The National Association of Insurance Commissioners' (NAIC) *Accounting Practices and Procedures* manual, version effective January 1, 2001 and updates through current year have been adopted as a component of prescribed or permitted practices by the state of Ohio.

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Premiums are earned over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. These reserves are computed by pro rata methods for direct business and are based on reports received from ceding companies for reinsurance. Expenses incurred in connection with acquiring new insurance business, including such acquisition costs as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

In addition, the company uses the following accounting policies:

- (1) Short-term investments are stated at amortized cost.
- (2) Bonds not backed by other loans are stated at amortized cost using the effective yield method.
- (3) Common Stocks are stated at market except that investments in stocks of uncombined subsidiaries and affiliates in which the Company has an interest of 20% or more are carried on the equity basis.
- (4) Preferred stocks are stated at book value. Also, Per SSAP 32, lower quality preferred stocks (P3 to P6) are being stated at the lower of book or fair value.
- (5) Not applicable
- (6) Not applicable
- (7) Investments in stocks of uncombined subsidiaries and affiliates in which the Company has an interest of 20% or more are carried on the equity basis.
- (8) The Company has minor ownership interest in partnerships. Alliance Capital Management Holding Limited Partnership is carried at the market value of the common stock.
- (9) The Company does not have any derivatives.
- (10) In the event that a first-order approximation (excluding anticipated investment income) of estimated future costs related to unearned premium as of a particular evaluation date exceeds the unearned premium as of that date, we would incorporate consideration of the related investment income we would expect to earn. However, to date we have not had to proceed to this step in order to demonstrate that no premium deficiency exists.
- (11) Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability is continually reviewed and any adjustments are reflected in the period determined.

(12) The company has not modified its capital policy from a prior period.
