## NOTES TO FINANCIAL STATEMENTS

### **Note 1 - Summary of Significant Accounting Policies**

#### A. Accounting Practices

The accompanying statutory financial statements of Victoria Automobile Insurance Company (the Company) have been prepared in conformity with accounting practices prescribed or permitted by the National Association of Insurance Commissioners (NAIC) and the State of Indiana.

The Indiana Insurance Department recognizes only statutory accounting practices (SAP) prescribed or permitted by the State of Indiana for determining and reporting the financial condition and results of operations of an insurance company, as well as, determining its solvency under the Indiana Insurance law. The National Association of Insurance Commissioners' (NAIC) *Accounting Practices and Procedures Manual* (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State of Indiana. The Company has no statutory accounting practices that differ from NAIC SAP.

#### B. Use of Estimates in the Preparation of the Financial Statements

The preparation of statutory financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

#### C. Accounting Policies

***Federal Income Taxes.*** The Company's parent, Nationwide Mutual Insurance Company (Mutual), files a consolidated federal income tax return, which includes all eligible U.S. subsidiaries and affiliates. In this regard, the included subsidiaries and affiliates pay to Mutual the amount which would have been payable on a separate return basis without regard to the alternative minimum tax. Mutual pays tax due on a consolidated basis.

The Company provides for federal income taxes based on amounts the Company believes it will ultimately owe. Inherent in the provision for federal income taxes are estimates regarding the deductibility of certain items and the realization of certain tax credits. In the event the ultimate deductibility of certain items or the realization of certain tax credits differs from estimates, the Company may be required to change the provision for federal income taxes recorded in the financial statements which could be significant. Management has used best estimates to establish reserves based on current facts and circumstances regarding tax exposure items where the ultimate deductibility is open to interpretation.

In accordance with guidance specified in the NAIC SAP, the Company utilizes the asset and liability method of accounting for income taxes. Under this method, deferred tax assets (DTA), net of any non-admitted portion and statutory valuation allowance, and deferred tax liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The change in deferred taxes, excluding the impact of taxes on unrealized capital gains or losses and nonadmitted deferred taxes, is charged directly to surplus.

***Reinsurance Recoverables.*** The Company cedes insurance to other companies in order to limit potential losses and diversify its exposure. Such agreements do not relieve the Company of its primary obligation to the policyholder in the event the reinsurer is unable to meet the obligations it has assumed. The Company monitors the financial condition of reinsurers on an ongoing basis and reviews its reinsurance agreements regularly in an attempt to minimize its exposure to significant losses from reinsurer insolvencies. Reinsurance recoverables include amounts billed to reinsurers on losses paid. Estimates of amounts expected to be recovered from reinsurers that have not yet been paid on losses are estimated in a manner consistent with the claim liability associated with the underlying policy. Such reinsurance recoverables and reserved deductions partially offset claim costs in the Company's statutory statements of operations and are included as an offset to losses and loss expense reserves in the accompanying statutory statements of admitted assets, liabilities and surplus. There were no contracts using deposit accounting as of December 31, 2013 and 2012.

Statutory accounting principles require recognition of a minimum liability for certain unsecured or overdue reinsurance recoverables. As of December 31, 2013 and 2012, the Company had no provision related to conditional reinsurance recoverables.

In addition, the Company uses the following accounting policies:

1. Short-term investments consist of investments with maturities of twelve months or less at acquisition and are stated at amortized cost, which approximates fair value.
2. Bonds, excluding loan-backed and structured securities, are stated at amortized cost except those with a NAIC designation of "3" through "6" which are stated at the lower of amortized cost or fair value. Amortization of premiums and discounts is calculated using the effective yield method.
3. Unaffiliated common stocks are stated at fair value.
4. Redeemable preferred stocks are stated at amortized cost except those with an NAIC designation of "3" through "6" which are stated at the lower of amortized cost or fair value. Perpetual preferred stocks are stated at fair value except those with an NAIC designation of "3" through "6" which are stated at the lower of amortized cost or fair value.
5. Mortgage loans are carried at the unpaid principal balance adjusted for premiums, discounts, less a valuation allowance. The valuation allowance for mortgage loans reflects management's best estimate of probable credit losses.
6. Loan-backed and structured securities (collectively, loan-backed securities) are stated at amortized cost or the lower of amortized cost or fair value in accordance with the provisions of Statement of Statutory Accounting Principles No. 43-Revised and the Purposes and Procedures Manual of the NAIC Securities Valuation Office. The retrospective adjustment method is used to value loan-backed securities where the collection of all contractual cash flows is probable. For all other loan-backed securities, the Company uses the prospective adjustment method.
7. Investments in subsidiary and affiliated companies are stated as follows:

Not applicable.

