NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Accounting Practices

The financial statements of United Ohio Insurance Company (the Company) are presented on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance (ODI).

The ODI recognizes only statutory accounting practices prescribed or permitted by the State of Ohio for determining and reporting the financial condition and results of operations of an insurance company. The National Association of Insurance Commissioners' (NAIC) *Accounting Practices and Procedures Manual* has been adopted as a component of prescribed or permitted accounting practices by the State of Ohio.

A reconciliation of the Company's net income and capital surplus between NAIC Statutory Accounting Practices and practices prescribed and permitted by the State of Ohio is shown below:

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with the Annual Statement Instructions and the *Accounting Practices and Procedures Manual* requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Premiums are earned over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by pro rata methods for direct business.

Expenses incurred in connection with acquiring new insurance business, including such acquisition costs as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

In addition, the Company uses the following accounting policies:

(1) All short-term investments are stated at amortized cost.
(2) Bonds not backed by other loans are stated at either amortized cost, using the scientific interest method or the lower of amortized cost or fair market value.
(3) Unaffiliated common stocks are stated at fair market value. The Company has no subsidiaries or affiliates in which the company has an interest of 20% or more.
(4) The Company had no preferred stock at December 31, 2013 or 2012.
(5) The Company has no mortgage loans on real estate.
(6) Loan-backed securities are stated at either amortized cost, using the interest method or the lower of amortized cost or fair market value. The retrospective adjustment method is used to value all securities except for interest only securities, EITF 99-20 eligible securities or securities where the yield has become negative are valued using the prospective method.
(7) The Company has no subsidiaries. The Company's insurance affiliate is Casco Indemnity Company and the Company's non-insurance affiliates are Centurion Financial, Inc., Ohio United Agency, Inc., and United Premium Budget Service, Inc. The Company is wholly-owned by Ohio Mutual Insurance Company.
(8) The Company has no ownership interest in any significant joint ventures.
(9) The Company owns no derivative instruments.
(10) The Company anticipates investment income as a factor in the premium deficiency calculation, in accordance with SSAP No. 53, Property-Casualty Contracts-Premiums.

NOTES TO FINANCIAL STATEMENTS

(11) Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liabilities are continually reviewed and any adjustments are reflected in the period determined.

(12) The Company has not modified its capitalization policy from the prior period.

(13) The Company has no pharmaceutical rebate receivables.

2. Accounting Changes and Corrections of Errors

The Company adopted SSAP Number 92, Postretirement Benefits Other than Pensions and SSAP Number 102, Pensions. See footnote #12 for details on the adoption of these new pronouncements.

3. Business Combinations and Goodwill

The Company was not involved in any business combinations.

4. Discontinued Operations

The Company has no discontinued operations to report.

5. Investments

A. The Company has no mortgage loans.
B. The Company has no debt restructuring.
C. The Company has no reverse mortgages.
D. Loan-Backed Securities

(1) Prepayment assumptions for Mortgage-backed securities, Collateralized Mortgage Obligations and Other Structured Securities were generated using a purchased prepayment model. The prepayment model uses a number of factors to estimate prepayment activity including the time of year (seasonality), current levels of interest rates (refinancing incentive), economic activity (including housing turnover) and term and age of the underlying collateral (burnout, seasoning). On an ongoing basis, we monitor the rate of prepayment and calibrate the model to reflect actual experience, market factors, and viewpoint.

(2) a. The Company had no securities it intended to sell for which it recognized other-than-temporary impairment losses.

b. The Company had no securities for which it lacked the ability or intent to retain an investment in for a period of time sufficient to recover the amortized cost basis.

(3) The Company had no other-than-temporary impairments for the year ended December 31, 2013.

(4) All temporarily impaired securities for which an other-than-temporary impairment has not been recognized in earnings as a realized loss in 2013 are as follows:

a.	The aggregate amount of unrealized losses:		
		1. Less than 12 Months	$ (1,032,970)
		2. 12 Months or Longer	$ (140,052)
b.	The aggregate related fair value of securities with unrealized losses:		
		1. Less than 12 Months	$ 16,332,092
		2. 12 Months or Longer	$ 1,357,696

(5) Management regularly reviews the value of the Company's investments. If the value of any investment falls below its cost basis, the decline is analyzed to determine whether it is an other-than-temporary decline in value. To make this determination for each security, the following is considered:

- The length of time and the extent to which the fair value has been below cost;
- The financial condition and near-term prospects of the issuer of the security, including any specific events that may affect its operations or earnings potential;
- Management's intent and ability to hold the security long enough for it to recover its value;

Management concluded that the remaining investments held with unrealized losses were not other-than-temporarily impaired on the basis that the Company had the ability and intent to hold the investments for a period of time sufficient for a forecasted market price recovery up to or beyond the cost of the investment. Also, in management's opinion, evidence indicating the cost of the investment was recoverable within a reasonable period of time outweighed evidence to the contrary in considering the severity and duration of the impairment in relation to the forecasted market price recovery.

E. The Company has no repurchase agreements or securities lending transactions.

F. The Company owns no real estate.

G. The Company has no real estate investments that qualify for low-income housing tax credits (LIHTC).

12. Retirement Plans, Deferred Compensation, Postemployment Benefits and Compensated Absences and Other Postretirement Benefit Plans.

A. Defined Benefit Plans

The NAIC adopted *Statement of Statutory Accounting Principles (SSAP) No. 92, Accounting for Postretirement Benefits Other Than Pensions* (SSAP No. 92) and *SSAP No. 102, Accounting for Pensions* (SSAP No. 102) in March 2012. SSAP Nos. 92 and 102 adopt with modification *Financial Accounting Standard No. 158, Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans, an Amendment of FAS 87, 88, 106, and 132(R)* (FAS 158). The primary focus of FAS 158 and SSAP Nos. 92 and 102 is to recognize the funded status of a defined benefit plan in the balance sheet. Additionally, SSAP Nos. 92 and 102 requires expanded fair value disclosures for plan assets. SSAP Nos. 92 and 102 allows entities to elect to either recognize the full transition surplus impact for an unfunded plan as of January 1, 2013, or elect to recognize the impact over a period of not more than 10 years, so long as the surplus impact as of January 1, 2013 is the greater of 10% of the calculated surplus impact as of the transition date or the reported amount of any unrecognized items (the deferral method). If the deferral option is elected, entities shall recognize an annual liability over a period not to exceed 10 years. The Group adopted SSAP Nos. 92 and 102 as of January 1, 2013 and has recognized the full transition surplus impact at the date of adoption.

The Group's pension plan consists of a noncontributory defined benefit pension plan covering certain employees of the Group meeting certain minimum age and employment requirements. Effective August 1, 2007, the pension plan was amended to freeze certain employees from incurring future benefits. Current employees who did not reach the age of 40 on or after July 31, 2007 ceased earning additional benefits under the plan. New employees after August 1, 2007 are no longer able to participate in the plan. The Group's funding policy is to make at least the minimum annual contributions required by applicable regulations and not more than the maximum deductible contribution. The Group contributed $1,410,674 and $634,082 to its pension plan during 2013 and 2012, respectively.

The Company also provides Postretirement Medicare Supplement policies for eligible retirees and spouses. This plan was amended as of January 1, 2005 to limit the number of participants in the plan. The following participants are eligible for benefits: current retirees receiving benefits as of January 1, 2005, employees who are age 60 or older and had at least 10 years of service as of January 1, 2005, and employees who retire after age 60 and had at least 25 years of service on January 1, 2005. The benefits are fully insured but unfunded as the Company pays the obligations when due. Actuarially determined costs are recognized over the period the employee provides service to the Company. The Company contributed $92,346 and $90,555 to its postretirement benefit plan in 2013 and 2012 respectively.

A summary of assets, obligations and assumptions of the Pension and Other Postretirement Benefit Plans are as follows at December 31, 2013 and 2012:

B. The Company's defined benefit plan invests in a diversified mix of traditional asset classes. The plan adopted a written investment policy to provide guidance for the investment of contributions and other plan assets to help maintain adequate funding for plan liabilities. The investment policy objectives are as follows:

- Return - Obtain a reasonable long-term return consistent with the level of risk assumed. Specific return objectives may include fund performance that exceeds the rate of inflation, the assumed actuarial discount rate, and/or the total fund policy return which is typically defined as the return of a passively managed benchmark comprised of the target portfolio weights to each asset class.

- Cost– Seek to control the cost of funding the Plan within prudent levels of risk through the investment of Plan assets.

- Diversification – Provide diversification of assets in an effort to avoid the risk of large losses and maximize the investment return to the Plan consistent with market and economic risk.

NOTES TO FINANCIAL STATEMENTS

The plan's asset allocations are based on several factors including:

- The projected liability stream of benefits and the costs of funding to both covered employees and employers;
- The relationship between the current and projected assets of the Plan and the projected actuarial liability stream;
- The historical performance of capital markets adjusted for the perception of future short- and long-term capital market performance;
- The perception of future economic conditions, including inflation and interest rate assumptions.

Asset allocations and investment performance is formally reviewed quarterly by the plan's Pension Plan Administrative Committee. Forecasting of asset and liability growth is performed regularly including asset/liability matching.

The defined benefit pension plan asset allocation as of the measurement date, December 31, 2013 and the target asset allocation, presented as a percentage of total plan assets were as follows:

	2013	2012	Target Allocation
Large U.S. Equity	29.9%	30.8%	29.9%
