STATEMENT AS OF SEPTEMBER 30, 2013 OF THE WAYNE MUTUAL INSURANCE COMPANY

NOTES TO FINANCIAL STATEMENTS

Note 1 -Summary of Accounting Policies

A. Accounting Practices

The Statement was prepared with accounting practices & prescribed or permitted by the Ohio Department of Insurance. The Ohio Department of Insurance recognizes only statutory accounting practices prescribed or permitted by the State of Ohio for determining and reporting the financial condition and results of operations of an insurance company, for determining its solvency under the Ohio Insurance Law. The National Association of Insurance Commissioners' NAIC Accounting Practices and Procedures manual, version effective January 1, 2001, (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State of Ohio.

B. Use of Estimates

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policies

Premiums are earned over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by pro rata methods for direct business and are based on reports received from ceding companies for reinsurance. Expenses incurred in connection with acquiring new insurance business, including such acquisition cost as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

In addition, the Company uses the following accounting policies:

1. Short-term investments are stated at amortized value using the interest method. Non-investment grade short-term investments are stated at the lower of amortized value or fair value.
2. Investment grade bonds not backed by other loans are stated at amortized value using the interest method. Non-investment grade bonds with NAIC designations of 3 through 6 are stated at the lower of amortized value or fair value.
3. Common stocks, other than investments in stocks of subsidiaries and affiliates, are stated at fair value.
4. Investment grade redeemable preferred stocks are stated at amortized value. Investment grade perpetual preferred stocks are stated at fair value. Non-investment grade preferred stocks are stated at the lower amortized value or fair value.
5. Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amounts are adequate, the ultimate liabilities may be in excess of or less than the amount provided. The methods of making such estimates and for establishing the resulting liabilities are continually reviewed and any adjustments are reflected in the period determined.
6. The Company has a written capitalization policy for prepaid expenses and purchases of items such as electronic data processing equipment, software, furniture, vehicles, other equipment and leasehold improvements.

Note 2 - Accounting Changes and Corrections of Errors

- A. The Company adopted the provisions of SSAP 101 Income Taxes A Replacement of SSAP 10R and SSAP 10, effective January 1, 2012. SSAP 101 provides new requirements for tax loss contingencies and the calculation and admissibility of deferred tax assets. The difference between the recalculation amounts as of January 1, 2012, and the amount actually reported in the prior year financial statements is treated as a change in accounting principle in accordance with SSAP 3 Accounting Changes and Correction of Errors. The cumulative effect of this change in accounting principle resulted in a \$114,967 increase in unassigned funds as of January 1, 2012.

Note 20 Fair Value Measurements

A. Inputs Used for Assets and Liabilities Measured at Fair Value

1. Fair Value Measurements by Level 1, 2, and 3

The Company has categorized its assets and liabilities that are measured at fair value into the three-level fair value hierarchy as reflected in the table below. The three-level value hierarchy is based on the degree of subjectivity inherent in the valuation method by which fair value was determined. The three levels are defined as follows.

Level 1- Quoted Prices in Active Markets for Identical Assets and Liabilities: This category, for items measured at fair value on a recurring basis, including exchange-traded preferred and common stocks. It also includes derivative liabilities for written call options on common stock which are also exchanged traded. The estimated fair value of the equity securities and derivatives within this category are based on quoted prices in active markets and are thus classified as Level 1.

Level 2- Significant Other Observable Inputs: This category for items measured at fair value on a recurring basis includes bonds, preferred stocks and common stocks which are not exchange-traded. The estimated fair values of some of these items were determined by independent pricing services using observable inputs. Other were based on quotes from markets which were not considered actively traded.

Level 3 – Significant Unobservable Inputs: The Company has no assets or liabilities measured at fair value in this category.

The following table provides information as of September 30, 2013 about the Company's financial assets measured at fair value on a recurring basis:

	Quoted prices in Active Markets for Identical Assets (Level I)	Significant Other Observable Inputs (Level II)	Significant Unobservable Inputs (Level III)	Total at September 30, 2013
Bonds	\$	\$	\$	\$
Common stocks	7,036,565	107,762		7,144,327
Preferred stocks	188,096			188,096
Total	<u>\$ 7,224,661</u>	<u>\$ 107,762</u>	<u>\$ _____</u>	<u>\$ 7,332,423</u>

At the end of each reporting period, the Company evaluates whether or not any event has occurred or circumstances have changed that would cause an instrument to be transferred between Levels 1 and 2. This policy also applies to transfers into or out of Level 3 as stated in paragraph 3 below.

2. Rollforward of Level 3 Items

The Company has no assets or liabilities measured at fair value in the Level 3 category.

3. Policy on Transfers Into and Out of Level 3

At the end of each reporting period, the Company evaluates whether or not any event has occurred or circumstances have changed that would cause an instrument to be transferred into or out of Level 3. During the current year, no transfers into or out of Level 3 were required.

4. Inputs and Techniques Used for Level 2 and Level 3 Fair Values

The Company has no assets or liabilities measured at fair value in the Level 3 category.

Common stock carried at fair value categorized as Level 2 were valued using a market approach. These valuations were determined to be Level 2 valuations because quoted market prices for identical instruments trading in an inactive market were utilized. When an equity instrument is illiquid due to limited trading activity, the use of quoted markets for identical instruments was determined by the Company to be the most reliable method to determine fair value.

5. Derivative Fair Values

Not applicable

B Other Fair Value Disclosure

Not applicable

C. Fair Values for All Financial Instruments by Levels 1, 2, and 3

The table below reflects the fair value and admitted values of all admitted assets and liabilities that are financial instruments excluding those accounted for under the equity method (subsidiaries, joint ventures and ventures). The fair values are also categorized into the three-level fair value hierarchy as described above in Note 20A. This was not practicable for mortgage loans as described below in Note 20D.

Type of Financial Instrument	Fair Value in Investment Schedule	Admitted Value in Investment Schedule	Level 1	Level 2	Level 3
Financial instruments - assets					
Bonds	25,822,008	25,562,635		25,822,008	
Preferred Stocks	215,160	188,096	215,160		
Common Stock	7,144,327	7,144,327	7,036,565	107,762	
Cash	2,589,862	2,589,862	2,589,862		
Short-term investments	705,083	705,083	705,083		
Mortgage Loan		48,098			
Total Assets	36,476,440	36,238,101	10,546,670	25,929,770	

D. Financial Instruments for which Not Practicable to Estimate Fair Values

It's not practical to determine the fair value of mortgage loans for the purpose of the above disclosure of Note 20C due to the fact that these items are not traded and therefore quoted market prices are not available. Also, the cost of obtaining estimates of fair values from other sources is considered excessive given the immateriality of the mortgage loans.

H. Subprime Mortgage Related Risk Exposure

The Company invests in several asset classes that could potentially be adversely affected by subprime mortgage exposure. These investments include bond, mortgage loans, mortgage-backed securities and equity investments in financial institutions. The company believes that its greatest exposure is to unrealized losses from declines in asset values versus realized losses resulting from defaults or foreclosures. Conservative lending and investment practices limit the company's exposure to such losses.
