2. The Company had no loan-backed securities with a recognized other-than-temporary impairment due to either the intent to sell or lack of intent to hold to recovery during 2013.
3. The following table shows each loan-backed security with a credit-related other-than-temporary impairment ("OTTI") recognized during 2013:

3. Fair Value Recognition of Transfers Between Levels

The Company recognizes and records the transfer of securities into and out of Level 3 due to changes in availability of market observable inputs. All transfers are reflected in the table above at fair value as of the end of the reporting period.

4. Inputs and Techniques Used in Estimating Fair Value

Level 1 - Quoted prices for identical assets or liabilities in active markets (markets in which transactions occur with sufficient frequency and volume to provide pricing information on an ongoing basis). The Company's Level 1 financial instruments consist primarily of publicly traded equity securities and highly liquid government bonds for which quoted market prices in active markets are available.

Level 2 - Quoted prices for similar instruments in active markets; quoted prices for identical or similar assets or liabilities in inactive markets (markets in which there are few transactions, the prices are not current, price quotations vary substantially over time or among market makers, or in which little information is released publicly); and valuations based on other significant inputs that are observable in active markets. The Company's Level 2 financial instruments include corporate and municipal fixed maturity securities and MBS priced using observable inputs. Level 2 inputs include benchmark yields, reported trades, corroborated broker/dealer quotes, issuer spreads and benchmark securities. When non-binding broker quotes can be corroborated by comparison to similar securities priced using observable inputs, they are classified as Level 2.

Level 3 - Valuations derived from market valuation techniques generally consistent with those used to estimate the fair value of Level 2 financial instruments in which one or more significant inputs are unobservable. The unobservable inputs may include management's own assumptions about the assumptions market participants would use based on the best information available in the circumstances. The Company's Level 3 is comprised of financial instruments whose fair value is estimated based on non-binding broker quotes or internally developed using significant inputs not based on, or corroborated by, observable market information.

The Company's investment managers, American Money Management Corporation (an affiliate) is responsible for the valuation process and uses data from outside sources (including nationally recognized pricing services and broker/dealers) in establishing fair value. Valuation techniques utilized by pricing services and prices obtained from external sources are reviewed by AMMC's internal investment professionals who are familiar with the securities being priced and the markets in which they trade to ensure the fair value determination is representative of an exit price. To validate the appropriateness of the prices obtained, these investment managers consider widely published indices (as benchmarks), recent trades, changes in interest rates, general economic conditions and the credit quality of the specific issuers. In addition, the Company communicates directly with the pricing service regarding the methods and assumptions used in pricing, including verifying, on a test basis, the inputs used by the service to value specific securities.

B. The Company has no additional fair value disclosures.

C. The Company has categorized all the financial assets in the financial statements into the three-level fair value hierarchy as reflected in the following table. See item 4 above for a discussion of each of these three levels.

As reported in prior financial statements, Great American Insurance Company and certain other unaffiliated insurers were parties to declaratory judgment coverage litigation brought in 2001 in the United States District Court for the Southern District of Ohio (arising from claims alleging asbestos exposure resulting in bodily injury) under insurance policies issued during the 1970's and 1980's to Bigelow-Liptak Corporation and related companies, subsequently known as A.P. Green Industries ("A.P. Green"). In February 2002, A.P. Green and related entities filed petitions for bankruptcy under Chapter 11 of the Bankruptcy Code in the United States Bankruptcy Court for the Western District of Pennsylvania (In Re Global Industrial Technologies, Inc., et al.) and an adversary proceeding was initiated against Great American and other insurers. In 2003, Great American entered into a settlement agreement, which subsequently received final approval by the Bankruptcy Court. In May 2013, the settlement of \$122.3 million was paid in cash to the A.P. Green Trusts that were established to administer asbestos and silica claims. A final payment of \$1.2 million is required by the settlement agreement payable to certain attorneys that had represented A.P. Green was paid in June 2013. The full amount of the settlement was accrued in prior years, so these payments had no additional impact on the Company's results of operations or financial position. With these payments, Great American receives a full and final release, a policy buyback, final dismissal of pending actions and full statutory protections afforded by the Bankruptcy Code.

In the third quarter of 2013, the Company recently completed a comprehensive study of its asbestos and environmental ("A&E") exposures relating to its run-off operations. The Company has undertaken periodic reviews of its A&E reserves with the aid of an international independent actuarial firm and specialty outside counsel. As a result of the study, the company recorded 2013 third quarter pre-tax charge of \$54.0 million, net of reinsurance recoverable. At September 30, 2013, the Company's A&E reserves were \$320.5 million, net of reinsurance recoverable. At that date the Company's three year survival ratio was 11.1 times paid losses for the total A&E reserves excluding the payment of AP Green previously mentioned.

34.) SUBSCRIBER SAVINGS ACCOUNTS - No significant change.

35.) MULTIPLE PERIL CROP INSURANCE - No significant change.

36.) FINANCIAL GUARANTY INSURANCE – The Company does not write financial guaranty insurance.
