- A. The Company has no mortgage loans.
- B. The Company has no debt restructuring.
- C. The Company has no reverse mortgages.
- D. Loan-Backed Securities

- (1) Prepayment assumptions for Mortgage-backed securities, Collateralized Mortgage Obligations and Other Structured Securities were generated using a purchased prepayment model. The prepayment model uses a number of factors to estimate prepayment activity including the time of year (seasonality), current levels of interest rates (refinancing incentive), economic activity (including housing turnover) and term and age of the underlying collateral (burnout, seasoning). On an ongoing basis, we monitor the rate of prepayment and calibrate the model to reflect actual experience, market factors, and viewpoint.
 - (1) a. The Company had no securities it intended to sell for which it recognized other-than-temporary impairment losses.
 - b. The Company had no securities for which it lacked the ability or intent to retain an investment in for a period of time sufficient to recover the amortized cost basis.
- (2) The Company had no other-than-temporary impairments for the quarter ended June 30, 2014.

NOTES TO FINANCIAL STATEMENTS

(4) All temporarily impaired securities for which an other-than-temporary impairment has not been recognized in earnings as a realized loss in 2014 are as follows:

a. The aggregate amount of unrealized losses:	1. Less than 12 Months	\$ -
	2. 12 Months or Longer	\$ (577,690)

b. The aggregate related fair value of securities with unrealized losses:	1. Less than 12 Months	\$ -
	2. 12 Months or Longer	\$ 14,005,124

(5) Management regularly reviews the value of the Company's investments. If the value of any investment falls below its cost basis, the decline is analyzed to determine whether it is an other-than-temporary decline in value. To make this determination for each security, the following is considered:

- The length of time and the extent to which the fair value has been below cost;
- The financial condition and near-term prospects of the issuer of the security, including any specific events that may affect its operations or earnings potential;
- Management's intent and ability to hold the security long enough for it to recover its value;

Management concluded that the remaining investments held with unrealized losses were not other-than-temporarily impaired on the basis that the Company had the ability and intent to hold the investments for a period of time sufficient for a forecasted market price recovery up to or beyond the cost of the investment. Also, in management's opinion, evidence indicating the cost of the investment was recoverable within a reasonable period of time outweighed evidence to the contrary in considering the severity and duration of the impairment in relation to the forecasted market price recovery.