## NOTES TO FINANCIAL STATEMENTS

8. Other invested assets consist primarily of investments in partnerships, limited liability companies and joint ventures. Underlying investments primarily include hedge funds, private equity funds and low income housing tax credits. Except for investments in low income housing tax credit partnerships, interests are reported using the equity method of accounting. Changes in carrying value as a result of the equity method are reflected as net unrealized capital gains and losses as a direct adjustment to surplus. Realized gains and losses are generally recognized through income at the time of disposal or when operating distributions are received. Partnership interests in low income housing tax credits are carried at amortized cost with amortization charged to investment income over the period in which the tax benefits, primarily credits, are utilized.
9. Accounting for derivatives
 

Not applicable.
10. Insurance premiums are generally earned ratably over the policy term. The liability for unearned premiums represents the portion of premiums written relating to the unexpired terms of coverage. Such reserves are computed by pro rata methods for direct business and are based on reports received from ceding companies for reinsurance assumed. Premiums in course of collection represent agent balances and uncollected premiums from policyholders for current policies in force and policy premiums assumed from others, including amounts placed with affiliates. As of December 31, 2013 and 2012, the Company had no liabilities related to premium deficiency reserves. The Company includes anticipated investment income when calculating its premium deficiency reserves, in accordance with SSAP No. 53, Property-Casualty Contracts – Premiums.
11. The Company establishes losses and loss expense reserves for reported claims and claims incurred but not yet reported (IBNR). Estimating the liability for losses and loss expense reserves involves significant judgment and multiple assumptions. Management considers the Company's experience with similar claims, historical trends, economic factors and judicial, legislative and regulatory changes in establishing reserves. The Company's losses and loss expense reserves are recorded net of reinsurance and amounts expected to be received from salvage (the amount recovered from property after the Company pays for a total loss) and subrogation (the right to recover payments from third parties).
 

Assumptions and estimates for losses and loss expense reserves are updated as new information becomes available. Due to the inherent uncertainty in estimating losses and loss expense reserves, the actual cost of settling claims may differ materially from recorded amounts. Changes in losses and loss expense reserve estimates are included in results of operations in the period the estimates are revised.
12. The Company has a written capitalization policy for prepaid expenses and purchases of items such as electronic data processing equipment, software, furniture, vehicles, other equipment and leasehold improvements. The Company has not modified its capitalization policy from the prior period.
13. Not applicable as the Company does not write major medical insurance with prescription drug coverage.

### **Note 2 - Accounting Changes and Corrections of Errors**

- A. Accounting Changes and Corrections of Errors

#### ***Adopted Accounting Standards***

On January 1, 2013, the Company adopted SSAP No. 103, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities. The standard establishes accounting for transfers and servicing of financial assets, including asset securitizations and securitizations of policy acquisition costs, extinguishments of liabilities, repurchase agreements, repurchase financing and reverse repurchase agreements, including dollar repurchase and dollar reverse repurchase agreements. The guidance provides criteria to determine whether a transferor has surrendered control over transferred financial assets. It also forbids offsetting for repurchase and reverse repurchase transactions in accordance with master netting agreements. Provisions of this guidance are being applied prospectively, as is required. There was no impact to the Company's financial statements upon adoption.

On December 31, 2013, the Company adopted revisions to SSAP No. 34, Investment Income Due and Accrued and SSAP No. 37, Mortgage Loans. The revisions expand required disclosures related to mortgage loans to assist financial statement users in assessing an entity's credit risk exposures and evaluating the adequacy of its allowance for credit losses. The adoption resulted in increased disclosures only and had no impact on the Company's financial statements.

On December 31, 2013, the Company adopted revisions to SSAP No. 35R, Guaranty Fund and Other Assessments. The revisions require disclosure of the nature of fees paid to the federal government by health insurers under the Affordable Care Act and an estimate of their financial impact, including the impact on the Company's risk based capital position. The adoption resulted in increased disclosures only and had no impact on the Company's financial statements.

