HealthSpan, Inc.  
 Notes to Financial Statements  
 For the Six Months Ended June 30, 2014 and the Period Ended December 31, 2013

1. Summary of Significant Accounting Policies

A. Accounting Practices

The accompanying statutory financial statements of HealthSpan, Inc. (HealthSpan or the Company) have been prepared in conformity with the National Association of Insurance Commissioners' (NAIC) *Accounting Practices and Procedures* manual, (NAIC SAP), the NAIC Annual Statement Instructions, and other accounting practices as prescribed or permitted by the State of Ohio - Ohio Department of Insurance (ODI). The Company was issued its Certificate of Authority by the ODI on July 30, 2013. There were no reported differences to net income, statutory surplus or risk based capital for specific practices, prescribed or permitted by the State of Ohio, that deviate from NAIC SSAP in the reported periods.

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of the statutory financial statements in conformity with NAIC SAP, the NAIC Annual Statement Instructions, and other accounting practices as prescribed or permitted by the

ODI requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenue and expenses during the period. Actual results could differ materially from those estimates.

### C. Accounting Policies

#### Cash and Short Term Investments

Cash and investments that are restricted by contractual or regulatory requirements are classified as bonds and other invested assets and are excluded from cash and short-term investments.

#### Bonds and Other Invested Assets

Bonds and other invested assets include money market funds and U.S. Treasury securities. Recognized gains and losses are recorded on the specific identification basis. Interest income is included in net investment and other income.

Bonds are reported in accordance with NAIC Annual Statement Instructions (Statement Value). Accordingly, bonds that are designated highest quality, NAIC Designation 1 and 2, are reported at amortized cost using the effective interest method, and bonds that are classified as NAIC Designation 3 or lower are reported at lower of amortized cost or fair value.

HealthSpan is required to keep investments on deposit in the State of Ohio, where it is licensed. At both June 30, 2014 and December 31, 2013, \$400 thousand in long-term U.S. Treasury notes were restricted to satisfy the state's regulatory requirements.

#### Premiums and Health Care Receivables

Premiums and health care receivables exclude nonadmitted balances. Certain receivables are not admissible in accordance with the NAIC SAP. Nonadmitted amounts include all nongovernmental premiums and health care receivables greater than 90 days past due. In addition, when premiums and health care receivables greater than 90 days past due are more than a de minimus portion of the entire premiums and health care receivable balance, the entire premiums and health care receivable balance is nonadmitted.

#### Reserves for Claims Unpaid and Unpaid Claims Adjustment Expenses

The cost of health care services is recognized in the period in which services are provided. Reserves for unpaid claims and claims adjustment expense consists of unpaid health care expenses, which include an estimate of the cost of services provided to HealthSpan's members by third party providers that have been incurred but not reported. The estimate for incurred but not reported claims is based on actuarial projections of costs using historical paid claims and other relevant data. Estimates are monitored and reviewed and, as settlements are made or estimates are revised, adjustments are reflected in current operations. Such estimates are subject to the impact of changes in the regulatory environment and economic conditions. Given the inherent variability of such estimates, the actual liability could differ significantly from the amounts provided. While the ultimate amount of paid claims is dependent on future developments, management is of the opinion that the reserves for unpaid claims and claims adjustment expense are adequate to cover such claims. Negative amounts reported for incurred related to prior years result from claims being adjudicated and paid for amounts less than originally estimated.

#### Revenue Recognition

Net premium income includes premiums from small employer groups and individuals. Revenue is recognized over the period in which the members are entitled to health care services. Premiums collected in advance are deferred and recorded as premiums received in advance.

### Cost Allocations

For reporting lines of business activity, expenses are allocated based on utilization and experience.

### New Accounting Pronouncements

The Patient Protection and Affordable Care Act, as amended by the HealthCare and Education Reconciliation Act (the Acts), imposes an annual fee on health insurers for each calendar year beginning on or after January 1, 2014. The annual fee for the health insurance industry will be allocated to individual insurers based on the ratio of the amount of an entity's net premiums written during the preceding calendar year to the total amount of health insurance premium for any U.S. health risk that is written during the preceding calendar year. In August 2012 and December 2013, the NAIC adopted revisions to SSAP No. 35R *Guaranty Fund and Other Assessments* to address the annual fee on health insurers. The December 2013 revision to SSAP No. 35R, effective for annual years ending January 1, 2014, adopted, with modification, the guidance of Accounting Standards Update (ASU) 2011-06, *Fees Payable to the Federal Government by Health Insurers*, to require recognition of the liability and expense for the ACA fee on January 1 of the fee year. Additionally, the December revisions require the Company to reclassify and disclose in 2014, an amount equal to its estimated subsequent fee year assessment from unassigned surplus to special surplus. In June 2014, the NAIC incorporated the ACA section 9010 revisions to SSAP No. 35R into SSAP No. 106, *Affordable Care Act Assessments*, and adopted additional disclosures effective beginning year end 2014. Management has evaluated the effect of this guidance on the Company's financial statements for 2014, and the projected ACA fee is currently estimated to not apply due to the projected level of premium revenues for 2014.

