NOTES TO FINANCIAL STATEMENTS

Note 1 - Summary of Significant Accounting Policies

A. Accounting Practices

The accompanying statutory financial statements of Nationwide Mutual Fire Insurance Company (the Company) have been prepared in conformity with accounting practices prescribed or permitted by the National Association of Insurance Commissioners (NAIC) and the State of Ohio.

The Ohio Department of Insurance recognizes only statutory accounting practices (SAP) prescribed or permitted by the State of Ohio for determining and reporting the financial condition and results of operations of an insurance company, as well as, determining its solvency under the Ohio Insurance law. The National Association of Insurance Commissioners' (NAIC) *Accounting Practices and Procedures Manual* (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State of Ohio. The Company has no material statutory accounting practices that differ from NAIC SAP.

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of statutory financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policies

Federal Income Taxes. The Company files its own consolidated returns with its subsidiary, Retention Alternatives, Ltd. The Company provides for federal income taxes based on amounts the Company believes it ultimately will owe. Inherent in the provision for federal income taxes are estimates regarding the deductibility of certain items and the realization of certain tax credits. In the event the ultimate deductibility of certain items or the realization of certain tax credits differs from estimates, the Company may be required to change the provision for federal income taxes recorded in the financial statements significantly. Management has used best estimates to establish reserves based on current facts and circumstances regarding tax exposure items where the ultimate deductibility is open to interpretation.

In accordance with guidance specified in the NAIC SAP, the Company utilizes the asset and liability method of accounting for income taxes. Under this method, deferred tax assets (DTA), net of any non-admitted portion and statutory valuation allowance, and deferred tax liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The change in deferred taxes, excluding the impact of taxes on unrealized capital gains or losses and nonadmitted deferred taxes, is charged directly to surplus.

Reinsurance Recoverables. The Company cedes insurance to other companies in order to limit potential losses and diversify its exposure. Such agreements do not relieve the Company of its primary obligation to the policyholder in the event the reinsurer is unable to meet the obligations it has assumed. The Company monitors the financial condition of reinsurers on an ongoing basis and reviews its reinsurance agreements regularly in an attempt to minimize its exposure to significant losses from reinsurer insolvencies. Reinsurance recoverables include amounts billed to reinsurers on losses paid. Estimates of amounts expected to be recovered from reinsurers that have not yet been paid on losses are estimated in a manner consistent with the claim liability associated with the underlying policy. Such reinsurance recoverables and reserved deductions partially offset claim costs in the Company's statutory statements of operations and are included as an offset to losses and loss expense reserves in the accompanying statutory statements of admitted assets, liabilities and surplus. There were no contracts using deposit accounting as of December 31, 2013 and 2012.

Statutory accounting principles require recognition of a minimum liability for certain unsecured or overdue reinsurance recoverables. At December 31, 2013 and 2012, the Company had no provision related to conditional reinsurance recoverables.

In addition, the Company uses the following accounting policies:

1. Short-term investments consist of investments with maturities of twelve months or less at acquisition and are stated at amortized cost, which approximates fair value.
2. Bonds, excluding loan-backed and structured securities, are stated at amortized cost except those with a NAIC designation of "3" through "6" which are stated at the lower of amortized cost or fair value. Amortization of premiums and discounts is calculated using the effective yield method.
3. Unaffiliated common stocks are stated at fair value.
4. Redeemable preferred stocks are stated at amortized cost except those with an NAIC designation of "3" through "6" which are stated at the lower of amortized cost or fair value. Perpetual preferred stocks are stated at fair value except those with an NAIC designation of "3" through "6" which are stated at the lower of amortized cost or fair value.
5. Mortgage loans are carried at the unpaid principal balance adjusted for premiums, discounts, less a valuation allowance. The valuation allowance for mortgage loans reflects management's best estimate of probable credit losses.
6. Loan-backed and structured securities (collectively, loan-backed securities) are stated at amortized cost or the lower of amortized cost or fair value in accordance with the provisions of Statement of Statutory Accounting Principles No. 43-Revised and the Purposes and Procedures Manual of the NAIC Securities Valuation Office. The retrospective adjustment method is used to value loan-backed securities where the collection of all contractual cash flows is probable. For all other loan-backed securities, the Company uses the prospective adjustment method.

NOTES TO FINANCIAL STATEMENTS

7. Investments in subsidiary and affiliated companies are stated as follows:

With the exception of Nationwide Corporation, the admitted investments in all subsidiary, controlled, and affiliated (SCA) entities are valued using an equity method approach. Under this approach, investments in insurance affiliated companies are stated at underlying audited statutory surplus adjusted for unamortized goodwill. Investments in non-insurance affiliated companies that have no significant ongoing operations other than to hold assets that are primarily for the direct or indirect benefit or use of the reporting entity or its affiliates are stated at audited GAAP equity adjusted to a statutory basis of accounting. Investments in non-insurance affiliated companies that have significant ongoing operations beyond holding assets that are primarily for the direct or indirect benefit or use of the reporting entity or its affiliates are stated at audited GAAP equity. Unaudited affiliated companies of the reporting entity or its affiliates are non-admitted under prescribed SAP accounting practices. Goodwill arising from the acquisition of subsidiaries or affiliated companies is amortized over a period of ten years. Investments in affiliated companies are generally included in stocks. Unamortized goodwill at December 31, 2013 and 2012 was \$44.4 million and \$53.2 million, respectively, which was fully admitted based upon adjusted policyholder surplus.

8. Other invested assets consist primarily of investments in partnerships, limited liability companies and joint ventures. Underlying investments primarily include hedge funds, private equity funds and low income housing tax credits. Except for investments in low income housing tax credit partnerships, interests are reported using the equity method of accounting. Changes in carrying value as a result of the equity method are reflected as net unrealized capital gains and losses as a direct adjustment to surplus. Realized gains and losses are generally recognized through income at the time of disposal or when operating distributions are received. Partnership interests in low income housing tax credits are carried at amortized cost with amortization charged to investment income over the period in which the tax benefits, primarily credits, are utilized.

9. Accounting for derivatives

The Company uses derivative instruments to manage risks associated with interest rates and foreign currency. These derivative instruments primarily include interest rate swaps and options.

Derivative instruments used in hedging transactions considered to be effective hedges are valued and reported in a manner consistent with the hedged items (i.e., hedge accounting). Derivative instruments used in hedging transactions that do not meet or no longer meet the criteria of an effective hedge are accounted for at fair value and the changes in the fair value are recorded in surplus as unrealized gains or unrealized losses. Derivative instrument cash flows and payment accruals are recorded in net investment income.

10. Insurance premiums are generally earned ratably over the policy term. The liability for unearned premiums represents the portion of premiums written relating to the unexpired terms of coverage. Such reserves are computed by pro rata methods for direct business and are based on reports received from ceding companies for reinsurance assumed. Premiums in course of collection represent agent balances and uncollected premiums from policyholders for current policies in force and policy premiums assumed from others, including amounts placed with affiliates. As of December 31, 2013 and 2012, the Company had no liabilities related to premium deficiency reserves. The Company includes anticipated investment income when calculating its premium deficiency reserves, in accordance with SSAP No. 53, Property-Casualty Contracts – Premiums.

11. The Company establishes losses and loss expense reserves for reported claims and claims incurred but not yet reported (IBNR). Estimating the liability for losses and loss expense reserves involves significant judgment and multiple assumptions. Management considers the Company's experience with similar claims, historical trends, economic factors and judicial, legislative and regulatory changes in establishing reserves. The Company's losses and loss expense reserves are recorded net of reinsurance and amounts expected to be received from salvage (the amount recovered from property after the Company pays for a total loss) and subrogation (the right to recover payments from third parties).

Assumptions and estimates for losses and loss expense reserves are updated as new information becomes available. Due to the inherent uncertainty in estimating losses and loss expense reserves, the actual cost of settling claims may differ materially from recorded amounts. Changes in losses and loss expense reserve estimates are included in results of operations in the period the estimates are revised.

12. The Company has a written capitalization policy for prepaid expenses and purchases of items such as electronic data processing equipment, software, furniture, vehicles, other equipment and leasehold improvements. The Company has not modified its capitalization policy from the prior period.

13. Not applicable as the Company does not write major medical insurance with prescription drug coverage.

Note 2 - Accounting Changes and Corrections of Errors

A. Accounting Changes and Corrections of Errors

Adopted Accounting Standards

On January 1, 2013, the Company adopted SSAP No. 103, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities. The standard establishes accounting for transfers and servicing of financial assets, including asset securitizations and securitizations of policy acquisition costs, extinguishments of liabilities, repurchase agreements, repurchase financing and reverse repurchase agreements, including dollar repurchase and dollar reverse repurchase agreements. The guidance provides criteria to determine whether a transferor has surrendered control over transferred financial assets. It also forbids offsetting for repurchase and reverse repurchase transactions in accordance with master netting agreements. Provisions of this guidance are being applied prospectively, as is required. There was no impact to the Company's financial statements upon adoption.

On December 31, 2013, the Company adopted revisions to SSAP No. 34, Investment Income Due and Accrued and SSAP No. 37, Mortgage Loans. The revisions expand required disclosures related to mortgage loans to assist financial statement users in assessing an entity's credit risk exposures and evaluating the adequacy of its allowance for credit losses. The adoption resulted in increased disclosures only and had no impact on the Company's financial statements.

On December 31, 2013, the Company adopted revisions to SSAP No. 35R, Guaranty Fund and Other Assessments. The revisions require disclosure of the nature of fees paid to the federal government by health insurers under the Affordable Care Act and an estimate of their financial impact, including the impact on the Company's risk based capital position. The adoption resulted in increased disclosures only and had no impact on the Company's financial statements.

NOTES TO FINANCIAL STATEMENTS

On August 24, 2013, the NAIC adopted, effective immediately, revisions to SSAP No. 64, Offsetting and Netting of Assets and Liabilities, SSAP No. 86, Accounting for Derivative Instruments and Hedging, Income Generation, and Replication (Synthetic Asset) Transactions and SSAP No. 103, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities. The Company adopted the revisions on the effective date. The revisions clarify that derivatives, repurchase and reverse repurchase agreements, and securities borrowing and securities lending transactions can be reported net on the balance sheet when a valid right to offset exists. The revisions also add disclosures to illustrate the netting impact. There was no impact on the Company's financial statements.

On October 4, 2013, the NAIC adopted, effectively immediately, revisions to SSAP No. 1, Disclosure of Accounting Policies, Risks & Uncertainties, and Other Disclosures, SSAP No. 15, Debt and Holding Company Obligations, SSAP No. 30, Investments in Common Stock (excluding investments in common stock of subsidiary, controlled, or affiliated entities), and SSAP No. 52, Deposit-Type Contracts. The revisions improve the reporting of FHLB capital stock and develop additional and enhanced disclosures for FHLB transactions. The Company adopted the revisions on the effective date and resulted in increased disclosures only.

On January 1, 2012, the Company adopted a new standard, SSAP No. 101, Income Taxes, which supersedes SSAP No. 10R, Income Taxes Revised - A Temporary Replacement of SSAP No. 10. The standard applies a 'more likely than not' threshold for the recognition of federal and foreign tax loss contingencies, establishes a new framework for determining the admissibility of DTAs and adopts new disclosure requirements. The difference between the recalculated amounts as of January 1, 2012, and the amount actually reported in the prior year financial statements is treated as a change in accounting principle in accordance with SSAP No. 3, Accounting Changes and Corrections of Errors. There was no cumulative effect of this change in accounting principle as of January 1, 2012.

Pending Accounting Standards

On January 1, 2014, the Company will adopt revisions to SSAP No. 35R, Guaranty Fund and Other Assessments. The revisions require full expense recognition on January 1 of the fee year and reclassification from unassigned surplus to special surplus in the data year for the estimated amount payable to the federal government by health insurers under the Affordable Care Act. The Company is currently in the process of determining the impact of adoption of the revisions to this standard.

On January 1, 2014, the Company will adopt revisions to SSAP No. 26, Bonds, excluding Loan-Backed and Structured Securities. The revisions clarify the "yield to worst" concept for bonds with make whole call provisions. The Company is currently in the process of determining the impact of adoption of the revisions to this standard.

Note 3 - Business Combinations and Goodwill

A. Statutory Purchase Method

1. On January 1, 2009, the Company, along with Nationwide Mutual Insurance Company (Mutual) and Nationwide Corporation, an affiliated company, acquired the remaining 33.5% interest in the Nationwide Financial Services, Inc. (NFS). Upon the closing of the transaction on January 1, 2009, NFS became a wholly owned, privately held subsidiary of Nationwide Corporation through a merger of NFS and NWM Merger Sub, Inc., a wholly owned subsidiary of Nationwide Corporation. On that date, all 100 of NWM Merger Sub's issued and outstanding common stock became the issued and outstanding common stock of NFS and all such shares are held by Nationwide Corporation. On the date of acquisition, statutory surplus decreased \$2.9 billion as a result of the change in valuation methodology under prescribed statutory accounting practices.
2. The transaction above was accounted for as statutory purchases.
3. The Company, along with Mutual and Nationwide Corporation, an affiliated company, acquired the remaining interest in NFS outstanding publicly held Class A common stock in exchange for cash consideration of \$2.4 billion through its subsidiary Nationwide Corporation. The acquisition resulted in goodwill of \$88.7 million.
4. Goodwill amortization for the year ended December 31, 2013 related to the purchase of NFS was \$8.9 million.

