B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

Health premiums are earned ratably over the terms of the related insurance and reinsurance contracts. Expenses incurred in connections with acquiring new insurance business, including acquisition costs such as sales commissions, are charged to operations as incurred.
