NOTES TO FINANCIAL STATEMENTS

MOUNT CARMEL HEALTH PLAN, INC. (A Wholly Owned Subsidiary of Mount Carmel Health System)

NOTES TO STATUTORY BASIS FINANCIAL STATEMENTS AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Business — Mount Carmel Health Plan, Inc. (the “Plan”) was incorporated on August 7, 1996, as a subsidiary of Mount Carmel Health System (the “Corporation”). The Plan was organized as a for-profit network model health maintenance organization (HMO) to provide health care services to enrolled subscribers (“enrollees”) for a fixed premium. The product being offered is MediGold, which is a Medicare Advantage contract with the Centers for Medicare & Medicaid Services (CMS). Enrollment in the Plan began on April 1, 1997. As of December 31, 2013 and 2012, all enrollees to date have been participants in the MediGold program. The Plan has contracts with various health care providers, including hospitals, freestanding facilities, and physician practices owned and/or operated by the Corporation or its subsidiaries, as well as independent physicians, hospitals, multispecialty group practices, and ancillary providers. The Corporation owns and operates four acute care hospitals and a surgical hospital in Columbus, Ohio (Mount Carmel West, Mount Carmel East, St. Ann’s Hospital, and Mount Carmel New Albany Surgical Hospital). These hospitals are major providers of service to subscribers of the Plan. On January 23, 2007, the Internal Revenue Service (IRS) granted the Plan exemption from income taxation under Internal Revenue Code (IRC) Section 501(a) as an organization described in IRC Section 501(c)(4) effective retroactively to April 1, 2004.

The accompanying statutory basis financial statements present the financial condition, results of operations, changes in capital and surplus, and cash flows for the Plan and are not necessarily indicative of what the financial condition, results of operations, changes in capital and surplus, and cash flows would have been if the Plan had been operated as an unaffiliated corporation during the periods presented.

Basis of Presentation — The accompanying statutory basis financial statements have been prepared in conformity with the National Association of Insurance Commissioners (NAIC) *Annual Statement Instructions and Accounting Practices and Procedures Manual* and the permitted practices of the Ohio Department of Insurance (ODI), which vary in some respects from accounting principles generally accepted in the United States of America (GAAP). The significant departures from GAAP include the following:

- a. Investments in bonds are reported at amortized cost or market value based on their NAIC rating; for GAAP, such fixed maturity investments would be designated at purchase as held-to-maturity, trading, or available-for-sale. Held-to-maturity fixed investments would be reported at amortized cost and the remaining fixed maturity investments would be reported at fair value with unrealized holding gains and losses reported in operations for those designated as trading and as a separate component of member’s equity for those designated as available-for-sale.
- b. Certain assets designated as “nonadmitted,” are excluded from the accompanying statutory basis statements of admitted assets, liabilities, capital and surplus and are charged directly to capital and surplus. As of December 31, 2013 and 2012, the Plan’s nonadmitted assets consisted

NOTES TO FINANCIAL STATEMENTS

of health care receivables aged in excess of 90 days, building improvements, nonoperating software, prepaid assets, and furniture and fixtures not used in the direct delivery of care. The Plan had nonadmitted assets of \$4,213,673 and \$3,320,020 as of December 31, 2013 and 2012, respectively.

- c. Outstanding checks in excess of cash balances are required to be presented as cash overdrafts in the statutory basis financial statements as opposed to being reflected as other liabilities under GAAP.
- d. The presentation of the statutory basis statements of cash flows differ from GAAP such that cash, cash equivalents, and short-term investments in the statutory basis statements of cash flows represent cash balances and investments with initial maturities of one year or less. Under GAAP, the corresponding caption of cash and cash equivalents includes cash balances and cash equivalents with maturities of three months or less. The statutory basis statements of cash flows are prepared in accordance with the NAIC guidelines.
- e. Under NAIC Statutory Accounting Principles (SAP), electronic data processing equipment and operating systems are admitted but are limited to 3% of a company's adjusted capital and surplus. Furniture and fixtures not used in the direct delivery of care are considered nonadmitted assets under NAIC SAP.

The statutory basis financial statements reflect no differences between accounting practices prescribed and permitted by ODI and statutory accounting principles promulgated by the NAIC.

Use of Estimates — The preparation of statutory basis financial statements in conformity with accounting practices prescribed or permitted by the ODI requires management to make estimates and assumptions that affect amounts reported in the statutory basis financial statements and accompanying notes. Such estimates and assumptions could change in the future, as more information becomes known that could impact the amounts reported and disclosed herein.

Cash, Cash Equivalents, and Short-Term Investments — The Plan considers all highly liquid instruments with maturities of three months or less at date of purchase to be cash equivalents. Short-term investments are all investments with remaining maturities of one year or less at the time of acquisition.

Bonds — Investments are reported at cost adjusted for amortization of premiums or discounts. Amortization is calculated using the effective yield method. Realized gains and losses, determined on the specific-identification basis, are included in investment income.

Common Stocks — Common stocks are recorded at fair value. Changes in unrealized appreciation and depreciation in the value of common stocks are reflected as direct increases or decreases in surplus.

Premiums Receivable — Premiums receivable consists of premiums that are due to the Company but not yet paid from, or on behalf of insured groups, and members as of the balance sheet date.

Furniture and Equipment — Furniture and equipment is depreciated on a straight-line basis over three to five years. Depreciation expense was \$2,025 and \$5,853 for 2013 and 2012, respectively.

Liabilities for Unpaid Claims and Claims Adjustment Expenses — Liabilities for unpaid claims and claim adjustment expenses are actuarial estimates of outstanding claims, including claims IBNR. These

NOTES TO FINANCIAL STATEMENTS

estimates are based upon historical claims experience modified for current trends and changes in benefit coverage, which could vary as the claims are ultimately settled.

Premium Deficiency Reserves — A liability for premium deficiency losses is an actuarial estimate that is recognized when it is probable that expected claim losses and allocable administrative expenses will exceed future premiums on existing health and other contracts without consideration of investment income. Based on the analysis by our actuaries, a premium deficiency reserve was not required as of December 31, 2013 and 2012.

CMS Payable — Beginning January 1, 2006, the Plan began serving as a plan sponsor offering Medicare Part D prescription drug insurance coverage under a contract with CMS through the MediGold products. Pharmacy benefits under Part D plans may vary in terms of coverage levels and out-of-pocket costs for beneficiary premiums, deductibles, and co-insurance. However, all Part D plans must offer either “standard coverage” or its actuarial equivalent (with out-of-pocket threshold and deductible amounts that do not exceed those of standard coverage). These “defined standard” benefits represent the minimum level of benefits required under law. In addition to defined standard plans, the Plan offers other prescription drug plans containing benefits in excess of the standard coverage limits, in many cases for an additional beneficiary premium.

Under the Medicare Part D program, there are six separate elements of payment received by the Plan during the plan year. These payment elements are as follows:

CMS Premium — CMS pays a fixed monthly premium per member to the Plan for the entire plan year.

Member Premium — Additionally, each member pays a fixed monthly premium to the Plan for the entire plan year.

Low-Income Premium Subsidy — For qualifying low-income members, CMS pays some portion or all of the member’s monthly premiums to the Plan on the member’s behalf.

Catastrophic Reinsurance Subsidy — CMS pays the Plan a cost reimbursement estimate monthly to fund the CMS obligation to pay approximately 80% of the costs incurred by individual members in excess of the individual annual out-of-pocket maximum of \$4,750. A settlement is made based on actual cost experience subsequent to the end of the plan year.

Low-Income Member Cost Sharing Subsidy — For qualifying low-income members, CMS pays on the member’s behalf, some portion or all of a member’s cost-sharing amounts, such as deductibles and coinsurance. The cost-sharing subsidy is funded by CMS through monthly payments to the Plan. The Plan administers and pays the subsidized portion of claims on behalf of CMS and a settlement payment is made between CMS and Plan based on actual claims subsequent to the end of the plan year.

CMS Risk Share — The Plan has settlements with CMS based on whether the ultimate per member per month benefit costs of any Medicare Part D regional plan varies more than 2.5 percentage points above or below the level estimated in the original bid submitted by the Plan and approved by CMS in 2013 and 2012. The estimated risk share adjustment of \$1,951,926 and \$(2,303,256) in 2013 and 2012, respectively, is recorded as a change in unearned premium in the statutory basis statements of operations and amounts held under uninsured health plans in the statutory basis statements of admitted assets, liabilities, and capital and surplus.

The CMS Premium, the Member Premium, and the Low-Income Premium Subsidy represent payments for the Plan’s insurance risk coverage under the Medicare Part D program, and therefore, are recorded

NOTES TO FINANCIAL STATEMENTS

as net premium revenue in the statutory basis statements of operations, capital and surplus. Net premium revenue is recognized ratably over the period in which eligible individuals are entitled to receive prescription drug benefits. The Plan records premium payments received in advance of the applicable service period as unearned premium revenue.

The Catastrophic Reinsurance Subsidy and the Low-Income Member Cost Sharing Subsidies represent cost reimbursements under the Medicare Part D program. The Plan is fully reimbursed by CMS for costs incurred for these contract elements and, accordingly, there is no insurance risk to the Plan. Amounts received for these subsidies are considered liabilities until settlements are calculated, based on claim payments.

Pharmacy benefit costs and administrative costs under the contract are expensed as incurred and are recognized in health care benefit expenses and operating expenses, respectively, in the statutory basis statements of operations, capital and surplus. Pharmacy benefit costs are recognized net of rebates.

On March 1, 2011, CMS notified the Plan that it was selected for a financial audit of records that support the 2009 financial activity associated with the Medicare Advantage and Prescription Drug programs. On April 17, 2012, CMS issued the audit report, and the CMS auditors issued the Plan an unqualified opinion. The results of this audit did not have any financial impact to the plan.

Risk Adjustment Data Validation Audits (“RADV audits”) — CMS adjusts capitation payments to Medicare Advantage and Medicare Part D plans according to the predicted health status of each beneficiary, as supported by data provided by health care providers. The Plan collects claim and encounter data from providers who the Plan generally relies on to appropriately code their claim submissions and document their medical records. CMS then determines the risk score and payment amount for each enrolled member based on the health care data submitted by the Plan and member demographic information.

CMS performs RADV audits of selected Medicare Advantage health plans to validate the coding practices of and supporting documentation maintained by health care providers. These audits involve a review of medical records maintained by providers and may result in an adjustment to the payment made to the Plan. The Plan has not been selected for a RADV audit by CMS as of the date of issuance of the 2013 statutory basis financial statements. The payment years open for audit include fiscal years 2013 and prior.

In February 2012, CMS released the final RADV audit and payment adjustment methodology. The methodology contains provisions allowing contract-level payment adjustments for the year audited using an extrapolation of the “error rate” identified in audit samples. Potential payment adjustments could have a material adverse effect on the Plan’s results of operations, financial position, and cash flows.

In November, 2013, the Plan received notification that it was selected for the RADV audit to validate the accuracy of the CY2011 Medicare Part C risk adjustment data and payments. 201 Plan members and their associated 539 hierarchical condition categories (HCC) were selected for this validation audit and the Plan is preparing the documentation with the assistance of consultants to guide the Plan through this effort. The RADV audit timeline extends beyond the annual filing deadline of February 28, 2014.

Minimum Security Requirements — Under the laws of the State of Ohio, the Plan is required to provide a minimum security deposit of \$400,000. As additional insolvency protection against uncovered balances, CMS’s Office of Managed Care has required that the Plan’s restricted reserves held in trust

NOTES TO FINANCIAL STATEMENTS

total \$1,460,000. CMS has allowed the deposit to be held by the state in a similar manner to the statutory security deposit required by the State of Ohio. The Plan has satisfied both requirements by depositing \$2,871,606 and \$2,888,529 in a trusteed account in 2013 and 2012, respectively. These deposits are included in bonds in the statutory basis statements of admitted assets, liabilities, and capital and surplus.

Minimum Net Worth — Under the laws of the State of Ohio, the Plan is required at all times to maintain total admitted assets equal to at least 110% of its liabilities. The required minimum net worth is \$1,200,000. The Plan has satisfied the minimum net worth requirements for 2013 and 2012.

Subscriber Premiums — Subscriber premiums are included in income in the period earned. The unearned portion of premiums are recorded as unearned premiums and subsequently credited to income as earned during the coverage period.

Member Premiums — The Plan charges a monthly premium to the individual members enrolled under its Medicare Advantage contract. Member premiums are included in income in the period earned.

Medical Costs Incurred — Claims are charged to income based upon the date services are rendered and represent the estimated remaining ultimate net cost of unpaid claims, both reported and unreported, during the year. The Plan does not discount claim reserves. The reserves for unpaid claims are estimated using an actuarially determined cost model. Those estimates are subject to the effects of trends in claim severity and frequency. Although considerable variability is inherent in such estimates, management believes that the reserves for claims are adequate. The estimates are reviewed and adjusted, as necessary, as experience develops or new information becomes known; such adjustments are reflected in operating results in the period in which the change in estimate is identified.

Vulnerability Due to Certain Concentrations — The Company is subject to substantial federal and state government regulation, including licensing and other requirements relating to the offering of the Plan's existing products in new markets and offerings of new products, both of which may restrict the Plan's ability to expand its business.

Risk-Based Capital Requirements — Health insurance companies are subject to certain Risk-Based Capital (RBC) requirements as specified by the Ohio Department of Insurance. Under these requirements, the amount of capital and surplus maintained by a health insurance company is to be determined based on the various risk factors. Beginning January 1, 2001, the Plan was required by the State of Ohio to comply with the RBC requirements and maintain at least 200% of the authorized control level. As of December 31, 2013 and 2012, the Plan was in compliance with the RBC requirements.

National Health Care Reform — In March 2010, the Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act of 2010 (PPACA) were enacted. The structure of reform changes the fundamentals of health care and health insurance dynamics, including coverage requirements; insurance rules around issuance, rating, competition; and regulatory and compliance requirements.

The establishment of a minimum medical loss ratio (MLR) took effect in January 2011. Other significant changes, which will take effect over a multiyear period, with many important provisions taking effect in 2014, include: prohibiting health insurers from denying coverage or refusing claims based on preexisting conditions, expanding Medicaid eligibility, subsidizing individual market and certain small group insurance premiums, providing incentives for businesses to provide health care

NOTES TO FINANCIAL STATEMENTS

benefits, establishing health insurance exchanges, makes various changes to Medicare payment formulas, and provides support for public health and medical research. MLR requirements for Medicare Advantage plans will be in effect for 2014.

New Accounting Standards — On March 26, 2011, nonsubstantive revisions to Statement of Statutory Accounting Principles (SSAP) No. 100, *Fair Value Measurements*, were made and are effective on January 1, 2012. The nonsubstantive revisions require fair value measurement at the reporting date; separate line item disclosures of purchases, sales, issues, and settlements; disclosure of fair value hierarchy and the method used to obtain the fair value measurement of all items in which fair value is disclosed within the annual statement investment schedules; and disclosure in the notes to the financial statements, as of each date for which a statement of financial position is presented, the aggregate fair value for all financial instruments and the level within the fair value hierarchy in which the fair value measurements in its entirety fall. The adoption of SSAP No. 100 revisions required the Plan to provide additional disclosures for fair value measurements in 2012 (see Note 5).

In October 2010, the NAIC issued SSAP No. 5R, *Liabilities, Contingencies and Impairments of Assets — Revised*, effective for all guarantees issued or outstanding as of December 31, 2011. The revised standard requires entities to recognize, at the inception of a guarantee, a liability for the obligations it has undertaken in issuing the guarantee, even if the likelihood of having to make payments under the guarantee is remote. The adoption had no impact to the overall statutory basis financial condition, results of operations, and cash flows of the Plan.

On March 26, 2011, the Statutory Accounting Principles Working Group issued a nonsubstantive proposal #2011-11 providing clarification that SSAP No. 66, *Retrospectively Rated Contracts*, should be followed when accounting for Medical Loss Ratio (MLR) rebate liabilities so that the MLR rebate accrual is recorded as a reduction to the premium revenue for financial reporting purposes. The clarification did not have a material impact to the Plan's statutory basis financial condition or results of operations for the years ended December 31, 2013 and 2012.

With an effective date of January 1, 2012, SSAP No. 101, *Income Taxes*, replaces SSAP No. 10R. SSAP No. 101 changes the recognition of deferred taxes in several ways. First, under SSAP No. 10R, companies can elect to admit deferred tax assets (DTAs) that they expect to realize within either one or three years of the balance-sheet date, provided certain RBC levels are met and the total amount of admitted DTAs under this step was less than a stated percentage of adjusted capital. SSAP No. 101 instead provides two realization threshold limitation tables, which dictate the number of years of DTA reversals required to be considered (now 0–3) and the percentage of adjusted capital limitation (now 0–15%). Second, SSAP No. 101 will require uncertain tax positions to be evaluated on a “more-likely-than-not” standard, as opposed to the “probable” standard previously contained in SSAP No. 10R; also, under SSAP No. 101, companies must now assume that they will be subject to tax examinations by relevant authorities. Finally, tax planning strategies will now expressly allow both for determining the admissibility tests as well as for determination of valuation allowances, provided that the strategies meet the “more-likely-than-not” standard. In years subsequent to December 31, 2012, the Plan will change recognition of deferred taxes to the guidance under SSAP No. 101. The Plan has reviewed the new provisions under SSAP No. 101 and there was no material effect changing from SSAP No. 10R to SSAP No. 101 on its statutory basis financial statements.

2. ACCOUNTING CHANGES AND CORRECTIONS OF ERRORS

The Plan had no accounting changes or corrections of errors during 2013 and 2012.

NOTES TO FINANCIAL STATEMENTS

3. BUSINESS COMBINATIONS AND GOODWILL

The Plan was not party to a business combination during the years ended December 31, 2013 and 2012, and does not carry goodwill on its statutory basis statements of admitted assets, liabilities, and capital and surplus.

4. DISCONTINUED OPERATIONS

The Plan did not discontinue any operations during 2013 and 2012.

5. CASH EQUIVALENTS AND INVESTMENTS

As of December 31, 2013 and 2012, the amortized cost, fair value, and gross unrealized holding gains and losses of the Plan's cash equivalents and investments, excluding (overdrafts) cash of approximately \$5,883,240 and \$(2,614,182), respectively, are as follows:

| | Amortized | Gross | | Fair | Statutory Basis |
|---|-----------------------|----------------------|-----------------------|-----------------------|----------------------------------|
| | | Cost | Unrealized | | |
| 2013 | | | | | |

Gross realized gains on sales of all marketable securities were \$17,133,606 and \$9,008,680 in 2013 and 2012, respectively. Gross realized losses on sales of all marketable securities were \$450,383 and \$353,616 in 2013 and 2012, respectively. Proceeds on the sale of bond securities were \$45,292,137

NOTES TO FINANCIAL STATEMENTS

and \$34,981,301 in 2013 and 2012, respectively.

A summary of the fair value and statutory basis value of the Plan's investments in U.S. Treasury and agency securities, mortgage-backed securities, and fixed-income bonds as of December 31, 2013, by contractual maturity, is as follows:

| | Fair Value | Statutory Basis Value |
|---------------------------------------|-----------------------|--------------------------------------|
| Due one year or less | \$ 19,948,802 | \$ 19,860,302 |
| Due after one year through five years | 49,084,378 | 47,138,786 |
| Due after five years through 10 years | 51,057,815 | 52,418,793 |
| Due after 10 years through 20 years | 1,355,673 | 1,372,876 |
| Due after 20 years | 9,416,271 | 8,921,970 |
| Total | \$130,862,939 | \$129,712,727 |

The expected maturities in the foregoing table may differ from the contractual maturities because certain borrowers have the right to call or prepay obligations with or without call or prepayment penalties. For the years ended December 31, 2013 and 2012, all of the Plan's investment income was comprised of interest and dividend income.

In accordance with the Plan's impairment policy, securities that have a fair market value that is below amortized cost are considered impaired and are analyzed and reviewed by management to determine if the impairment is other-than-temporary (OTTI).

For debt securities, an OTTI exists when a credit loss is determined to exist for the underlying security or the Plan has the intent to sell the security before anticipated recovery. A credit loss for impairment purposes occurs when the Plan does not anticipate the full recovery of amortized cost. Specific criteria for evaluating debt securities for impairment include length of time and extent to which the fair market value was below carrying value, NAIC ratings, interest coverage ratios, and ratings outlook. The write-down to fair market value of debt securities resulted in \$0 in 2013 and 2012 of OTTI losses, respectively.

For equity securities, the Plan evaluates whether it has the intent and ability to hold the security for a sufficient period of time to allow for a full recovery in value. The OTTI write-downs to fair market value for equity securities resulted in \$1,510,774 and \$2,646,011 in 2013 and 2012, respectively, of losses. OTTI write-downs are reported in net investment income on the statutory basis statement of operations (Note 7).

For loan-backed securities, if the Plan has the ability and intent to hold the security to maturity, but does not expect recovery of the carrying value, the credit portion of the decline is recognized as an impairment loss. Interest-related impairments are not recognized as an impairment loss.

For investments with market values below cost that were determined not to have OTTI, as of December 31, 2013, the Plan regularly monitors the existing unrealized losses and evaluates potential impairments to determine if OTTI needs to be recorded. For interest-related securities, excluding loan-backed securities for which declines in market value related to general market movement in

NOTES TO FINANCIAL STATEMENTS

interest rates, securities are not considered impaired unless the Plan has the positive intent to sell the security as of the reporting date.

The following table illustrates the fair value and gross unrealized losses aggregated by investment category and length of time that the individual securities have been in a continuous unrealized loss position as of December 31, 2013 and 2012:

| 2013 | < 1 Year | | > 1 Year | | Gross | |
|----------------------------|----------------------|-----------------------|----------------------|---------------------|----------------------|-----------------------|

The unrealized losses on investments in U.S. Treasury and agency obligations as of December 31, 2013 and 2012, were mainly caused by interest rate increases and not by unfavorable changes in the credit ratings associated with these securities. The contractual cash flows of the U.S. government and agency obligations are either guaranteed by the U.S. government or an agency of the U.S. government. It is expected that the securities would not be settled at a price less than the cost of the investment, and the Plan does not intend to sell the investment until the unrealized loss is fully recovered. Additionally, the Plan evaluated its intent and ability to retain mortgage-backed securities for a period of time sufficient to recover the amortized cost.

Loan-backed securities are stated at amortized cost. Premiums and discounts on loan-backed bonds and structured securities are amortized using the retrospective method based on anticipated prepayments at the date of purchase. Prepayment assumptions are obtained from broker dealer survey values or internal estimates. Changes in estimated cash flows from original purchase assumptions are accounted for using the prospective method.

The Plan recognized impairment of \$0 on securities within the scope of SSAP No. 43R, *Loan-Backed and Structured Securities*, for the years ended December 31, 2013 and 2012, respectively.

The Plan did not have mortgage-backed securities in a continuous unrealized loss position as of December 31, 2012.

NOTES TO FINANCIAL STATEMENTS

6. JOINT VENTURES, PARTNERSHIPS, AND LIMITED LIABILITY COMPANIES

The Plan has no investments in joint ventures, partnerships, or limited liability companies.

7. INVESTMENT INCOME

Investment income is recorded as it becomes due and payable. Realized gains and losses, determined on the specific-identification basis, are included in investment income.

The components of net investment income earned as of December 31, 2013 and 2012, are as follows:

| | 2013 | 2012 |
|-----------------------------|-------------------------|-------------------------|
| Interest | \$ 4,017,613 | \$ 3,966,622 |
| Dividends | 1,024,916 | 1,176,663 |
| Realized gains and losses | 16,683,223 | 8,655,064 |
| Impairments | <u>(1,510,774)</u> | <u>(2,646,011)</u> |
| Total investment income | 20,214,978 | 11,152,338 |
| Investment management fees | (713,348) | (635,098) |
| Net investment income | <u>\$19,501,630</u> | <u>\$10,517,240</u> |

8. DERIVATIVE INSTRUMENTS

The Plan has no derivative instruments.

9. INCOME TAXES

The Plan was incorporated on August 7, 1996, to hold a health insuring corporation (also referred to as an HMO) certificate of authority with the State of Ohio. On January 17, 2007, the Plan amended its articles of incorporation to be a nonprofit corporation in Ohio under Ohio Revised Code Section 1751. On January 23, 2007, the IRS granted the Plan exemption from income taxation under IRC Section 501(a) as an organization described in IRC Section 501(c)(4) effective retroactively to April 1, 2004.

10. INFORMATION CONCERNING PARENT, SUBSIDIARIES, AND AFFILIATES

The Plan leases the services of certain employees and its office space from the Corporation. Additionally, the Corporation also provides certain management, administrative, and marketing services to the Plan. Expenses related to services provided by the Corporation were \$8,691,050 and \$6,985,944 in 2013 and 2012, respectively. Medical expenses incurred by the Plan provided by the Corporation were \$87,260,337 and \$84,759,258 in 2013 and 2012, respectively. The Plan owed the Corporation \$3,707,876 and \$2,426,407 as of December 31, 2013 and 2012, respectively.

The Plan also provides by agreement certain management, administrative and marketing services to Mount Carmel Health Insurance Company (the "Affiliate"). Revenues related to services provided by the Plan to the Affiliate were \$724,224 and \$576,844 in 2013 and 2012, respectively.

NOTES TO FINANCIAL STATEMENTS

11. DEBT

The Plan had no outstanding debt with third parties during 2013 and 2012.

12. RETIREMENT PLANS, DEFERRED COMPENSATION, POSTEMPLOYMENT BENEFITS AND COMPENSATED ABSENCES, AND OTHER POSTRETIREMENT BENEFIT PLANS

The Plan has no retirement plan, deferred compensation, or other benefit plans.

13. CAPITAL AND SURPLUS, SHAREHOLDERS' DIVIDEND RESTRICTIONS AND QUASI-REORGANIZATIONS

The Plan does not have any special surplus funds, shareholders' dividend restrictions, and quasi-reorganizations as of December 31, 2013 and 2012.

The Plan paid four dividends to the Corporation of \$20,000,000 in 2013, which was subject to the prior approval by the ODI and recorded as a reduction to capital and surplus in the accompanying statutory basis statements of admitted assets, liabilities, and capital and surplus.

14. CONTINGENCIES

The Plan has no contingencies as of December 31, 2013 and 2012.

15. OPERATING LEASES

The Plan is leasing postage mail equipment that was placed in service during 2011 of which the full obligation to the Plan is \$42,822. The Plan paid \$9,882 and \$13,176 for this operating lease in 2013 and 2012, respectively. In September 2013 the original equipment was replaced without further obligation, and leased replacement equipment of which the full obligation is \$74,115. Due to issues with the equipment placed in service in September 2013, the Plan was relieved of its required monthly lease payment from September to December 2013. The lease obligation will begin in January 2014. The balance of collective lease payments is \$74,115 and \$19,764 as of December 31, 2013 and 2012, respectively.

16. INFORMATION ABOUT FINANCIAL INSTRUMENTS WITH OFF-BALANCE-SHEET RISK AND FINANCIAL INSTRUMENTS WITH CONCENTRATIONS OF CREDIT RISK

The Plan does not hold any financial instruments with off-balance-sheet risk or concentrations of credit risk.

17. SALE, TRANSFER, AND SERVICING OF FINANCIAL ASSETS AND EXTINGUISHMENTS OF LIABILITIES

The Plan did not participate in any transfer of receivables, financial assets, or wash sales.

18. GAIN OR LOSS TO THE REPORTING ENTITY FROM UNINSURED PLANS AND THE UNINSURED PORTION OF PARTIALLY INSURED PLANS

Medicare Part D is a partially insured plan. The Plan recorded a receivable of \$1,951,926 at December 31, 2013 and a payable of \$2,303,256 at December 31, 2012, for cost reimbursements under the

NOTES TO FINANCIAL STATEMENTS

Medicare Part D program for the catastrophic reinsurance and low-income member cost-sharing subsidies as described in Note 1, CMS Payable.

19. DIRECT PREMIUM WRITTEN OR PRODUCED BY MANAGING GENERAL AGENTS OR THIRD-PARTY ADMINISTRATORS

The Plan did not have any direct premiums written or produced by managing general agents or third-party administrators.

20. FAIR VALUE

The Plan and its investment managers determine fair values by applying the following guidelines. The NAIC SAP defines fair value, establishes a framework for measuring fair value, and outlines the disclosure requirements related to fair value measurements. The fair value hierarchy is as follows:

Level 1 — Quoted (unadjusted) prices for identical assets in active markets.

Level 2 — Other observable inputs, either directly or indirectly, including:

- Quoted prices for similar assets in active markets
- Quoted prices for identical or similar assets in nonactive markets (few transactions, limited information, noncurrent prices, high variability over time, etc.)
- Inputs other than quoted prices that are observable for the asset (interest rates, yield curves, volatilities, default rates, etc.)
- Inputs that are derived principally from or corroborated by other observable market data

Level 3 — Unobservable inputs that cannot be corroborated by observable market data.

The estimated fair values of bonds, short-term investments, preferred stocks, and common stocks (investments) are based on quoted market prices, where available. The Plan obtains one price for each security primarily from a third-party pricing service (pricing service), which generally uses quoted or other observable inputs for the determination of fair value. The pricing service normally derives the security prices through recently reported trades for identical or similar securities, making adjustments through the reporting date based upon available observable market information. For securities not actively traded, the pricing service may use quoted market prices of comparable instruments or discounted cash flow analyses, incorporating inputs that are currently observable in the markets for similar securities. Inputs that are often used in the valuation methodologies include, but are not limited to, non-binding broker quotes, benchmark yields, credit spreads, default rates and prepayment speeds.

In instances in which the inputs used to measure fair value fall into different levels of the fair value hierarchy, the fair value measurement has been determined based on the lowest level input that is significant to the fair value measurement in its entirety. The Plan's assessment of the significance of a particular item to the fair value measurement in its entirety requires judgment, including the consideration of inputs specific to the asset or liability.

NOTES TO FINANCIAL STATEMENTS

The following methods and assumptions were used to estimate the fair value of each class of financial instrument:

U.S. Governments Issuer Obligations — The estimated fair values of U.S. government issuer obligations are based on quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices. Due to the nature of pricing fixed-income securities, management has classified U.S. government issuer obligations primarily as Level 2 investments.

Debt Securities — The estimated fair values of debt securities are based on quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices. Due to the nature of pricing fixed-income securities, management has classified debt securities primarily as Level 2 investments.

Equity Securities — Fair value estimates for publicly traded equity securities are based on quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices. Nonpublicly traded securities, primarily commingled funds, are classified as Level 2 investments. The classification of equity securities also includes bonds and other fixed-income instruments managed in commingled and mutual funds.

Money Market Funds — The carrying value of money market funds approximates fair value due to their short duration. Management has classified money market funds as Level 1 investments.

The Plan did not have any financial assets with a fair value hierarchy of Level 3 as of December 31, 2013 and 2012.

The following table sets forth by level within the fair value hierarchy a summary of the Plan's investments recorded at fair value as of December 31, 2013 and 2012:

There were no financial instruments in which it was not practicable to estimate fair value.

21. OTHER ITEMS

The Plan did not encounter any extraordinary items during 2012.

NOTES TO FINANCIAL STATEMENTS

The Plan has no troubled debt restructuring.

The Plan routinely evaluates the collectability of all receivable amounts included within the statutory basis statements of admitted assets, liabilities, and capital and surplus. Reserves are established for those amounts where collectability is uncertain. Based on the Plan's past experience, exposure related to uncollectible balances and the potential of loss for those balances not currently reserved for is not material to the Plan's financial condition.

22. SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through March 1, 2014, which is the date these statutory basis financial statements were submitted. There were no events subsequent to March 1, 2014, that require disclosure.

CMS notified the Plan on April 17, 2013, that it will be subject to a financial audit of the 2011 fiscal year, however such audit has not been finalized as of date of issuance of the 2013 statutory basis financial statements. An estimate of the impact of the CMS audit cannot be made for the 2012 and 2011 statutory basis financial statements.

23. REINSURANCE

The Plan does not have any reinsurance agreements in place as of December 31, 2013 or 2012.

24. RETROSPECTIVELY RATED CONTRACTS AND CONTRACTS SUBJECT TO REDETERMINATION

Estimated accrued retrospective premiums due to (from) the Plan are recorded in uncollected premiums and considerations or aggregate health policy reserves on the statutory basis statements of admitted assets, liabilities, and capital and surplus and as an adjustment to change in unearned premium reserves or net premium income on the statutory basis statements of operations.

The Plan does not have any other retrospectively rated contracts subject to redetermination as of December 31, 2013 or 2012.

25. CHANGE IN INCURRED LOSSES

NOTES TO FINANCIAL STATEMENTS

The Plan provided for claims incurred but unreported and the cost of settling these claims based on the actuarially determined cost model. Estimates are adjusted as changes in these factors occur and such adjustments are reported in the period of determination. Activity in the estimated claim liability as of December 31, 2013 and 2012, is summarized as follows:

| | 2013 | 2012 |
|---|----------------------|----------------------|
| Unpaid claims liabilities — beginning of a year | <u>\$ 20,605,935</u> | <u>\$ 21,197,158</u> |
| Claims incurred related to: | | |
| Current year | 341,429,451 | 272,279,096 |
| Prior years | <u>17,343,596</u> | <u>18,163,730</u> |
| Total claims incurred during the current year | <u>358,773,047</u> | <u>290,442,826</u> |
| Paid claims related to: | | |
| Current year | 335,061,126 | 271,464,228 |
| Prior years | <u>19,368,861</u> | <u>20,205,762</u> |
| Total claims paid during the current year | <u>354,429,987</u> | <u>291,669,990</u> |
| Change in healthcare receivables | <u>300,906</u> | <u>650,459</u> |
| Change in claim adjustment expenses | <u>(87,923)</u> | <u>(14,518)</u> |
| Unpaid claim liabilities — end of year | <u>\$ 25,161,978</u> | <u>\$ 20,605,935</u> |

Claims incurred and claims paid include amounts incurred and amounts paid under the Plan's Medicare Part D program described in Note 1 — Summary of Significant Accounting Policies. The Plan uses member months, hospitalization utilization, paid claims, and completion factors based on historical payment patterns to estimate incurred claims. Changes in payment patterns and claims trends can result in changes to prior years' claims estimates. Changes in estimates of unpaid claims reported as "incurred related to prior years" in the schedule above reflect revisions in estimates of medical cost trends and changes in claims processing patterns.

26. INTERCOMPANY POOLING ARRANGEMENTS

The Plan did not have any intercompany pooling arrangements in 2013 or 2012.

27. STRUCTURED SETTLEMENTS

The Plan did not have structured settlements in 2013 or 2012.

28. HEALTH CARE RECEIVABLES

The Plan had admitted pharmacy rebate receivables of \$1,889,881 and \$1,547,973 as of December 31, 2013 and 2012, respectively. The Plan had admitted claim overpayment receivables of \$9,361 and \$50,363 as of December 31, 2013 and 2012, respectively.

NOTES TO FINANCIAL STATEMENTS

The Plan collected \$6,879,675 and \$7,646,366 in pharmacy rebates during 2013 and 2012, respectively.

The Plan did not have any material risk-sharing receivables as of December 31, 2013 or 2012.

29. PARTICIPATING POLICIES

The Plan did not have any participating contracts in 2013 or 2012.

30. PREMIUM DEFICIENCY RESERVES

The Plan did not have a liability for premium deficiency reserves, as of December 31, 2013 and 2012, respectively. Premium deficiency reserves would be included in aggregate health policy reserves in the statutory basis statements of admitted assets, liabilities, and capital and surplus. The Plan did not consider anticipated investment income when calculating its assessment for premium deficiency reserves.

31. ANTICIPATED SALVAGE AND SUBROGATION

Due to the type of business being written, the Plan has no salvage. As of December 31, 2013 and 2012, the Plan had no specific accruals established for outstanding subrogation, as it is considered a component of the actuarial calculations used to develop the estimates of claims unpaid and aggregate health claim reserves.