On August 24, 2013, the NAIC adopted, effective immediately, revisions to SSAP No. 64, Offsetting and Netting of Assets and Liabilities, SSAP No. 86, Accounting for Derivative Instruments and Hedging, Income Generation, and Replication (Synthetic Asset) Transactions and SSAP No. 103, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities. The Company adopted the revisions on the effective date. The revisions clarify that derivatives, repurchase and reverse repurchase agreements, and securities borrowing and securities lending transactions can be reported net on the balance sheet when a valid right to offset exists. The revisions also add disclosures to illustrate the netting impact. There was no impact on the Company's financial statements.

On October 4, 2013, the NAIC adopted, effectively immediately, revisions to SSAP No. 1, Disclosure of Accounting Policies, Risks & Uncertainties, and Other Disclosures, SSAP No. 15, Debt and Holding Company Obligations, SSAP No. 30, Investments in Common Stock (excluding investments in common stock of subsidiary, controlled, or affiliated entities), and SSAP No. 52, Deposit-Type Contracts. The revisions improve the reporting of FHLB capital stock and develop additional and enhanced disclosures for FHLB transactions. The Company adopted the revisions on the effective date and resulted in increased disclosures only.

On January 1, 2012, the Company adopted a new standard, SSAP No. 101, Income Taxes, which supersedes SSAP No. 10R, Income Taxes Revised - A Temporary Replacement of SSAP No. 10. The standard applies a 'more likely than not' threshold for the recognition of federal and foreign tax loss contingencies, establishes a new framework for determining the admissibility of DTAs and adopts new disclosure requirements. The difference between the recalculated amounts as of January 1, 2012, and the amount actually reported in the prior year financial statements is treated as a change in accounting principle in accordance with SSAP No. 3, Accounting Changes and Corrections of Errors. The cumulative effect of this change in accounting principle resulted in a \$3,911 increase in unassigned funds as of January 1, 2012.

## NOTES TO FINANCIAL STATEMENTS

### **Pending Accounting Standards**

On January 1, 2014, the Company will adopt revisions to SSAP No. 35R, Guaranty Fund and Other Assessments. The revisions require full expense recognition on January 1 of the fee year and reclassification from unassigned surplus to special surplus in the data year for the estimated amount payable to the federal government by health insurers under the Affordable Care Act. The Company is currently in the process of determining the impact of adoption of the revisions to this standard.

On January 1, 2014, the Company will adopt revisions to SSAP No. 26, Bonds, excluding Loan-Backed and Structured Securities. The revisions clarify the "yield to worst" concept for bonds with make whole call provisions. The Company is currently in the process of determining the impact of adoption of the revisions to this standard.

#### A. Mortgage Loans

Not applicable.

#### B. Troubled Debt Restructuring for Creditors

Not applicable.

#### C. Reverse Mortgages

Not applicable.

#### D. Loan-Backed Securities

1. Prepayment assumptions are generally obtained using a model provided by a third-party vendor.

2. Not applicable.

3. Not applicable.

4. All impaired securities (fair value is less than cost or amortized cost) for which an other-than-temporary impairment has not been recognized in earnings as a realized loss (including securities with a recognized other-than-temporary impairment for non-interest related declines when a non-recognized interest related impairment remains):

a. The aggregate amount of unrealized losses:

1.	Less than 12 Months	\$ (50,459)
2.	12 Months or Longer	<u>\$ -</u>

b. The aggregate related fair value of securities with unrealized losses:

1.	Less than 12 Months	\$ 976,152
2.	12 Months or Longer	<u>\$ -</u>

5. The Company reviews all loan-backed and structured securities in which the fair value of the given security is less than the amortized cost to determine if a given security is other-than-temporarily impaired. The Company examines characteristics of the underlying collateral, such as delinquency and default rates, the quality of the underlying borrower, the type of collateral in the pool, the vintage year of the collateral, subordination levels within the structure of the collateral pool, and the quality of any credit guarantors, to determine the cash flows expected to be received for the security.

If the severity and duration of the security's unrealized loss indicates a risk of an other-than-temporary impairment, then the Company will evaluate if the amortized cost basis of the security will be recovered by comparing the present value of the cash flows expected to be received for the given security with the amortized cost basis of the security. If the present value of cash flows is greater than the amortized cost basis of a security then the security is deemed not to be other-than-temporarily impaired.

