NOTES TO FINANCIAL STATEMENTS

(1) Summary of Significant Accounting Policies

A. Accounting Practices

The accompanying statutory financial statements of Nationwide Life Insurance Company (NLIC or the Company) have been prepared in conformity with accounting practices prescribed or permitted by the National Association of Insurance Commissioners (NAIC) and the State of Ohio.

The Ohio Department of Insurance (Department) recognizes only statutory accounting practices (SAP) prescribed or permitted by the Department for determining and reporting the financial condition and results of operations of an insurance company, as well as, determining its solvency under the Ohio Insurance Law. The National Association of Insurance Commissioners' *Accounting Practices and Procedures* manual (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State of Ohio. The Commissioner of Insurance has the right to permit other specific practices that deviate from prescribed practices. The Company has no statutory accounting practices that differ from NAIC SAP.

Olentangy Reinsurance, LLC (Olentangy), a special purpose financial insurance company domiciled in the State of Vermont, which is a wholly-owned subsidiary of Nationwide Life and Annuity Insurance Company (NLAIC), was granted a permitted practice from the State of Vermont allowing Olentangy to carry the assets placed into a trust account by Union Hamilton Reinsurance Ltd. at net admitted asset value which increased the subsidiary's valuation by \$66,000,000, which also allowed the Company to admit additional deferred tax assets (DTA) of \$9,900,000 as of March 31, 2014.

A reconciliation of the Company's net income and capital and surplus between NAIC SAP and practices prescribed and permitted is shown below:

- (3) None
- (4) All impaired securities (fair value is less than cost or amortized cost) for which an other-than-temporary impairment has not been recognized in earnings as a realized loss (including securities with a recognized other-than-temporary impairment for non-interest related declines when a non-recognized interest related impairment remains):

As of 03/31/2014

a. The aggregate amount of unrealized losses:

1. Less than 12 Months	<u>\$ (16,016,173)</u>
2. 12 Months or Longer	<u>\$ (106,312,110)</u>

b. The aggregate related fair value of securities with unrealized losses:

1. Less than 12 Months	<u>\$ 1,008,469,537</u>
2. 12 Months or Longer	<u>\$ 747,607,506</u>

- (5) The Company reviews all loan-backed and structured securities in which the fair value of the given security is less than the amortized cost to determine if a given security is other-than-temporarily impaired. The Company examines characteristics of the underlying collateral, such as delinquency and default rates, the quality of the underlying borrower, the type of collateral in the pool, the vintage year of the collateral, subordination levels within the structure of the collateral pool, and the quality of any credit guarantors, to determine the cash flows expected to be received for the security.

If the severity and duration of the security's unrealized loss indicates a risk of an other-than-temporary impairment, then the Company will evaluate if the amortized cost basis of the security will be recovered by comparing the present value of the cash flows expected to be received for the given security with the amortized cost basis of the security. If the present value of cash flows is greater than the amortized cost basis of a security then the security is deemed not to be other-than-temporarily impaired.

Legal and Regulatory Matters

The Company is subject to legal and regulatory proceedings in the ordinary course of its business. The Company's legal and regulatory matters include proceedings specific to the Company and other proceedings generally applicable to business practices in the industries in which the Company operates. These matters are subject to many uncertainties, and given their complexity and scope, their outcomes cannot be predicted. Regulatory proceedings could also affect the outcome of one or more of the Company's litigation matters. Furthermore, it is often not possible to determine the ultimate outcomes of the pending regulatory investigations and legal proceedings or to provide reasonable ranges of potential losses with any degree of certainty. Some matters, including certain of those referred to below, are in very preliminary stages, and the Company does not have sufficient information to make an assessment of the plaintiffs' claims for liability or damages. In some of the cases seeking to be certified as class actions, the court has not yet decided whether a class will be certified or (in the event of certification) the size of the class and class period. In many of the cases, the plaintiffs are seeking undefined amounts of damages or other relief, including punitive damages and equitable remedies, which are difficult to quantify and cannot be defined based on the information currently available. The Company believes, however, that based on currently known information, the ultimate outcome of all pending legal and regulatory matters is not likely to have a material adverse effect on the Company's statutory financial position. Nonetheless, given the large or indeterminate amounts sought in certain of these matters and the inherent unpredictability of litigation, it is possible that such outcomes could materially affect the Company's statutory financial position or results of operations in a particular quarter or annual period.

The various businesses conducted by the Company are subject to oversight by numerous federal and state regulatory entities, including but not limited to the Securities and Exchange Commission, the Financial Industry Regulatory Authority, the Department of Labor, the Internal Revenue Service (IRS) and state insurance authorities. Such regulatory entities may, in the normal course, be engaged in general or targeted inquiries, examinations and investigations of the Company and/or its affiliates. The financial services industry has been the subject of increasing scrutiny in connection with a broad spectrum of regulatory issues; with respect to all such scrutiny directed at the Company and/or its affiliates, the Company is cooperating with regulators. The Company will cooperate with Nationwide Mutual Insurance Company (NMIC) insofar as any inquiry, examination or investigation encompasses NMIC's operations.

On August 15, 2001, Nationwide Financial Services Inc.(NFS) and NLIC were named in a lawsuit filed in the U.S. District Court for the District of Connecticut entitled *Lou Haddock, as trustee of the Flyte Tool & Die, Incorporated Deferred Compensation Plan, et al v. Nationwide Financial Services, Inc. and Nationwide Life Insurance Company*. On November 18, 2009, the plaintiffs filed a sixth amended complaint amending the list of named plaintiffs and claiming to represent a class of qualified retirement plan trustees under Employee Retirement Income Security Act of 1974 ("ERISA") that purchased variable annuities from NLIC. The plaintiffs allege that they invested ERISA plan assets in their variable annuity contracts and that NLIC and NFS breached ERISA fiduciary duties by allegedly accepting service payments from certain mutual funds. The complaint seeks disgorgement of some or all of the payments allegedly received by NFS and NLIC, other unspecified relief for restitution, declaratory and injunctive relief, and attorneys' fees. On November 6, 2009, the Court granted the plaintiff's motion for class certification. On October 21, 2010, the District Court dismissed NFS from the lawsuit. On February 6, 2012, the Second Circuit Court of Appeals vacated the November 6, 2009 order granting class certification and remanded the case back to the District Court for further consideration. On September 6, 2013, the District Court granted the plaintiffs' motion for class certification. The case is set for trial beginning February 9, 2015. NLIC continues to defend this lawsuit vigorously.

STATEMENT AS OF MARCH 31, 2014 OF THE NATIONWIDE LIFE INSURANCE COMPANY

On November 20, 2007, Nationwide Retirement Solutions, Inc (NRS) and NLIC were named in a lawsuit filed in the Circuit Court of Jefferson County, Alabama entitled *Ruth A. Gwin and Sandra H. Turner, and a class of similarly situated individuals v Nationwide Life Insurance Company, Nationwide Retirement Solutions, Inc., Alabama State Employees Association, PEBCO, Inc. and Fictitious Defendants A to Z*. On March 12, 2010, NRS and NLIC were named in a Second Amended Class Action Complaint filed in the Circuit Court of Jefferson County, Alabama entitled *Steven E. Coker, Sandra H. Turner, David N. Lichtenstein and a class of similarly situated individuals v. Nationwide Life Insurance Company, Nationwide Retirement Solutions, Inc, Alabama State Employees Association, Inc., PEBCO, Inc. and Fictitious Defendants A to Z* claiming to represent a class of all participants in the Alabama State Employees Association, Inc. (“ASEA”) Plan, excluding members of the Deferred Compensation Committee, ASEA's directors, officers and board members, and PEBCO's directors, officers and board members. On October 22, 2010, the parties to this action executed a court approved stipulation of settlement that agreed to certify a class for settlement purposes only, that provided for payments to the settlement class, and that provided for releases, certain bar orders, and dismissal of the case. The settlement fund has been paid out. On December 6, 2011, the Court entered an Order that NRS owed indemnification to ASEA and PEBCO for only the Coker (Gwin) class action, and dismissed NLIC. The Company has resolved the indemnification claims of ASEA. On February 15, 2013, the Court issued its Order determining the amount of fees due to PEBCO on its indemnification claim. On March 28, 2014, the Alabama Supreme Court reversed the trial Court decision awarding PEBCO its attorney fees and remanded the case back to the trial court to enter a judgment in favor of NRS. NRS continues to defend this case vigorously.

On June 8, 2011, NMIC and NLIC were named in a lawsuit filed in Court of Common Pleas, Cuyahoga County, Ohio entitled *Stanley Andrews and Donald C. Clark v. Nationwide Mutual Insurance Company and Nationwide Life Insurance Company*. The complaint alleges that NMIC and NLIC have an obligation to review the Social Security Administration Death Master File database for all life insurance policyholders who have at least a 70% probability of being deceased according to actuarial tables. The complaint further alleges that NMIC and NLIC are not conducting such a review. The complaint seeks injunctive relief and declaratory judgment requiring NMIC and NLIC to conduct such a review, and alleges NMIC and NLIC have violated the covenant of good faith and fair dealing and have been unjustly enriched by not having conducted such reviews. The lower court granted Nationwide’s motion to dismiss. Plaintiffs appealed. The Court of Appeals affirmed the dismissal on October 24, 2012. Plaintiffs filed a petition for rehearing en banc on November 5, 2012. The Court of Appeals denied the petition on December 14, 2012. Plaintiffs filed a notice of appeal to the Ohio Supreme Court on January 24, 2013. Nationwide filed its memorandum in opposition to plaintiffs’ petition for jurisdiction to the Ohio Supreme Court on February 27, 2013. The Ohio Supreme Court denied plaintiffs’ petition for review of the decision of the Court of Appeals on April 24, 2013. Plaintiffs’ time to file a petition for writ of certiorari to the U.S. Supreme Court has expired, concluding this matter.

In 2012 the Plaintiff, Debtor in Possession Lehman Brothers Special Financing, Inc., filed a class action in the United States Bankruptcy Court for the Southern District of New York seeking the recovery of nearly \$3.0 billion in assets from all the named defendants including NLIC and NMIC. This litigation arises from two collateralized debt obligation transactions, 801 Grand and Alta, which resulted in payments to NLIC and NMIC after the Plaintiff and its parent company, Lehman Brothers Holding, Inc. filed for bankruptcy in 2008. This triggered an early termination of the above transactions. The Plaintiff seeks to have sums returned to the bankruptcy estate in addition to prejudgment interest and costs. The case is currently stayed. In 2013, Plaintiff sent correspondence to all defendants inviting settlement discussions and has served NMIC and NLIC with a “SPV Derivatives ADR Notice”, formally starting the Alternative Dispute Resolution process. NMIC and NLIC have responded, and are currently taking part in the ADR process. Mediation was scheduled for and proceeded on December 13, 2013, but the parties reached an impasse. The mediator is continuing to work with the parties and is expected to issue a final recommendation shortly. On January 10, 2014, Lehman filed another motion to extend the stay for a final four month period. After a hearing, the court extended the stay to the later of (a) May 20, 2014 or (b) 30 days after the court enters a scheduling order governing the Distributed Action. The parties are negotiating the proposed scheduling order for the conduct of the Distributed Action litigation, and Lehman filed a revised scheduling order on March 24, 2014. On April 14, 2014, Nationwide and 77 other defendants filed a joint response to the proposed scheduling order, and a hearing on the proposed scheduling order has been scheduled for May 14, 2014.

Tax Matters

The Company’s federal income tax returns are routinely audited by the IRS. The Company provides for federal income taxes based on amounts the Company believes it ultimately will owe. Inherent in the provision for federal income taxes are estimates regarding the deductibility of certain items and the realization of certain tax credits. In the event the ultimate deductibility of certain items or the realization of certain tax credits differs from estimates, the Company may be required to change the provision for federal income taxes recorded in the statutory financial statements, which could be significant. Management has used best estimates to establish reserves for uncertain tax positions based on current facts and circumstances regarding tax exposure items where the ultimate deductibility is open to interpretation. Management believes its tax reserves reasonably provide for potential assessments that may result from IRS examinations and other tax-related matters for all open tax years.

Indemnifications

In the normal course of business, the Company provides standard indemnifications to contractual counterparties. The types of indemnifications typically provided include breaches of representations and warranties, taxes and certain other liabilities, such as third party lawsuits. The indemnification clauses are often standard contractual terms and are entered into in the normal course of business based on an assessment that the risk of loss would be remote. The terms of the indemnifications vary in duration and nature. In many cases, the maximum obligation is not explicitly stated, and the contingencies triggering the obligation to indemnify have not occurred and are not expected to occur. Consequently, the maximum amount of the obligation under such indemnifications is not determinable. Historically, the Company has not made any material payments pursuant to these obligations.