D. Loan-Backed Securities

1. Prepayment assumptions are generally obtained using a model provided by a third-party vendor.
2. Not applicable.
3. Not applicable.
4. All impaired securities (fair value is less than cost or amortized cost) for which an other-than-temporary impairment has not been recognized in earnings as a realized loss (including securities with a recognized other-than-temporary impairment for non-interest related declines when a non-recognized interest related impairment remains):
 - a. The aggregate amount of unrealized losses:

1.	Less than 12 Months	\$ (2,273,654)
2.	12 Months or Longer	<u>\$ (5,087,057)</u>
 - b. The aggregate related fair value of securities with unrealized losses:

1.	Less than 12 Months	\$ 128,125,220
2.	12 Months or Longer	<u>\$ 29,548,712</u>

5. The Company reviews all loan-backed and structured securities in which the fair value of the given security is less than the amortized cost to determine if a given security is other-than-temporarily impaired. The Company examines characteristics of the underlying collateral, such as delinquency and default rates, the quality of the underlying borrower, the type of collateral in the pool, the vintage year of the collateral, subordination levels within the structure of the collateral pool, and the quality of any credit guarantors, to determine the cash flows expected to be received for the security.

If the severity and duration of the security's unrealized loss indicates a risk of an other-than-temporary impairment, then the Company will evaluate if the amortized cost basis of the security will be recovered by comparing the present value of the cash flows expected to be received for the given security with the amortized cost basis of the security. If the present value of cash flows is greater than the amortized cost basis of a security then the security is deemed not to be other-than-temporarily impaired.

E. Repurchase Agreements and Securities Lending Transactions

1. For repurchase agreements, Company policy requires a minimum of 102% of the fair value of securities purchased under repurchase agreements to be maintained as collateral. Cash collateral received is invested in short-term investments, and the offsetting collateral liability is included in aggregate write-ins for liabilities. There were no open repurchase agreements as of year-end.

The Company's securities lending agreement requires a minimum of 102% of the fair value of loaned securities to be held as collateral.

2. The Company's investments in LIHTC are made up of several property investments which are subject to periodic reviews by HUD (if applicable) and state housing agencies. The Company receives updates from property managers as to the status of any regulatory review and investigates further as needed.
3. Aggregate LIHTC investments do not exceed 10 percent of the total admitted assets.
4. Analysis is done for LIHTC investments to determine if an impairment exists by comparing the book value of the investment with the present value of future tax benefits. The investment is written down if the book value is higher than the present value and the write-down is accounted for as a realized loss. No impairments were recognized during 2013.
5. There were no write-downs or reclassifications due to the forfeiture or ineligibility of LIHTC investments during 2013.

Note 6 - Joint Ventures, Partnerships and Limited Liability Companies

A. Detail for Those Greater than 10% of Admitted Assets

Not applicable.

B. Write-downs for Impairments

Not applicable.

Note 7 - Investment Income

A. Accrued Investment Income

The Company nonadmits investment income due and accrued if amounts are over 90 days past due with the exception of mortgage loans in default which are nonadmitted if amounts are over 180 days past due.

B. Amounts Nonadmitted

The total amount of investment income nonadmitted at December 31, 2013 was \$52,622.

Note 8 - Derivative Instruments

A. The Company is exposed to certain risks relating to its ongoing business operations which are managed using derivative instruments. The primary risks managed by using derivative instruments are foreign currency and interest rate risks. The Company uses cross currency swaps and interest rate futures hedge these risks.

The Company is exposed to credit-related losses in the event of nonperformance by the exchange on which these contracts reside. Potential credit losses are minimized through the mark-to-market nature of exchange-traded futures contracts, where the change in value is monitored and settled with the exchange daily.

NOTES TO FINANCIAL STATEMENTS

The cash requirements of a derivative will vary by contract. In a cross currency swap, notional amounts are typically exchanged in the respective contracted currencies at both settlement date and at expiration. Interest payments are also exchanged in the contracted currencies, timing, and amounts. For exchange-traded futures, the broker for the various types of contracts that the Company may employ establishes margin requirements. The margin account is settled daily for movements in market values of open contracts and settlement of closed contracts. The Company uses cash to settle variation margin requirements and either cash or highly liquid securities to settle initial margin requirements.

B. Interest Rate Risk Management. The Company uses interest rate futures to reduce and/or alter interest rate exposure arising from mismatches between assets and liabilities. Interest rate futures are based off an underlying security that changes in value as interest rates change. As the value of the underlying referenced security changes, the promise to deliver or cash settle in the future at a fixed price through the futures contract also changes to offset interest rate risks the Company faces.

Foreign Currency Risk Management. As part of its regular investing activities, the Company may purchase foreign currency denominated investments. These investments and the associated income expose the Company to volatility associated with movements in foreign exchange rates. In an effort to mitigate this risk, the Company uses cross-currency swaps. As foreign exchange rates change, the increase or decrease in the cash flows of the derivative instrument generally offset the changes in the functional-currency equivalent cash flows of the hedged item.

C. Periodic cash flows and accruals of income/expense are reported in a manner consistent with the hedged item, generally as other investment income. Realized gains and losses on commitment and anticipatory hedges are used to adjust the basis of the hedged item and are therefore amortized into investment income over the remaining life of the hedged item.

Fair value of derivative instruments is determined using various valuation techniques relying predominately on observable market inputs. These inputs include pricing provided daily by the particular futures exchange where the open positions reside.

Derivative instruments used in hedging transactions considered to be effective hedges are valued and reported in a manner consistent with the hedged items (i.e., hedge accounting). Derivative instruments used in hedging transactions that do not meet or no longer meet the criteria of an effective hedge are accounted for at fair value with changes in fair value recorded in surplus as unrealized gains or losses.

D. No gain or loss recognized in derivative instruments' unrealized gains or losses during the year were excluded from the assessment of hedge effectiveness.

E. There is also no net gain or loss recognized during the year resulting from derivatives that no longer qualify for hedge accounting.

F. 1. In addition, no amounts of gains or losses were classified in unrealized gains/losses related to cash flow hedges that have been discontinued because it was no longer probable that the original forecasted transaction would occur as anticipated.

2. The Company is not currently engaged in written covered options used for income generation or derivatives accounted for as cash flow hedges of a forecasted transaction, other than the payment of variable interest on existing financial instruments.

Business credits	\$ -		

2. The amount of Federal income taxes incurred that are available for recoupment in the event of future net losses are:

2013	\$ 31,540,208
<u>2012</u>	<u>\$ 4,859,137</u>

3. The Company did not have any protective tax deposits under Section 6603 of the Internal Revenue Code.

F. Consolidated Federal Income Tax Return

1. The Company's federal income tax return is consolidated with the following entities:

Retention Alternatives, Ltd.

2. The method of allocation among the companies is subject to the resolution approved by the Board of Directors. Allocation is based upon separate return or sub-group aggregated separate return calculations with the company being reimbursed for the actual Federal income tax benefit of its net operating losses which are actually used to reduce the taxable income of the other companies in the consolidated return.

G. Federal or Foreign Federal Income Tax Loss Contingencies

The Company does not have any tax loss contingencies for which it is reasonably possible that the total liability will significantly increase within twelve months of the reporting date.

Note 10 - Information Concerning Parent, Subsidiaries, Affiliates and Other Related Parties

A. Nature of Relationships

The Company is a mutual entity and, as such, is not directly or indirectly owned or controlled by any other company, corporation, and group of companies, partnership or individual. The Company is operated by and solely in the interest of its policyholders.

Bonds and stocks, if any, owned, acquired or disposed of in any year by the Company, in any subsidiary or affiliate, are set forth in Schedule D of either this statement or those of prior years. Intercompany relationships and specific holdings are detailed in the Nationwide Corporate Organizational Chart, which appears as Schedule Y of this statement.

The Company is a party to various reinsurance agreements including a pooling agreement with several affiliated companies. See Note 26.

The Company and various affiliates have entered into agreements with Nationwide Cash Management Company (NCMC) a subsidiary of Mutual, under which NCMC acts as a common agent in handling the purchases and sales of short-term investments for the respective accounts of the participants. Amounts on deposit with NCMC were \$9.0 million and \$73.7 million as of December 31, 2013 and 2012, respectively.

B. Detail of Transactions Greater than 1/2 % of Admitted Assets

Not applicable.

C. Change in Terms of Intercompany Arrangements

See Note 26 for details.

NOTES TO FINANCIAL STATEMENTS

D. Amounts Due to or from Related Parties

Affiliate receivables and payables are the result of cost sharing and intercompany service agreements between the Company and its parent and affiliates in which settlement has not yet occurred. Affiliate receivables are presented gross of affiliate payables when the Company has the right to offset. The Company reported \$21.9 million and \$10.2 million due from parent at December 31, 2013 and 2012, respectively. The Company reported gross amounts of \$41.2 million and \$16.9 million due from parent and affiliates and \$10.4 million and \$19.1 million due to parent and affiliates at December 31, 2013 and 2012, respectively. These arrangements are subject to written agreements which require that intercompany balances be settled within 30 days.

E. Guarantees or Undertakings for Related Parties

The Company has no guarantees or contingent commitments to affiliates other than indicated in Note 14 A.

F. Management, Service Contracts, Cost Sharing Arrangements

The Company and various affiliates share a home office, other facilities, equipment, common management and administrative services. Pursuant to a cost sharing agreement between the companies, the amounts associated with these services are subject to allocation based on standard allocation techniques and procedures acceptable under general cost accounting techniques and procedures in conformity with the NAIC SAP. Measures used to determine the allocation among companies includes individual employee estimates of time spent, special cost studies, claims counts, policies in force, direct written premium, paid losses, pro rata share of employees or their salaries, and other methods agreed to by the participating companies. The Company does not believe amounts recognized under the intercompany agreement are materially different than what would have been recognized had the Company operated on a stand-alone basis. A new cost sharing agreement will be in effect beginning January 1, 2014, however, the methods for allocation will remain the same.

Note 12 - Retirement Plans, Deferred Compensation, Postemployment Benefits and Compensated Absences and Other Postretirement Benefit Plans

A. Defined Benefit Plans

Mutual sponsors a defined benefit pension plan and a postretirement health care benefit plan covering substantially all employees of the Company. See Note 12D.

B. Defined Contribution Plans

Mutual sponsors a defined contribution savings plan covering substantially all employees of the Company. See Note 12D.

C. Multiemployer Plans

Not applicable.

D. Consolidated/Holding Company Plans

The Company, together with other affiliated companies, participates in non-qualified deferred compensation and defined benefit arrangements for certain employees and agents. Expenses are allocated to the Company based on individual participants. Total Plan liabilities for non-qualified deferred compensation plans were \$264.8 million and \$249.2 million on December 31, 2013 and December 31, 2012, respectively. Total Plan liabilities for non-qualified defined benefit plans were \$274.9 million and \$283.6 million on December 31, 2013 and December 31, 2012, respectively. Total expense related to the non-qualified benefit plans was \$18.7 million and \$18.8 million for years ended December 31, 2013 and 2012, respectively.

NOTES TO FINANCIAL STATEMENTS

The ASCP is a non-qualified, unfunded deferred compensation program available to eligible agents. The designated agents covered by the ASCP are not employees of the Company, but they are independent contractors exclusively representing the Company in the sale of insurance and related products. Accordingly, the Company believes it is appropriate to apply the concepts of SSAP No. 89, *Accounting for Pensions, A Replacement of SSAP No. 8*, by analogy to the ASCP.

Total liabilities related to the ASCP were \$1,121.3 million and \$1,148.8 million at December 31, 2013 and 2012, respectively. Total expense recorded for this program was \$83.3 million and \$81.4 million for the years ended December 31, 2013 and 2012, respectively.

- A. Outstanding Shares
Not applicable.
- B. Dividend Rate of Preferred Stock
Not applicable.
- C. Dividend Restrictions
The maximum amount of dividends which can be paid to shareholders by a State of Ohio domiciled insurance company without prior approval of the Director of Insurance is limited to, together with that of other dividends or distributions made within the preceding twelve months, the greater of either 10% of surplus as regards policyholders as of the preceding December 31, or the net income for the twelve month period ending December 31 of the previous calendar year. Additionally, any dividend or distribution paid from other than earned surplus shall require prior approval of the Director of Insurance. Subject to applicable regulatory approval(s), dividends are paid as determined by the insurer's board of directors.
- D. Dividends Paid
No dividends were paid by the Company during 2013 and 2012.
- E. Profits Available for Ordinary Dividends
Within the limitations of (C) above, there are no restrictions placed on the portion of Company profits that may be paid as ordinary dividends to shareholders.
- F. Restrictions on Surplus
There is no restriction on the use of the Company's unassigned surplus and such surplus is held for the benefit of the shareholder.

Note 14 - Contingencies

- A. Contingent Commitments
At December 31, 2013, the Company has unfunded commitments of \$26.1 million related to its investments in limited partnerships and limited liability companies.
As indicated in Note 10E, the Company has made no guarantees on behalf of affiliates or on indebtedness of others.
- B. Guaranty Fund and Other Assessments
The Company is subject to guaranty fund and other assessments by the states in which it writes business. Guaranty fund assessments should be accrued at the time of insolvencies. Other assessments should be accrued either at the time of assessments or in the case of premium based assessments, at the time the premiums were written. In the case of loss-based assessments, the assessments should be accrued at the time the losses are incurred.

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2013 and 2012, the Company accrued a liability for guaranty fund and other assessments of \$1.5 million and \$1.7 million and a related premium tax benefit asset of \$132 thousand and \$1.2 million, respectively. These represent management's best estimates based on information received from the states in which the Company writes business and may change due to many factors including the Company's share of the ultimate cost of current insolvencies.

Note 16 - Information About Financial Instruments With Off-Balance Sheet Risk And Financial Instruments With Concentrations of Credit Risk

A. The table below summarizes the face amount of the Company's financial instruments with off balance sheet risk.

Description	Assets		Liabilities	
	2013 Notional	2012 Notional	2013 Notional	2012 Notional
a. Swaps	-	-	14,920,000	-
b. Futures	600,000	-	-	600,000
c. Options	-	-	-	-
Total	600,000	-	14,920,000	600,000

B. Notional amounts of derivative financial instruments significantly exceed the credit risk associated with these instruments and represent contractual balances on which calculations of amounts to be exchanged are based. Credit exposure is limited to the sum of the aggregate fair value of positions that have become favorable to the Company, including accrued interest receivable due from counterparties, net of collateral received.

C. Potential credit losses from derivative counterparties are minimized through careful evaluation of counterparty credit standing, selection of counterparties from a limited group of high quality institutions, collateral agreement and other contract provisions.

D. Collateral requirements for over-the-counter derivative instruments are controlled by the International Swap Dealers Association and Credit Support Annex documents that are negotiated with each counterparty. Generally, these documents outline each party's rights and obligations for receiving and posting collateral. These documents address such issues as calculating collateral due/owed, delivery and return of collateral, uses and substitution for collateral, distributions and interest rights and remedies for both parties, credit thresholds and eligible collateral (typically cash, debt obligations issues by the United States Treasury, or obligations issues by government agencies). The Company monitors their collateral position on a daily basis, adjusting positions as necessary, and in accordance with the terms of these agreements. For future contracts, the broker for the various types of futures contracts that the Company may employ establishes margin requirements. The margin account is settled daily for changes in contracts outstanding and movements in market values of open contracts. The Company uses cash to cover the margin account for future activity.

NOTES TO FINANCIAL STATEMENTS

Note 17 - Sale, Transfer and Servicing of Financial Assets and Extinguishments of Liabilities

A. Transfers of Receivables Reported as Sales

Not applicable.

B. Transfers and Servicing of Financial Assets

1. The Company has entered into a securities lending agreement with an agent bank whereby eligible securities may be loaned to third parties, primarily major brokerage firms. These transactions are used to generate additional income on the securities portfolio. Loaned securities continue to be reported as invested assets and the Company is entitled to receive any payments of interest or dividends paid on loaned securities. The agreement requires a minimum of 102% of the fair value of loaned securities to be held as collateral. Cash collateral received from borrowers is reflected as a "Payable for securities lending" on the "Statement of Liabilities, Surplus and Other Funds" while non-cash collateral is recorded off-balance sheet. Cash collateral received is reinvested by the agent bank in accordance with the Company's authorized investment policy and included in "Securities lending reinvested collateral assets" in the "Statement of Assets". If the fair value of the reinvested collateral assets is less than the fair value of the securities loaned, the shortfall is non-admitted. Because the borrower or the Company may terminate a securities lending transaction at any time, if loans are terminated in advance of the reinvested collateral asset maturities, the Company would repay its securities lending obligation from operating cash flows or the proceeds of sales from its investment portfolio, which includes significant liquid securities.

The fair value of loaned securities was \$16,657,002 at December 31, 2013. The Company does not hold any non-cash collateral for loaned securities as of December 31, 2013.

Reinvested collateral assets reported on Schedule DL are excluded from other statutory schedules and disclosures.

See Note 5 E. for additional information concerning securities lending.

2. No servicing assets or liabilities were recognized during the period.
3. No servicing assets or liabilities were recognized during the period.
4. There were no assets securitized during the period.
5. There were no retained transfers of financial assets accounted for as a secured borrowing.
6. There were no transfers of receivables with recourse.
7. The Company entered into a repurchase agreement with Mutual on September 27, 2013.
 - a. None.
 - b. The underlying security is a FNMA commercial mortgage backed bond with a maturity date of January 17, 2037. The book value as of September 30, 2013 was \$241,889 and a market value of \$227,430. This agreement was closed on October 1, 2013.

Note 20 – Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements are based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources while unobservable inputs reflect the Company's view of market assumptions in the absence of observable market information. The Company utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. In determining fair value, the Company uses various methods including market, income and cost approaches.

The Company categorizes its financial assets and liabilities into a three-level hierarchy based on the priority of the inputs to the valuation technique. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure fair value fall within different levels of the hierarchy, the category level is based on the lowest priority level input that is significant to the fair value measurement of the instrument in its entirety.

The Company categorizes financial assets and liabilities as follows:

Level 1. Unadjusted quoted prices accessible in active markets for identical assets or liabilities at the measurement date and mutual funds where the value per share (unit) is determined and published daily and is the basis for current transactions.

NOTES TO FINANCIAL STATEMENTS

Level 2. Unadjusted quoted prices for similar assets or liabilities in active markets or inputs (other than quoted prices) that are observable or that are derived principally from or corroborated by observable market data through correlation or other means. Primary inputs to this valuation technique may include comparative trades, bid/asks, interest rate movements, U.S. Treasury rates, U.S. LIBOR, prime rates, cash flows, maturity dates, call ability, estimated prepayments and/or underlying collateral values.

Level 3. Prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. Inputs reflect management's best estimate about the assumptions market participants would use at the measurement date in pricing the asset or liability. Consideration is given to the risk inherent in both the method of valuation and the valuation inputs. Primary inputs to this valuation technique include broker quotes and comparative trades.

The Company reviews its fair value hierarchy classifications for financial assets and liabilities quarterly. Changes in observability of significant valuation inputs identified during these reviews may trigger reclassifications. Reclassifications are reported as transfers at the beginning of the period in which the change occurs.

To determine the fair value of bonds and stocks for which market quotations are available, independent pricing services are most often utilized. For these bonds and stocks, the Company obtains the pricing services' methodologies, inputs and assumptions and classifies the investments accordingly in the fair value hierarchy.

A corporate pricing matrix or an internally developed pricing model is used in valuing certain bonds. The corporate pricing matrix is developed using private spreads for bonds with varying weighted average lives and credit quality ratings. The weighted average life and credit quality rating of a particular bond to be priced using the corporate pricing matrix are important inputs into the model and are used to determine a corresponding spread that is added to the appropriate U.S. Treasury yield to create an estimated market yield for that bond. The estimated market yield and other relevant factors are then used to estimate the fair value of the particular bond.

Non-binding broker quotes are also utilized to determine the fair value of certain bonds when quotes are not available from independent pricing services, corporate pricing matrix or internal pricing models. These bonds are classified accordingly in the fair value hierarchy as only one broker quote is ordinarily obtained, the investment is not traded on an exchange, the pricing is not available to other entities and/or the transaction volume in the same or similar investments has decreased. Inputs used in the development of prices are not provided to the Company by the brokers as the brokers often do not provide the necessary transparency into their quotes and methodologies. Broker quotes are subject to validation of price movements that require approval from the Company's management. Management uses its knowledge of the investment and current market conditions to determine if the price is indicative of the investment's fair value.

Fair value of derivative instruments is determined using various valuation techniques relying predominately on observable market inputs. These inputs include interest rate swap curves, credit spreads, interest rates, counterparty credit risk, equity volatility and equity index levels. In cases where observable inputs are not available, the Company will utilize non-binding broker quotes to determine fair value and these instruments are classified accordingly in the fair value hierarchy.

3. The Company does not use protected cells as an alternative to traditional reinsurance.

D. Uncollectible Reinsurance

No reinsurance recoverables were written off during 2013.

E. Commutation of Ceded Reinsurance

The Company did not enter into any commutation during 2013.

F. Retroactive Reinsurance

There was no retroactive reinsurance affected during 2013.

G. Reinsurance Accounted for as a Deposit

There were no reinsurance agreements that were accounted for as deposits during 2013.

H. There was no transfer of any property and casualty run-off agreements requiring approval of regulators and qualifying under SSAP No. 62R, Property and Casualty Reinsurance, to receive property & casualty run-off accounting treatment.

I. Certified Reinsurer Downgrades or Status Subject to Revocation

Not applicable.

Note 24 - Retrospectively Rated Contracts and Contracts Subject to Redetermination

A. Method Used to Estimate

The Company sells accident and health policies for which the premiums vary based on loss experience. Future premium adjustments for these retrospective policies are estimated and accrued. The Company estimates these accrued retrospective premium adjustments through the review of each individual retrospectively rated risk, comparing case basis loss development with that anticipated in the policy contracts to arrive at the best estimates of return or additional premiums.

B. Method Used to Record

The Company records retrospective premium accruals as earned by adjusting unearned premiums. These amounts are not recorded as premiums written until they are billed to the policyholders. Return premiums are recorded as liabilities and additional premiums are recorded as assets.

C. Amount and Percent of Net Retrospective Premiums

Net premiums written for the current year on retrospective accident and health policies were \$78 thousand or 0.26% of accident and health premiums written.

D. Medical Loss Ratio Rebates

Not applicable.

E. Calculation of Nonadmitted Accrued Retrospective Premiums

Not applicable.

The estimated cost of loss and loss adjustment expenses attributable to insured events of prior years decreased by \$12.1 million (1.1% of prior year reserves) during 2013, as shown in the chart above. The slight redundancy was primarily driven through three lines of business: workers compensation, commercial general liability and standard auto liability. The favorable impacts are primarily due to claims process improvements, increased adequacy of case reserve levels and claim emergence coming in favorable to expectations.

Note 26 - Intercompany Pooling Arrangements

Mutual is the lead company in the Nationwide Pool. Each pool member company contributes 100% of its underwriting results to the Nationwide Pool through the reinsurance pooling agreement. Effective January 1, 2013, Mutual's pooling percentage changed to 83% from 83.7%. In addition, the Company's pooling percentage changed to 12% from 11.3%. A portfolio transfer was completed to redistribute the assets and liabilities of the Company.

As of December 31, 2013 and 2012, the companies in the Nationwide Pool assuming a proportionate share of the pool are:

	NAIC #	2013 Pool	2012 Pool
Nationwide Mutual Insurance Company	23787	83.0%	83.7%
Nationwide Mutual Fire Insurance Company	23779	12.0%	11.3%
Scottsdale Insurance Company	41297	4.0%	4.0%
Farmland Mutual Insurance Company	13838	1.0%	1.0%

Also, effective January 1, 2013, the following companies became zero percent participants in the Nationwide Pool: Harleysville Preferred Insurance Company (NAIC #35696), Harleysville Insurance Company of New Jersey (NAIC #42900), Harleysville Worcester Insurance Company (NAIC #26182), Harleysville Insurance Company of New York (NAIC #10674), Harleysville Pennland Insurance Company (NAIC #40983), Harleysville Lake States Insurance Company (NAIC #14516), and Harleysville Insurance Company (NAIC #23582). Effective December 3, 2013, Harleysville Pennland surrendered its certificate of authority in Pennsylvania and is no longer an insurance company. The remaining assets and liabilities were transferred to the Company.

All of the other companies in the Nationwide Pool have a 0% retrocession. The zero percent participants in the Nationwide Pool are: Nationwide General Insurance Company (NAIC # 23760), Nationwide Property and Casualty Insurance Company (NAIC # 37877), Nationwide Affinity Insurance Company of America (NAIC # 26093), Crestbrook Insurance Company (NAIC # 18961), Allied Insurance Company of America (NAIC # 10127), AMCO Insurance Company (NAIC # 19100), Allied Property and Casualty Insurance Company (NAIC # 42579), Depositors Insurance Company (NAIC # 42587), Nationwide Agribusiness Insurance Company (NAIC # 28223), Victoria Fire & Casualty Company (NAIC # 42889), Victoria Automobile Insurance Company (NAIC # 10644), Victoria Specialty Insurance Company (NAIC # 10777), Victoria Select Insurance Company (NAIC # 10105), and Victoria National Insurance Company (NAIC # 10778).

All lines of business are subject to the pooling agreements.

There are no discrepancies related to the pooled business between the assumed and ceded reinsurance schedules of the pool participants.

NOTES TO FINANCIAL STATEMENTS

Note 27 - Structured Settlements

A. Reserves Released due to Purchases of Annuities

The Company has settled certain losses with structured settlement agreements whereby the Company has purchased an annuity with the claimant as the payee. Certain of these annuities are without qualified assignments. The Company is contingently liable under the settlement agreements without qualified assignments if the annuity-issuing company is unable to meet the payment obligations to the Company's claimant under the settlement agreement. The amortized value of the annuities under such agreements for direct losses as of December 31, 2013 and 2012 is \$19.8 million and \$18.9 million, respectively.

<u>Loss Reserves Eliminated by Annuities</u>	<u>Unrecorded Loss Contingencies</u>

1. Liability carried for premium deficiency reserves	\$0.00
2. Date of the most recent evaluation of this liability	January 9, 2014
3. Was anticipated investment income utilized in the calculation?	Yes

Note 31 - High Deductibles

Not applicable.

Note 32 - Discounting of Liabilities for Unpaid Losses or Unpaid Loss Adjustment Expenses

The Company discounts the liabilities for unpaid losses and loss expenses for long-term accident and health claims. The Company does not discount IBNR. Different companies service our long-term accident and health unpaid disability claims and supply the reserves and tabular discount; thus, different methodologies have been utilized.

A. Tabular Discounts

1. 1987 Commissioner's Group Disability Table (CGDT)
2. For the 1987 CGDT, rate used was the maximum interest rate permitted by law in the valuation of a single premium immediate annuity issued on the same date as the claim incurrable date, reduced by one hundred basis points (rates used vary from 2.50% to 10.25%).
3. The December 31, 2013 liabilities include \$59 thousand of such discounted reserves.
4. The table below represents the amount of tabular discount as of December 31, 2013.

B. Non-Tabular Discounts

The Company does not have any non-tabular discount.

C. Changes in Discount Assumptions

None.

Note 33 - Asbestos/Environmental Reserves

A. The Company has exposure to asbestos and environmental claims through either the direct issuance of general liability policies or through reinsurance assumptions. The Company estimates the full impact of its asbestos and environmental exposure by establishing case reserves when sufficient information has been developed to indicate the involvement of a specific insurance policy. In addition, incurred but not reported reserves have been established to cover additional exposures on both known and unasserted claims, primarily utilizing historical information.

This schedule includes all loss segments that now reside in the Company. The prior year numbers have been restated to reflect the Company's change in pooling percentage and the addition of the Harleysville affiliates to the Nationwide Pool (see Note 26). The Company's asbestos and environmental related losses for each of the five most recent calendar years were as follows:

Nationwide utilizes a third party to administer its Securities Lending program. Securities are loaned to approved counterparties, who in turn post cash collateral to Nationwide. The amount of cash collateral received is calculated as a percentage of the market value of the security being lent. The cash is subsequently reinvested based upon a Nationwide approved Investment Policy. The collateral received by Nationwide and the corresponding payable to the counterparties are recorded on the balance sheet. Additionally, Nationwide participates in a Cash Release Program. Nationwide can borrow a limited amount of cash from the program subject to the underwriting of the plan administrator. Nationwide pays 1 month LIBOR on the borrowings, a majority of which comes back to Nationwide as earnings on the securities lending program. As of December 31, 2013, Nationwide had loaned \$16,657,002 to approved counterparties and received collateral amounts of \$17,084,030.

30.3 Totals	3,582,658,414	3,801,729,058	219,070,644

30.4 Describe the sources or methods utilized in determining the fair values:

For fixed maturity and marketable equity securities for which market quotations generally are available, Nationwide generally uses independent pricing services to assist in determining the fair value measurement. For certain fixed maturity securities not priced by independent services (generally private placement securities without quoted market prices), an internally developed pricing model or "corporate pricing matrix" is most often used. The corporate pricing matrix is developed by obtaining private spreads versus the U.S. Treasury yield for corporate securities with varying weighted average lives and bond ratings. The weighted average life and bond rating of a particular fixed maturity security to be priced using the corporate matrix are important inputs into the model and are used to determine a corresponding spread that is added to the U.S. Treasury yield to create an estimated market yield for that bond. The estimated market yield and other relevant factors are then used to estimate the fair value of the particular fixed maturity security. Nationwide also utilized broker quotes to assist in pricing securities or to validate modeled prices.

31.1 Was the rate used to calculate fair value determined by a broker or custodian for any of the securities in Schedule D? Yes [X] No []
 31.2 If the answer to 31.1 is yes, does the reporting entity have a copy of the broker's or custodian's pricing policy (hard copy or electronic copy) for all brokers or custodians used as a pricing source? Yes [] No [X]
 31.3 If the answer to 31.2 is no, describe the reporting entity's process for determining a reliable pricing source for purposes of disclosure of fair value for Schedule D:
 Nationwide relies on broker valuations only when an approved third party vendor evaluation is not available. Any exceptions are approved by Risk Management and the Middle Office and reviewed by the Investments Pricing Committee. The brokers used to value securities are deemed to be main market makers for each individual security and therefore have in depth knowledge of the particular issue.

32.1 Have all the filing requirements of the Purposes and Procedures Manual of the NAIC Securities Valuation Office been followed? Yes [X] No []
 32.2 If no, list exceptions:

GENERAL INTERROGATORIES

PART 2 - PROPERTY AND CASUALTY INTERROGATORIES

6.1 What provision has this reporting entity made to protect itself from an excessive loss in the event of a catastrophe under a workers' compensation contract issued without limit of loss?
The company's net exposure arises from its participation in the Nationwide Mutual Insurance Company Pool. Exposure of the Pooled Companies to a Workers' Compensation catastrophe is protected by a Liability Excess of Loss (Clash) treaty providing \$90M limit excess of \$10M per occurrence retention and containing a \$10M per claimant limit.

6.2 Describe the method used to estimate this reporting entity's probable maximum insurance loss, and identify the type of insured exposures comprising that probable maximum loss, the locations of concentrations of those exposures and the external resources (such as consulting firms or computer software models), if any, used in the estimation process.
The company's net exposure arises from its participation in the Nationwide Mutual Insurance Company Pool. Catastrophic risk to the Pool arises primarily from windstorm events in the eastern United States affecting personal and commercial lines. The company's property exposures are aggregated with the other Nationwide companies and modeled using Applied Insurance Research (AIR) CLASIC/2.

6.3 What provision has this reporting entity made (such as a catastrophic reinsurance program) to protect itself from an excessive loss arising from the types and concentrations of insured exposures comprising its probable maximum property insurance loss?
The company's net property-catastrophe exposures, if any, are mitigated through managed coastal growth, purchase of excess of loss reinsurance, policy provisions such as higher deductibles, and enforcement of underwriting guidelines related to building construction, etc.

6.4 Does the reporting entity carry catastrophe reinsurance protection for at least one reinstatement, in an amount sufficient to cover its estimated probable maximum loss attributable to a single loss event or occurrence? Yes [X] No []

6.5 If no, describe any arrangements or mechanisms employed by the reporting entity to supplement its catastrophe reinsurance program or to hedge its exposure to unreinsured catastrophic loss.

7.1 Has this reporting entity reinsured any risk with any other entity under a quota share reinsurance contract that includes a provision that would limit the reinsurer's losses below the stated quota share percentage (e.g., a deductible, a loss ratio corridor, a loss ratio cap, an aggregate limit or any similar provisions)? Yes [] No [X]

7.2 If yes, indicate the number of reinsurance contracts containing such provisions:

7.3 If yes, does the amount of reinsurance credit taken reflect the reduction in quota share coverage caused by any applicable limiting provision(s)? Yes [] No []

8.1 Has this reporting entity reinsured any risk with any other entity and agreed to release such entity from liability, in whole or in part, from any loss that may occur on this risk, or portion thereof, reinsured? Yes [] No [X]

8.2 If yes, give full information

9.1 Has the reporting entity ceded any risk under any reinsurance contract (or under multiple contracts with the same reinsurer or its affiliates) for which during the period covered by the statement: (i) it recorded a positive or negative underwriting result greater than 5% of prior year-end surplus as regards policyholders or it reported calendar year written premium ceded or year-end loss and loss expense reserves ceded greater than 5% of prior year-end surplus as regards policyholders; (ii) it accounted for that contract as reinsurance and not as a deposit; and (iii) the contract(s) contain one or more of the following features or other features that would have similar results:
(a) A contract term longer than two years and the contract is noncancellable by the reporting entity during the contract term;
(b) A limited or conditional cancellation provision under which cancellation triggers an obligation by the reporting entity, or an affiliate of the reporting entity, to enter into a new reinsurance contract with the reinsurer, or an affiliate of the reinsurer;
(c) Aggregate stop loss reinsurance coverage;
(d) A unilateral right by either party (or both parties) to commute the reinsurance contract, whether conditional or not, except for such provisions which are only triggered by a decline in the credit status of the other party;
(e) A provision permitting reporting of losses, or payment of losses, less frequently than on a quarterly basis (unless there is no activity during the period); or
(f) Payment schedule, accumulating retentions from multiple years or any features inherently designed to delay timing of the reimbursement to the ceding entity. Yes [] No [X]

9.2 Has the reporting entity during the period covered by the statement ceded any risk under any reinsurance contract (or under multiple contracts with the same reinsurer or its affiliates), for which, during the period covered by the statement, it recorded a positive or negative underwriting result greater than 5% of prior year-end surplus as regards policyholders or it reported calendar year written premium ceded or year-end loss and loss expense reserves ceded greater than 5% of prior year-end surplus as regards policyholders; excluding cessions to approved pooling arrangements or to captive insurance companies that are directly or indirectly controlling, controlled by, or under common control with (i) one or more unaffiliated policyholders of the reporting entity, or (ii) an association of which one or more unaffiliated policyholders of the reporting entity is a member where:
(a) The written premium ceded to the reinsurer by the reporting entity or its affiliates represents fifty percent (50%) or more of the entire direct and assumed premium written by the reinsurer based on its most recently available financial statement; or
(b) Twenty-five percent (25%) or more of the written premium ceded to the reinsurer has been retroceded back to the reporting entity or its affiliates in a separate reinsurance contract. Yes [] No [X]

9.3 If yes to 9.1 or 9.2, please provide the following information in the Reinsurance Summary Supplemental Filing for General Interrogatory 9:
(a) The aggregate financial statement impact gross of all such ceded reinsurance contracts on the balance sheet and statement of income;
(b) A summary of the reinsurance contract terms and indicate whether it applies to the contracts meeting the criteria in 9.1 or 9.2; and
(c) A brief discussion of management's principle objectives in entering into the reinsurance contract including the economic purpose to be achieved.

9.4 Except for transactions meeting the requirements of paragraph 32 of SSAP No. 62R, Property and Casualty Reinsurance, has the reporting entity ceded any risk under any reinsurance contract (or multiple contracts with the same reinsurer or its affiliates) during the period covered by the financial statement, and either:
(a) Accounted for that contract as reinsurance (either prospective or retroactive) under statutory accounting principles ("SAP") and as a deposit under generally accepted accounting principles ("GAAP"); or
(b) Accounted for that contract as reinsurance under GAAP and as a deposit under SAP? Yes [] No [X]

9.5 If yes to 9.4, explain in the Reinsurance Summary Supplemental Filing for General Interrogatory 9 (Section D) why the contract(s) is treated differently for GAAP and SAP.

9.6 The reporting entity is exempt from the Reinsurance Attestation Supplement under one or more of the following criteria:
(a) The entity does not utilize reinsurance; or Yes [] No [X]
(b) The entity only engages in a 100% quota share contract with an affiliate and the affiliated or lead company has filed an attestation supplement; or Yes [] No [X]
(c) The entity has no external cessions and only participates in an intercompany pool and the affiliated or lead company has filed an attestation supplement. Yes [] No [X]

10. If the reporting entity has assumed risks from another entity, there should be charged on account of such reinsurance a reserve equal to that which the original entity would have been required to charge had it retained the risks. Has this been done? Yes [X] No [] N/A []

Explanation of basis of allocation of premiums by states, etc.

Premiums are allocated to those states where the insured risks are located: principle garage for automobile, physical address for homeowners, commercial multiple peril and other liability and main place of work for workers' compensation. Allocation of premiums for individual and group health insurance is based on the situs of the contract.