#### E. Repurchase Agreements and Securities Lending Transactions

1. For repurchase agreements, Company policy requires a minimum of 102% of the fair value of securities purchased under repurchase agreements to be maintained as collateral. Cash collateral received is invested in short-term investments and the offsetting collateral liability is included in aggregate write-ins for liabilities. There were no open repurchase agreements as of year-end.

The Company does not participate in a securities lending program.

2.-7. Not applicable as the Company has no open repurchase agreements of securities lending transactions as of year-end.

#### F. Real Estate

Not applicable.

#### G. Low-Income Housing Tax Credits

### G. Federal or Foreign Federal Income Tax Loss Contingencies

The Company does not have any tax loss contingencies for which it is reasonably possible that the total liability will significantly increase within twelve months of the reporting date.

#### Note 10 - Information Concerning Parent, Subsidiaries, Affiliates and Other Related Parties

##### A. Nature of Relationships

The Company is a wholly owned subsidiary of Victoria Fire & Casualty Company, which is in turn owned by THI Holdings (Delaware), Inc. (THI). THI is owned by Mutual, which, as a mutual entity, is not directly or indirectly owned or controlled by any other company, corporation, and group of companies, partnership or individual. Mutual is operated by and solely in the interests of its policyholders.

Bonds and stocks, if any, owned, acquired or disposed of in any year by the Company in any subsidiary or affiliate are set forth in Schedule D of either this statement or those of prior years. Intercompany relationships and specific holdings are detailed in the Nationwide Corporate Organizational Chart, which appears as Schedule Y of this statement.

The Company is a party to various reinsurance agreements including a pooling agreement with several affiliated companies. See Note 26.

##### B. Detail of Transactions Greater than 1/2 % of Admitted Assets

On June 6, 2012, the Company issued \$1.5 million of additional common stock. The stock was issued to satisfy a common stock requirement by a state in which the Company is going to be applying for a license. All of the shares were purchased by an affiliate, Victoria Fire & Casualty Company.

##### C. Change in Terms of Intercompany Arrangements

See Note 26 for details.

## NOTES TO FINANCIAL STATEMENTS

### D. Amounts Due to or from Related Parties

Affiliate receivables and payables are the result of cost sharing and intercompany service agreements between the Company and its parent and affiliates in which settlement has not yet occurred. Affiliate receivables are presented gross of affiliate payables when the Company has the right to offset. The Company reported \$33 thousand due to parent and \$645 thousand due from parent at December 31, 2013 and 2012, respectively. The Company reported gross amounts of \$5 thousand and \$668 thousand due from parent and affiliates and \$130 thousand and \$448 thousand due to parent and affiliates at December 31, 2013 and 2012, respectively. These arrangements are subject to written agreements which require that intercompany balances be settled within 30 days.

### E. Guarantees or Undertakings for Related Parties

The Company has no guarantees or contingent commitments to affiliates other than indicated in Note 14 A.

### F. Management, Service Contracts, Cost Sharing Arrangements

The Company and various affiliates share a home office, other facilities, equipment, common management and administrative services. Pursuant to a cost sharing agreement between the companies, the amounts associated with these services are subject to allocation based on standard allocation techniques and procedures acceptable under general cost accounting techniques and procedures in conformity with the NAIC SAP. Measures used to determine the allocation among companies includes individual employee estimates of time spent, special cost studies, claims counts, policies in force, direct written premiums, paid losses, pro rata share of employees or their salaries and other methods agreed to by the participating companies. The Company does not believe amounts recognized under the intercompany agreement are materially different than what would have been recognized had the Company operated on a stand-alone basis. A new cost sharing agreement will be in effect beginning January 1, 2014, however, the methods for allocation will remain the same.

### Note 20 – Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements are based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources while unobservable inputs reflect the Company's view of market assumptions in the absence of observable market information. The Company utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. In determining fair value, the Company uses various methods including market, income and cost approaches.

The Company categorizes its financial assets and liabilities into a three-level hierarchy based on the priority of the inputs to the valuation technique. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure fair value fall within different levels of the hierarchy, the category level is based on the lowest priority level input that is significant to the fair value measurement of the instrument in its entirety.

The Company categorizes financial assets and liabilities as follows:

*Level 1.* Unadjusted quoted prices accessible in active markets for identical assets or liabilities at the measurement date and mutual funds where the value per share (unit) is determined and published daily and is the basis for current transactions.

