B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Life premiums are recognized as income over the premium paying period of the related policies. Health premiums are earned ratably over the terms of the related insurance policies. Expenses incurred in connection with acquiring new insurance business, including acquisition costs such as sales commissions, are charged to operations as incurred.

In addition, the Company uses the following accounting policies:

1. Short-term investments are stated at amortized cost.
2. Bonds not backed by other loans are stated at amortized cost using yield to worst.
3. Liabilities for losses and loss/claim adjustment expenses for accident and health contracts are estimated by the Company's valuation actuary using statistical claim development models and tabular reserves employing mortality/morbidity tables.
4. The Company has a 50% ownership interest in the joint venture which owns the company's home office site. This investment is non-admitted at September 30, 2014. The Company's liability is limited to its amount invested.
