NOTES TO FINANCIAL STATEMENTS

1) Summary of Significant Accounting Policies

A) The accompanying financial statement of American Modern Home Insurance Company (the "Company") has been prepared in conformity with accounting practices prescribed or permitted by the National Association of Insurance Commissioners and the State of Ohio.

B) The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C) 1) Short-term investments are stated at amortized cost.
2) Investment grade Bonds, defined as bonds with NAIC designation 1 and 2, not backed by other loans, are stated at amortized cost using the constant yield method unless another value is required by the NAIC Capital Markets and Investment Analysis Office. All other bonds not backed by loans are carried at the lower of amortized cost or fair value.
3) The common stock subsidiaries, American Western Home Insurance Company, American Southern Home Insurance Company, First Marine Insurance Company and American Modern Select Insurance Company, are carried on the equity basis.
4) The Company has no preferred stock.
5) The Company has no mortgage loans on real estate.
6) Loan-backed and structured securities are stated at either amortized cost or the lower of amortized cost or fair value. Mortgage-backed and asset-backed securities are valued using the retrospective adjustment method, except for any such impaired securities which use the prospective method.
7) American Modern Home Insurance Company owns 100% of the common stock of American Western Home Insurance Company, an insurance company domiciled in the State of Oklahoma, owns 100% of the common stock of American Southern Home Insurance Company, an insurance company domiciled in the State of Florida, owns 100% of First Marine Insurance Company, an insurance company domiciled in the State of Ohio, and owns 100% of the common stock of American Modern Select Insurance Company, an insurance company domiciled in the State of Ohio. These stocks are valued on the equity basis.
8) The Company has no investments in joint ventures, partnerships, or limited liability companies.
9) The Company currently holds no derivative instruments.
10) The Company has no exposures that require the use of anticipated investment income as a factor in the premium deficiency calculation.
11) Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are based on assumptions and estimates and, while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed and any adjustments are reflected in the period determined.
12) The Company has a written capitalization policy for prepaid expenses and purchases of items such as electronic data processing equipment, software, furniture, vehicles, other equipment and leasehold improvements. The predefined capitalization thresholds under this policy have not changed from those of the prior year.
13) The Company has no pharmaceutical rebate receivables.

2) Accounting Changes and Corrections of Errors

The Company adopted the provisions of SSAP 101 *Income Taxes A Replacement of SSAP 10R and SSAP 10*, effective January 1, 2012. SSAP 101 provides new requirements for tax loss contingencies and the calculation and admissibility of deferred tax assets. There is no cumulative adjustment needed for this change as the Company adopted the 3 year option under 10R.

The Company is analyzing certain policies in one of its operating divisions to correct rating variances on policies issued prior to 2012. The Company has recorded estimated liabilities due to these rating variances which are included in Aggregate Write-Ins for Liabilities on the Statement of Liabilities, Surplus and Other Funds - Statutory Basis. F. Consolidated federal income tax return

(1) The Company is a member of the Munich-American Holding Corporation (MAHC) consolidated federal income tax return group. Schedule Y, Part 1 of the December 31, 2013 Annual Statement contains a listing of MAHC's other domestic subsidiaries. A listing of the MAHC companies that will be included in the 2013 consolidated federal tax return will be available upon request.

(2) The Company has a written tax sharing agreement with Munich American Holding Corporation approved by the Company's Board of Directors, setting forth the allocation and payment of federal income tax. The consolidated tax provision or credit is allocated to the separate companies on the basis of separate return computations. If the current year results in a reported profit for the insurance company, the tax provision recorded is currently payable to the parent company. If the current year results in a reported loss for the insurance company, the tax credit recorded is currently payable from the parent company to the insurance company. Thus, in loss years, Federal income taxes are recouped immediately and not carried forward. Estimated settlements are performed quarterly with the final amount settled once the tax return is filed.

(3) The Company's income tax returns that remain open to examination are for the years 2011 and subsequent.

- A) Inputs Used for Assets and Liabilities Measured and Reported at Fair Value
 - 1) Items Measured and Reported at Fair Value by Levels 1, 2 and 3.

The Company classifies the assets and liabilities that require measurement of fair value on a recurring basis based on the priority of the observable and market-based sources of data into a three-level fair value hierarchy. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are as follows:

NOTES TO FINANCIAL STATEMENTS

Level 1 - Valuations based on quoted prices in active markets for identical assets or liabilities that the entity has the ability to access.

Level 2 - Valuations based on significant other observable inputs other than those included in Level 1, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable data for substantially the full term of the assets or liabilities.

Level 3 - Valuations based on unobservable inputs such as when observable inputs are not available or inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. The Company has no assets or liabilities measured at fair value in this category.

The following table presents, for each of the fair value levels, the Company's assets and liabilities that are measured at fair value on a recurring basis as of December 31, 2013:

Financial assets and liabilities measured at fair value on a recurring basis

Description	Total 12/31/2013	Level 1	Level 2	Level 3	Total Gains (Losses)

Preferred stocks		-	-	-	-
Total assets at fair value	-	(43,386)	-	(43,386)	
Total liabilities at fair value	-	-	-	-	-

At the end of each reporting period, the Company evaluates whether any event has occurred or circumstances have changed which would cause an instrument to be transferred between Levels 1 and 2. This policy also applies to transfers into or out of Level 3 as stated in paragraph 3 below.

During the current year there were no transfers among Levels 1, 2 and 3.

2) Rollforward of Level 3 items

The Company has no assets or liabilities measured at fair value in the Level 3 category. Therefore no table supplied.

3) Policy on transfers into and out of Level 3

At the end of each reporting period, the Company evaluates whether any event has occurred or circumstances have changed which would cause an instrument to be transferred into or out of Level 3. During the current year, no transfers into or out of Level 3 were required.

4) Inputs and Techniques used for Level 2 and Level 3 Fair Values

The Company has no assets or liabilities measured at fair value in the Level 3 category.

For securities whose prices are not available through pricing services or index providers, the prices are obtained from other sources such as broker-dealers or pricing vendors. Debt instruments are valued by index providers, pricing services or broker-dealers using standard market conventions. The market conventions utilize market quotations, market transactions in comparable instruments and various relationships between instruments such as yield to maturity, dollar prices and spread prices in determining value. Cash instruments are priced with either a matrix pricing system that utilizes market yields and spreads, pricing vendors or amortized cost.

5) Derivative Fair Values