In March 2014, the NAIC adopted INT No. 13-04, *Accounting for the Risk Sharing Provisions of the Affordable Care Act (ACA)*. This guidance interprets SSAP Nos. 6, 35R, 47, 54, 61, 63, 66, and 84 as they pertain to the ACA programs known as risk adjustment, reinsurance, and risk corridors that went into effect on January 1, 2014. This guidance clarifies the financial statement elements associated with each ACA program and health insurance product. HealthSpan has recorded fees, recoveries, and contributions for the three months ending June 30, 2014, to the extent reasonably estimable, in accordance with INT No. 13-04.

SSAP No. 35 R, *Guaranty Fund and Other Assessments*, was revised in March 2014 to adopt "balance" disclosures pertaining to the risk sharing provisions of the ACA, including risk adjustment, reinsurance, and risk corridors. The new disclosures were required beginning the first quarter of 2014. In accordance with this revision, the Company has disclosed the admitted assets, liabilities, and revenue elements of each of the three risk sharing programs in Note 21, Other Items. In June 2014, the NAIC adopted additional edits to the risk sharing disclosures in SSAP 35R, including a roll forward schedule required for the year ending December 31, 2014.

The NAIC also adopted revisions to IP 99, Nonapplicable GAAP Pronouncements, in March 2014 to reject ASU 2012-14, Technical Corrections and Improvements, as not applicable to statutory accounting. This guidance was effective immediately. ASU 2012-14 was issued to conform terminology throughout the Financial Accounting Standards Board (FASB) Accounting Standards Codification and clarify certain guidance, including fair value measurement requirements, and did not significantly change U.S. GAAP. Management has evaluated this guidance and concluded that the revisions to IP 99 do not have a material effect on the Company.

2. Accounting Changes and Corrections of Errors

primary objective of developing provider networks and insurance products. HSP is a partner organization of CHP. CHP is a Catholic health organization, supervising market delivery systems consisting of hospitals, nursing homes, and other organizations providing health-related services. The Company was issued its Certificate of Authority by the Ohio Department of Insurance in July 2013.

The Company contracts with CHP to lease services for accounting, IT and general administrative services. Costs of these services are based on actual cost incurred to provide those services. Amounts included within the statutory financial statements and noted as due to related parties are reflective of current expense owed to CHP or its subsidiaries.

The Company provides services to CHP and its' affiliates for medical management and provider network services related to CHP's employee health benefit plans. Revenue recognized in connection with these services is billed through a third party claims administrator and is not reflected in intercompany receivables. The Company provides Mercy Health Partners of Southwest Ohio (an affiliate of CHP) services for the support of the Accountable Care Organization (ACO). Amounts reflected in the financial statements are reflective of current billings for these services.

20. Fair Value Measurement

- A. HealthSpan has no assets or liabilities that are measured and reported at fair value in the statement of financial position after initial recognition.
- B. HealthSpan has no other similar measurements to disclose.
- C. HealthSpan utilizes a three-level valuation hierarchy for fair value measurements. An instrument's categorization within the hierarchy is based upon the lowest level of input that is significant to the fair value measurement. For instruments classified in Level 1 of the hierarchy, valuation inputs are quoted prices for identical instruments in active markets at the measurement date. For instruments classified in Level 2 of the hierarchy, valuation inputs are directly observable but do not qualify as Level 1 inputs. Examples of Level 2 inputs include: quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in inactive markets; other observable inputs such as interest rates and yield curves observable at commonly quoted intervals, volatilities, prepayment speeds, loss severities, credit risks and default rates; and market-correlated inputs that are derived principally from or corroborated by observable market data. For instruments classified in Level 3 of the hierarchy, valuation inputs are unobservable inputs for the instrument. Level 3 inputs incorporate assumptions about the factors that market participants would use in pricing the instrument.

Investments are reported at lower of amortized cost or fair value, with impairment recorded if amortized cost is greater than fair value. The fair values of investments are based on quoted market prices, if available, or estimated using quoted market prices for similar investments. If listed prices or quotes are not available, fair value is based upon other observable inputs or models that primarily use market-based or independently sourced market parameters as inputs. In addition to market information, models also incorporate transaction details such as maturity. Fair value adjustments, including credit, liquidity and other factors, are included, as appropriate, to arrive at a fair value measurement.

Investments at statement value and estimated fair value, at June 30, 2014 included (in thousands):

Type of Financial Instrument	Aggregate Fair Value	Admitted Assets	Level 1	Level 2	Level 3	Non Practicable (Carrying Value)
Bonds and other invested assets:
