1. Summary of Significant Accounting Policies

A. Accounting Practices

SummaCare, Inc.’s (the Company or SC) statutory financial statements are presented on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance (ODI) and in accordance with the Accounting Practices and Procedures Manual.

The ODI recognizes only statutory accounting practices prescribed or permitted by the State of Ohio (the State) for determining its solvency under Ohio Insurance Law. NAIC SAP has been adopted as a component of the prescribed or permitted practices by the State with some modifications. These modifications include a five-year life on Electronic Data Processing (EDP) equipment and a 90-day limitation on collection of affiliate balances. Accordingly, the admitted assets, liabilities, capital and surplus of the Company as of March 31, 2013 and December 31, 2012 and the results of its operations and its cash flow for the years then ended have been determined in accordance with accounting principles prescribed or permitted by the ODI. Management believes the monetary effect on net income and statutory surplus between NAIC SAP and accounting principles prescribed or permitted by the ODI is not material.

The preparation of financial statements in conformity with *Accounting Practices and Procedures Manual*, the NAIC Annual Statement Instructions and other accounting practices prescribed or permitted by the ODI requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ significantly from those estimates.

# Notes to Financial Statement

11) The cost of healthcare services is recognized in the period in which services are provided. Healthcare expenses also include an estimate of the cost of services provided to the Company's members by third party providers, which have been incurred but not reported to the Company. The estimate for incurred but not reported claims is based on actuarial projections of costs using historical paid claims data. Estimates are continually monitored and reviewed and, as settlements are made or estimates are adjusted, differences are reflected in current operations. Such estimates are subject to the impact of changes in the regulatory environment and economic conditions. Given the inherent variability of such estimates, the actual liability could differ significantly from the amounts provided. While the ultimate amount of claims paid are dependent on future developments, management is of the opinion that the reserves for claims and the cost to process claims make a reasonable and appropriate provision to cover such claims.

12) The Company's capitalization policy and predefined thresholds have not changed from the prior period.

13) Pharmaceutical rebates are reported as a reduction of prescription drug expense. Receivables related to pharmaceutical rebates are recorded in accordance with SSAP No. 84, Certain Health Care Receivables and Receivables Under Government Insured Plans.
