NOTES TO FINANCIAL STATEMENTS

(1) Summary of Significant Accounting Policies

A. Accounting Practices

The accompanying statutory financial statements of Ohio Bar Liability Insurance Company (Company) have been prepared in conformity with accounting practices prescribed or permitted by the National Association of Insurance Commissioners' (NAIC) and the State of Ohio.

The Ohio Department of Insurance (Department) recognizes only statutory accounting practices (SAP) prescribed or permitted by the Department for determining and reporting the financial condition and results of operations of an insurance company, as well as, determining its solvency under the Ohio Insurance Law. The National Association of Insurance Commissioners' *Accounting Practices and Procedures* manual (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State of Ohio. The Company has no statutory accounting practices that differ from NAIC SAP.

(10) Information Concerning Parent, Subsidiaries, Affiliates and Other Related Parties

In May 2013, the Company approved and declared a dividend of \$1,000,000 to its parent, The Ohio State Bar Association (OSBA).

On August 30, 2013, OBLIC acquired the shares of OSBANet, Inc., a wholly-owned subsidiary of the Ohio State Bar Association (OSBA), and merged same into a newly formed entity, OBLIC Holdings, LLC, of which OBLIC is the sole managing member. Effective with the merger, OSBANet, Inc. was dissolved, leaving OBLIC Holdings, LLC as the surviving entity.

Prior to the merger, OSBANet, Inc. owned 100% of the issued and outstanding shares of the OSBA Insurance Agency, Inc., (OSBAIA), an active insurance agency that markets OBLIC policies as well as life, health, disability and long-term care insurance policies (offered by other insurance carriers) to Ohio attorneys. OSBANet, Inc. also owned 100% of the issued and outstanding shares of the Law Abstract Publishing Company (LAPCO), a company that owns no assets and has no current operations. Effective with the merger, the shares of OSBAIA and LAPCO were assumed by the surviving entity, OBLIC Holdings, LLC, leaving it as the owner of said shares. The total consideration paid to the OSBA for the acquisition and merger of OSBANet, Inc. was \$1,000,000, paid out of OBLIC's surplus. The primary benefit of said transaction was the acquisition and control of OSBAIA, which now becomes a direct marketing arm of OBLIC and a source of additional income. A secondary benefit of the transaction is the potential use of significant net operation losses carried by OSBANet, Inc., which can be utilized by OBLIC to offset income taxes due for future net income.

(11) Debt

Not applicable.

(12) Retirement Plans, Deferred Compensation, Post-employment Benefits and Compensated Absences and Other Post-Retirement Benefit Plans

The Company participates in a qualified defined contribution plan sponsored by the Company. The qualified plan covers all employees of the Company who have completed six months of service. Plan assets are invested with John Hancock. The investments selected are at the discretion of the employee. The Company funds pension costs at 10% of the employee's annual compensation.

The Company's contributions as of September 30, 2013 were \$70,582 and \$66,609 as of December 31, 2012.

(20) Fair Value Measurements
Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements are based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources while unobservable inputs reflect the Company's view of market assumptions in the absence of observable market information. The Company utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. In determining fair value, the Company uses various methods including market, income and cost approaches.

The Company categorizes its assets and liabilities reported at fair value in the quarterly statement into a three-level hierarchy based on the priority of the inputs to the valuation technique. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure fair value fall within different levels of the hierarchy, the category level is based on the lowest priority level input that is significant to the fair value measurement of the instrument in its entirety.

The fair value hierarchy levels are as follows:

Level 1. Unadjusted quoted prices accessible in active markets for identical assets or liabilities at the measurement date and mutual funds where the value per share (unit) is determined and published daily and is the basis for current transactions.

Level 2. Unadjusted quoted prices for similar assets or liabilities in active markets or inputs (other than quoted prices) that are observable or that are derived principally from or corroborated by observable market data through correlation or other means.

Level 3. Prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. Inputs reflect management's best estimate about the assumptions market participants would use at the measurement date in pricing the asset or liability. Consideration is given to the risk inherent in both the method of valuation and the valuation inputs.

The Company periodically reviews its fair value hierarchy classifications for financial assets and liabilities. Changes in observability of significant valuation inputs identified during these reviews may trigger reclassifications. Reclassifications into/out of the fair value hierarchy levels are reported as transfers at the beginning of the period in which the change occurs.

To determine the fair value of bonds and stocks for which market quotations are available, independent pricing services are most often utilized. For these bonds and stocks, the Company obtains the pricing services' methodologies, inputs and assumptions and classifies the investments accordingly in the fair value hierarchy.

The following table represents assets and liabilities measured and reported at fair value:

	As of September 30, 2013			
	Level 1	Level 2	Level 3	Total