## NOTES TO FINANCIAL STATEMENTS

*Level 2.* Unadjusted quoted prices for similar assets or liabilities in active markets or inputs (other than quoted prices) that are observable or that are derived principally from or corroborated by observable market data through correlation or other means. Primary inputs to this valuation technique may include comparative trades, bid/asks, interest rate movements, U.S. Treasury rates, U.S. LIBOR, prime rates, cash flows, maturity dates, call ability, estimated prepayments and/or underlying collateral values.

*Level 3.* Prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. Inputs reflect management's best estimate about the assumptions market participants would use at the measurement date in pricing the asset or liability. Consideration is given to the risk inherent in both the method of valuation and the valuation inputs. Primary inputs to this valuation technique include broker quotes and comparative trades.

The Company reviews its fair value hierarchy classifications for financial assets and liabilities quarterly. Changes in observability of significant valuation inputs identified during these reviews may trigger reclassifications. Reclassifications are reported as transfers at the beginning of the period in which the change occurs.

To determine the fair value of bonds and stocks for which market quotations are available, independent pricing services are most often utilized. For these bonds and stocks, the Company obtains the pricing services' methodologies, inputs and assumptions and classifies the investments accordingly in the fair value hierarchy.

A corporate pricing matrix or an internally developed pricing model is used in valuing certain bonds. The corporate pricing matrix is developed using private spreads for bonds with varying weighted average lives and credit quality ratings. The weighted average life and credit quality rating of a particular bond to be priced using the corporate pricing matrix are important inputs into the model and are used to determine a corresponding spread that is added to the appropriate U.S. Treasury yield to create an estimated market yield for that bond. The estimated market yield and other relevant factors are then used to estimate the fair value of the particular bond.

Non-binding broker quotes are also utilized to determine the fair value of certain bonds when quotes are not available from independent pricing services, corporate pricing matrix or internal pricing models. These bonds are classified accordingly in the fair value hierarchy as only one broker quote is ordinarily obtained, the investment is not traded on an exchange, the pricing is not available to other entities and/or the transaction volume in the same or similar investments has decreased. Inputs used in the development of prices are not provided to the Company by the brokers as the brokers often do not provide the necessary transparency into their quotes and methodologies. Broker quotes are subject to validation of price movements that require approval from the Company's management. Management uses its knowledge of the investment and current market conditions to determine if the price is indicative of the investment's fair value.

Fair value of derivative instruments is determined using various valuation techniques relying predominately on observable market inputs. These inputs include interest rate swap curves, credit spreads, interest rates, counterparty credit risk, equity volatility and equity index levels. In cases where observable inputs are not available, the Company will utilize non-binding broker quotes to determine fair value and these instruments are classified accordingly in the fair value hierarchy.

No financial assets or liabilities were carried at fair value as of December 31, 2013.

The following table summarizes aggregate carrying value and fair value, by level, for all financial assets and liabilities, excluding assets and liabilities reported at fair value, as of December 31, 2013:

29.1 Does the reporting entity have any diversified mutual funds reported in Schedule D, Part 2 (diversified according to the Securities and Exchange Commission (SEC) in the Investment Company Act of 1940 [Section 5(b)(1)])? Yes [ ] No [ X ]  
 29.2 If yes, complete the following schedule:

1 CUSIP #	2 Name of Mutual Fund	3 Book/Adjusted Carrying Value
29.2999 - Total		

29.3 For each mutual fund listed in the table above, complete the following schedule:

1 Name of Mutual Fund (from above table)	2 Name of Significant Holding of the Mutual Fund	3 Amount of Mutual Fund's Book/Adjusted Carrying Value Attributable to the Holding	4 Date of Valuation

30. Provide the following information for all short-term and long-term bonds and all preferred stocks. Do not substitute amortized value or statement value for fair value.

	1 Statement (Admitted) Value	2 Fair Value	3 Excess of Statement over Fair Value (-), or Fair Value over Statement (+)
30.1 Bonds .....	9,736,033	10,192,908	456,875
30.2 Preferred stocks .....			
30.3 Totals .....	9,736,033	10,192,908	456,875

30.4 Describe the sources or methods utilized in determining the fair values:

For fixed maturity and marketable equity securities for which market quotations generally are available, Nationwide generally uses independent pricing services to assist in determining the fair value measurement. For certain fixed maturity securities not priced by independent services (generally private placement securities without quoted market prices), an internally developed pricing model or "corporate pricing matrix" is most often used. The corporate pricing matrix is developed by obtaining private spreads versus the U.S. Treasury yield for corporate securities with varying weighted average lives and bond ratings. The weighted average life and bond rating of a particular fixed maturity security to be priced using the corporate matrix are important inputs into the model and are used to determine a corresponding spread that is added to the U.S. Treasury yield to create an estimated market yield for that bond. The estimated market yield and other relevant factors are then used to estimate the fair value of the particular fixed maturity security. Nationwide also utilized broker quotes to assist in pricing securities or to validate modeled prices.

