NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Accounting Practices

The accompanying statutory-basis financial statements of Progressive Casualty Insurance Company (the "Company") were prepared on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance ("DOI").

The Ohio DOI requires insurance companies domiciled in the state of Ohio to prepare their statutory-basis financial statements in accordance with the National Association of Insurance Commissioners' ("NAIC") *Accounting Practices and Procedures Manual* subject to any deviations prescribed or permitted by the Ohio DOI. No deviations from NAIC statutory accounting practices ("NAIC SAP") were used in preparing these statutory-basis financial statements as illustrated in the table below:

Description	State of Domicile	2014	2013
Net income			
(1) Net income, state basis	OH	\$ 527,996,190	\$ 501,268,736
(2) Effect of state prescribed practices			
(3) Effect of state permitted practices			
(4) Net income, NAIC SAP basis (1-2-3=4)	OH	\$ 527,996,190	\$ 501,268,736
Surplus			
(5) Policyholders' surplus, state basis	OH	\$ 1,611,377,780	\$ 1,543,110,301
(6) Effect of state prescribed practices			
(7) Effect of state permitted practices			
(8) Policyholders' surplus, NAIC SAP basis (5-6-7=8)	OH	\$ 1,611,377,780	\$ 1,543,110,301

B. Use of Estimates

The Company is required to make estimates and assumptions when preparing its financial statements and accompanying notes in conformity with NAIC SAP. Actual results may differ from those estimates. Material estimates that are susceptible to significant changes in the near term include the loss and loss adjustment expense ("LAE") reserves and the Company's adjustment to realized losses for other-than-temporary impairment ("OTTI"), (see page 12, column 2, Exhibit of Capital Gains (Losses) and Note 1C).

C. Accounting Policies

Insurance premiums written are being earned into income on a pro-rata basis over the period of risk based on a daily earnings convention. Unearned premiums are established to cover the unexpired portion of premiums written. The Company offers a variety of payment plans to meet individual customer needs. Generally, insurance premiums are collected in advance of providing risk coverage, minimizing the Company's exposure to credit risk.

Acquisition costs, such as agents' commissions, premium taxes, and other policy initiation costs, are charged to operations as incurred. Advertising costs are expensed as incurred.

Other income includes finance and service charges collected on premiums receivable and finance and service charges assumed under quota-share reinsurance agreements with three of the Company's non-pooled insurance company affiliates.

Certain assets designated as "nonadmitted assets", in accordance with Statement of Statutory Accounting Principles ("SSAP") No. 4, Assets and Nonadmitted Assets, are reported on page 13, Exhibit of Nonadmitted Assets. The change in nonadmitted assets is charged directly against surplus as regards policyholders on page 4, Statement of Income, capital and surplus section.

In addition, the Company uses the following accounting policies:

Investments

- Cash and cash equivalents include bank accounts and certificates of deposit as well as short-term investments with original maturities of three months or less that are reported at amortized cost which approximates market value.
- Short-term investments include securities acquired within one year of maturity except for those with original maturities of three months or less (see cash and cash equivalents above) and are reported at amortized cost which approximates market value.
- Investment grade bond valuations are based on NAIC designations or NAIC Credit Rating Provider ("CRP") designations from the Acceptable Rating Organization ("ARO") list and are reported at amortized cost using the scientific method which closely approximates the effective interest method. Non-investment grade bond valuations are also based on NAIC designations or NAIC CRP-ARO designations and are reported at the lower of amortized cost or fair market value. Loan-backed and structured securities follow the guidance prescribed by SSAP No. 43R, Loan-backed and Structured Securities ("SSAP No. 43R"), for the determination of the bond valuation and reporting designation. The difference between the original cost and redemption value of these securities is recognized over the lives of the respective issues and included in net investment gain.
- Common stocks, other than investments in stocks of subsidiaries and affiliates, are reported at fair market values based on active market closing quotations from a regulated exchange. Changes in the fair market values of these securities are reflected directly as unrealized gains or losses in statutory surplus, net of deferred income taxes.
- Non-redeemable preferred stocks are reported at fair market values. Changes in the fair market values of these securities are reflected directly as unrealized gains or losses in statutory surplus, net of deferred income taxes. Investment grade redeemable preferred stocks are reported at amortized cost, while non-investment grade redeemable preferred stocks are reported at the lower of amortized cost or fair market value. The difference between the original cost and redemption value of the redeemable preferred securities is recognized using the scientific method, which closely approximates the effective interest method, over the lives of the respective issues and included in net investment gain.
- The fair market values reported are derived from independent and observable market input evaluations provided by reputable pricing services, independent broker/dealer bid lists, independent broker/dealer quotations, independent broker/dealer pricing services, or active market closing quotations from a regulated exchange. In very rare cases, if none of the aforementioned primary sources are available, matrix pricing using the reporting entity's own market based assumptions may be utilized. The approved methods for computation of fair market value are prescribed in Part Five of the Securities Valuation Office *Purposes and Procedures Manual*.
- The Company has no investments in mortgage loans.
- Loan-backed and structured securities are accounted for as prescribed by SSAP No. 43R. These securities are generally stated at amortized cost as determined by the estimated value of future cash flows. Prepayment assumptions for loan-backed and structured debt securities are obtained from available market data, broker/dealers, and/or internal estimates, and are consistent with current interest rate and economic trends.

