NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Accounting Practices

The financial statements of Bristol West Insurance Company (“the Company”) are presented on the basis of accounting practices prescribed or permitted by the Insurance Department of the state of Ohio (“DOI”).

The Company recognizes only statutory accounting practices prescribed or permitted by the state of Ohio (the “State”) for determining and reporting the financial condition and results of operations of an insurance company, and for determining its solvency under the Ohio Insurance Law. The National Association of Insurance Commissioners (“NAIC”) Accounting Practices and Procedures Manual (the “Codification”), version effective January 1, 2001 and subsequently amended (“NAIC SAP”) has been adopted as a component of prescribed or permitted practices by the State. The Commissioner of Insurance has the right to permit other specific practices that deviate from prescribed practices. The Company did not utilize any permitted practices during the years presented.

A reconciliation of the Company’s net income and surplus between NAIC SAP and practices prescribed by the State of Ohio for year ended December 31, 2014 and the year ended December 31, 2013 is shown below:

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with statutory accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

C. Accounting Policy

Direct, assumed and ceded premiums are earned ratably over the terms of the related policies and reinsurance contracts. Unearned premiums are established to cover the unexpired portion of premiums written. Such reserves are computed using pro-rata methods for direct and ceded business and are based on reports received from ceding companies for reinsurance assumed.

Expenses incurred in connection with acquiring new insurance business, including acquisition costs such as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

Net investment income consists of interest earned less investment related expenses. Interest is recognized on an accrual basis. Net realized capital gains (losses) are recognized on a specific identification basis when securities are sold, redeemed or otherwise disposed. Realized capital losses include write-downs for impairments considered to be other than temporary.

In addition, the Company uses the following accounting policies:

- Short-term investments include all investments whose maturities, at the time of acquisition, are greater than three months and less than one year and are stated at amortized cost, which approximates fair value.
4. Bonds not backed by other loans are generally carried at amortized cost or the lower of amortized cost or fair value depending on their NAIC designation. Bond premium or discount is amortized using the interest method.

The Company does not hold any common stocks in its portfolio.

NOTES TO FINANCIAL STATEMENTS

The Company does not hold any preferred stocks in its portfolio.

The Company recognizes other-than-temporary impairment losses on investments when the decline in fair value specific to an issuer's fundamental credit difficulties, or a non-interest related decline, is deemed to be other than temporary. There are a number of assumptions and estimates inherent in evaluating impairments specific to an issuer's fundamental credit difficulties, or non-interest related decline, and determining if they are other than temporary, including: 1) the Company's ability and intent to retain the investment for a period of time sufficient to allow for an anticipated recovery in value; 2) the recoverability of principal and interest; 3) the length of time and extent to which the fair value has been less than amortized cost for bonds or cost for unaffiliated common and preferred stocks; 4) the financial condition, near-term and long-term prospects of the issue or issuer, including relevant industry conditions and trends, and implications of rating agency actions and offering prices; and 5) the specific reasons that a security is in a significant unrealized loss position, including market conditions which could affect access to liquidity. Interest rate related impairments are deemed other than temporary when the Company has the intent to sell an investment, at the reporting date, before recovery of the cost of the investment.

5. The Company does not own any mortgage loans.
6. Mortgage-backed bonds and structured securities are stated at either amortized cost or the lower of amortized cost or market value. Premiums and discounts on mortgage-backed securities and structured securities are amortized using the retrospective method, except for interest-only mortgage-backed securities, which are amortized using the prospective method.

Loan-backed securities with evidence of deterioration of credit quality for which it is probable that the company will be unable to collect all contractually required payments receivable, are written down to the present value of expected cash flows to be received.

7. The Company has no investments in subsidiaries or controlled companies.
8. The Company has no investments in joint ventures, partnerships, or limited liability companies.
9. The Company has no derivatives.
10. The Company utilizes anticipated investment income in the calculation of premium deficiency reserves, in accordance with SSAP No. 53, Property-Casualty Contracts – Premiums. At December 31, 2014 and 2013, the Company had not established any premium deficiency reserves based on this calculation.
11. Reserves for unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported ("IBNR"). Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting reserves are continually reviewed and any adjustments are reflected in the period determined.

2. ACCOUNTING CHANGES AND CORRECTION OF ERRORS

On December 15, 2013, the NAIC issued SSAP 105, "Working Capital Finance Investments" with an effective date of January 1, 2014. This statement establishes statutory accounting principles for working capital financial investments held by reporting entities. This statement amends SSAP 20 "Non Admitted Assets" to allow working capital finance investments as admitted assets to the extent they conform to the requirements of this statement. Adoption of this pronouncement on January 1, 2014 had no material impact on the Company's statutory financial statements.

NOTES TO FINANCIAL STATEMENTS

On March 3, 2012, the NAIC finalized SSAP No. 92, “Accounting for Post-Retirement Benefits Other than Pensions (“SSAP No. 92”)), which became effective January 1, 2013. This statement applies to all postretirement benefits expected to be provided by an employer to current and former employees. This statement supersedes the guidance in SSAP No. 14, “Postretirement Plans Other than Pensions” and incorporates the guidance in Interpretation 99-26, “Offsetting Pension Assets and Liabilities” (“INT 99-26”) and Interpretation 01-16, “Measurement Date for SSAP No. 8 Actuarial Valuations” (“INT 01-16”). The guidance in SSAP No. 92 now requires the Accumulated Post-Retirement Benefit Obligation (“APBO”) for non-vested employees and for the funded status of the plan to be recognized in the employer’s statement of financial position at December 31, 2012 in accordance with the transition provisions. Previously, non-vested employees were excluded from statutory accounting. It required that any underfunded benefit obligation be recognized as a liability under SSAP No. 5R, “Liabilities, Contingencies, and Impairments of Assets”. This liability is to be reported in the first statutory financial statement after the transition date with a corresponding entry to unassigned funds. For all plans for which the APBO exceeds the fair value of assets, the employer is to recognize a liability equal to the unfunded APBO. SSAP No. 92 no longer distinguishes between the source of gains and losses. Gains and losses from experience and changes in assumptions are combined. The net gain or loss in excess of 10% of the APBO is subject to amortization. The amortization period is based on the average remaining service period of active plan participants. Adoption of this pronouncement on January 1, 2013 had no material impact on the Company’s statutory financial statements.

On March 3, 2012, the NAIC also finalized SSAP No. 102, “Accounting for Pensions”. This statement establishes financial accounting and reporting standards for an insurer that offers pension benefits to its employees. Ordinarily, such benefits are periodic pension payments to retired employees or their survivors, but they may also include benefits payable as a single lump sum and other types of benefits, such as death benefits provided through a pension plan. This statement applies to any arrangement that is similar in substance to a pension plan regardless of form or financing and plans whose existence may be implied from a well-defined, although perhaps unwritten, practice of paying post-retirement benefits. This statement supersedes the guidance in SSAP No. 89, “Accounting for Pensions, A Replacement of SSAP No. 8” and incorporates the guidance in INT 99-26, INT 01-16, Interpretation 04-03, “Clarification for Calculating the Additional Minimum Pension Liability under SSAP No. 89” and Interpretation 04-12, “Determining the Classification and Benefit Attribution Method for a Cash Balance Pension Plan”. The statement became effective on January 1, 2013 and its adoption had no material impact on the Company’s statutory financial statements.

On March 3, 2012, SSAP No. 103, “Accounting for Transfers and Servicing of Financial Assets and Extinguishment of Liabilities”, was adopted by the NAIC. This statement establishes statutory accounting principles for transfers and servicing of financial assets, including asset securitizations and securitizations of policy acquisition costs, extinguishments of liabilities, repurchase agreements, repurchase financing and reverse repurchase agreements, including dollar repurchase and dollar reverse repurchase agreements that are consistent with the Statutory Accounting Principles Statement of Concepts and Statutory Hierarchy. The statement became effective on January 1, 2013 and its adoption had no material impact on the Company’s statutory financial statements.

20. FAIR VALUE MEASUREMENTS

A. Inputs Used For Assets Measured At Fair Value

(1) Fair Value Measurements by Levels 1, 2 and 3

Level 1 - Liquid investments traded in active markets and valued based on unadjusted quoted prices. Assets in this category are preferred and common stock securities.

Level 2 - Bonds, preferred stocks, common stocks and call options which are not exchange traded. These securities are valued based upon models with observable inputs (for example, market interest rates, credit spreads, etc.). They may have been determined by independent pricing services using observable inputs.

Level 3 - Investments valued based upon models with “significant” non-observable inputs (assumptions). Such assumptions can be about loss severities, prepayment speed, interest rate volatilities, earnings forecast, comparable sales, etc.

The Company does not have any assets that are measured at fair value as of December 31, 2014.

(2) Rollforward of Level 3

None.

(3) Policy on Transfers In and Out of Level 3

At the end of each reporting period, the Company evaluates whether or not any event has occurred or circumstances have changed that would cause an investment to be transferred in or out of Level 3.

(4) Inputs and Techniques Used for Level 2 and Level 3 Fair Values

Bonds carried at fair value categorized as Level 2 were valued using a market approach. These valuations were determined to be Level 2 valuations as quoted markets prices for similar instruments in an active market were utilized. This was accomplished by the use of matrix pricing. Matrix pricing takes quoted prices of bonds with similar features that are inputs into the analysis included duration, credit quality, tax status and call and sinking fund features.

Bonds carried at fair value categorized as Level 3 were valued using unobservable inputs. These unobservable inputs reflect our own assumptions about the criteria that market participants would use in pricing these assets (including assumptions about risk). These assumptions were based on the best information available in the circumstances.

(5) Derivative fair values

None.

B. Other Fair Value Disclosures

None.

C. Fair Values for All Financial Instruments by Levels 1, 2 and 3