31.1 Was the rate used to calculate fair value determined by a broker or custodian for any of the securities in Schedule D? ..... Yes [ X ] No [ ]  
 31.2 If the answer to 31.1 is yes, does the reporting entity have a copy of the broker's or custodian's pricing policy (hard copy or electronic copy) for all brokers or custodians used as a pricing source? ..... Yes [ ] No [ X ]  
 31.3 If the answer to 31.2 is no, describe the reporting entity's process for determining a reliable pricing source for purposes of disclosure of fair value for Schedule D:  
 Nationwide relies on broker valuations only when an approved third party vendor evaluation is not available. Any exceptions are approved by Risk Management and the Middle Office and reviewed by the Investments Pricing Committee. The brokers used to value securities are deemed to be main market makers for each individual security and therefore have in depth knowledge of the particular issue.

32.1 Have all the filing requirements of the Purposes and Procedures Manual of the NAIC Securities Valuation Office been followed? ..... Yes [ X ] No [ ]  
 32.2 If no, list exceptions:

**GENERAL INTERROGATORIES**

**PART 2 - PROPERTY AND CASUALTY INTERROGATORIES**

6.1 What provision has this reporting entity made to protect itself from an excessive loss in the event of a catastrophe under a workers' compensation contract issued without limit of loss?  
The Company's net exposure, if any, ultimately is 100% ceded to the Nationwide Mutual Insurance Company Pool under a quota share reinsurance agreement. No retained exposure. ....

6.2 Describe the method used to estimate this reporting entity's probable maximum insurance loss, and identify the type of insured exposures comprising that probable maximum loss, the locations of concentrations of those exposures and the external resources (such as consulting firms or computer software models), if any, used in the estimation process.  
The Company's net exposure, if any, ultimately is 100% ceded to the Nationwide Mutual Insurance Company Pool under a quota share reinsurance agreement. The Company's property exposures are aggregated with the other Nationwide companies and modeled using Applied Insurance Research (AIR) CLASIC/2. ....

6.3 What provision has this reporting entity made (such as a catastrophic reinsurance program) to protect itself from an excessive loss arising from the types and concentrations of insured exposures comprising its probable maximum property insurance loss?  
The Company's net property-catastrophe exposures, if any, are mitigated through managed coastal growth, purchase of excess of loss reinsurance, policy provisions such as higher deductibles, and enforcement of underwriting guidelines related to building construction, etc. ....

6.4 Does the reporting entity carry catastrophe reinsurance protection for at least one reinstatement, in an amount sufficient to cover its estimated probable maximum loss attributable to a single loss event or occurrence? .... Yes [ X ] No [ ]

6.5 If no, describe any arrangements or mechanisms employed by the reporting entity to supplement its catastrophe reinsurance program or to hedge its exposure to unreinsured catastrophic loss. ....

7.1 Has this reporting entity reinsured any risk with any other entity under a quota share reinsurance contract that includes a provision that would limit the reinsurer's losses below the stated quota share percentage (e.g., a deductible, a loss ratio corridor, a loss ratio cap, an aggregate limit or any similar provisions)? .... Yes [ ] No [ X ]

7.2 If yes, indicate the number of reinsurance contracts containing such provisions: ....

7.3 If yes, does the amount of reinsurance credit taken reflect the reduction in quota share coverage caused by any applicable limiting provision(s)? .... Yes [ ] No [ ]

8.1 Has this reporting entity reinsured any risk with any other entity and agreed to release such entity from liability, in whole or in part, from any loss that may occur on this risk, or portion thereof, reinsured? .... Yes [ ] No [ X ]