NOTES TO FINANCIAL STATEMENTS

- The Company owns 100% of the common stock of Progressive Specialty Insurance Company ("Specialty"), an insurance affiliate domiciled in Ohio, Progressive Gulf Insurance Company ("Gulf"), an insurance affiliate domiciled in Ohio, and PC Investment Company, a non-insurance affiliate. These investments are reported on the equity basis as described in the *Purposes and Procedures Manual of the Securities Valuation Office* of the NAIC.
- The Company has no investments in joint ventures or limited liability companies. Investments in limited partnerships (see Note 6) are valued by using the Generally Accepted Accounting Principles equity method of accounting.
- The Company has no investments in derivatives.
- The Company may enter into repurchase agreements in which it borrows cash by providing certain underlying securities as collateral for the arrangement. The cash borrowed is invested in cash equivalents and an offsetting liability is established. The cash equivalent investment maturities and the term of the borrowing arrangement on the collateralized securities match, eliminating duration risk exposure to the Company. The Company did not have any open repurchase agreements at December 31, 2014 and December 31, 2013.
- The Company may enter into reverse repurchase commitment transactions. In these transactions, the Company loans cash to an accredited bank and receives U.S. Treasury Notes pledged as general collateral against the cash borrowed. The Company chooses to enter into these transactions as rates on general collateral are more attractive than other short-term rates available in the market. The Company's exposure to credit risk is limited, as these internally managed transactions are typically overnight arrangements. The income generated on these transactions is calculated at the then applicable general collateral rates on the value of U.S. Treasury securities received. The Company has counterparty exposure on reverse repurchase agreements in the event of a counterparty default to the extent the general collateral security's value is below the cash which was delivered to acquire the collateral. The short-term duration of the transactions (primarily overnight investing) reduces that default exposure. The Company did not have any open reverse repurchase commitment transactions at December 31, 2014. See Note 5.H.1.
- Realized gains and losses on sales of securities are computed based on the first-in, first-out method.
- The Company's management routinely monitors individual securities in its investment portfolio for pricing changes that might indicate potential impairments and performs detailed reviews of securities with unrealized losses based on predetermined guidelines to determine whether a decline in the value of a security is other-than-temporary. A review for OTTI requires making certain judgments regarding the materiality of the decline, its effect on the financial statements, the probability, extent, and timing of a valuation recovery, and the Company's ability and intent to hold the security. The scope of this review is broad and requires a forward-looking assessment of the fundamental characteristics of a security, as well as the market-related prospects of the issuer and its industry.

Management assesses valuation declines to determine the extent to which such changes are attributable to (i) fundamental factors specific to the issuer, such as financial conditions, business prospects or other factors, or (ii) market-related factors such as interest rates or equity market declines (i.e., negative returns at either a sector index level or the broader market level), or (iii) credit-related losses where the present value of cash flows expected to be collected are lower than the amortized cost basis of the security (includes only those securities covered under SSAP No. 43R). This evaluation reflects management's assessment of current conditions, as well as predictions of uncertain future events that may have a material effect on the financial statements related to security valuation.

