NOTES TO FINANCIAL STATEMENTS

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Accounting Practices

The financial statements of Evergreen National Indemnity Company (Company) are presented on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance (Department).

The Department recognizes only statutory accounting practices prescribed or permitted by the State of Ohio for determining and reporting the financial condition and results of operations of an insurance company, for determining its solvency under Ohio insurance law. The National Association of Insurance Commissioners’ (NAIC) Accounting Practices and Procedures Manual (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the state of Ohio. The state has adopted certain prescribed accounting practices that differ from those found in NAIC SAP. In addition, the Commissioner of Insurance has the right to permit other specific practices that deviate from prescribed practices.

B. Use of Estimates in the Preparation of the Financial Statement

The preparation of financial statements in conformity with Statutory Accounting Principles (SAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

- Premiums are earned over the terms of the related policies and reinsurance contracts. Unearned premiums are established to cover the unexpired portion of premiums written. Such reserves are computed by pro rata methods for direct business and are based on reports received from ceding companies for reinsurance assumed.
- Expenses incurred with acquiring new insurance business, including acquisition costs such as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.
- In addition, the Company uses the following accounting policies:
- Short-term investments are stated at amortized cost.
  - Investment grade bonds not backed by other loans are stated at amortized cost using the constant yield method. Non-investment grade bonds are stated at the lower of amortized cost or fair value. See paragraph 6 for loan-backed and structured securities.
  - Common stocks are stated at fair market value.
  - Investment grade perpetual preferred stocks are stated at fair value. Investment grade redeemable preferred stocks are stated at amortized cost. Non-investment grade preferred stocks are stated at the lower of amortized cost or fair value.
  - The mortgage loan on real estate is stated at purchase price less principal payments received.
  - U.S. government agency loan-backed and structured securities are valued at amortized cost. Other loan-back and structured securities are valued at either amortized cost or fair value, depending on many factors including: the type of underlying collateral, whether modeled by NAIC vendor, whether rated (by either an NAIC approved rating organization or the NAIC Securities Valuation Office), and the relationship of amortized cost to par value and amortized cost to fair value. The prospective adjustment method is used to value all loan-backed securities.
  - The Company does not have investments in subsidiaries, controlled and affiliated entities.
  - Investments in partnerships, joint ventures, and limited liability companies (Schedule BA assets) are stated at the underlying U.S. tax equity value, as the audited GAAP equity is not available at the time of preparation of these financial statements, per SSAP 48. Refer to Schedule BA for detail.
