NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Accounting Practices

The financial statements of Central Mutual Insurance Company are presented on the basis of accounting practices prescribed or permitted by the Ohio Insurance Department.

The Ohio Insurance Department recognizes only statutory accounting practices prescribed or permitted by the State of Ohio for determining and reporting the financial condition and results of operations of an insurance company, for determining solvency under the Ohio Insurance Law. The National Association of Insurance Commissioners' (NAIC) *Accounting Practices and Procedures* manual - Version effective January 1, 2001, (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State of Ohio. The Commissioner of Insurance has the right to permit specific practices that deviate from prescribed practices.

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Premiums are earned over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by pro rata methods for direct business and are based on reports received from ceding companies for reinsurance.

Expenses incurred in connection with acquiring new insurance business, including such acquisition costs as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

In addition, Central Mutual Insurance Company uses the following accounting policies:

- (1) Short-term investments are stated at amortized cost.
- (2) Bonds not backed by other loans are stated at amortized cost using the interest method.
- (3) Common stocks are stated at market value except investments in stocks of uncombined subsidiaries and affiliates in which Central Mutual Insurance Company has an interest of 20% or more are carried on the equity basis.
- (4) Preferred stocks are stated at market value except qualified sinking fund preferreds which are stated at amortized cost.
- (5) Central Mutual Insurance Company has no mortgage loans on real estate.
- (6) Loan-backed securities are stated at amortized cost. Prepayment assumptions for loan-backed bonds and structured securities are obtained from dealer surveys. These assumptions are consistent with the current interest rate and economic environment. The prospective adjustment method is used to value these securities.
- (7) Central Mutual Insurance Company owns 100% of the common stock of All America Insurance Company, a property and casualty insurance company. Central Mutual Insurance Company owns 100% of Security Central, a holding company. Stocks held in all subsidiaries are carried at their
- (8) Central Mutual Insurance Company has no investments in joint ventures, partnerships or limited liability companies.
- (9) Central Mutual Insurance Company owns no derivatives.
- (10) Central Mutual Insurance Company anticipates investment income as a factor in the premium deficiency calculation, in accordance with SSAP No. 53, Property-Casualty Contracts - Premiums.
- (11) Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed and any adjustments are reflected in the period determined.

12. Retirement Plans, Deferred Compensation, Postemployment Benefits and Compensated Absences and Other Postretirement Benefit Plans

A. Defined Benefit Plan

SSAP No. 102 became effective Jan. 1, 2013. This SSAP requires that any underfunded defined pension amounts, as determined when the projected benefit obligation exceeds the fair value of plan assets, to be recognized as a liability under SSAP No. 5R. Such liability is required to be reported beginning with the first quarter statutory financial statement after the transition option reflected in paragraph 85 of SSAP No. 102. The SSAP requires initial transition liability to be the greater of paragraphs 85bi, 85bii, and 85biii:

Minimum Transition Liability		
85b.i	10% of Calculated Surplus Impact	\$ 44,693,435
85b.ii	Annual Amortization of "Unrecognized Items"	\$ 4,469,344
85b.iii	Difference Between ABO & Accrued Benefit Cost	\$ 2,708,012
Minimum Transition Liability		\$ 4,469,344

Although the Company elected the transition option for surplus deferral, and SSAP No. 102 allows up to 10 years for deferral, an entity must continue to recognize a minimum amount of the transition liability as determined in accordance with paragraph 85b. This requires the entity to recognize each year an amount that is at least equal to the amortization of the unrecognized items in effect at transition. Although the amortization of the transition items into future expenses (paragraph 85b.ii) may not be fully determinable at the time of transition (as they are dependent on the future expense calculations), the Company anticipates that the remaining \$40,224,091 surplus impact from the election of the transition deferral in SSAP No. 102 will be recognized over a seven-year* period.

* This is a Company projection and may be revised based upon future expenses and activity.

Notes to Financial Statement