When persuasive evidence exists that causes management to conclude that a decline in fair value is other-than-temporary, the book value of such security is written down and recognized as a realized loss. All other unrealized gains or losses are reflected in statutory surplus.

Real Estate, Electronic Data Processing Equipment, and Furniture and Fixtures

- Company occupied real estate is reported at book/adjusted carrying value, less any related encumbrances. For property held for sale and properties held for the production of income (see Schedule A, Part 1), the Company reports at the lower of book/adjusted carrying value or fair market value, less any related encumbrances. For properties intended for a unique, highly specialized purpose, such as the Company's data centers and service centers, the Company reports book/adjusted carrying value, less any related encumbrances.

For properties held for sale and properties held for the production of income, the Company engages the services of independent firms who issue summary reports indicating the properties' fair market value. The valuations are completed using various methods of valuation including the cost approach, sales comparison approach, or income approach. For occupied properties, the Company uses book/adjusted carrying value to report fair market value.

All real estate except land is depreciated over its estimated useful life using the straight-line method.

- Electronic data processing equipment and furniture and fixtures are reported at depreciated cost and are depreciated over the estimated useful lives of the assets using accelerated methods for computers and the straight-line method for furniture and fixtures. The resulting net book value of furniture and fixtures is nonadmitted. Application software is capitalized and depreciated over its estimated useful life, and the resulting net book value is nonadmitted.

Loss, Loss Adjustment Expense, and Premium Deficiency Reserves

- Loss reserves represent the estimated liability on claims reported to the Company, plus reserves for losses incurred but not yet reported ("IBNR"). These estimates are reported net of amounts recoverable from salvage and subrogation. LAE reserves represent the estimated expenses required to settle reported claims and IBNR losses. Such loss and LAE reserves could be susceptible to significant change in the near term. The Company conducts extensive reviews each month on portions of its business to help ensure that the Company is meeting its objective of always having reserves that are adequate with minimal variation. Results would differ if different assumptions were made (see Notes 25 and 33).
- The Company does anticipate investment income when evaluating the need for premium deficiency reserves. See Note 30.

Capitalization of Assets

- The Company has written capitalization policies for its various asset classes. There have been no changes to the predefined capitalization thresholds from the prior year. The Prepaid assets above a \$100,000 threshold are capitalized. Under certain circumstances, the Company may decide to establish a prepaid expense for amounts less than the threshold. Prepaid assets are nonadmitted.

Pharmaceutical Rebate Receivables

- The Company does not write medical insurance or prescription drug coverage.

NOTES TO FINANCIAL STATEMENTS**2. Accounting Changes and Corrections of Errors**

The statements of assets, liabilities and surplus, and cash flow for the year ended December 31, 2013 were revised to correctly classify \$8,548,676 of premiums and agents' balances receivable for an over settlement of the intercompany 90% quota-share reinsurance agreement with Drive New Jersey Insurance Company, an insurance affiliate domiciled in New Jersey. Previously, these items were presented as payable to affiliates, thereby understating premiums and agents' balances receivable and understating payable to affiliates and understating other cash (applied) provided and overstating premiums collected net of reinsurance on the cash flow. These revisions were not considered to be material, individually or in the aggregate, to previously issued financial statements. The revisions above resulted in differences between the December 31, 2013 audited statutory-basis financial statements and amounts reported in the statutory annual statement. These revisions had no effect on net income, surplus, or total cash flow in any period presented.

D. Loan-Backed Securities

1. The sources used to determine prepayment assumptions are derived from updated cash flows from widely utilized reputable industry sources. The Company's portfolio managers review the available cash flow data and prepayment assumptions and make adjustments based on current performance indicators on the underlying assets (e.g., delinquency rates, foreclosure rates, and default rates), credit support (via current levels of subordination), and historical credit ratings.
2. Intent to Sell or Inability to Hold Securities with a Recognized Other-Than-Temporary Impairment
Not applicable
3. The Company has not recorded an other-than-temporary impairment for loan-backed and structured debt securities during the current year.
4. As of December 31, 2014, the Company had \$3,608,734 of gross unrealized losses in the Company's loan-backed and structured debt securities. The Company currently does not intend to sell the loan-backed and structured debt securities and determined that it is more likely than not that the Company will not be required to sell these securities for the period of time necessary to recover their cost basis. If the Company's strategy was to change and these securities were determined to be other-than-temporarily impaired, the Company would recognize a write-down in accordance with the Company's stated policy.

As of December 31, 2014, the composition of fair value and gross unrealized losses on loan-backed and structured debt securities by the length of time that individual securities have been in a continuous unrealized loss position is as follows:

Description	Amount
a. Aggregate amount of unrealized losses	
1. Less than twelve months	\$ 1,273,049
2. Twelve months or longer	2,335,685
Total	\$ 3,608,734
b. Aggregate fair value of securities with unrealized losses	
1. Less than twelve months	\$ 284,993,153
2. Twelve months or longer	121,815,854
Total	\$ 406,809,007

5. Under SSAP No. 43R, the Company analyzes its structured debt securities to determine if the Company intends to sell, or if it is more likely than not that the Company will be required to sell, the security prior to recovery and, if so, the Company writes down the security to its current fair market value with the entire amount of the write-down recorded as a realized loss. To the extent that it is more likely than not that the Company will hold the debt security until recovery (which could be maturity), the Company determines if any of the decline in value is due to a credit loss (i.e., where the present value of cash flows expected to be collected is lower than the amortized cost basis of the security) and, if so, the Company recognizes that portion of the impairment as a realized loss.

E. Repurchase Agreements and/or Securities Lending Transactions

Not applicable (see Note 1.C Investments)

F. Real Estate**1. Impairment Losses**

The Company recognized impairment write-downs for its investments in real estate during the statement period. The amount of impairment recognized of \$2,483,266 (see Schedule A, Part 1, Column 12) is reflected in realized capital gains (losses) in the Company's Statement of Income. The impairment losses primarily reflect write-downs associated with various claims service centers.

NOTES TO FINANCIAL STATEMENTS**2. Sales of Real Estate**

At December 31, 2014, the Company has various property holdings classified as "Property Held for Sale" that are measured at the lower of their book/adjusted carrying value or fair market value. The properties are presently being marketed.

On January 9, 2014, the Company sold land to a third party for a reported value of \$732,550 (Schedule A, Part 3, Column 15). In accordance with SSAP 40 – Real Estate Investments, the land was classified as "Property Held for Sale," and therefore was measured at the lower of book/adjusted carrying value or fair market value less cost to sell. The Company recorded a realized net loss on the sale of \$312,634 (Schedule A, Part 3, Column 17), which is included in realized capital gains (losses) in the Company's Statement of Income.

12. Retirement Plans, Deferred Compensation, Postemployment Benefits and Compensated Absences and Other Postretirement Benefit Plans

The Company is one of three insurance companies along with several non-insurance companies in the Group that retain employees. The Company participates, but has no legal obligation or direct liability for expenses, in the following employee benefit plans:

A. Defined Benefit Plans

Not applicable

B-D. Description of Investment Policies, Fair Value of Plan Assets, Rate of Return Assumptions

TPC is responsible for postemployment benefits. See Note 12.G.

E. Defined Contribution Plans

TPC sponsors a defined contribution savings plan. See Note 12.G.

F. Multiemployer Plans

Not applicable

G. Consolidated / Holding Company Plans

TPC has a defined contribution pension plan ("401(k) Plan") which covers most employees who are United States residents and have been employed by TPC for at least 30 days. Under this plan, TPC matches up to a maximum of 6% of an employee's eligible compensation contributed to the plan. Employee and TPC matching contributions are invested, at the direction of the employee, in a number of investment options available under the plan, including various mutual funds, a self-directed brokerage option, and an employee stock ownership program within the 401(k) Plan.

TPC provides various postemployment benefits to former or inactive employees who meet eligibility requirements, and to their beneficiaries and covered dependents. Postemployment benefits include salary continuation and disability-related benefits, including workers' compensation, and, if elected, continuation of health-care benefits for specified limited periods.

TPC provides postretirement health and life insurance benefits to all employees who met requirements as to age and length of service at December 31, 1988. There are approximately 115 people who are eligible for these postretirement benefits. TPC's funding policy for these benefits is to contribute annually, to a 501(c)(9) trust, the maximum amount that can be deducted for Federal income tax purposes.

