20. Fair Value Measurement:

A. Inputs Used for Assets and Liabilities Measured and Reported at Fair Value:

Level 1 – Quoted Prices in Active Markets for Identical Assets and Liabilities: This category, for items measured at fair value on a recurring basis, includes exchange-traded common stocks and other invested assets. The estimated fair value of the equity securities within this category are based on unadjusted market prices provided by the Securities Valuation Office ("SVO") and are thus classified as level 1. The Company's other invested assets include an investment that consists primarily of holdings in publicly-traded mutual funds. The Company believes that its prices for these publicly-traded mutual funds, which are based on an observable market price for an identical asset in an active market, reflect their fair values.

Level 2 – Significant Other Observable Inputs: This category, for items measured at fair value on a recurring basis, includes other invested assets. The Company's other invested assets include one international private equity fund, Silchester International Partners Ltd. ("the fund") that invests in equity securities of foreign issuers and is managed by a third party investment manager. The estimated fair value of the fund within this category is based on net asset value obtained from third party trustee statements and have been classified as level 2 in item 1 below.

Level 3 – Significant Unobservable Inputs: This category, for items measured at fair value on a recurring basis, includes common stocks that are not publicly traded. The estimated fair value of the equity securities within this category are based on per share cost and are thus classified as level 3. The Company holds equity securities as a member of Federal Home Loan Bank of Cincinnati (FHLB), which is not publicly traded. SVO does not provide a fair value for this security. The Company also holds equity securities of BroadStreet Capital that are valued at US GAAP equity value. These equity securities have been disclosed in Level 3 in item 1 below.

1. The Company has categorized its assets that are measured at fair value into the three-level fair value hierarchy as reflected in the following table. The Company has no liabilities that are measured and reported at fair value. See item 3 below for a discussion of the Company's transfer policy. See item 4 below for a discussion of Level 2 and Level 3 assets.

3. Transfers between level categorizations may occur due to changes in the availability of market observable inputs. Transfers in and out of level categorizations are reported as having occurred at the beginning of the quarter in which the transfer occurred. There were no transfers between level categorizations as of June 30, 2014.

20. Fair Value Measurement (continued):

4. As of June 30, 2014 and December 31, 2013, the reported fair value of the Company's investment in Level 2, the fund, was \$26,629,571 and \$25,030,324, respectively. See item A above for a discussion of valuation techniques and inputs used in determining fair value. Since the Company can redeem its investment in the fund at net asset value per share at the measurement date, it is classified as Level 2. As of June 30, 2014, and December 31, 2013, the reported fair value of the Company's investment in Level 3 equity securities of FHLB, was \$4,053,600 and \$3,900,100, respectively. The Company utilizes information provided by the SVO to estimate fair value measurements for the majority of its fixed maturities. If market data is not provided by the SVO, fair value is determined by using data provided by a nationally recognized pricing service.

The Company estimates the fair value of the notes payable to affiliates using market quotations for U.S. treasury securities with similar maturity dates and applies an appropriate credit spread.

24. Retrospectively Rated Contracts and Contracts Subject to Redetermination:

No substantial change from December 31, 2013.

25. Changes in Incurred Losses and Loss Adjustment Expenses:

Year to date, the provision for incurred losses and loss adjustment expenses attributable to prior years decreased. Favorable loss development is attributable most notably to the Other Liability, Private Passenger Auto, Workers Compensation, and Homeowners lines of business. Also contributing to favorable development is a notable decrease in loss adjustment expenses. Offsetting a portion of this favorable development is an increase in prior year incurred losses and loss adjustment expenses in the Commercial Multi-Peril Liability line of business. The overall decrease is generally the result of ongoing analysis of recent loss development trends and subsequent reserve reviews using more mature claims data. Original estimates are increased or decreased as additional information becomes known regarding individual claims.

26. Intercompany Pooling Arrangements:

Per SSAP No. 62R – *Property and Casualty Reinsurance*, ceded reinsurance written premiums payable may be deducted from amounts due from the reinsurer when a legal right of offset exists. As the Pooling Arrangement and affiliated reinsurance agreement provide for the right of offset, the Company has netted within the Statement of Assets and Liabilities the amount due to each State Auto Pool participant under ceded reinsurance written premiums payable with the amount due from the same participant on assumed reinsurance written premiums receivable for transactions under the agreements. The following tabular presentation reflects the ceded reinsurance written premiums payable and assumed reinsurance written premiums receivable at June 30, 2014, between each State Auto Pool participant and State Auto Mutual resulting in the net amount due to or due from State Auto Mutual:
