The standards require insurers to recognize the overfunded or underfunded status of a defined benefit postretirement plan as an asset or liability and include non-vested employees in determining the plan obligations . In addition , a sponsor's fiscal year end will be used as the measurement date for estimating the fair value of postretirement benefit assets and liabilities . The guidance contains a transition provision that gives insurers the option to recognize the initial impact to surplus over a period not to exceed ten (10) years . OFIC has elected the transition option and estimated a surplus decrease of \$36.1 million , net of tax , to be recognized over the next five (5) years .

OFIC contributed \$10.2 million to its pension plan in March 2013 . OFIC does not expect to make any additional contributions during the remainder of fiscal 2013 .

Level 1 - Values are unadjusted quoted prices for identical assets and liabilities in active markets accessible at the measurement date .

Level 2 - Inputs include quoted prices for similar assets or liabilities in active markets , quoted prices from those willing to trade in markets that are not active , or other inputs that are observable or can be corroborated by market data for the term of the instrument . Such inputs include market interest rates and volatilities , spreads and yield curves .

Level 3 - Certain inputs are unobservable (supported by little or no market activity) and significant to the fair value measurement . If an input changes, the Company evaluates the new input (s) and makes the determination whether or not a transfer between levels is appropriate . If an asset or liability is transferred between levels, it is the Company's policy to record the transfer as of the beginning of the quarter in which the transfer occurs . The Company held no assets or liabilities categorized as Level 1 , 2 or 3 during the reporting period that were transferred into or out of the level categorization held at January 1 , 2013 .
- (4) As of March 31 , 2013 , the Company held no investments in assets or liabilities measured and reported at fair value that were classified as Level 2 or Level 3 . Historically , fair values in the Level 2 category are provided by independent pricing services . Where independent pricing services provide fair values , the Company has obtained an understanding of the methods , models and inputs used in pricing , and has controls in place to validate that amounts provided represent current fair values . Estimated fair values of investments categorized as Level 3 generally include inputs for which no readily observable inputs are available and require management judgment .
- (5) As of March 31 , 2013 , the Company had no holdings classified as either a derivative asset or liability .

B. Combining Fair Value Information- Not required

C. The method (s) and significant assumptions used to estimate the fair value of financial instruments are as follows:

Investment Securities -Fair values for bonds , are based on the values prescribed by an independent pricing service or from brokers . For bonds that are not actively traded , estimated fair values are based on values of bonds of comparable yield and credit quality . The fair values for common stocks are based on quoted market prices , where available , which are provided to the Company by an independent pricing service .

Short-term investments , Receivables for securities , Uncollected premiums and agents' balances in the course of collection , and Deferred premiums , agents' balances and installments booked but deferred and not yet due - The carrying amounts reported as admitted assets or liabilities for these financial instruments approximate their fair values due to the short-term nature of these financial instruments .

Other Invested Assets - The estimated fair value of publicly traded limited partnerships is based on the values prescribed by an independent pricing service .

24. Retrospectively Rated Contracts and Contracts Subject to Redetermination- Not applicable
25. Changes in Incurred Losses and Loss Adjustment Expenses-
Reserves as of December 31 , 2012 were \$192.4 million . Reserves remaining for prior years are now \$165.6 million . Therefore , there has been a \$4.6 million favorable prior-year development from December 31 , 2012 to March 31 , 2013 . The favorable development is principally from decreases in the estimates of loss and loss adjustment expenses for the following lines of business: commercial multiple peril , other liability and workers compensation . This change is generally the result of ongoing analysis of recent loss development trends . Original estimates are increased or decreased , as additional information becomes known regarding individual claims . The estimates are not affected by prior year loss development on retrospectively rated policies , as the Company does not write this type of policy .