TPC's incentive compensation includes both non-equity incentive plans (cash) and equity incentive plans. Cash incentive compensation includes a cash bonus program for a limited number of senior executives and TPC's Gainsharing program for other employees; the structures of these programs are similar in nature. Equity incentive compensation plans provide for the granting of restricted stock awards and restricted stock unit awards to key members of management.

TPC's 2003 Incentive Plan has expired, and no new awards may be made under this plan; however, equity-based awards granted to key members of management prior to the plan's expiration remain outstanding. In addition, TPC also grants equity-based awards under the 2010 Equity Incentive Plan.

TPC maintains The Progressive Corporation Executive Deferred Compensation Plan, which permits eligible executives to defer receipt of some or all of their annual bonuses and all of their annual equity awards.

All legal actions relating to claims made under insurance policies are considered by the Company in establishing its loss and LAE reserves. The Company also has, on a net basis, potential exposure relating to lawsuits due to its participation in various management agreements and a 100% pooling reinsurance agreement for which it is allocated litigation expenses (see Note 26).

NOTES TO FINANCIAL STATEMENTS

The following is a discussion of potentially significant pending cases at December 31, 2014. Unless specifically noted, the Company does not consider a loss from these cases to be probable and is unable to estimate a range of loss, if any, at this time.

As of December 31, 2014, there was one putative class action lawsuit challenging the Company's use of certain automated database vendors or software to assist in the adjustment of bodily injury claims. Plaintiffs allege that these databases or software systematically undervalue the claims.

As of December 31, 2014, there were three putative statewide class action lawsuits and nine cases consolidated into multi-district proceedings alleging that the Company improperly steers automobile repair work to certain auto body repair shops and challenging the labor rates the Company pays to auto body repair shops.

As of December 31, 2014, there was a putative class action lawsuit alleging that the Company charged insureds for illusory underinsured and uninsured motorist coverage on multiple vehicle policies.

As of December 31, 2014, there was a lawsuit alleging that the Company negligently designed, manufactured and deceptively advertised a usage based device claiming that it damages a vehicle's battery to the point that the battery is non-functional or diminished in value. An agreement to settle on an individual basis was reached in 2014 and as of December 31, 2014, the settlement was still being administered.

15. Leases

A. Lessee Leasing Arrangements

1. The Company leases office facilities and equipment under various non-cancelable operating leases that expire through March 31, 2024. The Company is allocated a percentage of the Group's total rental expense based on the 100% pooling reinsurance agreement (see Note 26). In 2014 and 2013, the Company was allocated \$15,328,715 and \$15,719,419, respectively, of rental expense. Future minimum rental payments on leases held by the Company are as follows:

Year	Amount
2015	\$ 46,131,817

2019	16,399,037
Thereafter	4,422,622
Total	\$ 174,957,119

Certain rental commitments have renewal options extending through August 31, 2040. Some of these renewals are subject to adjustments in future periods.

During 2014, the Company incurred \$376,319 in fees as a result of the early termination of various property leases associated with claims handling. This expense is reflected in loss adjustment expenses incurred (see Page 4, Line 3), on the Company's Statement of Income. No liability was recorded as a result of the early terminations.

2. As of December 31, 2014, the Company has non-cancellable sublease agreements whereby the Company subleases space to outside parties. The minimum rental payments to be received are as follows:

Total	\$ 83,041

3. In August 2005, the Company sold real estate located in Austin, Texas to a third party as part of a 15-year sale-leaseback agreement. In accordance with SSAP 22 – Leases, a liability was established to record the deferred gain on the sale, which is amortized on a monthly basis over the term of the lease. As the deferred gain is amortized, the liability is reduced. At December 31, 2014, the liability remaining is \$689,066.

B. Lessor Leasing Arrangements

The Company does lease some of its owned properties to outside parties, however, these leases are not a significant part of the Company's business activities.

NOTES TO FINANCIAL STATEMENTS

20. Fair Value Measurements

A. Inputs Used for Assets and Liabilities Measured at Fair Value in the Company's Financial Statements

1. Fair Value Measurements by Levels 1, 2 and 3

The Company categorizes its financial instruments, based on the degree of subjectivity inherent in the method by which they are valued, into a fair value hierarchy of three levels, as follows:

Level 1 - Inputs are unadjusted, quoted prices in active markets for identical instruments at the measurement date (e.g., active exchange-traded equity securities).