8.2 If yes, give full information ....

9.1 Has the reporting entity ceded any risk under any reinsurance contract (or under multiple contracts with the same reinsurer or its affiliates) for which during the period covered by the statement: (i) it recorded a positive or negative underwriting result greater than 5% of prior year-end surplus as regards policyholders or it reported calendar year written premium ceded or year-end loss and loss expense reserves ceded greater than 5% of prior year-end surplus as regards policyholders; (ii) it accounted for that contract as reinsurance and not as a deposit; and (iii) the contract(s) contain one or more of the following features or other features that would have similar results:  
(a) A contract term longer than two years and the contract is noncancelable by the reporting entity during the contract term;  
(b) A limited or conditional cancellation provision under which cancellation triggers an obligation by the reporting entity, or an affiliate of the reporting entity, to enter into a new reinsurance contract with the reinsurer, or an affiliate of the reinsurer;  
(c) Aggregate stop loss reinsurance coverage;  
(d) A unilateral right by either party (or both parties) to commute the reinsurance contract, whether conditional or not, except for such provisions which are only triggered by a decline in the credit status of the other party;  
(e) A provision permitting reporting of losses, or payment of losses, less frequently than on a quarterly basis (unless there is no activity during the period); or  
(f) Payment schedule, accumulating retentions from multiple years or any features inherently designed to delay timing of the reimbursement to the ceding entity. .... Yes [ ] No [ X ]

9.2 Has the reporting entity during the period covered by the statement ceded any risk under any reinsurance contract (or under multiple contracts with the same reinsurer or its affiliates), for which, during the period covered by the statement, it recorded a positive or negative underwriting result greater than 5% of prior year-end surplus as regards policyholders or it reported calendar year written premium ceded or year-end loss and loss expense reserves ceded greater than 5% of prior year-end surplus as regards policyholders; excluding cessions to approved pooling arrangements or to captive insurance companies that are directly or indirectly controlling, controlled by, or under common control with (i) one or more unaffiliated policyholders of the reporting entity, or (ii) an association of which one or more unaffiliated policyholders of the reporting entity is a member where:  
(a) The written premium ceded to the reinsurer by the reporting entity or its affiliates represents fifty percent (50%) or more of the entire direct and assumed premium written by the reinsurer based on its most recently available financial statement; or  
(b) Twenty-five percent (25%) or more of the written premium ceded to the reinsurer has been retroceded back to the reporting entity or its affiliates in a separate reinsurance contract. .... Yes [ ] No [ X ]

9.3 If yes to 9.1 or 9.2, please provide the following information in the Reinsurance Summary Supplemental Filing for General Interrogatory 9:  
(a) The aggregate financial statement impact gross of all such ceded reinsurance contracts on the balance sheet and statement of income;  
(b) A summary of the reinsurance contract terms and indicate whether it applies to the contracts meeting the criteria in 9.1 or 9.2; and  
(c) A brief discussion of management's principle objectives in entering into the reinsurance contract including the economic purpose to be achieved.

9.4 Except for transactions meeting the requirements of paragraph 32 of SSAP No. 62R, Property and Casualty Reinsurance, has the reporting entity ceded any risk under any reinsurance contract (or multiple contracts with the same reinsurer or its affiliates) during the period covered by the financial statement, and either:  
(a) Accounted for that contract as reinsurance (either prospective or retroactive) under statutory accounting principles ("SAP") and as a deposit under generally accepted accounting principles ("GAAP"); or  
(b) Accounted for that contract as reinsurance under GAAP and as a deposit under SAP? .... Yes [ ] No [ X ]

9.5 If yes to 9.4, explain in the Reinsurance Summary Supplemental Filing for General Interrogatory 9 (Section D) why the contract(s) is treated differently for GAAP and SAP.

9.6 The reporting entity is exempt from the Reinsurance Attestation Supplement under one or more of the following criteria:  
(a) The entity does not utilize reinsurance; or, .... Yes [ ] No [ X ]  
(b) The entity only engages in a 100% quota share contract with an affiliate and the affiliated or lead company has filed an attestation supplement; or .... Yes [ ] No [ X ]  
(c) The entity has no external cessions and only participates in an intercompany pool and the affiliated or lead company has filed an attestation supplement. .... Yes [ X ] No [ ]

10. If the reporting entity has assumed risks from another entity, there should be charged on account of such reinsurance a reserve equal to that which the original entity would have been required to charge had it retained the risks. Has this been done? .... Yes [ ] No [ ] N/A [ X ]

Explanation of basis of allocation of premiums by states, etc.

Premiums are allocated to those states where the insured risks are located: principle garage for automobile, physical address for homeowners, commercial multiple peril and other liability and main place of work for workers' compensation. Allocation of premiums for individual and group health insurance is based on the situs of the contract.
