## NOTES TO FINANCIAL STATEMENTS

### Note 1 - Summary of Significant Accounting Policies Basis of Accounting

These financial statements have been prepared on the statutory basis of accounting as prescribed by the State of Ohio Department of Insurance. Purchases and sales of securities reflected on the settlement date. Investment income is reflected when earned. Interest income includes the amortization of bond and note premiums and discounts.

### Estimates

The preparation of financial statements in conformity with the statutory basis of accounting requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, primarily unpaid claims and claim adjustment expenses. Accordingly, actual results may differ from those estimates.

### Valuation of Investments

The statement of admitted assets, liabilities and surplus - statutory basis includes investments valued as follows: investments in common stocks and mutual funds traded on a national securities exchange are valued at the last reported sales price at the last business day of the year; securities traded in the over-the-counter market and listed securities for which no sales was reported on that date are valued at the last reported bid price. Bonds and fixed income securities are valued at amortized cost. Any discounts or premiums are amortized over the remaining life of the investments from the date of purchase through year end is included in accrued interest.

Any fixed income security whose value is significantly less than cost or amortized cost due to the financial difficulties of the issuer, is valued at its net realizable value.

The statement of income and changes in surplus - statutory basis includes unrealized gains and losses on investment in common stocks and mutual funds. The unrealized gain (loss) on these investments represents the change in the difference between cost and market at the beginning and end of the year.