Level 2 - Inputs (other than quoted prices included within Level 1) that are observable for the instrument either directly or indirectly. This includes: (i) quoted prices for similar instruments in active markets, (ii) quoted prices for identical or similar instruments in markets that are not active, (iii) inputs other than quoted prices that are observable for the instruments, and (iv) inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Inputs that are unobservable. Unobservable inputs reflect the Company's subjective evaluation about the assumptions market participants would use in pricing the financial instrument.

See Note 1, Investment Policies section for further information regarding methods used to determine fair market value.

The Company's management evaluated whether the market was distressed or inactive in determining the fair value of the Company's securities and reviewed certain market level inputs to evaluate whether sufficient activity, volume, and new issuances existed to create an active market. Based on this evaluation, management concluded that there was sufficient activity in determining the fair market value of the Company's securities.

The valuations classified as either Level 1 or Level 2 in the table below are priced exclusively by external sources, including: pricing vendors, dealers/market makers, and exchange-quoted prices. The Company did not have any transfers between Level 1 and Level 2. At the end of each reporting period, the Company evaluates whether or not any event has occurred or circumstances have changed that would cause an instrument to be transferred into or out of Level 3.

The following subprime disclosure and the review and procedures described within are completed at a consolidated level for all the Progressive companies. To the extent the Company had any direct subprime exposure, those securities would be listed in Note 21.F.3.

Management's review of the investment portfolio for securities with direct subprime exposure, such as Alt-A residential mortgage loan-backed bonds and home equity loan-backed bonds is performed in conjunction with the OTTI analysis and procedures (see Note 1.C). Additionally, securities that were determined to have an indirect subprime exposure were also reviewed as part of the OTTI process.

The Company's management continues to perform a detailed review of its investment portfolio, paying particular attention to the credit profile of the issuers to identify the extent to which any asset values may have been impacted by direct or indirect exposure to the subprime mortgage loan disruption, as well as broader credit and financial market events.

NOTES TO FINANCIAL STATEMENTS

For the Company's investment in Specialty, Gulf, and PC Investment Company (see Note 1C), management's review uncovered no issues related to their exposure to subprime risk or that required recognition of losses that would have a significant effect on the financial strength and surplus of the Company.

25. Changes in Incurred Losses and Loss Adjustment Expenses

Incurred losses and LAE attributable to insured events of prior accident years decreased by \$581,525 in 2014, which is less than 1% of the total prior year net unpaid losses and LAE of \$1,934,021,931. The favorable development is primarily due to passenger auto liability originally anticipated severity for accident years 2011 and prior decreasing by less than 1%, partially offset by originally anticipated severity for accident years 2012 and 2013 increasing by less than 1%. The LAE reserves developed unfavorably primarily due to unfavorable adjusting and other expense reserve development.

26. Intercompany Pooling Arrangements

The Company participates in a pooling reinsurance agreement with the property-casualty affiliates listed below (the "Agency Pool") under which 100% of the underwriting business of each member company, net of external reinsurance, is ceded to the Company, the Agency Pool manager and an Agency Pool participant. The combined premiums, losses, and expenses are then retroceded to each Agency Pool member based on pre-determined pooling percentages.

Progressive Hawaii Insurance Corp. ("Hawaii"), an insurance affiliate domiciled in Ohio and National Continental Insurance Company ("National Continental"), an insurance affiliate domiciled in New York, terminated their future participation in the Agency Pool effective November 5, 2005 and January 1, 1996, respectively. Hawaii and National Continental have zero percent retrocession participation in the Agency Pool for all policies written prior to the dates listed above.

The pooling percentages for each Agency Pool participant as of December 31, 2014 and 2013 were as follows:

Company	NAIC Code	2014 Pool %	2013 Pool %
Progressive Casualty Insurance Company (Lead)	24260	49.0%	49.0%
Progressive Northern Insurance Company	38628	12.0	12.0

Progressive Hawaii Insurance Corp.	10067	--	--
National Continental Insurance Company	10243	--	--
		100.0%	100.0%

All business written by each Agency Pool participant is subject to pooling. Business ceded by Agency Pool members to non-affiliated reinsurers prior to pooling is primarily due to state-provided reinsurance programs. The Company does not participate in any intercompany sharing of the provision for reinsurance and the write-off of uncollectible reinsurance.

33. Asbestos and Environmental Reserves
Because the Company is primarily an insurer of motor vehicles, it has limited exposure for asbestos and environmental claims. In accordance with disclosure requirements, the amounts reported for direct, assumed, and net below reflect the Company's pooled share (see Note 26) of the Agency Pool's exposure to asbestos and environmental claims. The Agency Pool's exposure arises from the Company's participation in various reinsurance pools from 1968 to 1975, which underwrote general liability insurance, the Company's aggregate stop loss reinsurance agreement with Max for various reinsurance pools from 1965 to 1975, Progressive American Insurance Company's, an insurance affiliate domiciled in Ohio and Agency Pool member, exposure from a limited number of general liability policies issued from 1972 to 1975, and the Company's aggregate stop loss reinsurance agreement with National Continental for general liability business written on or before November 25, 1985.

The Company records case and DCC reserves based on financial information received from the various external reinsurance pool managers. IBNR reserves are established based on previous experience.

6.1 What provision has this reporting entity made to protect itself from an excessive loss in the event of a catastrophe under a workers' compensation contract issued without limit of loss?

WORKERS' COMPENSATION RISKS WERE COVERED UNDER TREATY REINSURANCE CONTRACTS.

6.2 Describe the method used to estimate this reporting entity's probable maximum insurance loss, and identify the type of insured exposures comprising that probable maximum loss, the locations of concentrations of those exposures and the external resources (such as consulting firms or computer software models), if any, used in the estimation process:

THE COMPANY'S PROBABLE MAXIMUM LOSS (PML) IS ESTIMATED BY ANALYZING HISTORICAL MAJOR OCCURRENCES AND ESTIMATING FREQUENCY OF LOSS AND SEVERITY BASED ON THE POTENTIAL FORCE OF AN OCCURRENCE AND THE TOTAL NUMBER OF AUTOS AND BOATS EXPOSED. THE ESTIMATE OF THE PML WAS MADE EXCLUSIVELY BY PROGRESSIVE EMPLOYEES. THE COMPANY'S NET COMPREHENSIVE EXPOSURE IN THE CATASTROPHE PRONE STATES OF FLORIDA, LOUISIANA, TEXAS, MISSISSIPPI, ALABAMA, NEW YORK, AND CALIFORNIA IS LIMITED SINCE THE COMPANY IS A MEMBER OF A 100% POOLING REINSURANCE ARRANGEMENT WITH 11 OF ITS PROPERTY AND CASUALTY AFFILIATES. THE PRIMARY PROPERTY COVERAGE SOLD BY THE COMPANY IS COMPREHENSIVE FOR AUTOMOBILE AND INLAND MARINE FOR BOATS. THE ESTIMATE OF THE PML IS 7% OF THE SURPLUS.

6.3 What provision has this reporting entity made (such as a catastrophe reinsurance program) to protect itself from an excessive loss arising from the types and concentrations of insured exposures comprising its probable maximum property insurance loss?

THE COMPANY'S ESTIMATED PML IS 7% OF THE SURPLUS. THE COMPANY CARRIES NO EXTERNAL CATASTROPHE REINSURANCE TO COVER ITS LIMITED CATASTROPHE EXPOSURE. THE COMPANY PARTICIPATES IN A POOLING ARRANGEMENT, WHICH SPREADS THE UNDERWRITING RISK INCLUDING THE CATASTROPHE EXPOSURE AMONG ALL PARTIES TO THE POOLING AGREEMENT.

6.4 Does the reporting entity carry catastrophe reinsurance protection for at least one reinstatement, in an amount sufficient to cover its estimated probable maximum loss attributable to a single loss event or occurrence?

Yes [] No [X]

Yes [] No [X]

9.5 If yes to 9.4, explain in the Reinsurance Summary Supplemental Filing for General Interrogatory 9 (Section D) why the contract(s) is treated differently for GAAP and SAP.

9.6 The reporting entity is exempt from the Reinsurance Attestation Supplement under one or more of the following criteria:
