20. Fair Value Measurements

- A. Inputs Used for Assets and Liabilities Measured at Fair Value in the Company's Financial Statements

1. Fair Value Measurements by Levels 1, 2 and 3

The Company categorizes its financial instruments, based on the degree of subjectivity inherent in the method by which they are valued, into a fair value hierarchy of three levels, as follows:

Level 1 - Inputs are unadjusted, quoted prices in active markets for identical instruments at the measurement date (e.g., active exchange-traded equity securities).

Level 2 - Inputs (other than quoted prices included within Level 1) that are observable for the instrument either directly or indirectly. This includes: (i) quoted prices for similar instruments in active markets, (ii) quoted prices for identical or similar instruments in markets that are not active, (iii) inputs other than quoted prices that are observable for the instruments, and (iv) inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Inputs that are unobservable. Unobservable inputs reflect the Company's subjective evaluation about the assumptions market participants would use in pricing the financial instrument.

The Company's management evaluated whether the market was distressed or inactive in determining the fair value of the Company's securities and reviewed certain market level inputs to evaluate whether sufficient activity, volume, and new issuances existed to create an active market. Based on this evaluation, management concluded that there was sufficient activity in determining the fair market value of the Company's securities.

As of June 30, 2014, the Company did not measure and report any securities at fair value on the balance sheet. All bonds were carried at amortized cost.

2. Roll forward of Level 3 Items

Not applicable

3. Policy on Transfers Into and Out of Level 3

At the end of each reporting period, the Company evaluates whether or not any event has occurred or circumstances have changed that would cause an instrument to be transferred into or out of Level 3.

See Note 20A above.