(20) Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements are based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources while unobservable inputs reflect the Company's view of market assumptions in the absence of observable market information. The Company utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. In determining fair value, the Company uses various methods, primarily market and income approaches.

The Company categorizes its assets and liabilities into a three-level hierarchy based on the priority of the inputs to the valuation technique. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure fair value fall within different levels of the hierarchy, the category level is based on the lowest priority level input that is significant to the fair value measurement of the instrument in its entirety.

The Company categorizes assets and liabilities held at fair value as follows:

Level 1. Unadjusted quoted prices accessible in active markets for identical assets or liabilities at the measurement date and mutual funds where the value per share (unit) is determined and published daily and is the basis for current transactions.

Level 2. Unadjusted quoted prices for similar assets or liabilities in active markets or inputs (other than quoted prices) that are observable or that are derived principally from or corroborated by observable market data through correlation or other means. Primary inputs to this valuation technique may include comparative trades, bid/asks, interest rate movements, U.S. Treasury rates, U.S. LIBOR, prime rates, cash flows, maturity dates, call ability, estimated prepayments and/or underlying collateral values.

Level 3. Prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. Inputs reflect management's best estimate about the assumptions market participants would use at the measurement date in pricing the asset or liability. Consideration is given to the risk inherent in both the method of valuation and the valuation inputs.

The Company reviews its fair value hierarchy classifications for assets and liabilities quarterly. Changes in observability of significant valuation inputs identified during these reviews may trigger reclassifications. Reclassifications are reported as transfers at the beginning of the period in which the change occurs.

Independent pricing services are most often utilized to determine the fair value of bonds and stocks for which market quotations are available. For these bonds and stocks, the Company obtains the pricing services' methodologies, inputs and assumptions and classifies the investments accordingly in the fair value hierarchy.

A corporate pricing matrix or an internally developed pricing model is used in valuing certain corporate bonds. The corporate pricing matrix is developed using private spreads for bonds with varying weighted average lives and credit quality ratings. The weighted average life and credit quality rating of a particular bond to be priced using the corporate pricing matrix are important inputs into the model and are used to determine a corresponding spread that is added to the appropriate U.S. Treasury yield to create an estimated market yield for that bond. The estimated market yield and other relevant factors are then used to estimate the fair value of the particular bond.

Non-binding broker quotes are also utilized to determine the fair value of certain bonds when quotes are not available from independent pricing services, corporate pricing matrix or internal pricing models. These bonds are classified with the lowest priority in the fair value hierarchy as only one broker quote is ordinarily obtained, the investment is not traded on an exchange, the pricing is not available to other entities and/or the transaction volume in the same or similar investments has decreased. Inputs used in the development of prices are not provided to the Company by the brokers as the brokers often do not provide the necessary transparency into their quotes and methodologies. The Company performs reviews and tests to ensure that quotes are a reasonable estimate of the investments' fair value at least annually. Price movements of broker quotes are subject to validation and require approval from the Company's management. Management uses its knowledge of the investment and current market conditions to determine if the price is indicative of the investment's fair value.

Fair value of derivative instruments is determined using various valuation techniques relying predominately on observable market inputs. These inputs include interest rate swap curves, credit spreads, interest rates, counterparty credit risk, equity volatility and equity index levels. In cases where observable inputs are not available, the Company will utilize non-binding broker quotes to determine fair value and these instruments are classified accordingly in the fair value hierarchy. Price movements of these broker quotes are subject to validation and require approval from the Company's management. Management uses models to internally value the instruments for comparison to the values received through broker quotes.

Not Practicable to Estimate Fair Value – Not applicable

Mortgage loans, net of allowance: The fair value of mortgage loans are primarily estimated using discounted cash flow analyses based on interest rates currently being offered for similar loans to borrowers with similar credit ratings.

Short-term investments: The carrying value approximates fair value.

Policy loans: The carrying value approximates fair value.

Securities lending collateral assets: These assets are comprised of bonds and short-term investments and the respective fair values are estimated based on the fair value methods described above.

Investment contracts: For investment contracts without defined maturities, fair value is the amount payable on demand, net of certain surrender charges. For investment contracts with known or determined maturities, fair value is estimated using discounted cash flow analyses. Interest rates used in this analysis are similar to currently offered contracts with maturities consistent with those remaining for the contracts being valued.
