 – FAIR VALUE MEASUREMENT

Fair values are based on quoted market prices when available. The Company's financial assets and liabilities carried at fair value have been classified, for disclosure purposes, based on Statutory Accounting Principle No. 100, Fair Value Measurements. Level 1 inputs consist of unadjusted quoted prices for identical assets and liabilities in active markets accessible at the measurement date. Level 2 inputs consist of quoted prices for similar assets and liabilities in active markets, quoted prices from those willing to trade markets that are not active, or other inputs that are observable or can be confirmed by market data for the term of the instrument. Level 3 inputs consist of unobservable inputs (supported by little or no market activity) and reflect the Company's best estimate of what hypothetical market participants would use to determine a transaction price for the asset or liability at the reporting date.

The following table provides information as of March 31, 2013 about the Company's financial assets measured at fair value on a recurring basis:
