HealthSpan Integrated Care
Notes to Financial Statements
For the Three Months Ended March 31, 2014 and the Year Ended December 31, 2013

1) Summary of Significant Accounting Policies

A. Accounting Practices

The accompanying statutory financial statements of HealthSpan Integrated Care (“Health Span or the Company”) have been prepared in conformity with the National Association of Insurance Commissioners’ (“NAIC”) *Accounting Practices and Procedures* manual, (“NAIC SAP”), the NAIC Annual Statement Instructions, and other accounting practices as prescribed or permitted by the State of Ohio – Ohio Department of Insurance (ODI). There were no reported differences to net income, statutory surplus, or risk based capital for specific practices, prescribed or permitted by the State of Ohio, that deviate from NAIC SSAP in the reported periods.

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of the statutory financial statements in conformity with NAIC SAP, the NAIC Annual Statement Instructions, and other accounting practices as prescribed or permitted by the ODI requires management to make estimates and assumptions that affect the reported amounts. The allowance for uncollectable premiums and health care receivables; the estimated fair value of investments; Medicare revenue accruals; Medicare payables and reserves; the reserves for unpaid claims and claims adjustment expense; the premium deficiency reserves; legal liabilities; real estate, property, and equipment impairment and useful lives; and investment impairments represent significant estimates. Actual results could differ materially from those estimates.

C. Accounting Policies

Cash and Short Term Investments

Cash and short-term investments – net include interest-bearing deposits purchased with an original or remaining maturity of twelve months or less. Cash and investments that are restricted by contractual or regulatory requirements are classified as bonds and other invested assets and excluded from cash and short-term investments.

Premiums and Health Care Receivables

Premiums and health care receivables exclude nonadmitted balances. Certain receivables are not admissible in accordance with the NAIC SAP. Nonadmitted amounts include all nongovernmental premiums and health care receivable greater than 90 days past due. In addition, when premiums and health care receivables greater than 90 days past due are more than a de minimus portion of the entire premiums and health care receivable balance, the entire premiums and health care receivable balance is nonadmitted.

Bonds and Other Invested Assets

Bonds and other invested assets include money market funds, U.S. Treasury and government-sponsored agencies, loan-backed and or structured securities, industrial and miscellaneous bonds and all other government bonds. Recognized gains and losses are recorded on the specific identification basis. Interest income is included in net investment and other income.

Bonds are reported in accordance with NAIC Annual Statement Instructions (Statement Value). Accordingly, bonds that are designated highest quality, NAIC Designation 1 and 2, are reported at amortized cost using the effective interest method, and bonds that are classified as NAIC Designation 3 or lower are reported at lower of amortized cost or fair value.

Adjustments are made prospectively and repayment assumptions are obtained from a third party vendor data source for loan-backed and/or structured securities. The amortization method used is the scientific method.

Investments are regularly reviewed for impairment and a charge is recognized when the fair value is below cost basis and is judged to be other-than-temporary. Impairment is included in recognized losses. In its review of assets for impairment that is deemed other-than-temporary, management generally follows the following guidelines:

- Substantially all investments are managed by outside investment managers who do not need the Company's management pre-approval for sales, therefore substantially all declines in value below amortized cost are recognized as impairments that are other-than-temporary.
- For other securities, losses are recognized for known matters, such as bankruptcies, regardless of ownership period, and investments that have been continuously below book value for an extended period of time are evaluated for impairment that is other-than-temporary.

The Company's investment transactions are recorded on a trade-date basis.

HealthSpan is required to keep investments on deposit in the State of Ohio, where it is licensed. At both March 31, 2014 and December 31, 2013, \$400 thousand in long-term U.S. Treasury notes were restricted to satisfy the state's regulatory requirements.

Real Estate, Property and Equipment

Real estate, property and equipment, which include land, buildings and improvements, furniture, equipment and software are stated at cost less accumulated depreciation and amortization. Interest is capitalized on facilities construction in progress and is added to the cost of the underlying asset, in accordance with Statement of Statutory Accounting Principles (SSAP) No. 44, *Capitalization of Interest*. Depreciation begins when the project is substantially complete and ready for its intended use. Software is amortized on a straight-line basis over three years. Buildings and equipment are depreciated on a straight line basis over the shorter of the asset's useful life or the estimated useful lives of the various classes of assets, generally ranging from 3 to 33 years. Leasehold improvements are depreciated on a straight-line basis over the lesser of the useful life or the terms of the base period, generally 5 years.

Management evaluates alternatives for delivering services that may affect the current and future utilization of existing and planned assets and could result in an adjustment to the carrying values of such land, buildings, equipment and software in the future. Management evaluates and records impairment losses, where applicable, based on expected utilization, projected cash flows and recoverable values.

Maintenance and repairs are expensed as incurred. Major improvements that increase the estimated useful life of an asset are capitalized. Upon the sale or retirement of assets, recorded cost and related accumulated depreciation are removed from the accounts, and any gain or loss on disposal is reflected in operations.

Included in property and equipment are health care delivery assets representing pharmaceutical inventory, as well as medical center furniture, fixtures and equipment used in the direct delivery of care. Pharmaceutical inventory is included in the furniture and equipment category.

Pharmaceutical inventory is not subject to depreciation. Medical center furniture, fixtures and equipment used in the direct delivery of care are depreciated over their estimated useful lives but for a period not to exceed three years.

Insured and Self Insured Risks

Prior to the October 1, 2013 membership substitution (as described in Note 3, *Business Combinations and Goodwill*), the Company's professional liability insurance was provided by Lokahi Assurance, Ltd, a subsidiary of Kaiser Foundation Health Plan, Inc. (KFHP). Effective October 1, 2013, the Physician Group carries their own professional liability insurance.

The Company was self-insured for worker's compensation prior to October 1, 2013. The worker's compensation accrual for incurred but not reported claims was based on actuarial projections of costs using historical claims and other relevant data. Insurance coverage in excess of the per occurrence self-insured retention was secured with reinsurers. As of October 1, 2013, HealthSpan participates in a state-funded worker's compensation program administered by the Ohio Bureau of Worker's Compensation. Premiums for this program are assessed based on prior-year claim experience.

Reserves for Claims Unpaid and Unpaid Claims Adjustment Expenses

The cost of health care services is recognized in the period in which services are provided. Reserves for unpaid claims and claims adjustment expense consists of unpaid health care expenses, which include an estimate of the cost of services provided to HealthSpan's members by third-party providers that have been incurred but not reported. The estimate for incurred but not reported claims is based on actuarial projections of costs using historical paid claims and other relevant data. Estimates are monitored and reviewed and, as settlements are made or estimates are revised, adjustments are reflected in current operations. Such estimates are subject to the impact of changes in the regulatory environment and economic conditions. Given the inherent variability of such estimates, the actual liability could differ significantly from the amounts provided. While the ultimate amount of paid claims is dependent on future developments, management is of the opinion that the reserves for unpaid claims and claims adjustment expense are adequate to cover such claims. Negative amounts reported for incurred related to prior years result from claims being adjudicated and paid for amounts less than originally estimated.

As of October 1, 2013, HealthSpan Physicians (Physician Group) provides or arranges hospital and medical services for HealthSpan members. Payments from HealthSpan constitute substantially all of the revenues for the Physician Group. Payments to the Physician Group represent a substantial portion of the expenses for medical services reported in the Company's statutory financial statements. The Physician Group is a fully owned subsidiary of HealthSpan Partners (HSP). Because the Physician Group is not controlled by HealthSpan, its operations are not included in the statutory financial statements.

Amounts due to the Physician Group are included in the reserves for unpaid claims and consist primarily of unpaid medical expenses owed to the Physician Group for the medical services provided to HealthSpan members. The cost of medical services, including an estimate of claims incurred but not reported, is recognized by Health Span in the period in which services are provided and is reflected as a component of medical and hospital expenses. The payable to the Physician Group was \$9.6 million as of March 31, 2014 and \$13.6 million as of December 31, 2013.

Prior to October 1, 2013, hospital and medical services were provided or arranged by the Ohio Permanente Medical Group. For the year ended December 31, 2013, the Company incurred \$67.0 million -associated with the terms of Company's agreement with the Ohio Permanente Medical Group.

Premium Deficiency Reserves

Premium deficiency reserve and related expense are recognized when it is probable that expected future health care and maintenance costs under a group of existing contracts will exceed anticipated future premiums and reinsurance recoveries over the contract period. Expected investment income and interest expense are included in the calculation of premium deficiency reserves, as appropriate. The level at which contracts are grouped for evaluation purposes is generally by geographic region. The methods for making such estimates and for establishing the resulting reserves are reviewed and updated, and any resulting adjustments are reflected in current operations. Given the inherent variability of such estimates, the actual liability could differ significantly from the calculated amount.

Receivables and Payables for Securities

Receivables and payables for securities represent current amounts for unsettled securities purchases or sales.

Donations and Grants Made or Received

Donations and grants made are recognized at fair value in the period in which a commitment is made, provided the payment of the donation or grant is probable and the amount is determinable. Donations or grants received are recognized at fair value in the period the donation or grant was committed unconditionally by the grantor or in the period the donation or grant requirements are met, if later.

Revenue Recognition

Net premium income includes premiums from employer groups, individuals and Medicare. Revenue is recognized over the period in which the members are entitled to health care services.

The majority of Health Plan's Medicare revenues are paid based on cost, with interim payments using pre-established rates, and the final settlement is made after the end of the year. Estimates of final settlements of the cost report are recorded by Health Plan. At March 31, 2014 and December 31, 2013, in connection with Health Plan's Medicare cost contract, Health Plan recorded allowances and reserves for adjustments of recorded revenues in the amount of \$24.0 million and \$23.2 million, respectively. For the year ended December 31, 2013, Medicare revenues increased by approximately \$ 9.3 million due to prior year retrospective adjustments in excess of amounts previously estimated. There have been no prior year retrospective Medicare revenue adjustments for the three months ending March 31, 2014.

In addition, Medicare benefits include a voluntary prescription drug benefit (Part D). Revenues for Part D include capitated payments made from Medicare adjusted for health risk factor scores. Revenues also include amounts to reflect a portion of the health care costs for low-income Medicare beneficiaries and a risk-sharing arrangement to limit the exposure to unexpected expenses. Related accruals are recognized monthly based on cumulative

experience and membership data. Part D revenue is finalized after all data is submitted to Medicare, and the final settlement is made after the end of the fiscal year.

Medicare Cost revenue and Medicare Part D revenue are subject to governmental audits and potential payment adjustments. The Centers for Medicare & Medicaid Services (CMS) performs coding audits to validate the supporting documentation maintained by Health Plan and its care providers.

Estimates of retrospective adjustments resulting from coding audits, cost reports and other contractual adjustments are recorded in the time period in which members are entitled to health care services. Actual retroactive adjustments may differ from initial estimates.

Premiums collected in advance are deferred and recorded as premiums received in advance. Revenue is adjusted to reflect estimates of collectability, including retroactive membership adjustment trends and economic conditions. Revenue and related receivables are exclusive of charity care. A portion of revenues derived under contracts with the United States Office of Personnel Management is subject to audit and potential retrospective adjustments.

Pension and Other Postretirement Benefits

Prior to the membership substitution agreement discussed in Note 3, *Business Combinations and Goodwill*, the Company participated in defined benefit pension and other postretirement benefit plans administered by Kaiser Foundation Health Plan (KFHP), the former corporate member of the Company. As of October 1, 2013, the date of the membership substitution, the Company no longer participates in these plans. All pension and post-retirement liabilities as of September 30, 2013 were assumed by KFHP. HealthSpan has no obligation related to these plans. However, the Company incurred expenses related to these plans until October 1, 2013.

Effective January 1, 2013, the plans were accounted for within the framework of SSAP No. 102 *Accounting for Pensions* and SSAP No. 92 *Accounting for Postretirement Benefits Other Than Pensions*. The plans were actuarially evaluated and involved various assumptions. Critical assumptions included the discount rate and the expected rate of return on plan assets (for pension) and the rate of increase for health care costs (for postretirement benefit plans other than pension), which were important elements of expense and/or liability measurement. Other assumptions involved demographic factors such as retirement age, mortality, turnover and the rate of compensation increases. The Company evaluated assumptions annually or upon significant plan adjustments and modified the assumptions as appropriate. Pension and postretirement costs were allocated over the service period of the employees in the plan.

The Company used a discount rate to determine the present value of the future benefit obligations. The discount rate was established based on rates available for high-quality fixed-income debt at the measurement date whose maturity dates match the expected cash flows of the retirement plans.

Differences between actual and expected plan experience and changes in actuarial assumptions, in excess of a 10% corridor around the larger of plan assets or plan liabilities, were recognized into benefits expense over the expected average future service of active participants. Prior service costs and credits occurred from plan amendments and were amortized into postretirement benefits expense over the expected average future service to full eligibility of active participants.

Guarantee Funds and Assessments

HealthSpan participates in the State of Ohio Health Reinsurance Program Open Enrollment Pool. This pool is designed to provide reinsurance for small group plans. There was no liability at March 31, 2014 and December 31, 2013.

Cost Allocations

For reporting lines of business activity, expenses are allocated based on utilization and experience.

New Accounting Pronouncements

The Patient Protection and Affordable Care Act, as amended by the HealthCare and Education Reconciliation Act (the Acts), imposes an annual fee on health insurers for each calendar year beginning on or after January 1, 2014. The annual fee for the health insurance industry will be allocated to individual insurers based on the ratio of the amount of an entity's net premiums written during the preceding calendar year to the total amount of health insurance premium for any U.S. health risk that is written during the preceding calendar year. In August 2012 and December 2013, the NAIC adopted revisions to SSAP No. 35R *Guaranty Fund and Other Assessments* to address the annual fee on health insurers. In accordance with these revisions, HealthSpan's 2013 annual statement included disclosure of its estimated assessment due on September 30, 2014 of \$2.8 million. The December 2013 revision to SSAP No. 35R, effective for annual years ending January 1, 2014, adopts, with modification, the guidance of Accounting Standards Update (ASU) 2011-06, *Fees Payable to the Federal Government by Health Insurers*, to require recognition of the liability and expense for the ACA fee on January 1 of the fee year. Additionally, the December revisions require the Company to reclassify and disclose in 2014, an amount equal to its estimated subsequent fee year assessment from unassigned surplus to special surplus. Management has evaluated the effect of this guidance on the Company's financial statements for 2014, and has recognized a liability and expense of \$2.8 million for the initial assessment due September 30, 2014. Additionally, management has reclassified \$654 thousand from unassigned surplus to special surplus to recognize the amount anticipated to be due in September 2015 for the three months ending March 31, 2014.

In March 2014, the NAIC adopted INT No. 13-04, *Accounting for the Risk Sharing Provisions of the Affordable Care Act (ACA)*. This guidance interprets SSAP Nos. 6, 35R, 47, 54, 61, 63, 66, and 84 as they pertain to the ACA programs known as risk adjustment, reinsurance, and risk corridors that went into effect on January 1, 2014. This guidance clarifies the financial statement elements associated with each ACA program and health insurance product. HealthSpan has recorded fees, recoveries, and contributions for the three months ending March 31, 2014, to the extent reasonably estimable, in accordance with INT No. 13-04.

SSAP No. 35 R, *Guaranty Fund and Other Assessments*, was revised in March 2014 to adopt "balance" disclosures pertaining to the risk sharing provisions of the ACA, including risk adjustment, reinsurance, and risk corridors. The new disclosures are required beginning the first quarter of 2014. In accordance with this revision, the Company has disclosed the admitted assets, liabilities, and revenue elements of each of the three risk sharing programs in Note 21, *Other Items*.

