NOTES TO FINANCIAL STATEMENTS

1A. Summary of Significant Accounting Policies

Basis of Presentation – CareSource (CS’s) statutory-basis financial statements are presented on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance (ODI). The ODI requires that insurance companies domiciled in the State of Ohio prepare their statutory financial statements in accordance with the National Association of Insurance Commissioners *Accounting Practices and Procedures Manual* (NAIC AP&P) subject to any deviation prescribed or permitted by the ODI.

Accounting practices and procedures of the NAIC, as prescribed or permitted by the insurance department of the applicable states of domicile, comprise a comprehensive basis of accounting other than accounting principles generally accepted in the United States (GAAP). The more significant differences are as follows:

Non-admitted Assets: Certain assets designated as “non-admitted,” principally prepaid assets, investments in CareSource Foundation, past due healthcare receivables, furniture and equipment, and other assets not specifically identified as an admitted asset within the NAIC AP&P are excluded from the accompanying balance sheets and are charged directly to unassigned surplus. In accordance with GAAP, such assets are included in the balance sheet to the extent that those assets are not impaired.

Reinsurance: Unpaid claims liabilities and premiums received in advance ceded to reinsurers have been reported as reductions of the related balances rather than as assets as would be required in accordance with GAAP.

Statements of Cash Flows: Cash, cash equivalents, and short-term investments in the statements of cash flows represent cash balances and investments with initial maturities of one year or less. In accordance with GAAP, the corresponding caption of cash and cash equivalents includes cash balances and investments with initial maturities of three months or less.

The effects of the foregoing variances from GAAP on the accompanying statutory-basis financial statements have not been quantified.

No significant differences exist between prescribed or permitted practices by the State of Ohio and NAIC SAP which materially affect the statutory basis net income or capital and surplus, as illustrated in the table below.

Reinsurance

Certain premiums and benefits are ceded to another insurance company under a reinsurance agreement. The ceded reinsurance agreement provides CS with increased capacity to write larger risks and maintain its exposure to loss within its capital resources. CS remains obligated for amounts ceded in the event that the reinsurer does not meet their obligations. CS utilizes a third party insurance company, Ace American Insurance Company, and an affiliate, CareSource Insurance, LLC, to provide reinsurance coverage.

Significant Provider

CS has an agreement with Children’s Hospital and Physicians’ Healthcare Networks dba Partners for Kids (PFK), for PFK to provide medical services to CS members. In connection with this contract, CS pays medical claims billed by non-PFK providers for

NOTES TO FINANCIAL STATEMENTS

CS members whom are less than 19 years old in the Central and Southeast Regions, and is later reimbursed by PFK. CS has recorded a liability for the incurred but not reported (IBNR) medical claims for these non-PFK provided services, and a related receivable which was secured by an irrevocable letter of credit from PFK's financial institution to CS in the amount of the IBNR accrual. Reinsurance for CS members for which PFK is providing the medical services are delegated to PFK with approval of the State of Ohio.

As of March 31, 2014, PFK was paid \$86,723,176 for services rendered, prior to chargebacks of \$46,399,763. Chargebacks resulted from CS directly paying certain non-PFK providers under the contract. The CS membership capitated by the provider constituted approximately 17% and 18% of total CS membership in 2014 and 2013.

At March 31, 2014, CS recorded a capitation chargeback receivable from PFK for \$19,065,598.

(5) Additional information –

Management regularly reviews the value of CS's investments. If the value of any investment falls below its cost basis, the decline in value is analyzed to determine whether it is an other-than-temporary impairment. The decision to record an impairment loss incorporates both quantitative criteria and qualitative information. The Company considers a number of factors including, but not limited to: (a) the length of time and the extent to which the fair value has been less than book value, (b) the financial condition and near term prospects of the issuer, (c.i.) for non-interest-related declines in corporate and government bonds, the intent and ability of CS to retain its investment for a period of time sufficient to allow for any anticipated recovery in value, (c.ii.) for interest related declines in corporate and government bonds, the intent of CS to sell the investment at the reporting date, (c.iii.) for mortgage-backed securities, whether CS expects to recover the entire amortized cost basis of the security and whether CS has the intent to sell or intent and ability to hold the investments for a period of time sufficient to allow for any anticipated recovery in value, (d) whether the debtor is current on interest and principal payments, and (e) general market conditions and industry or sector specific factors. As of March 31, 2014 the Company holds \$4.7m of mortgage or other loan backed securities, none of which meet the criteria for impairment.

CS does not hold any investments as of March 31, 2014 that are subject to redemption restrictions or penalties, therefore all holdings can be liquidated immediately upon request, without penalty.

18. Gain or Loss to the reporting entity from uninsured plans and the uninsured portion of partially insured plans -

Effective July 1, 2013 the Company executed a contract with the Ohio Department of Medicaid to provide case management services for the Home and Community Based Waiver program. The structure of the program as an entity that solely performs administrative services and only pays related expenses once reimbursed by the State of Ohio qualifies it for classification as an uninsured, administrative services only (ASO) plan.

a. ASO plans

The gain from operations from Administrative Service Only (ASO) uninsured plans and the uninsured portion of partially insured plans was as follows as of March 31, 2014:

	ASO Uninsured Plan	Uninsured Portion Of Partially Insured Plans	Total ASO

20. Fair Value Measurements –

The Company uses fair value measurements to record the fair value of certain assets and to estimate the fair value of financial instruments not recorded at fair value but required to be disclosed at fair value.

Fair value is defined as the price that would be received to sell an asset or transfer a liability in an orderly transaction between market participants at the measurement date. The Company's financial assets carried at fair value have been classified, for disclosure purposes, based on a hierarchy that prioritizes inputs to valuation techniques used to measure fair value into three levels.

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities. The Company's Level 1 assets and liabilities primarily include exchange-traded equity securities.

Level 2 – Inputs include quoted prices for similar assets or liabilities in active markets, quoted prices from those willing to trade in markets that are not active, or other inputs that are observable or can be corroborated by market data for the term of the instrument. Such inputs include market interest rates and volatilities, spreads, and yield curves.

Level 3 – Certain inputs are unobservable (supported by little or no market activity) and significant to the fair value measurement. Unobservable inputs reflect the Company's best estimate of what hypothetical market participants would use to determine a transaction price for the asset or liability at the reporting date.

The following discussion described the valuation methodologies utilized by the Company for assets measured or disclosed at fair value. Fair value estimates are made at a specific point in time, based on available market information and judgments about the financial instrument, including discount rates, estimates of timing, amount of expected future cash flows, and the credit standing of the issuer.

Debt and Equity Securities

The fair values of actively traded debt and equity securities are determined through the use of third-party pricing services utilizing market observable inputs. Certain mortgage-backed securities for which the Company does not receive public quotations or for which the Company believes market activity to reflect distressed sales are valued using current market-

NOTES TO FINANCIAL STATEMENTS

consistent rates applicable to yield, credit quality and maturity of each security. When available, market observable inputs are used to estimate the fair values of these securities.

Cash, Cash Equivalents, and Short-Term Investments

The fair values of cash and cash equivalents are based on quoted market prices. Short term investments are stated at amortized cost, which approximates fair value.