The NAIC also adopted revisions to IP 99, *Nonapplicable GAAP Pronouncements*, in March 2014 to reject ASU 2012–14, *Technical Corrections and Improvements*, as not applicable to statutory accounting. This guidance was effective immediately. ASU 2012-14 was issued to conform terminology throughout the Financial Accounting Standards Board (FASB) Accounting Standards Codification and clarify certain guidance, including fair value measurement requirements, and did not significantly change U.S. GAAP. Management has evaluated this guidance and concluded that the revisions to IP 99 do not have a material effect on the Company.

2) Accounting Changes and Corrections of Errors

No significant changes from the 2013 annual statement.

3) Business Combinations and Goodwill

A) Statutory Purchase Method

For the three months ending March 31, 2014 and the year ending December 31, 2013, the Company had no business combinations accounted for under the statutory purchase method.

B) Statutory Merger

- (1) Prior to October 1, 2013, HealthSpan was known as Kaiser Foundation Health Plan of Ohio (KFHPO), a fully owned subsidiary of Kaiser Foundation Health Plan (KFHP). On October 1, 2013, HealthSpan Partners (HSP) became the sole corporate member of KFHPO through a member substitution agreement, and assumed the assets of KFHPO with the exception of short-term investments and some cash. KFHP retained a significant portion of liabilities, including pension and post-retirement obligations, affiliate balances, and certain payables related to the membership transfer. HSP assumed the remaining liabilities, including medical claims, Medicare reserves and deferred revenue. No consideration was transferred at the time of the membership substitution. Contingent consideration of at least \$50 million but not more than \$100 million will be paid by HSP to KFHP prior to March 31, 2019. HSP executed a guarantee for payment and performance of obligations associated with the agreement. In connection with the membership substitution, KFHPO was renamed HealthSpan Integrated Care.

HSP is a distinct, secular and tax-exempt organization with the primary objective of developing provider networks and insurance products. HSP is a partner organization of Catholic Health Partners (CHP). CHP is a Catholic health organization, supervising market delivery systems consisting of hospitals, nursing homes and other organizations providing health-related services.

- (2) The membership substitution agreement was accounted for as a statutory merger.
- (3) HealthSpan is a nonprofit, charitable corporation and does not issue stock. The transaction was a member substitution agreement.

- (4) The 2013 results include results of operations incurred while operating as Kaiser Foundation Health Plan (KFHP) of Ohio through September 30, 2013. The year-to-date September 30, 2013 results include an impairment loss of \$58.5 million recorded by KFHP in the third quarter and reversed by HealthSpan in the fourth quarter.

C – D

For the three months ended March 31, 2014 and the year ended December 31, 2013, HealthSpan had no goodwill resulting from assumption reinsurance and recorded no impairment losses.

4) Discontinued Operations

No significant changes from the 2013 annual statement.

5) Investments

A-C

For the three months ended March 31, 2014 and the year ended December 31, 2013, HealthSpan had no investments in mortgage loans, restructured debt or reverse mortgages.

D) Loan-Backed Securities

(1) & (2) Fair Values and Concentrations of Credit Risk

HealthSpan's accounting policies regarding investments, including prepayment assumptions, are described in Note 1, *Summary of Significant Accounting Policies*.

At March 31, 2014 and December 31, 2013, HealthSpan held no loan-backed securities.

The Company has not recognized any other-than-temporary impairment (OTTI) for the three months ended March 31, 2014. Other-than-temporary impairment (OTTI) recognized for the year ended December 31, 2013 related to loan-backed securities is as follows (in thousands):

10) Information Concerning Parent, Subsidiaries and Affiliates

A – L

Prior to October 1, 2013, the Company was a member of the KFHP insurance company holding group. A summary of the Company's transactions during 2013 with members of the KFHP insurance company holding group follows, in millions:

Entity	Description of Transaction	2013 Received (Paid)
Kaiser Foundation Hospitals (Hospitals)	Hospital services provided to the Company	(\$42.8)
KFHP and Hospitals	Information technology, treasury, general management, administrative support, and transaction processing services provided to the Company	(\$38.3)
KPIC	Cooperation of KPIC and the Company in the delivery and premium sharing of point of service products	\$11.3
Lokahi Assurance, Ltd.	Professional liability and other insurance provided to the Company	(\$2.5)

As discussed in Note 13, *Minimum Capital and Surplus*, the Company received contributed surplus of \$23.3 million from Hospitals in 2013 related to the transfer of real estate, furniture and equipment from Hospitals to the Company. Additionally, Hospitals loaned certain subordinated debt to the Company, which was extinguished on October 1, 2013.

As outlined in Note 3, *Business Combinations and Goodwill*, the Company experienced a change in membership interest from KFHP to HSP on October 1, 2013. Consequently, the Company is no longer a member of the KFHP insurance holding group. HealthSpan is now a member of the HSP insurance holding company group.

During the three months ended March 31, 2014 and the year ended December 31, 2013 HealthSpan incurred expenses of \$16 million and \$14 million, respectively, for hospital and medical services provided or arranged by the Physician Group.

Beginning on October 1, 2013, HealthSpan incurred 2013 expenses of \$1.7 million for information technology, treasury, general management, administrative support, accounting and accounts payable processing services provided by CHP, a partner organization. For the three months ending March 31, 2014, HealthSpan incurred \$2.7 million for services provided by CHP.

As discussed in the *Minimum Capital and Surplus* note, the Company received contributed surplus of \$40.0 million from HSP in 2013.

At March 31, 2014 and December 31, 2013, due to affiliated HSP insurance holding company organizations were as follows (in thousands):

	<u>03/31/2014</u>	<u>12/31/2013</u>
Net amounts due to:		
Catholic Health Partners	\$ 9,061	\$ 24,242
HealthSpan Partners	<u>9,291</u>	<u>-</u>
Total due to affiliated organizations	<u>\$ 18,352</u>	<u>\$ 24,242</u>

During the three months ended March 31, 2014 and the year ended December 31, 2013, the Company had no amount deducted from its asset value or its parent's asset value due to their affiliation. Additionally, the Company had no investments in subsidiary, controlled or affiliated entities in 2014 or 2013.

11) Debt

No significant changes from the 2013 annual statement.

12) Retirement Plans, Deferred Compensation, Post-employment Benefits and Compensated Absences, and Post-retirement Benefit Plans

No significant changes from the 2013 annual statement.

13) Capital and Surplus, Shareholders' Dividend Restrictions and Quasi-Reorganizations

(1) – (2)

HealthSpan is a nonprofit, charitable corporation and does not issue stock. HealthSpan Partners (HSP) is the sole corporate member of HealthSpan and no individual or entity has any ownership interest in HealthSpan. HealthSpan and HSP share a common Board of Directors in addition to sharing certain corporate officers.

Prior to the October 1, 2013 membership substitution outlined in Note 3, *Business Combinations and Goodwill*, the Company was a subsidiary of Kaiser Foundation Health Plan, Inc. (KFHP), and was also affiliated with Kaiser Foundation Hospitals (Hospitals). In September 2013, the Company received contributed surplus of \$23.3 million from Hospitals related to the transfer of real estate, furniture and equipment from Hospitals to the Company.

On October 1, 2013, in conjunction with the membership substitution, HealthSpan received contributed surplus of \$40.0 million from HSP. Additionally, the membership interest change included the transfer of net liabilities of \$306.4 million, including subordinated notes, from the Company to KFHP.

(3) – (6)

For the three months ended March 31, 2014 and the year ended December 31, 2013, the Company paid no dividends. In accordance with the Ohio Revised Code, HealthSpan must receive approval from the ODI to pay a dividend or distribution during 2014 which, when combined with dividends or distributions paid within the preceding 12 months exceeds the greater of either (a) 10% of HealthSpan's statutory capital and surplus at December 31, 2013 or (b) HealthSpan's net gain from operations on a statutory basis for the year ended December 31, 2013. Accordingly, during 2014, prior approval from the ODI is required for any dividend or distribution payment, which exceeds \$10.9 million.

(7) - (8)

At March 31, 2014 and December 31, 2013, HealthSpan held no stock for special purpose and is not a mutual reciprocal.

(9) As of March 31, 2014, HealthSpan has reclassified \$654 thousand from unassigned funds to special surplus, representing the Company's estimated Annual Fee on Health Insurers for the three months ending March 31, 2014.

(10) No portion of surplus is represented by cumulative unrealized gains or losses.

(11) In conjunction with the membership substitution outlined in Note 3, *Business Combinations and Goodwill*, \$305 million of subordinated notes (the Notes) issued by the Company to Hospitals, an affiliate of KFHP, were extinguished on October 1, 2013. The Notes extinguished included a \$100 million note issued on September 30, 2013 at 7.5% interest and due on September 30, 2020.

Payment of principal or interest on the Notes was subject to approval by the ODI and was subordinated to the prior payment of all general liabilities of the Company and

the claims of its policyholders and all classes of creditors. The Notes, which were issued to maintain risk-based capital requirement, were recorded as an increase to capital for statutory purposes

Beginning January 1, 2013, Hospitals waived, on a prospective basis, certain amounts of interest on the Notes issued as of December 28, 2012, and any notes issued after December 28, 2012, to the extent interest due per the terms of the Notes exceeded the cost of debt to Hospitals, which was determined on a monthly basis. The waiver extended for four consecutive rolling quarters, subject to termination and reversion by Hospitals.

Unassigned surplus was reduced by \$5.8 million at March 31, 2014 and \$2.0 million for the year ended December 31, 2013 for nonadmitted assets.

(12) – (13)

HealthSpan did not undergo any quasi-reorganization in the three months ended March 31, 2014 or the year ended December 31, 2013.

14) Contingencies

No significant changes from the 2013 annual statement.

15) Leases

No significant changes from the 2013 annual statement.

16) Information about Financial Instruments with Off-Balance Sheet Risk and Financial Instruments with Concentrations of Credit Risk

Financial instruments that potentially subject HealthSpan to concentrations of credit risk consist primarily of investment securities and accounts receivable. All investments in securities are managed within guidelines established by HealthSpan's management, which, as a matter of policy and procedure, limit the amounts that may be invested in each type of security, with any one issuer, and in various credit quality classifications. Concentrations of credit risk with respect to accounts receivable is limited due to the large number of payers comprising HealthSpan's customer base. Accordingly, HealthSpan does not believe any significant concentration of off-balance sheet or credit risk existed at March 31, 2014 or December 31, 2013.

17) Sale, Transfer and Servicing of Financial Assets and Extinguishments of Liabilities

HealthSpan has no transactions subject to the disclosure requirements of this footnote during the reporting period.

A-B HealthSpan had no transfers of receivables or transfers of financial assets.

C SSAP No. 91R, *Accounting for Transfers and Servicing of Financial Assets and Extinguishment of Liabilities (SSAP No.91R)*, paragraph 100 requires a reporting entity to disclose any wash sales involving securities with a NAIC designation of 3 or below. HealthSpan's investment strategy does not include purchasing any securities with a NAIC designation of 3 or below. During the three months ended March 31, 2014 and the year ended December 31, 2013, HealthSpan did not participate in any wash sale as defined by SSAP No. 91.

18) Gain or Loss to the Reporting Entity from Uninsured A&H Plans and the Uninsured Portion of Partially Insured Plans.

A-B Health Plan had no ASO or ASC plans on which to report.

C (1) – (4) No significant changes from the 2013 annual statement.

19) Direct Premium Written/Produced by Managing General Agents/Third Party Administrators

HealthSpan's direct premiums written/produced by managing general agents or third party administrators did not meet the disclosure threshold during the reporting period.

20) Fair Value Measurements

A - B HealthSpan has no assets or liabilities that are measured and reported at fair value in the statement of financial position after initial recognition.

C HealthSpan utilizes a three-level valuation hierarchy for fair value measurements. An instrument's categorization within the hierarchy is based upon the lowest level of input that is significant to the fair value measurement. For instruments classified in Level 1 of the hierarchy, valuation inputs are quoted prices for identical instruments in active markets at the measurement date. For instruments classified in Level 2 of the hierarchy, valuation inputs are directly observable but do not qualify as Level 1 inputs. Examples of Level 2 inputs include: quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in inactive markets; other observable inputs such as interest rates and yield curves observable at commonly quoted intervals, volatilities, prepayment speeds, loss severities, credit risks and default rates; and market-correlated inputs that are derived principally from or corroborated by observable market data. For instruments classified in Level 3 of the hierarchy, valuation inputs are unobservable inputs for the instrument. Level 3 inputs incorporate assumptions about the factors that market participants would use in pricing the instrument.

Investments are reported at lower of amortized cost or fair value, with impairment recorded if amortized cost is greater than fair value. The fair values of investments are based on quoted market prices, if available, or estimated using quoted market prices for similar investments. If listed prices or quotes are not available, fair value is based upon other observable inputs or models that primarily use market-based or independently sourced market parameters as

inputs. In addition to market information, models also incorporate transaction details such as maturity. Fair value adjustments, including credit, liquidity and other factors, are included, as appropriate, to arrive at a fair value measurement.

Investments at statement value and estimated fair value, at March 31, 2014 included (in thousands):

<u>Type of Financial Instrument</u>	<u>Aggregate Fair Value</u>	<u>Admitted Assets</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Not Practicable (Carrying Value)</u>

Total investments	\$ 400	\$ 400	\$ 0	\$ 400	\$ 0	\$ 0

D There were no investments at March 31, 2014 or December 31, 2013 for which it was not practicable to estimate fair value.

21) Other Items

A – Extraordinary Items

The 2013 results include several non-recurring transactions associated with the membership transfer described in Note 3, *Business Combinations and Goodwill*. HealthSpan recorded a \$56 million charge on September 30, 2013 related to dissolution of its Medical Services Agreement (MSA) with the Medical Group. An additional \$16.1 million of payroll-related expenses associated with the transaction were also recorded as expenses in September 2013. The dissolution and payroll-related expenses were reported in the Statement of Revenue and Expense as write-ins for other expense. The liabilities associated with the MSA dissolution and payroll expenses related to the membership

transfer were assumed by KFHP on October 1, 2013 and were not included in the Company's balance sheet at December 31, 2013.

B – F

HealthSpan had no debt restructuring, unrecorded amounts representing segregated funds held for others, forward commitments, business interruption insurance recoveries or state transferable or non-transferable tax credits. Additionally, the Company had no uncollectible assets covered by SSAP No. 6, SSAP No. 47, or SSAP 66.

G – Subprime Mortgage – Related Risk Exposure

HealthSpan defines its exposure to subprime-mortgage-related risk as securities that are backed by loan portfolios that include loans offered to borrowers who do not meet the lending standards of the typical borrower. Indications of below-standard lending include factors such as interest rates higher than prime, credit scores and documentation of income. Information considered in determining exposure to subprime-mortgage-related risk includes default and repayment risk. Exposure to subprime-mortgage-related risk may include exposure related to changes in asset values, losses caused by receiving less than anticipated cash flows or from the potential sale of assets to meet future cash flow requirements. Management periodically reviews its exposure to subprime-mortgage-related risk and, as necessary, takes steps to mitigate or manage the Company's exposure to such risk.

At both March 31, 2014 and December 31, 2013, HealthSpan did not own fixed income securities with exposure to subprime-mortgage-related risk. The Company recognized no OTTI losses during the three months ended March 31, 2014 or the year ended December 31, 2013 related to these securities.

In determining its subprime-mortgage-related risk exposure, management surveyed internal and external managers and examined trustee security listings to develop a listing of individual securities with subprime-mortgage-related risk exposure.
